

# INFRASTRUCTURE INVESTMENT AND JOBS ACT GRANT MANAGEMENT

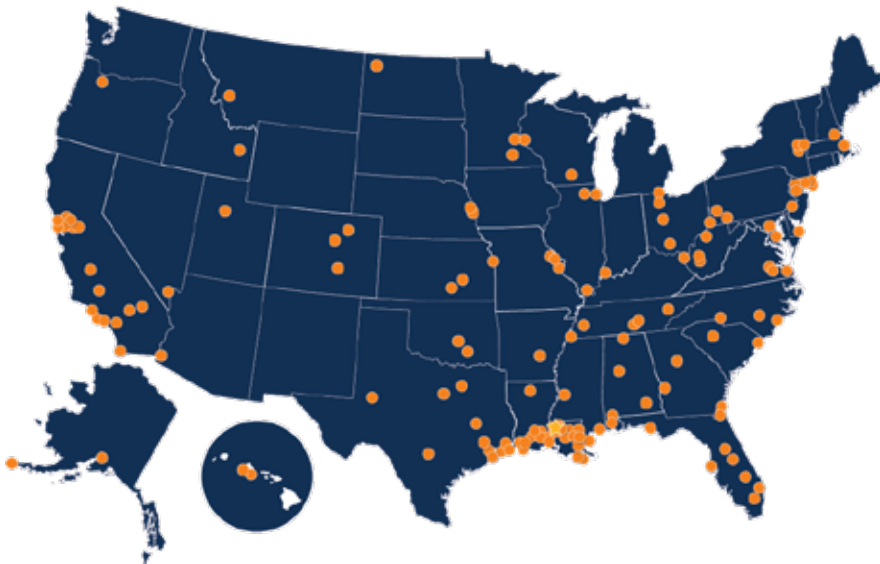

## APTIM UNDERSTANDS LEGISLATION

APTIM is at the ready to assist with navigating our clients through one of the largest infrastructure packages in U.S. history. We are committed to enhancing critical infrastructure for our natural and built environment, building the frameworks that allow for a more resilient infrastructure network, and making a vital difference in our communities.

APTIM's process allows clients to focus on available funding streams for current and future projects. Together, with our in-house funding specialists with experience in accessing grant and loan funding sources, we are well positioned to assist our clients with the funding available to them through this unprecedented Infrastructure Bill. APTIM's experts:

- ▶ Interpret mechanisms for funding
- ▶ Precisely execute capturing funding and applying to project needs
- ▶ Assist our clients with crafting resilient and sustainable communities

# GRANT MANAGEMENT

For nearly thirty years, communities across the nation have turned to the grant management professionals of APTIM. Our detailed management approach is based on:

- ▶ Mastery of the financial management associated with federal funds
- ▶ Expertise to anticipate the federal government's documentation needs
- ▶ Proactive approach in capturing multiple funding streams for our clients' priority needs
- ▶ Understanding on how to make our clients more resilient

We are confident in our ability to assist our clients with managing the various funding streams, determining funding priorities and minimizing delays when applying for funding. Our ability to assist our clients with their grant management needs includes:

## ▶ **Trusted Advisors**

Our team members bring decades of federal funding management experience providing strategic policy advisory services against potential Office of Inspector General (OIG) audits reducing the likelihood of project de-obligations.

## ▶ **Collaboration With All Stakeholders**

By working collaboratively with internal and external stakeholders, our objective is to reduce delays, avoid appeals, and maximize/prioritize funding. In addition, several of our key staff have years of prior experience working at state and city level grant management departments.

## ▶ **Metrics Are Important**

Metrics are important for monitoring, measuring, and managing programs and projects. APTIM provides performance metrics and methods of collection for your grant portfolio. Standardized metrics result in a more comprehensive analysis of needs for grant applications and allows for the ability to track, report, and proactively optimize performance of

## **APTIM GRANT MANAGEMENT EXPERIENCE**

Our team has experience with federal government agencies and their grant management processes, across a wide variety of program types including:

- ▶ American Rescue Plan
- ▶ Disaster Recovery
- ▶ Infrastructure Projects
- ▶ CARES Act – COVID-19 Recovery
- ▶ Flood mitigation
- ▶ Resiliency
- ▶ Emergency Rent Relief
- ▶ Housing Rehabilitation and Reconstruction

grant-funded projects. APTIM seamlessly collects and integrates data using best-in-class technology to enable comprehensive solutions, tracking of funds, compliance, and project performance.

## ▶ **Exceptional Grant Management Skills and Software**

APTIM offers adept and highly engaged grant management specialists, with extensive federal funding experience including specific experience addressing the economic needs of our clients. Additionally, APTIM will provide multiple customizable, interactive database application options. These applications have proven valuable in economic recovery cost tracking and financial management.

## ▶ **Dedicated Subject Matter Experts**

Our grant management team of experts have worked for federal, state, and local clients and are ready to move forward to provide our support.

By selecting APTIM, you have partnered with one of the most experienced turnkey grant management contractors in the world. You can be assured APTIM will assist your needs with the difficult task of long-term recovery by helping you assess economic advances, while maximizing the funds as well as other federal funding sources.
