

In the respective opinions of Bond Counsel to be delivered upon the issuance of the Series 2008A1-A4 Bonds, under existing law and assuming compliance by the City and County of Denver, Colorado (the “City”), with certain requirements of the Internal Revenue Code of 1986, as amended (the “Code”) that must be met subsequent to the issuance of the Series 2008A1-A4 Bonds, with which the City has certified, represented and covenanted its compliance, interest on the Series 2008A1-A4 Bonds is excluded from gross income for federal income tax purposes, except for any period during which such Series 2008A1-A4 Bonds are held by a person who is a “substantial user” of the Airport System or a “related person,” as those terms are used in Section 147(a) of the Code, but is an item of tax preference in calculating the federal alternative minimum tax liability of individuals, trusts, estates and corporations. Also, in the respective opinions of Bond Counsel to be delivered upon the issuance of the Series 2008A1-A4 Bonds, under existing law and to the extent interest on the Series 2008A1-A4 Bonds is excluded from gross income for federal income tax purposes, such interest is not subject to income taxation by the State of Colorado. See “TAX MATTERS” for a more detailed discussion.

CITY AND COUNTY OF DENVER, COLORADO
FOR AND ON BEHALF OF ITS DEPARTMENT OF AVIATION
AIRPORT SYSTEM REVENUE BONDS, SERIES 2008A1-4

\$221,215,000	\$111,000,000	\$181,965,000	\$94,660,000
SUBSERIES 2008A1	SUBSERIES 2008A2	SUBSERIES 2008A3	SUBSERIES 2008A4
(FIXED RATE – AMT)	(TERM RATE – AMT)	(TERM RATE – AMT)	(TERM RATE – AMT)

Dated: Date of Delivery**Due: November 15, as shown on the inside cover page**

The Series 2008A1-A4 Bonds are being issued by authority of the City’s home rule charter and ordinances adopted pursuant thereto for the purpose of current refunding, redeeming and defeasing outstanding Airport System revenue bonds, funding an increase in the amount on deposit in the Bond Reserve Fund and paying costs of issuing the Series 2008A1-A4 Bonds as described herein. Capitalized terms used on this cover page are defined herein.

The Series 2008A1-A4 Bonds will be issued in fully registered form and registered initially in the name of Cede & Co., as partnership nominee of The Depository Trust Company, New York, New York (“DTC”), the securities depository for the Series 2008A1-A4 Bonds. Beneficial Ownership Interests in the Series 2008A1-A4 Bonds, in non-certificated book-entry only form, may be purchased in denominations of \$5,000 or whole multiples thereof by or through participants in the DTC system. Beneficial Ownership Interests will be governed as to the receipt of payments, notices and other communications, transfers and various other matters with respect to the Series 2008A1-A4 Bonds by the rules and operating procedures applicable to the DTC book-entry system as described herein.

The Subseries 2008A1 Bonds will be issued as fixed rate bonds, will bear interest at the rates per annum specified on the inside cover page hereof payable on May 15, 2008, and semiannually on each May 15 and November 15 thereafter and will mature on the dates specified on the inside cover page hereof. The Subseries 2008A1 Bonds are not subject to redemption prior to maturity and may not be converted to a different Interest Rate Mode.

The Subseries 2008A2-A4 Term Rate Bonds will be issued as variable rate bonds that will bear interest initially at a Term Rate and for the Term Rate Periods specified on the inside cover page hereof. The Subseries 2008A2-A4 Term Rate Bonds will bear interest during the initial Term Rate Periods at the rates per annum specified on the inside cover page hereof payable on May 15, 2008, and semiannually on each May 15 and November 15 thereafter, and will mature on the dates specified on the inside cover page hereof, subject to tender for purchase and redemption prior to maturity as described herein. Upon expiration of the initial Term Rate Periods, each Subseries of the Subseries 2008A2-A4 Term Rate Bonds will continue to bear interest at a Term Rate for Term Rate Periods of such duration and at interest rates (except during a Delayed Remarketing Period) to be determined by the Remarketing Agent for such Subseries, until such Subseries is converted, at the election of the City and subject to certain conditions, to a different permitted Interest Rate Mode, all as described herein. The Subseries 2008A2-A4 Term Rate Bonds of a Subseries are subject to mandatory tender for purchase and remarketing on the last Interest Payment Date of each Term Rate Period for such Subseries and upon conversion of such Subseries to a different Interest Rate Mode, as described herein. *This Official Statement describes the Subseries 2008A2-A4 Term Rate Bonds only while they bear interest at a Term Rate and are not secured by a Credit Facility. If a Credit Facility is provided as security for a Subseries of the Subseries 2008A2-A4 Term Rate Bonds while bearing interest at a Term Rate, or a Subseries of the Subseries 2008A2-A4 Term Rate Bonds is converted to a different Interest Rate Mode, an offering document is expected to be prepared if needed for the remarketing of such Subseries.*

The Series 2008A1-A4 Bonds are special obligations of the City, for and on behalf of its Department of Aviation, payable solely from and secured by a pledge of the Net Revenues of the Airport System and certain Airport System funds and accounts as described herein. None of the properties of the Airport System is subject to any mortgage or other lien for the benefit of the Owners or Beneficial Owners of the Series 2008A1-A4 Bonds, and neither the full faith and credit nor the taxing power of the City is pledged to the payment of the Series 2008A1-A4 Bonds. The Series 2008A1-A4 Bonds do not constitute general obligations of the City, the State or any political subdivision or agency of the State within the meaning of any constitutional, home rule charter or statutory limitation of the City or the State.

The scheduled payment of principal of and interest on the Subseries 2008A1 Bonds maturing on November 15, 2014, and the Subseries 2008A3 Bonds (collectively, the “Insured Bonds”) when due will be guaranteed under an insurance policy to be issued concurrently with the delivery of the Insured Bonds by FINANCIAL SECURITY ASSURANCE INC.

The purchase and ownership of Beneficial Ownership Interests in the Series 2008A1-A4 Bonds involve investment risk. Prospective purchasers are urged to read this Official Statement in its entirety, giving particular attention to the matters discussed under “RISKS AND OTHER INVESTMENT CONSIDERATIONS.”

Purchasers of Beneficial Ownership Interests in the Series 2008A1-A4 Bonds will be deemed to have consented to certain proposed amendments to the City’s General Bond Ordinance as discussed herein.

The Series 2008A1-A4 Bonds are offered when, as and if issued, subject to the approval of their validity and enforceability by Hogan & Hartson LLP, Denver, Colorado, Bond Counsel, and Bookhardt & O’Toole, Denver, Colorado, Bond Counsel. Certain legal matters will be passed upon for the City by David R. Fine, Esq., City Attorney, and Peck, Shaffer & Williams LLP, Denver, Colorado, Special Counsel to the City; and for the Underwriters by Sherman & Howard L.L.C., Denver, Colorado, and Kamlet Shepherd & Reichert, LLP, Denver, Colorado. It is expected that delivery of the Series 2008A1-A4 Bonds will be made through the facilities of DTC on or about April 14, 2008.

INTRODUCTION

The Issuer

This Official Statement, which includes the cover page, prefatory information and the appendices, furnishes information in connection with the issuance and sale by the City and County of Denver, Colorado (the “City”), for and on behalf of its Department of Aviation (the “Department”), of its Airport System Revenue Bonds, Series 2008A1-A4, consisting of \$221,215,000 in aggregate principal amount of Airport System Revenue Bonds, Subseries 2008A1 (the “Subseries 2008A1 Bonds”), and \$111,000,000 in aggregate principal amount of Airport System Revenue Bonds, Subseries 2008A2 (the “Subseries 2008A2 Bonds”), \$181,965,000 in aggregate principal amount of Airport System Revenue Bonds, Subseries 2008A3 (the “Subseries 2008A3 Bonds”) and \$94,660,000 in aggregate principal amount of Airport System Revenue Bonds, Subseries 2008A4 (the “Subseries 2008A4 Bonds”). The Subseries 2008A2 Bonds, the Subseries 2008A3 Bonds and the Subseries 2008A4 Bonds are referred to herein collectively as the “Subseries 2008A2-A4 Term Rate Bonds,” and the Subseries 2008A1 Bonds and the Subseries 2008A2-A4 Term Rate Bonds are referred to herein collectively as the “Series 2008A1-A4 Bonds” and separately as a “Subseries.” Reference herein to a Subseries means the Series 2008A1-A4 Bonds of such Subseries.

Unless otherwise defined herein, capitalized terms used herein are defined in “APPENDIX C – GLOSSARY OF TERMS.”

This Official Statement contains information that was either not available or differs from that stated in the Preliminary Official Statement dated April 1, 2008, including, without limitation, the April 10, 2008, filing by Frontier Airlines Holdings Inc., Frontier Airlines Inc. and Lynx Aviation Inc. (“Frontier”) for bankruptcy protection under Chapter 11 of the U.S. Bankruptcy Code as further described under “Denver International Airport - Frontier Bankruptcy,” the aggregate principal amount of the Series 2008A1-A4 Bonds and of each Subseries of the Series 2008A1-A4 Bonds, the duration of the first Term Rate Period for each Subseries of the Subseries 2008A2-A4 Term Rate Bonds, the maturities, interest rates, offering prices, yields, CUSIP® numbers and prior redemption provisions of the Series 2008A1-A4 Bonds, the sources and anticipated uses of proceeds of the Series 2008A1-A4 Bonds, the Refunded Bonds (defined below) to be refunded by the Series 2008A1-A4 Bonds, the identity and description of the issuer of the municipal bond insurance policy in respect of the Insured Bonds (defined below), the description and specimen of such municipal bond insurance policy, the insured ratings of the Insured Bonds, the prices paid by the Underwriters for the Series 2008A1-A4 Bonds and certain other information related to or dependent upon the foregoing. Accordingly, prospective investors should read this Official Statement in its entirety.

The Airport System

The City is a political subdivision of the State of Colorado (the “State”). The Denver Municipal Airport System (the “Airport System”) is owned by the City and the power to operate, maintain and control the Airport System is vested in the Department. The City by ordinance has designated the Department as an “enterprise” within the meaning of the State constitution, with the authority to issue its own revenue bonds or other financial obligations in the name of the City. Denver International Airport (the “Airport”) is the primary asset of the Airport System.

Denver International Airport

General. The Airport is the primary air carrier airport for the Denver air service region. According to preliminary statistics compiled by Airports Council International, the Airport was ranked as the 5th busiest airport in the nation and the 11th busiest airport in the world based on total passengers in 2007. See “THE AIRPORT SYSTEM,” “DENVER INTERNATIONAL AIRPORT” and “AVIATION ACTIVITY AND AIRLINES.”

Passenger and Revenue Growth. Currently, 30 passenger airlines provide scheduled service at the Airport, including the seven largest U.S. passenger airlines, five foreign flag passenger airlines and regional/commuter airlines. In addition, several passenger charter airlines and all-cargo airlines provide service at the Airport. In 2007, the Airport served approximately 24.9 million enplaned passengers (passengers embarking on airplanes), the highest number in the history of the Airport and the former Stapleton International Airport (“Stapleton”). Approximately 57.1% of the passengers enplaned in 2007 were passengers originating their travel at the Airport and 42.9% were passengers making connecting flights at the Airport.

