EATM PRESENTS
"THE DILF"

# EATM: DILF

Welcome to DILF, the 18th album by underground legends Eli and The Mannings (EATM). DILF is different from all of EATM's previous releases because it is possessed of its own unique energy. DILF is a movement, a state of being, a mindset. DILF is a way of life, a frozen moment representative of our collective human experience. DILF is the time, the place, the motion. DILF is the way we are feeling. DILF is a shot of whiskey poured into an innocent's ear. DILF is love without qualifiers. DILF is emotionally intelligent. DILF is the purity of free expression in an increasingly repressive world. DILF is the truth cloaked in the laughter of a child. DILF is the eye of the sparrow. DILF is an enlightenment burrito with extra guac. And if you surrender your heart to it, DILF might just bring you closer to God.
