

EMERGENCY MANAGEMENT SERVICES

EMERGENCY MANAGEMENT SERVICES

Each disaster is unique, but what they all have in common are the numerous and often complex challenges they present governments, businesses, and communities. APTIM provides 24/7/365 comprehensive and cost-effective emergency management and disaster recovery services to public and disaster recovery. Our focus is to provide services which help our clients by protecting the health and safety of their employees and residents as well as private and public property. Our teams help preserve the environment, restore essential services and business functions, plan for emergencies to avoid the loss of life, and support community and economic recovery.

We provide proven solutions to our client based on our 40+ years of experience in delivering emergency management and disaster recovery services. We have emergency managers and thousands of supporting subject matter experts in-house and provide these services to clients nationwide. We are known for our ability to offer comprehensive services across all phases of emergency management – preparedness, response, recovery, and mitigation. We pride ourselves is helping our clients build a culture of preparedness and resilient businesses and communities.

PREPAREDNESS

We stand ready to help your organization prepare for the next emergency or disaster. APTIM offers comprehensive emergency preparedness services that include:

- ▶ Emergency planning, training, and exercise consultation
 - Comprehensive Emergency Management Plans
 - Emergency Operations Plans
 - Incident and Function-Specific Plans
 - Emergency Action Plans
 - Continuity of Operations and Business Continuity Plans
 - Recovery Plans
 - Hazard Mitigation Plans
 - Resiliency Plans
- ▶ Exercise design and delivery utilizing the Homeland Security Exercise and Evaluation Program (HSEEP) methodology
- ▶ Training
- ▶ Risk and Vulnerability Assessments
- ▶ Program Review and Gap Analysis

RESPONSE

We are committed to assisting our clients when emergencies and disasters occur. We have responded to our client's needs for most major federally declared natural disasters since 1992, including the Northridge Earthquake, Joplin Tornado, Hurricanes Katrina, Rita, Gustav, Ike, Isaac, Sandy, Matthew, Harvey, Maria, Irma, Michael, and most recently, Laura. As a leading nationwide emergency response services provider, we offer the following assistance:

- ▶ Emergency operations center staff augmentation