The Airport has generally had steady growth in both passenger traffic and revenues since it opened in 1995, however, in 2001 and 2002, the Airport, like all major airports in the United States, experienced significant declines in passenger traffic and associated revenues as a result of the terrorist events of September 11, 2001, economic conditions and other factors. Passenger traffic at the Airport began recovering in 2003, with enplaned passengers at the Airport increasing 5.2% over 2002, followed by annual increases of 12.7% in 2004, 2.6% in 2005, 9.0% in 2006 and 5.4% in 2007 compared to the previous years. Operating revenues, consisting of facility rentals, concession revenues, parking revenues, car rentals, landing fees, aviation fuel tax and other sales and charges, have also shown steady growth since the downturns in 2001 and 2002, largely as the result of increases in passenger traffic.

In 2007, the rentals, fees and charges received from airlines operating at the Airport under use and lease agreements and other agreements with the City constituted approximately 55.4% (preliminary) of the Gross Revenues of the Airport System (as defined in “APPENDIX C – GLOSSARY OF TERMS”), while non-airline revenues, including concession, car rental, parking and other revenues at the Airport, constituted approximately 44.6% (preliminary) of the Gross Revenues of the Airport System.

The cost per enplaned passenger at the Airport also improved commensurately, declining from \$15.20 in 2002 to \$11.41 in 2006. The cost per enplaned passenger for 2007 is not yet available.

Future aviation activity and enplaned passenger traffic at the Airport will depend on many local, regional, national and international factors, including, economic and political conditions, aviation security concerns, the financial health of the airline industry and individual airlines, airline service and routes, airline competition and airfares, airline mergers and alliances, availability and price of aviation and other fuel and capacity of the national air traffic control system and of the Airport.

For further information regarding passenger growth at the Airport and revenue growth of the Airport System, see generally “RISKS AND OTHER INVESTMENT CONSIDERATIONS,” “AVIATION ACTIVITY AND AIRLINES” and “FINANCIAL INFORMATION – Historical Operations – Management’s Discussion and Analysis of Financial Performance – Passenger Facility Charges.”

Major Air Carriers Operating at the Airport. The principal air carrier operating at the Airport is United Airlines (“United”), one of the largest airlines in the world. The Airport is a primary connecting hub in United’s route system both in terms of passengers and flight operations. Under a Use and Lease Agreement with the City (the “United Use and Lease Agreement”), United currently leases 43 of the existing 95 full service jet gates at the Airport, as well as the 16-gate regional jet facility on Concourse B. United, together with its Ted low-fare unit and its United Express commuter affiliates (collectively, the “United Group”), accounted for approximately 56.4% of passenger enplanements at the Airport in 2006 and approximately 53.3% of passenger enplanements at the Airport in 2007. The United Group also accounted for approximately 57.9% (preliminary) of the airline rentals, fees and charges component of the Airport System’s operating revenues in 2007.

Frontier Airlines (“Frontier”) has the second largest market share at the Airport, which serves as Frontier’s only hub. Frontier currently leases 15 full service jet gates at the Airport on Concourse A under a Use and Lease Agreement with the City, uses six additional full service jet gates on Concourse A on a preferential basis and uses one common use international gate on Concourse A on a subordinated basis. Frontier, together with its Frontier JetExpress commuter affiliate (together, the “Frontier Group”), accounted for approximately 20.7% of passenger enplanements at the Airport in 2006 and approximately 22.7% of passenger enplanements at the Airport in 2007. The Frontier Group also accounted for approximately 16.3% (preliminary) of the airline rentals, fees and charges component of the Airport System’s operating revenues in 2007. Frontier has recently expanded its hubbing operations at the Airport by introducing Lynx Aviation (“Lynx”), a new Frontier subsidiary, which is serving smaller airports in the region. Lynx commenced operations at the Airport in December 2007 with ten 74 seat capacity Bombardier Q400 turboprop aircraft. On April 10, 2008, Frontier Airlines Holding Inc., Frontier and Lynx filed for bankruptcy protection under Chapter 11 of the U.S. Bankruptcy Code as further described below under “*Frontier Bankruptcy*.”

Southwest Airlines (“Southwest”) commenced service at the Airport in January 2006. Southwest accounted for approximately 3.3% of passenger enplanements at the Airport in 2006 and approximately 5.3% of passenger enplanements at the Airport in 2007. Southwest also accounted for approximately 4.4% (preliminary) of the airline rentals, fees and charges component of the Airport System’s operating revenues in 2007.

Except for the United Group, the Frontier Group and Southwest, no single airline accounted for more than 5% of passenger enplanements at the Airport in 2006 or 2007, or more than 5% of either the airline rentals, fees and charges component of the Airport System’s operating revenues or the Airport System’s Gross Revenues in 2007.

For further information regarding the major air carriers operating at the Airport and the fare and service competition initiated by Southwest at the Airport see “RISKS AND OTHER INVESTMENT CONSIDERATIONS,” “AVIATION ACTIVITY AND AIRLINES – Airline Information – *United – Frontier – Southwest* – Aviation Activity,” “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Passenger Airlines Use and Lease Agreements – United Use and Lease Agreement,” “AIRLINE BANKRUPTCY MATTERS” and “*Frontier Bankruptcy*” below.

Frontier Bankruptcy. On April 10, 2008, Frontier Airlines Holdings Inc. and its two subsidiaries Frontier Airlines Inc. and Lynx Aviation Inc. (collectively, “Frontier”) filed for bankruptcy protection under Chapter 11 of the U.S. Bankruptcy Code (the “Bankruptcy Code”) in the United States Bankruptcy Court for the Southern District of New York (Case No. 08 11298). The Chapter 11 filing permits Frontier to continue operations while developing a plan of reorganization to address existing debt, capital and cost structures. The City makes no representations regarding the financial condition of Frontier and its future plans generally, or with regard to the Airport in particular. Investors are referred to Securities and Exchange Commission (“SEC”) filings, bankruptcy court filings and press releases made by Frontier. The SEC website is <http://www.sec.gov> and the United States Bankruptcy Court for the Southern District of New York website is <http://www.nysb.uscourts.gov>. None of the City, the Department or the Underwriters undertake any responsibility for or make any representations as to the accuracy or completeness of the content of information available from the SEC or the bankruptcy court, including, but not limited to, updates of such information or links to other internet sites accessed through the SEC or bankruptcy court web sites. No assurances can be given as to whether Frontier’s efforts to reorganize will be successful, or with regard to Frontier’s future level of activity at the Airport. In the event Frontier reduces or discontinues its operations at the Airport, for whatever reason, Frontier’s current level of activity at the Airport may not necessarily be replaced by other carriers. See also “AVIATION ACTIVITY AND AIRLINES – Airline Information – *Frontier*,” “RISKS AND OTHER INVESTMENT CONSIDERATIONS,” “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Passenger Use and Lease Agreements” and “AIRLINE BANKRUPTCY MATTERS.”

Airport Capital Program. The City has a Capital Program for the Airport System that represents the City’s current expectations of future Airport System capital needs in order to maintain, reconstruct and expand Airport facilities through 2013. These capital needs are expected to be financed with a combination of Airport System Revenue Bonds, Commercial Paper Notes, installment purchase agreements, federal grants and Airport System moneys. See “CAPITAL PROGRAM.”

The Series 2008A1-A4 Bonds

Authorization. The Series 2008A1-A4 Bonds are being issued by authority of the City’s home rule charter (the “City Charter”), the State’s Supplemental Public Securities Act and the General Bond Ordinance approved by the Denver City Council (the “City Council”) on November 29, 1984, as amended and supplemented (the “General Bond Ordinance”), and a supplemental ordinance (the “Series 2008A Supplemental Ordinance”) to be approved by the City Council prior to the delivery of the Series 2008A1-A4 Bonds. The General Bond Ordinance, the Series 2008A Supplemental Ordinance and any Supplemental Ordinances adopted by the City Council after the adoption of the Series 2008A Supplemental Ordinance are referred to herein collectively as the “Senior Bond Ordinance.” The covenants and undertakings of the City with respect to the Series 2008A1-A4 Bonds are covenants and undertakings of the City, for and on behalf of the Department. Certain amendments to the Senior Bond Ordinance have been proposed by the City which have not been adopted by the City Council (the “Proposed Amendments”). See “Consent to Proposed Amendments to the Senior Bond Ordinance” below, “THE SERIES 2008A1-A4 BONDS – Authorization – Proposed Amendments to the Senior Bond Ordinance,” “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE” and “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE.”

Purpose. The proceeds of the Series 2008A1-A4 Bonds, together with other available Airport System moneys, will be used to (1) current refund, redeem and defease all of the outstanding Airport System Subordinate Revenue Refunding Bonds, Series 2001C3 (the “Series 2001C3 Subordinate Bonds”), Airport System Subordinate Revenue Refunding Bonds, Series 2001C4 (the “Series 2001C4 Subordinate Bonds”), Airport System Revenue Refunding Bonds, Series 2002A1 (the “Series 2002A1 Bonds”), Airport System Revenue Refunding Bonds, Series 2002A2 (the “Series 2002A2 Bonds”),

Airport System Revenue Refunding Bonds, Series 2002A3 (the “Series 2002A3 Bonds”), Airport System Revenue Bonds, Series 2004A (the “Series 2004A Bonds”), Airport System Revenue Bonds, Series 2004B (the “Series 2004B Bonds”), Airport System Revenue Bonds, Series 2005B1 (the “Series 2005B1 Bonds”), and Airport System Revenue Bonds, Series 2005B2 (the “Series 2005B2 Bonds”), referred to herein collectively as the “Refunded Bonds,” (2) fund an increase in the amount on deposit in the Bond Reserve Fund (required as a consequence of refunding the Series 2001C3 Subordinate Bonds and the Series 2001C4 Subordinate Bonds with Senior Bonds), and (3) pay the costs of issuing the Series 2008A1-A4 Bonds. All of the Refunded Bonds are variable rate bonds that currently are either in an auction rate mode or a weekly rate mode and are secured by bond insurance. The City has determined to restructure all of its outstanding auction rate securities and certain of its other outstanding variable rate securities in order to eliminate the City’s exposure to the volatility in interest rates in the auction rate and variable rate markets precipitated in large part by downgrades in the ratings of bond insurers. The refunding of the Refunded Bonds constitutes one facet of this plan. See “Plan of Financing” below, “APPLICATION OF PROCEEDS” and “FINANCIAL INFORMATION – Senior Bonds – Subordinate Bonds and Other Obligations – Plan of Financing.”

The Subseries 2008A1 Bonds. The Subseries 2008A1 Bonds will be issued as fixed rate bonds in the principal amount specified on the cover page and inside cover page hereof. The Subseries 2008A1 Bonds will be dated the date of issuance thereof (the “Issue Date”) and will mature on the dates and in the amounts specified on the inside cover page hereof. The Subseries 2008A1 Bonds are not subject to redemption prior to maturity. Interest on the Subseries 2008A1 Bonds, at the rates per annum specified on the inside cover page hereof, will accrue from the Issue Date and will be payable beginning on May 15, 2008, and semiannually on each May 15 and November 15 thereafter (each an “Interest Payment Date”). See generally “THE SERIES 2008A1-A4 BONDS – The Subseries 2008A1 Bonds.”

The Subseries 2008A2-A4 Term Rate Bonds. The Subseries 2008A2-A4 Term Rate Bonds will be issued as variable rate bonds in the principal amounts specified on the cover page and inside cover page hereof. The Subseries 2008A2-A4 Term Rate Bonds will be dated the Issue Date and will mature on the dates specified on the inside cover page hereof, subject to tender for purchase and redemption prior to maturity as discussed in “THE SERIES 2008A1-A4 BONDS – The Subseries 2008A2-A4 Term Rate Bonds – *Tenders – Redemption Prior to Maturity.*”

The Subseries 2008A2-A4 Term Rate Bonds will be issued initially on a term rate basis (the “Term Rate”) at the interest rates per annum and for initial term periods (each a “Term Rate Period”) specified on the inside cover page hereof. Interest on the Subseries 2008A2-A4 Term Rate Bonds will be payable on May 15, 2008, and semiannually on each May 15 and November 15 thereafter (each an “Interest Payment Date”). Upon expiration of the initial Term Rate Periods, each Subseries of the Subseries 2008A2-A4 Term Rate Bonds will continue to bear interest at a Term Rate for Term Rate Periods having a duration and interest rate (except during a Delayed Remarketing Period as described herein) to be determined by the remarketing agent for such Subseries (the “Remarketing Agent”), until such Subseries is converted, at the election of the City and subject to certain conditions, to a different permitted interest rate mode (each an “Interest Rate Mode”). The Subseries 2008A2-A4 Term Rate Bonds of a Subseries are subject to mandatory tender for purchase and remarketing on the last Interest Payment Date of each Term Rate Period for such Subseries and upon conversion of such Subseries to a different Interest Rate Mode, as described herein. A Remarketing Agent for each Subseries of the Subseries 2008A2-A4 Term Rate Bonds is to be appointed no later than 90 days prior to the end of the initial Term Rate Period for such Subseries. See generally “THE SERIES 2008A1-A4 BONDS – The Subseries 2008A2-A4 Term Rate Bonds.”

During such time as a Subseries of the Subseries 2008A2-A4 Term Rate Bonds bears interest at a Term Rate, such Subseries is not required to be secured by a Credit Facility (as defined in “APPENDIX C – GLOSSARY OF TERMS”) to provide credit or liquidity support. However, the City has the option

under the Series 2008A Supplemental Ordinance to provide one or more Credit Facilities for such Subseries. The Subseries 2008A2-A4 Term Rate Bonds as initially issued will not be secured by a Credit Facility.

This Official Statement describes the Subseries 2008A2-A4 Term Rate Bonds only while they bear interest at a Term Rate and are not secured by a Credit Facility. If a Credit Facility is provided as security for a Subseries of the Subseries 2008A2-A4 Term Rate Bonds while bearing interest at a Term Rate, or a Subseries of the Subseries 2008A2-A4 Term Rate Bonds is converted to a different Interest Rate Mode, an offering document is expected to be prepared if needed for the remarketing of such Subseries.

Book-Entry Only System. The Series 2008A1-A4 Bonds will be issued in fully registered form and registered initially in the name of Cede & Co., as partnership nominee of The Depository Trust Company, New York, New York (“DTC”), which will serve as securities depository for the Series 2008A1-A4 Bonds. Ownership interests in the Series 2008A1-A4 Bonds (“Beneficial Ownership Interests”), in non-certificated book-entry only form, may be purchased in denominations of \$5,000 or whole multiples thereof (“Authorized Denominations”) by or through participants in the DTC system (“DTC Participants”). Such Beneficial Ownership Interests will be recorded in the name of the purchasers thereof (“Beneficial Owners”) on the books of the DTC Participants from whom they are acquired, and will be governed as to payment of principal and interest, the receipt of notices and other communications, transfers and various other matters with respect to the Series 2008A1-A4 Bonds by the rules and operating procedures applicable to the DTC book-entry system as described in “THE SERIES 2008A1-A4 BONDS – Book Entry System” and “APPENDIX F – DTC BOOK-ENTRY SYSTEM.”

Security and Sources of Payment. The Series 2008A1-A4 Bonds are special obligations of the City, for and on behalf of the Department, payable solely from and secured by a pledge of Net Revenues (as defined herein) of the Airport System and certain Airport System funds and accounts held under the Senior Bond Ordinance, on a parity with all other bonds that may be issued and outstanding from time to time under the Senior Bond Ordinance, referred to herein collectively as the “Senior Bonds.” The aggregate principal amount of Senior Bonds currently outstanding is approximately \$4.0 billion, and the aggregate principal amount of Senior Bonds expected to be outstanding upon issuance of the Series 2008A1-A4 Bonds is approximately \$4.1 billion. See “FINANCIAL INFORMATION – Senior Bonds – Outstanding Senior Bonds.” None of the properties of the Airport System are subject to any mortgage or other lien for the benefit of the registered owners (the “Owners”) or Beneficial Owners of the Series 2008A1-A4 Bonds. Neither the full faith and credit nor the taxing power of the City is pledged to the payment of the Series 2008A1-A4 Bonds. The Series 2008A1-A4 Bonds do not constitute general obligations of the City, the State or any political subdivision or agency of the State within the meaning of any constitutional, home rule charter or statutory limitation of the City or the State. See “SECURITY AND SOURCES OF PAYMENT – Pledge of Net Revenues.”

Bond Insurance. The scheduled payment of the principal of and interest on the Subseries 2008A1 Bonds maturing on November 15, 2014, and the Subseries 2008A3 Bonds (collectively, the “Insured Bonds”) when due will be guaranteed under a Municipal Bond Insurance Policy (the “Bond Insurance Policy”) to be issued by Financial Security Assurance Inc. (the “Bond Insurer” or “Financial Security”) concurrently with the delivery of the Insured Bonds. See “BOND INSURANCE” and “APPENDIX I – SPECIMEN MUNICIPAL BOND INSURANCE POLICY.” The Bond Insurer has the right to consent to amendments to the Senior Bond Ordinance affecting the Insured Bonds and the right to consent to or direct various actions under the Senior Bond Ordinance, such as the acceleration of the payment of the Insured Bonds in the event of a default.

Further Information. For further information regarding the Series 2008A1-A4 Bonds, the Bond Insurer and the Bond Insurance Policy see generally “THE SERIES 2008A1-A4 BONDS,” “BOND

INSURANCE,” “FINANCIAL INFORMATION – Senior Bonds,” “APPENDIX C – GLOSSARY OF TERMS,” “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE,” “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE” and “APPENDIX I – SPECIMEN MUNICIPAL BOND INSURANCE POLICY.”

Plan of Financing

DEPFA First Albany Securities LLC (formerly First Albany Capital Inc.) and Estrada Hinojosa & Company, Inc. (the “Financial Consultants”) have prepared the plan of financing (the “Plan of Financing”) in connection with the City’s plan to restructure all of its outstanding auction rate securities and certain of its other outstanding variable rate securities. The Plan of Financing includes the issuance of the Series 2008A1-A4 Bonds in order to current refund and defease the Refunded Bonds, the recent issuance of \$100 million of Airport System Subordinate Commercial Paper Notes, Series A (the “Tax-Exempt Commercial Paper Notes”), in order to current refund and defease all of the then outstanding Airport System Subordinate Revenue Refunding Bonds, Series 2001C1 (the “Series 2001C1 Subordinate Bonds”), and Airport System Subordinate Revenue Refunding Bonds, Series 2001C2 (the “Series 2001C2 Subordinate Bonds”), and the conversion of the Series 2007F1-F4 Bonds from an auction rate to a variable rate in accordance with the provisions of the Supplemental Ordinance relating to such Senior Bonds. See “APPLICATION OF PROCEEDS,” “FINANCIAL INFORMATION – Senior Bonds – Subordinate Bonds and Other Obligations – Plan of Financing.”

Limited Purpose of July 2007 Report of the Airport Consultant

Jacobs Consultancy Inc. serves as a consultant to the City (the “Airport Consultant”) and in such capacity prepared the Report of the Airport Consultant dated July 25, 2007 (the “July 2007 Report of the Airport Consultant” or the “July 2007 Report”) in connection with the marketing of the following series of Airport System Revenue Bonds: Series 2007A, Series 2007B, Series 2007C, Series 2007D, Series 2007D2, Series 2007E, Series 2007F1-F4 and Series 2007G1-G2 (collectively, the “Series 2007 Bonds”). The July 2007 Report has not been revised since its dated date, although certain information pertaining to the Airport and the Airport System as presented in the July 2007 Report has been updated herein, including information regarding Net Revenues and debt service coverage under “SECURITY AND SOURCES OF PAYMENT,” the Airport’s 2008-2013 Capital Program under “CAPITAL PROGRAM,” the Airport passenger traffic and revenue information under “AVIATION ACTIVITY AND AIRLINES,” information regarding the City’s agreements with passenger airlines operating at the Airport and certain other agreements under “AGREEMENTS FOR USE OF AIRPORT FACILITIES” and Airport financial information under “FINANCIAL INFORMATION,” including the caption “Plan of Financing.”

The July 2007 Report of the Airport Consultant contains certain information relating to the Airport and the Airport System which forms the basis for the assumptions underlying the forecasts presented in the July 2007 Report and supplements the information presented in this Official Statement. **THE JULY 2007 REPORT IS APPENDED TO THIS OFFICIAL STATEMENT SOLELY FOR THE PURPOSE OF PRESENTING CERTAIN HISTORICAL INFORMATION RELATING TO THE AIRPORT AND THE AIRPORT SYSTEM AND NOT FOR ANY OTHER PURPOSE.** The City believes that all material facts contained in such historical information (but not including forecasts and estimates) relating to the Airport and the Airport System in the July 2007 Report other than the section set forth on page A-47 of the July 2007 Report entitled “Economic Outlook” (the “Excluded Portion”) are true, correct and complete in all material respects, and the City is not aware of any material changes to such facts other than as described in this Official Statement.

The forecasts in the July 2007 Report and the assumptions underlying such forecasts have not been updated since the date of the July 2007 Report to reflect, among other things, the following: (1) the passenger and financial forecasts presented in the July 2007 Report and any changes in the information

used to develop the assumptions underlying such forecasts, including, without limitation, changes in the operations and finances of the Airport, the Airport's capital and financing plans, the April 10, 2008 bankruptcy filing of Frontier, the economy, fuel prices, air fares and the condition of the air transportation industry in general; (2) the actual series designations and Debt Service Requirements of the Series 2007 Bonds; and (3) the issuance of the Series 2008A1-A4 Bonds and the refunding of the Refunded Bonds. Consequently, the City makes no representations and gives no assurances herein as to any of the forecasts, estimates or the Excluded Portion in the July 2007 Report or the assumptions underlying such forecasts, and in particular as to whether there have been any material adverse changes thereto. **BECAUSE THE JULY 2007 REPORT HAS NOT BEEN UPDATED, PROSPECTIVE INVESTORS ARE ADVISED THAT THE FORECASTS, ESTIMATES AND EXCLUDED PORTION IN THE JULY 2007 REPORT SHOULD NOT BE RELIED UPON IN MAKING ANY DECISION TO PURCHASE THE SERIES 2008A1-A4 BONDS.**

See also "RISKS AND OTHER INVESTMENT CONSIDERATIONS – Forward Looking Statements – Limited Purpose of July 2007 Report of the Airport Consultant" and "FORWARD LOOKING STATEMENTS."

Consent to Proposed Amendments to the Senior Bond Ordinance

Purchasers of Beneficial Ownership Interests in the Series 2008A1-A4 Bonds will be deemed to have consented to the Proposed Amendments to the Senior Bond Ordinance proposed by the City as discussed in "THE SERIES 2008A1-A4 BONDS – Proposed Amendments to the Senior Bond Ordinance." The Proposed Amendments, which would become effective if and when a Supplemental Ordinance containing them is adopted by the City Council, are set forth in "APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE."

Continuing Disclosure

The Senior Bond Ordinance requires the City to prepare and mail to Owners of Senior Bonds requesting such information certain financial reports and an annual audit related to the Airport System prepared in accordance with U.S. generally accepted accounting principles, a copy of which is also required to be filed with certain nationally recognized municipal securities information repositories. In addition, pursuant to Rule 15c2-12 adopted by the Securities and Exchange Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time ("Rule 15c2-12"), which prohibits underwriters from purchasing or selling certain municipal securities unless the issuers of those securities agree to provide continuing disclosure information for the benefit of the owners of those securities, the City will deliver a Continuing Disclosure Undertaking in which it will agree to provide or cause to be provided annually certain additional financial information and operating data concerning the Airport System and other obligated persons and to provide notice of certain enumerated events, if determined to be material. See "CONTINUING DISCLOSURE UNDERTAKING" and "APPENDIX G – FORM OF CONTINUING DISCLOSURE UNDERTAKING" for a description of the annual information and the notices of material events to be provided and other terms of the Continuing Disclosure Undertaking.

The City has delivered continuing disclosure undertakings in connection with the issuance of various series of its outstanding Senior Bonds, and believes that it has continually complied with the requirements set forth in Rule 15c2-12 and its previous continuing disclosure undertakings, including the ongoing process of filing material event notices in connection with downgrades in the insured ratings of certain series of Senior Bonds as the result of downgrades in the ratings of the related bond insurers.

Additional Information

Brief descriptions of the Series 2008A1-A4 Bonds, the City, the Department, the Airport, the Airport System, the Senior Bond Ordinance and certain other documents are included in this Official Statement and the appendices hereto. The descriptions of the documents, statutes, reports or other instruments included herein do not purport to be comprehensive or definitive and are qualified in their entirety by reference to each such document, statute, report or other instrument. During the offering period of the Series 2008A1-A4 Bonds, a copy of the Senior Bond Ordinance may be obtained from the City and the Department.

Inquiries regarding information about the Airport System contained in this Official Statement may be directed to Stan Koniz, Deputy Manager of Aviation/Business and Technologies, at (303) 342-2200. Inquiries regarding other City financial matters contained in this Official Statement may be directed to R.O. Gibson, Director of Financial Management, Department of Revenue, at (720) 865-7116.

Investment Considerations

The purchase and ownership of Beneficial Ownership Interests in the Series 2008A1-A4 Bonds involve investment risk. Prospective purchasers are urged to read this Official Statement in its entirety, giving particular attention to the matters discussed under “RISKS AND OTHER INVESTMENT CONSIDERATIONS.”

Forward Looking Statements

This Official Statement contains statements relating to future results that are “forward looking statements” as defined in the federal Private Securities Litigation Reform Act of 1995. When used in this Official Statement, the words “estimate,” “anticipate,” “forecast,” “project,” “intend,” “propose,” “plan,” “expect,” “assume” and similar expressions identify forward looking statements. Such statements are subject to risks and uncertainties that could cause actual results to differ materially from those contemplated in such forward looking statements. See “FORWARD LOOKING STATEMENTS” and “RISKS AND OTHER INVESTMENT CONSIDERATIONS – Forward Looking Statements.”

Miscellaneous

The cover page, prefatory information and appendices to this Official Statement are integral parts hereof and must be read together with all other parts of this Official Statement.

Information contained in this Official Statement has been obtained from officers, employees and records of the City and the Department and from other sources believed to be reliable. The information herein is subject to change without notice, and neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create an implication that there has been no change in the affairs of the City, the Department or the Airport System since the date hereof. So far as any statements made in this Official Statement involve matters of opinion, forecasts, projections or estimates, whether or not expressly stated, they are set forth as such and not as representations of fact.

This Official Statement is not to be construed as a contract or agreement between the City, for and on behalf of the Department, or the Underwriters and the purchasers, Owners or Beneficial Owners of any of the Series 2008A1-A4 Bonds.

APPLICATION OF PROCEEDS

The proceeds of the Series 2008A1-A4 Bonds will be used to (1) current refund, redeem and defease the Refunded Bonds, (2) fund an increase in the amount on deposit in the Bond Reserve Fund and (3) pay the costs of issuing the Series 2008A1-A4 Bonds.

The proceeds of the Series 2008A1-A4 Bonds will be used in part to current refund, redeem and defease the Refunded Bonds, consisting of (1) all of the outstanding Series 2001C3 Subordinate Bonds and Series 2001C4 Subordinate Bonds, in the aggregate principal amount of \$100,000,000, (2) all of the outstanding Series 2002A1 Bonds, Series 2002A2 Bonds and Series 2002A3 Bonds, in the aggregate principal amount of \$267,625,000, (3) all of the outstanding Series 2004A Bonds and the Series 2004B Bonds, in the aggregate amount of \$144,000,000 and (4) all of the outstanding Series 2005B1 Bonds and Series 2005B2 Bonds, in the aggregate principal amount of \$85,275,000. All of the Refunded Bonds are variable rate bonds that currently are either in an auction rate mode or a weekly rate mode and are secured by bond insurance. The City has determined to restructure all of its outstanding auction rate securities and certain of its other outstanding variable rate securities in order to eliminate the City’s exposure to the volatility in interest rates in the auction rate and variable rate markets precipitated in large part by downgrades in the ratings of bond insurers. The refunding of the Refunded Bonds constitutes one facet of this plan. See also “FINANCIAL INFORMATION – Senior Bonds – Subordinate Bonds and Other Obligations – Plan of Financing.”

A portion of the net proceeds of the Series 2008A1-A4 Bonds will be deposited to one or more irrevocable escrow accounts (the “Escrow Accounts”) to be established pursuant to an escrow agreement to be entered into by and between the City and Zions First National Bank, Denver, Colorado, as escrow agent, and utilized, together with any earnings on such deposits, to redeem and pay the Refunded Bonds in accordance with the schedules set forth in such agreement. See “VERIFICATION OF MATHEMATICAL ACCURACY.”

A portion of the proceeds of the Series 2008A1-A4 Bonds will be used to fund an increase in the Minimum Bond Reserve required to be maintained at all times in the Bond Reserve Fund as discussed in “SECURITY AND SOURCES OF PAYMENT – Bond Reserve Fund.” The increase is required as the result of the refunding of the Series 2001C3 Subordinate Bonds and Series 2001C4 Subordinate Bonds with Senior Bonds.

The following table presents the estimated sources and uses of funds in connection with the issuance of the Series 2008A1-A4 Bonds.

Sources:	
Principal amount of Series 2008A1-A4 Bonds	\$608,840,000.00
Original issue premium	12,656,769.10
Transfers from Bond Accounts of Refunded Bonds.....	<u>2,519,978.94</u>
	<u>\$624,016,748.04</u>
Uses:	
Deposit to Escrow Accounts	\$599,419,988.94
Deposit to Bond Reserve Fund ¹	16,832,560.10
Costs of issuance ² and contingency.....	<u>7,764,199.00</u>
	<u>\$624,016,748.04</u>

¹ See “SECURITY AND SOURCES OF PAYMENT – Bond Reserve Fund.”

² Includes underwriting discount, premium for Bond Insurance Policy, professional and regulatory fees, printing costs and other costs of issuing the Series 2008A1-A4 Bonds. See also “UNDERWRITING.”

THE SERIES 2008A1-A4 BONDS

The following is a summary of certain provisions of the Series 2008A1-A4 Bonds during such time as the Series 2008A1-A4 Bonds are subject to the DTC book-entry system and the Subseries 2008A2-A4 Term Rate Bonds bear interest at a Term Rate. Reference is hereby made to the Senior Bond Ordinance in its entirety for the detailed provisions pertaining to the Series 2008A1-A4 Bonds, including provisions applicable upon discontinuance of participation in the DTC book-entry system or conversion of the Subseries 2008A2-A4 Bonds to different Interest Rate Mode. See also “APPENDIX C – GLOSSARY OF TERMS,” “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE” and “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE” for a summary of certain provisions of the Senior Bond Ordinance and the Proposed Amendments, including, without limitation, certain covenants of the City, the rights and remedies of the Owners of the Series 2008A1-A4 Bonds upon an Event of Default under the Senior Bond Ordinance, provisions relating to amendments of the Senior Bond Ordinance and procedures for defeasance of the Series 2008A1-A4 Bonds.

Authorization

Pursuant to the home rule article of the Colorado Constitution, the State’s Supplemental Public Securities Act and the City Charter, the City, for and on behalf of the Department, may issue bonds payable solely from Net Revenues to defray the cost of acquiring, improving and equipping municipal airport facilities. Such revenue bonds constitute special obligations, do not evidence a debt or indebtedness of the City, the State or any political subdivision or agency of the State within the meaning of any constitutional, charter or statutory provision or limitation and may be issued without prior voter approval.

Pursuant to the City Charter, the City by ordinance has designated the Department as an “enterprise” within the meaning of the Colorado Constitution. The Department is owned by the City, and the Manager of the Department of Aviation (the “Manager”) is the governing body of the Department. See “THE AIRPORT SYSTEM – Management.” The Department has the authority to issue its own bonds or other financial obligations in the name of the City payable solely from revenues of the Airport System, as authorized by ordinance after approval and authorization by the Manager. The assets of the Airport System are owned by the City and operated by the Department as a self-sustaining business activity. The Department is not authorized to levy any taxes in connection with the Airport System.

The Series 2008A1-A4 Bonds will be issued pursuant to the Senior Bond Ordinance and, if adopted, the Proposed Amendments. See “Proposed Amendments to the Senior Bond Ordinance” below, “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE” and “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE.”

DTC Book-Entry System

The Series 2008A1-A4 Bonds will be issued in fully registered form and registered initially in the name of Cede & Co., as nominee of DTC, which will serve as securities depository for the Series 2008A1-A4 Bonds. Beneficial Ownership Interests in the Series 2008A1-A4 Bonds, in non-certificated book-entry only form, may be purchased in Authorized Denominations by or through DTC Participants. Such Beneficial Ownership Interests will be recorded in the name of the Beneficial Owners on the books of the DTC Participants from whom they are acquired. Transfers of Beneficial Ownership Interests will be effected by entries made on the books of the DTC Participants acting on behalf of the Beneficial Owners. References herein to the Owners of the Series 2008A1-A4 Bonds mean Cede & Co. or such other nominee as may be designated by DTC, and not the Beneficial Owners. For a more detailed description of the DTC book-entry system, see “APPENDIX F – DTC BOOK-ENTRY SYSTEM.”

Principal, premium, if any, and interest payments with respect to the Series 2008A1-A4 Bonds will be made by the Paying Agent to Cede & Co., as the Owner of the Series 2008A1-A4 Bonds, for subsequent credit to the accounts of the Beneficial Owners as discussed in “APPENDIX F – DTC BOOK-ENTRY SYSTEM.”

None of the City, the Department, the Underwriters, the Paying Agent or the Registrar for the Series 2008A1-A4 Bonds (initially Zions First National Bank, Denver, Colorado) has any responsibility or obligation to any Beneficial Owner with respect to (1) the accuracy of any records maintained by DTC or any DTC Participant, (2) the distribution by DTC or any DTC Participant of any notice that is permitted or required to be given to the Owners of the 2008A1-A4 Bonds under the Senior Bond Ordinance, (3) the payment by DTC or any DTC Participant of any amount received under the Senior Bond Ordinance with respect to the Series 2008A1-A4 Bonds, (4) any consent given or other action taken by DTC or its nominee as the Owner of the Series 2008A1-A4 Bonds or (5) any other related matter.

The Subseries 2008A1 Bonds

The Subseries 2008A1 Bonds will be issued as fixed rate bonds in the aggregate principal amount and will bear interest at the rates and will mature on the dates specified on the cover page and inside cover page hereof. Interest on the Subseries 2008A1 Bonds will accrue from the Issue Date and will be payable on May 15, 2008, and semiannually on each May 15 and November 15 thereafter. The Subseries 2008A1 Bonds are not subject to redemption prior to maturity.

Principal and interest payments with respect to the Subseries 2008A1 Bonds will be payable by check or wire transfer by the Paying Agent to Cede & Co., as the Owner of the Subseries 2008A1 Bonds, for subsequent credit to the accounts of the Beneficial Owners as discussed in “APPENDIX F – DTC BOOK-ENTRY SYSTEM.”

The Subseries 2008A2-A4 Term Rate Bonds

The following is a summary of certain provisions of the Subseries 2008A2-A4 Term Rate Bonds during such time as the Subseries 2008A2-A4 Term Rate Bonds bear interest at a Term Rate and are not secured by a Credit Facility. Unless otherwise specified herein, reference in the following summary to the Subseries 2008A2-A4 Term Rate Bonds means each Subseries of the Subseries 2008A2-A4 Term Rate Bonds, and references to documents and defined terms means such documents and defined terms as they relate to each Subseries of the Subseries 2008A2-A4 Term Rate Bonds.

During such time as a Subseries of the Subseries 2008A2-A4 Term Rate Bonds bears interest at a Term Rate, such Subseries is not required to be secured by a Credit Facility to provide credit or liquidity support. However, the City has the option under the Series 2008A Supplemental Ordinance to provide one or more Credit Facilities for such Subseries. The Subseries 2008A2-A4 Term Rate Bonds as initially issued will not be secured by a Credit Facility.

This Official Statement describes the Subseries 2008A2-A4 Term Rate Bonds only while they bear interest at a Term Rate and are not secured by a Credit Facility. If a Credit Facility is provided as security for a Subseries of the Subseries 2008A2-A4 Term Rate Bonds while bearing interest at a Term Rate, or a Subseries of the Subseries 2008A2-A4 Term Rate Bonds is converted to a different Interest Rate Mode, an offering document is expected to be prepared if needed for the remarketing of such Subseries.

General Provisions. Each Series of the Subseries 2008A2-A4 Term Rate Bonds will be dated the Issue Date thereof and will be issued in the aggregate principal amounts and mature on the dates specified

on the cover page and inside cover page hereof, subject to tender for purchase and redemption prior to maturity as described below.

Term Rate Periods. The Subseries 2008A2-A4 Term Rate Bonds will bear interest initially at a Term Rate and for the Term Rate Periods specified on the inside cover page hereof. Upon expiration of the initial Term Rate Periods, each Subseries of the Subseries 2008A2-A4 Term Rate Bonds will continue to bear interest at a Term Rate for Term Rate Periods of such duration, except during a Delayed Remarketing Period as described below, to be determined by the applicable Remarketing Agent, until such Subseries is converted, at the election of the City and subject to certain conditions, to a different permitted Interest Rate Mode. See “*Tenders*” below. Each Subseries of the Subseries 2008A2-A4 Term Rate Bonds may bear interest for a different Term Rate Period, although all Subseries 2008A2-A4 Term Rate Bonds within a Subseries must bear interest for the same Term Rate Period.

The initial Term Rate Periods for the Subseries 2008A2-A4 Term Rate Bonds will commence on the Issue Date and end on the dates specified on the inside cover page hereof, to be followed by Term Rate Periods of the same duration until a Subseries is converted to another Interest Rate Mode or to a Term Rate Period of a different duration. Each Term Rate Period subsequent to the initial Term Rate Periods will end on the day preceding either the commencement date of the following Term Rate Period or the effective date of conversion to a different Interest Rate Mode and be at least 12 months in duration.

Interest. Each Subseries of the Subseries 2008A2-A4 Term Rate Bonds will bear interest for the initial Term Rate Periods at the rates per annum specified on the inside cover page hereof. The interest rates for subsequent Term Rate Periods, except during a Delayed Remarketing Period as described below, will be determined by the Remarketing Agents, with a maximum rate equal to the maximum rate allowed by law (the “Maximum Rate”).

Interest on the Subseries 2008A2-A4 Term Rate Bonds is payable on May 15, 2008, and semiannually on each May 15 and November 15 thereafter. Interest on Subseries 2008A2-A4 Term Rate Bonds having a Term Rate Period of one year or less is to be calculated on the basis of a 365 or 366-day year, as appropriate, for the actual number of days actually elapsed, and interest on Subseries 2008A2-A4 Term Rate Bonds having a Term Rate Period of more than one year is to be calculated on the basis of a 360-day year of twelve 30-day months.

The interest rate for a Subseries of the Subseries 2008A2-A4 Term Rate Bonds is to be determined by the Remarketing Agent not later than the Business Day (as defined in “APPENDIX C – GLOSSARY OF TERMS”) immediately preceding the commencement date of the Term Rate Period to which it relates, and written notice thereof is to be given by the Paying Agent to the Treasurer of the City (the “Treasurer”) by Electronic Means (as defined in “APPENDIX C – GLOSSARY OF TERMS”) and by first class mail to each Owner of the related Subseries 2008A2-A4 Term Rate Bonds promptly after such interest rate is determined.

Except during a Delayed Remarketing Period, the Term Rate for each Term Rate Period with respect to each Subseries of the Subseries 2008A2-A4 Term Rate Bonds is to be determined by the Remarketing Agent as the lesser of (i) the Maximum Rate or (ii) the minimum rate of interest that, in the judgment of such Remarketing Agent, would cause the Subseries 2008A2-A4 Term Rate Bonds of such Subseries to have a market value equal to the principal amount thereof, plus accrued interest, taking into account prevailing market conditions as of the date of determination. All determinations of interest rates by the Remarketing Agent will be conclusive and binding upon the City, the Paying Agent, the Owners and the Beneficial Owners of the related Subseries 2008A2-A4 Term Rate Bonds.

Tenders. The Subseries 2008A2-A4 Term Rate Bonds are subject to mandatory tender for purchase as follows.

Mandatory Tenders

All Subseries 2008A2-A4 Term Rate Bonds of a Subseries are required to be tendered to the Paying Agent for purchase at the end of each Term Rate Period applicable to such Subseries or upon the conversion of such Subseries to a different Interest Rate Mode. See “*Conversion to a Different Interest Rate Mode or Term Rate Period*” below. Such Subseries 2008A2-A4 Term Rate Bonds are to be purchased for a price (the “Purchase Price”) equal to 100% of the principal amount thereof plus accrued interest thereon to the purchase date. Except during a Delayed Remarketing Period, no later than 30 days prior to the date on which such Subseries 2008A2-A4 Term Rate Bonds are to be purchased, notice of the mandatory tender thereof is to be given by the Paying Agent to the Owners of such Subseries 2008A2-A4 Term Rate Bonds stating that such Subseries 2008A2-A4 Term Rate Bonds are subject to mandatory tender on the last Interest Payment Date for the current Term Rate Period, the time at which such Subseries 2008A2-A4 Term Rate Bonds are to be tendered for purchase and the address to which such Subseries 2008A2-A4 Term Rate Bonds are to be delivered.

Remarketing and Purchase

Prior to the date on which a Subseries of the Subseries 2008A2-A4 Term Rate Bonds is subject to mandatory tender for purchase, the Remarketing Agent for such Subseries is to use its best efforts to find purchasers for such Subseries 2008A2-A4 Term Rate Bonds, and if such Subseries is to remain in the Term Rate, the Remarketing Agent is to establish the subsequent Term Rate Period and Term Rate for such Subseries. The Purchase Price for tendered Subseries 2008A2-A4 Term Rate Bonds is to be paid in accordance with the procedures established by DTC. The Remarketing Agent is not required to purchase any tendered Subseries 2008A2-A4 Term Rate Bonds so remarketed. The Purchase Price of Subseries 2008A2-A4 Term Rate Bonds subject to mandatory tender is to be paid first from and to the extent of moneys derived from the remarketing of such tendered Subseries 2008A2-A4 Term Rate Bonds, and then, if necessary, from Net Revenues of the Airport System and certain funds and accounts, to the extent permitted by the Senior Bond Ordinance and the Series 2008A Supplemental Ordinance. The Remarketing Agent is not to sell any Subseries 2008A2-A4 Term Rate Bond as to which an Event of Default has occurred and is continuing or a notice of redemption, acceleration or conversion has been given unless the Remarketing Agent has advised the person to whom the sale is made of the redemption, acceleration or conversion.

Delayed Remarketing Period

If on the purchase date for a Subseries of the Subseries 2008A2-A4 Term Rate Bonds subject to mandatory tender the Paying Agent does not have sufficient moneys derived from the proceeds of the remarketing of such Subseries 2008A2-A4 Term Rate Bonds to pay the Purchase Price of all such Subseries 2008A2-A4 Term Rate Bonds by the required time, no Subseries 2008A2-A4 Term Rate Bonds of such Subseries are to be purchased on such purchase date, and the Paying Agent is to return all tendered Subseries 2008A2-A4 Term Rate Bonds of such Subseries to the Owners thereof and return all remarketing proceeds to the Remarketing Agent to be remitted to the providers thereof and return to the City any amounts paid by the City. Such Subseries 2008A2-A4 Term Rate Bonds will thereafter bear interest at the rate of 10% per annum (the “Maximum Term Rate”) for the period (the “Delayed Remarketing Period”) commencing with the applicable purchase date and ending on the date on which such Subseries 2008A2-A4 Term Rate Bonds are successfully remarketed and converted to a new Interest Rate Mode or Term Rate Period as described in the following paragraph.

On each Business Day following a failed purchase of Subseries 2008A2-A4 Term Rate Bonds as described above, the Remarketing Agent is to continue to use its best efforts to remarket such Subseries 2008A2-A4 Term Rate Bonds into such Interest Rate Mode and, if applicable, Term Rate Period designated by the Treasurer. The Remarketing Agent is to promptly advise the Treasurer of any determination by the Remarketing Agent that it can remarket all of such Subseries 2008A2-A4 Term Rate Bonds on a particular date into a designated Interest Rate Mode or Term Rate Period, and, subject to the prior written consent of the Treasurer, establish the applicable date of conversion (the "Conversion Date") to such new Interest Rate Mode or Term Rate Period. The Remarketing Agent is also to provide written notice of the Conversion Date to the Paying Agent at least three Business Days prior thereto, whereupon the Paying Agent is to promptly give notice to the Owners of such Subseries 2008A2-A4 Term Rate Bonds, by Electronic Means, of the mandatory tender thereof on the Conversion Date. Such notice is to state that the interest rate on such Subseries 2008A2-A4 Term Rate Bonds will continue to be a Term Rate or will be changed to a different Interest Rate Mode on the Conversion Date, that such Subseries 2008A2-A4 Term Rate Bonds will be subject to mandatory tender for purchase on the Conversion Date at a Purchase Price equal to 100% of the principal amount thereof plus accrued interest thereon to the purchase date, the procedures for such mandatory tender and the consequences of a failed conversion.

During the Delayed Remarketing Period, the Paying Agent may, upon direction of the Treasurer, apply any legally available moneys to the redemption of the such Subseries 2008A2-A4 Term Rate Bonds as a whole or in part on any Business Day during the Delayed Remarketing Period at a redemption price equal to 100% of the principal amount thereof plus interest accrued thereon to the date fixed for redemption, without premium.

Interest on a Subseries of the Subseries 2008A2-A4 Term Rate Bonds during a Delayed Remarketing Period is to be paid to the Owners thereof on each May 15 and November 15 occurring during the Delayed Remarketing Period and on the last day of the Delayed Remarketing Period.

Failure to Deliver Subseries 2008A2-A4 Term Rate Bonds for Purchase

Interest on any Subseries 2008A2-A4 Term Rate Bond that is not delivered to the Paying Agent on the applicable tender date will cease to accrue to the Owner thereof on the related purchase date. Such Subseries 2008A2-A4 Term Rate Bond will be deemed to have been purchased on the date fixed for the purchase thereof, and ownership of such Subseries 2008A2-A4 Term Rate Bond will be transferred to the purchaser thereof. Any Owner who fails to deliver a Subseries 2008A2-A4 Term Rate Bond for purchase on the applicable tender date will not be entitled to the benefits of the Senior Bond Ordinance except for the payment of the Purchase Price thereof upon surrender of such Subseries 2008A2-A4 Term Rate Bond from moneys held by the Paying Agent for such payment.

Redemption Prior to Maturity. The Subseries 2008A2-A4 Term Rate Bonds are subject to redemption prior to maturity as follows.

Optional Redemption

The Subseries 2008A2-A4 Term Rate Bonds are subject to redemption, at the option of the City, (1) on the Interest Payment Date immediately following the last day of each Term Rate Period, and (2) during any Delayed Remarketing Period, on any Business Day specified by the Treasurer, in each case at a redemption price equal to 100% of the principal amount thereof plus accrued interest, if any, to the redemption date.

Mandatory Sinking Fund Redemption

The Series 2008A2-A4 Term Rate Bonds are also subject to mandatory sinking fund redemption prior to maturity at a redemption price equal to 100% of the principal amount thereof, plus accrued interest, if any, to the redemption date, on November 15 in each of the years and in the principal amounts set forth in the following table:

**Mandatory Sinking Fund Redemption Schedule
Series 2008A2-A4 Term Rate Bonds**

<u>Year of Redemption</u>	<u>Principal Amount</u>		
	<u>Subseries 2008A2 Bonds</u>	<u>Subseries 2008A3 Bonds</u>	<u>Subseries 2008A4 Bonds</u>
2016	\$5,965,000	\$9,780,000	\$5,085,000
2017	6,215,000	10,185,000	5,300,000
2018	11,515,000	18,870,000	9,815,000
2019	16,900,000	27,695,000	14,410,000
2020	20,010,000	32,800,000	17,065,000
2021	21,165,000	34,690,000	18,050,000
2022	18,610,000	30,500,000	15,870,000
2023	4,290,000	7,030,000	3,660,000
2024	1,650,000	2,695,000	1,405,000
2025	585,000	965,000	500,000
2026	585,000	965,000	500,000
2027	585,000	965,000	500,000
2028	585,000	965,000	500,000
2029	585,000	965,000	500,000
2030	585,000	965,000	500,000
2031	585,000	965,000	500,000
2032	585,000	965,000	500,000

The City has the option of reducing the principal amount of Subseries 2008A2-A4 Term Rate Bonds of a Subseries to be redeemed on any mandatory sinking fund redemption date by any amount (equal to the smallest denomination then authorized pursuant to the Series 2008A Supplemental Ordinance or whole multiples of such smallest denomination) up to the principal amount of Subseries 2008A2-A4 Term Rate Bonds of such Subseries that have been redeemed prior to or will be redeemed on such redemption date under any other provision of the Series 2008A Supplemental Ordinance or which otherwise have been delivered to the Registrar for cancellation (and which have not previously been applied to reduce the principal amount of the Subseries 2008A2-A4 Term Rate Bonds of such Subseries subject to mandatory sinking fund redemption). The City may exercise such option by delivering to the Paying Agent, on or before the 45th day preceding such redemption date, a written notice stating the amount of such reduction.

Notice of Redemption

Notice of the prior redemption of any Subseries 2008A2-A4 Term Rate Bonds is to be given by or at the direction of the Treasurer in the name of the City: (1) by publication of such notice at least once, not more than 60 days nor less than 30 days prior to the redemption date in a financial newspaper published in New York, New York, as the Treasurer may determine; and (2) by sending a copy of such notice by first-class mail or by telegram, telex, telecopy, overnight delivery or other telecommunication device capable of creating a written notice, not more than 60 days nor less than 30 days prior to the redemption date to (a) the Underwriters, or any successor thereof known to the Treasurer, (b) the Paying Agent, the Registrar or any successors thereof known to the Treasurer and (c) to any Owner of any such Subseries 2008A2-A4 Term Rate Bonds at the address appearing on the registration books or records in the custody of the Registrar. If on the redemption date the Paying Agent holds sufficient moneys for the

redemption of all the Subseries 2008A2-A4 Term Rate Bonds to be redeemed at the applicable redemption price, and if notice of redemption has been duly given, then from and after the redemption date any such redeemed Subseries 2008A2-A4 Term Rate Bonds will cease to bear interest and will no longer be entitled to any benefits of the Senior Bond Ordinance except the right to receive payment of such redemption price. The actual receipt by any Owner of notice of redemption is not a condition precedent to such redemption if the notice has in fact been duly given, and failure to receive such notice will not affect the validity of the proceedings for such redemption or the cessation of interest on the redemption date. In addition, neither the failure to give such notice of redemption nor any defect therein in respect of any Subseries 2008A2-A4 Term Rate Bond will affect the validity of any proceedings for redemption of any other Subseries 2008A2-A4 Term Rate Bonds.

In addition to the notice provided above, the Treasurer is required to provide further notice of redemption, at least 15 days prior to the redemption date by registered or certified mail or overnight delivery, to DTC (or its nominee), to one or more national information services that disseminate notices of redemption of obligations similar to the Subseries 2008A2-A4 Term Rate Bonds, to any rating agency that is then maintaining a rating on the Subseries 2008A2-A4 Term Rate Bonds and to *The Bond Buyer*, but failure to give such further notice or any defect therein will not affect the validity of any proceedings for redemption if the notice described in the previous paragraph has been given.

If at the time any notice for the redemption of any Subseries 2008A2-A4 Term Rate Bonds is required to be given, moneys sufficient to redeem all of such Subseries 2008A2-A4 Term Rate Bonds have not been deposited as required, the notice is to state that redemption is conditional upon the required deposit of such moneys.

A certificate by the Treasurer that notice has been given as required by the Series 2008A Supplemental Ordinance will be conclusive against all parties, and no Owner may object thereto or may object to the cessation of interest on the redemption date on the ground that such Owner failed to actually receive the notice.

The Registrar is required to send notice of redemption of the Subseries 2008A2-A4 Term Rate Bonds only to Cede & Co. (or subsequent nominee of DTC) as the Owner thereof. Receipt of such notice initiates DTC's standard call. In the event of a partial call, the Beneficial Ownership Interests to be redeemed will be determined in accordance with the rules and procedures of the DTC book-entry system as described in "APPENDIX F – DTC BOOK-ENTRY SYSTEM." DTC Participants are responsible for notifying the Beneficial Owners of the redemption of their Beneficial Ownership Interests, and for remitting the redemption price thereof to such Beneficial Owners. Any failure by DTC or DTC Participants to notify a Beneficial Owner of any such notice of redemption and its content or effect will not affect the validity of the redemption of the Subseries 2008A2-A4 Term Rate Bonds properly called for redemption or any other action premised on that notice.

Conversion to a Different Interest Rate Mode or Term Rate Period. The City may convert either or both Subseries of the Subseries 2008A2-A4 Term Rate Bonds from a Term Rate to another permitted Interest Rate Mode, including the "Daily Rate," the "Weekly Rate," the "Monthly Rate," the "Semiannual Rate," the "Flexible Rate," the "Auction Rate" or the "Fixed Rate." The City may also elect from time to time to change the duration of the Term Rate Period with respect to a Subseries of the Subseries 2008A2-A4 Term Rate Bonds. The Subseries 2008A2-A4 Term Rate Bonds to be so converted are subject to mandatory tender for purchase as described in "*Tenders – Mandatory Tenders*" above.

Conversion to a Daily Rate, a Weekly Rate, a Monthly Rate or a Semiannual Rate is to occur on the Conversion Date required with respect to the Interest Rate Mode to which such Subseries is to be converted, and conversion to a Flexible Rate, an Auction Rate or a Fixed Rate is to occur on the last Interest Payment Date for the Term Rate Period currently in effect. However, in the event of the conversion of a Subseries that is in a Delayed Remarketing Period, the Conversion Date will be determined in the manner discussed in "*Tenders – Delayed Remarketing Period*" above.

Conversions are subject to a number of conditions as specified in the Series 2008A Supplemental Ordinance. Any conversion is also subject to the requirement that there be provided to the Paying Agent and the Remarketing Agent a Favorable Opinion of Bond Counsel to the effect that the proposed conversion will not adversely affect the validity of the applicable Subseries or any exclusion from gross income for federal income tax purposes to which interest on such Subseries would otherwise be entitled. In the event that the conditions for conversion of a Subseries of the Subseries 2008A2-A4 Term Rate Bonds are not satisfied, the new Interest Rate Mode or Term Rate Period will not take effect, and such Subseries are to be remarketed in the Term Rate Period currently in effect.

Not less than 15 days prior to the proposed Conversion Date with respect to a Subseries (30 days in the case of conversion to a Term Rate Period of a different duration or to a Fixed Rate or promptly following receipt of notice of a conversion during any Delayed Remarketing Period), the Paying Agent is to send written notice of conversion to the related Owners by first class mail. Such notice, which is to be prepared and delivered by the City to the Paying Agent, is to state: the proposed Conversion Date; the Interest Rate Mode or Term Rate Period to which the conversion is to be made; in the case of conversion to a Term Rate Period of a different duration, the duration of the new Term Rate Period; in the case of a conversion to a Semiannual Rate Period, the first Interest Payment Date following such conversion (which is to be the 15th day of the first May or November after the proposed Conversion Date) and any difference between the duration of the first Semiannual Rate Period commencing on such Conversion Date and subsequent Semiannual Rate Periods occurring prior to the next Conversion Date; that the Subseries 2008A2-A4 Term Rate Bonds to be converted will be subject to mandatory tender for purchase on the Conversion Date; the time at which such Subseries 2008A2-A4 Term Rate Bonds are to be tendered for purchase and the address to which they are to be delivered; and a description of the consequences of the failure to obtain the Favorable Opinion of Bond Counsel.

Prior to any conversion of a Subseries of the Subseries 2008A2-A4 Term Rate Bonds to an Interest Rate Mode or Term Rate Period in which interest is or may be payable for an Interest Period exceeding 30 days, there is to be delivered to the City, the Remarketing Agent and the Paying Agent written evidence from each rating agency then maintaining a rating on such Subseries that the ratings on such Subseries following the conversion will not be withdrawn or reduced below the rating category (or corresponding short term or long term rating category, if applicable) in which such Subseries were rated immediately prior to such conversion.

In addition to the foregoing, if a Remarketing Agent fails for any reason to determine or notify the Paying Agent of the Term Rate for any Term Rate Period for a Subseries of a Subseries 2008A2-A4 Term Rate Bonds when required, such Subseries will automatically, without notice or mandatory tender, convert to a Weekly Rate, with the interest rate to be the Alternate Rate as defined in “APPENDIX C – GLOSSARY OF TERMS.” However, during any Delayed Remarketing Period, such Subseries will bear interest at the Maximum Term Rate as discussed in “*Tenders – Delayed Remarketing Period*” above.

Effect of Failure to Give or Receive Notices. Except for notices by the Treasurer to the Paying Agent in connection with conversion of Subseries 2008A2-A4 Term Rate Bonds to a different Interest Rate Mode, the failure of any person to give any notice, or the failure of any Owner of any Subseries 2008A2-A4 Term Rate Bond or any other person to receive any notice, provided for in the Series 2008A Supplemental Ordinance will not affect the event to which such notice relates, nor will it result in any liability by the City, the Paying Agent or the applicable Remarketing Agent to any Owner of Subseries 2008A2-A4 Term Rate Bonds to whom such notice was to have been given.

Remarketing Agents. The Series 2008A Supplemental Ordinance provides that no later than 90 days prior to the expiration of the initial Term Rate Period for each Subseries of the Subseries 2008A2-A4 Term Rate Bonds, the City is to engage a Remarketing Agent for such Subseries and thereafter maintain a Remarketing Agent for such Subseries at all times during which such Subseries bears interest at a Term Rate. The Remarketing Agent is required to be a person or entity authorized by law to perform

all the duties imposed upon it by the Series 2008A Supplemental Ordinance, which include, among other things, determination of the interest rates, Term Rate Periods and Interest Rate Mode for the related Subseries of the Subseries 2008A2-A4 Term Rate Bonds and remarketing of tendered Subseries 2008A2-A4 Term Rate Bonds, all as described above.

Payments Due on Non-Business Days

If any payment in respect of the Series 2008A1-A4 Bonds is due on a day that is not a Business Day, such payment may be made, and will not accrue additional interest if made, on the next succeeding Business Day.

SECURITY AND SOURCES OF PAYMENT

Pledge of Net Revenues

The Series 2008A1-A4 Bonds are special obligations of the City, for and on behalf of the Department, payable solely from the Net Revenues on a parity with all other outstanding Senior Bonds. The Series 2008A1-A4 Bonds also are payable under certain circumstances from the Bond Reserve Fund as discussed in “Bond Reserve Fund” below. The City has irrevocably pledged the Net Revenues and funds on deposit in the Bond Fund, the Bond Reserve Fund and the Project Fund (which are only on deposit in the Project Fund until such funds are spent on the projects funded by the Series 2007 Bonds) to the payment of the Senior Bonds. See “CAPITAL PROGRAM.” The Series 2008A1-A4 Bonds do not constitute general obligations of the City, the State or any other political subdivision or agency of the State, and neither the full faith and credit nor the taxing power of the City is pledged to the payment of the Series 2008A1-A4 Bonds. None of the properties of the Airport System has been pledged or mortgaged to secure payment of the Series 2008A1-A4 Bonds.

“Net Revenues” is defined in the Senior Bond Ordinance to mean Gross Revenues of the Airport System remaining after the deduction of Operation and Maintenance Expenses. “Gross Revenues” generally constitutes any income and revenue lawfully derived directly or indirectly by the City from the operation and use of, or otherwise relating to, the Airport System, whether resulting from an Improvement Project or otherwise, and includes primarily the rentals, rates, fees, and other charges for the use of the Airport System, or for any service rendered by the City in the operation thereof. Gross Revenues do not include, among other things, any passenger taxes or other passenger charges, including passenger facility charges (“PFCs”), imposed for the use of the Airport System, except to the extent included as Gross Revenues by the terms of any Supplemental Ordinance. No Supplemental Ordinance has included revenue from any passenger taxes or charges, including PFCs, in the definition of Gross Revenues. “Operation and Maintenance Expenses” means, generally, all reasonable and necessary current expenses of the City, paid or accrued, of operating, maintaining and repairing the Airport System. For a further description of the application of revenues under the Senior Bond Ordinance and the complete definitions of Gross Revenues and Operation and Maintenance Expenses, see “APPENDIX C– GLOSSARY OF TERMS” and “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE.”

PFC Debt Service Account

The City has, pursuant to the Senior Bond Ordinance, created the PFC Fund within the Airport System Fund and, within the PFC Fund, the PFC Debt Service Account and the PFC Project Account. In addition, pursuant to a Supplemental Ordinance (the “PFC Supplemental Ordinance”) approved by the City Council, the City has agreed to deposit a portion of the PFC revenues (generally two-thirds of the PFC received by the City from time to time) in the PFC Debt Service Account and has irrevocably committed a maximum amount of PFCs, to the extent credited to the PFC Debt Service Account, to the payment of Debt Service Requirements on Senior Bonds through December 31, 2013, as further

discussed in “FINANCIAL INFORMATION – Passenger Facility Charges – *PFC Debt Service Account; Irrevocable Commitment of Certain PFCs.*”

Bond Insurance

The scheduled payment of principal of and interest on the Insured Bonds when due will be guaranteed under the Bond Insurance Policy to be issued by the Bond Insurer concurrently with the delivery of the Insured Bonds. See “BOND INSURANCE” and “APPENDIX I – SPECIMEN MUNICIPAL BOND INSURANCE POLICY.”

Rate Maintenance Covenant

The City has covenanted in the Senior Bond Ordinance (the “Rate Maintenance Covenant”) to fix, revise, charge and collect rentals, rates, fees and other charges for the use of the Airport System in order that in each calendar year (each a “Fiscal Year”) the Gross Revenues, together with Other Available Funds (consisting of transfers from the Capital Fund to the Revenue Fund), will be at least sufficient to provide for the payment of Operation and Maintenance Expenses and for the larger of either (1) the amounts needed for making the required cash deposits to the credit of the several subaccounts of the Bond Fund (except the Redemption Account) and to the credit of the Bond Reserve Fund, the Subordinate Bond Fund and the Operation and Maintenance Reserve Account, or (2) an amount equal to not less than 125% of the aggregate Debt Service Requirements for the Fiscal Year. See “Historical Debt Service Coverage” below and “FINANCIAL INFORMATION – Capital Fund.”

If Gross Revenues in any Fiscal Year, together with Other Available Funds, are less than the amounts specified above, upon receipt of the audit report for the Fiscal Year, the Manager is to direct the Airport Consultant to make recommendations as to the revision of the schedule of rentals, rates, fees and charges. Upon receiving these recommendations or giving reasonable opportunity for them to be made, the Manager, on the basis of the recommendations and other available information, is to revise the schedule of rentals, rates, fees and charges for the use of the Airport as may be necessary to produce the required Gross Revenues. The Senior Bond Ordinance provides that if the Manager complies with this requirement, no Event of Default under the Senior Bond Ordinance will be deemed to have occurred even though the Gross Revenues, together with Other Available Funds, are not actually sufficient to provide funds in the amount required for such Fiscal Year.

If the City anticipates that it will not be able to meet the Rate Maintenance Covenant, the City also has the option, in addition to or in lieu of the foregoing, to reduce Operation and Maintenance Expenses or Debt Service Requirements, including irrevocably committing additional amounts to pay Debt Service Requirements. Increasing rentals, rates, fees and charges for the use of the Airport or reducing Operating and Maintenance Expenses would be subject to contractual, statutory and regulatory restrictions as discussed in “RISKS AND OTHER INVESTMENT CONSIDERATIONS – Regulations and Restrictions Affecting the Airport,” and could have a detrimental impact on the operation of the Airport by making the cost of operating at the Airport less attractive to airlines, concessionaires and others in comparison to other airports, or by reducing the operating efficiency of the Airport. However, the Use and Lease Agreements that have been executed between the City and various airlines operating at the Airport (the “Signatory Airlines”) acknowledge the existence of the Rate Maintenance Covenant and require such Signatory Airlines to pay any such increased rentals, rates, fees and charges. See also “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Passenger Airlines Use and Lease Agreements” and “AIRLINE BANKRUPTCY MATTERS – Assumption or Rejection of Agreements.”

The term “Debt Service Requirements” in the Senior Bond Ordinance provides that, in any computation required by the Rate Maintenance Covenant, there is to be excluded from Debt Service Requirements amounts that have been irrevocably committed to make such payments. See “APPENDIX C – GLOSSARY OF TERMS.” As described in “PFC Debt Service Account” above, the City has irrevocably committed a portion of the moneys collected from PFCs to the payment of Debt

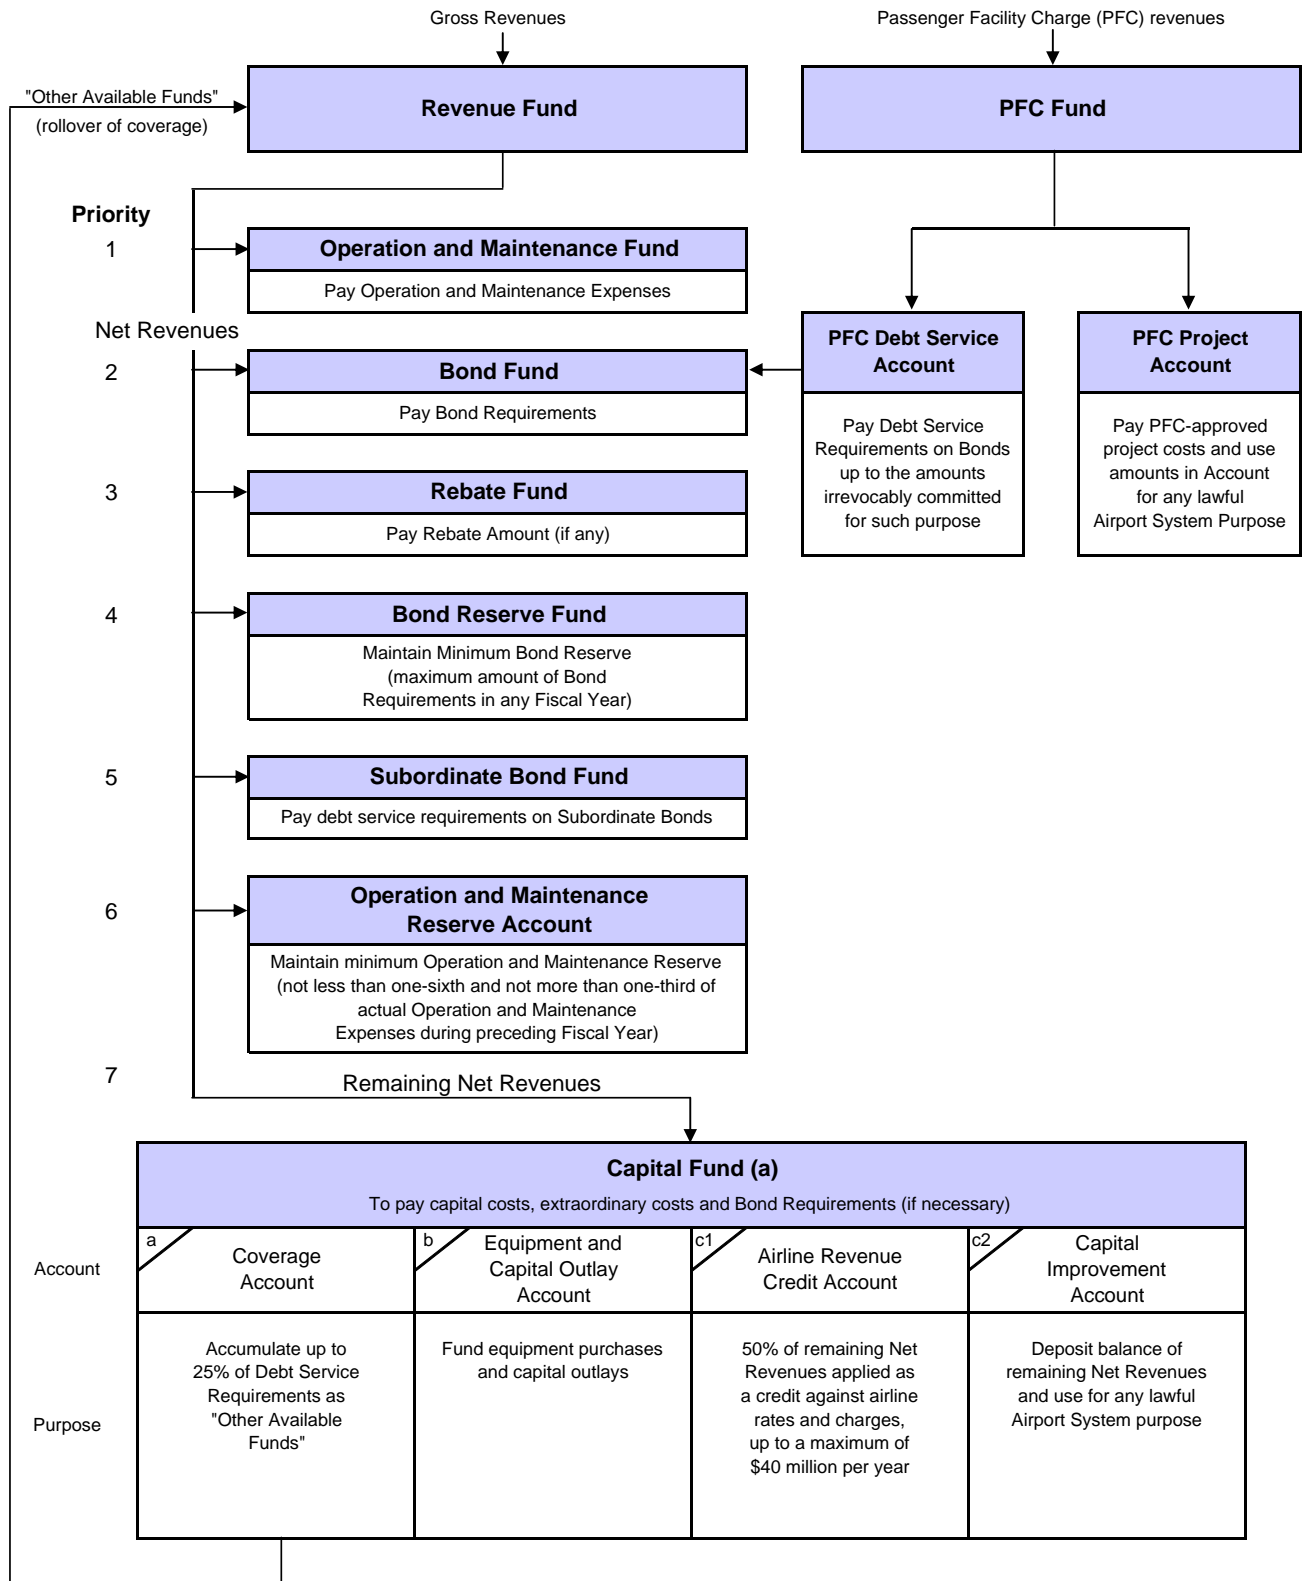

Service Requirements on the Senior Bonds through December 31, 2013. This irrevocable commitment means that for purposes of determining compliance with the Rate Maintenance Covenant, the debt service to be paid from irrevocably committed PFCs is treated as a reduction in the Debt Service Requirements of Senior Bonds in the years 2007 through 2013. See also “RISKS AND OTHER INVESTMENT CONSIDERATIONS,” “FINANCIAL INFORMATION – Senior Bonds – Passenger Facility Charges” and “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE.”

Flow of Funds

The application of Gross Revenues is governed by the provisions of the Senior Bond Ordinance, which creates a special fund designated as the “Revenue Fund” and to which the City is required to set aside all Gross Revenues upon receipt. Moneys held in the Revenue Fund are then to be applied and deposited to various other funds and accounts established pursuant to the Senior Bond Ordinance. Gross Revenues in the Revenue Fund are to be applied first to Operation and Maintenance Expenses and then to the Debt Service Requirements on the Senior Bonds. See “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE” for a complete description of the application of Gross Revenues.

The flow of funds under the Senior Bond Ordinance is illustrated on the following page.

FLOW OF FUNDS UNDER THE SENIOR BOND ORDINANCE

(a) Account structure for the Capital Fund to be established by the City as necessary for accounting purposes. The accounts are not required by the Senior Bond Ordinance.

Bond Reserve Fund

Amounts on deposit in the Bond Reserve Fund are available to pay debt service on all the Senior Bonds. Pursuant to the Senior Bond Ordinance, the City is required, after making required monthly deposits to the Interest Account, the Principal Account, the Sinking Fund Account and the Redemption Account of the Bond Fund, to credit Net Revenues to the Bond Reserve Fund in substantially equal monthly installments so as to accumulate the Minimum Bond Reserve, being the maximum annual Debt Service Requirements on outstanding Senior Bonds, within 60 months. The Proposed Amendments would amend the definition of “Minimum Bond Reserve” in certain regards. See “APPENDIX C – GLOSSARY OF TERMS” and “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE.”

Upon the issuance of the Series 2008A1-A4 Bonds, an amount at least equal to the Minimum Bond Reserve will be on deposit in the Bond Reserve Fund. The Minimum Bond Reserve with respect to any future series of Senior Bonds may, in the discretion of the City, be accumulated over a period as long as 60 months. Subject to certain limitations, any Supplemental Ordinance may provide for the deposit of a Credit Facility in the Bond Reserve Fund in full or partial satisfaction of the Minimum Bond Reserve, provided that any such Credit Facility is required to be payable on any date on which moneys are required to be withdrawn from the Bond Reserve Fund. See “APPLICATION OF PROCEEDS” and “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE – Application of Revenues.”

Additional Parity Bonds

The City may issue additional Senior Bonds under the Senior Bond Ordinance (“Additional Parity Bonds”) to pay the cost of acquiring, improving or equipping Facilities and to refund, pay and discharge any Senior Bonds, Credit Facility Obligations (as defined herein), Subordinate Bonds (being bonds or other securities or obligations relating to the Airport System payable from Net Revenues and having a lien thereon subordinate and junior to the lien thereon of Senior Bonds) or other securities or obligations. In order to issue Additional Parity Bonds, other than for a refunding of Senior Bonds, the City is required to satisfy certain requirements (the “Additional Bonds Test”), including obtaining various certificates, opinions and a report of an Airport Consultant regarding, among other things, projected compliance with the Rate Maintenance Covenant as described in “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE – Additional Parity Bonds.”

The Senior Bond Ordinance provides that Debt Service Requirements on Senior Bonds that are payable from irrevocably committed amounts are excluded from the calculation of Debt Service Requirements for determining compliance with the requirements for the issuance of Additional Parity Bonds. For purposes of the Additional Bonds Test, only Committed Passenger Facility Charges may be considered to be irrevocably committed to the payment of Debt Service Requirements on Senior Bonds. See “PFC Debt Service Account” and “Rate Maintenance Covenant” above, “Historical Debt Service Coverage” below and “FINANCIAL INFORMATION – Senior Bonds – Passenger Facility Charges.”

Since the Series 2008A1-A4 Bonds are being issued in part for the purpose of current refunding Subordinate Bonds with Senior Bonds, the Additional Bonds Test is applicable to their issuance. As a condition of issuing the Series 2008A1-A4 Bonds that are being issued to current refund the Series 2001C3 Subordinate Bonds and the Series 2001C4 Subordinate Bonds, the Airport Consultant is required to demonstrate compliance with the Additional Bonds Test by a separate letter to the City in connection with the issuance of the Series 2008A1-A4 Bonds. See “APPLICATION OF PROCEEDS” and “FINANCIAL INFORMATION – Plan of Financing.”

Subordinate Bonds and Other Subordinate Obligations

The City, for and on behalf of the Department, has issued various series of Subordinate Bonds and authorized the issuance of Subordinate Commercial Paper Notes (defined herein), and has also entered into various Subordinate Contract Obligations, Subordinate Credit Facility Obligations and Subordinate Hedge Facility Obligations (all as defined herein), that are secured by a pledge of the Net Revenues on a basis subordinate to the pledge of Net Revenues that secures the Senior Bonds. See “FINANCIAL INFORMATION – Subordinate Bonds and Other Subordinate Obligations.”

Historical Debt Service Coverage

Set forth in the following table is a calculation of Net Revenues and debt service coverage of the outstanding Senior Bonds from 2003 through 2007 (preliminary) in accordance with the Rate Maintenance Covenant discussed in “Rate Maintenance Covenant” above. No representation, warranty or other assurance is made or given that historical debt service coverage levels will be experienced in the future.

Historical Net Revenues and Debt Service Coverage of the Senior Bonds

(Amounts in thousands, except coverage ratios, and rounded)

	Fiscal Year Ended December 31				
	2003	2004	2005	2006 ⁵	2007 ⁶
Gross Revenues ¹	\$527,567	\$543,044	\$567,853	\$592,110	\$612,497
Operation and Maintenance Expenses ¹	<u>201,573</u>	<u>220,254</u>	<u>231,733</u>	<u>262,559</u>	<u>282,665</u>
Net Revenues	325,994	322,790	336,120	329,551	329,831
Other Available Funds ²	<u>50,807</u>	<u>54,849</u>	<u>55,173</u>	<u>50,791</u>	<u>52,727</u>
Total Amount Available for Debt Service	\$376,801	\$377,639	\$391,293	\$380,342	\$382,558
Debt Service Requirements for the Senior Bonds ^{3,4}	\$204,897	\$221,453	\$223,331	\$205,935	\$213,117
Debt Service Coverage ⁴	184%	171%	175%	185%	180%

¹ Gross Revenues and Operation and Maintenance Expenses in this table are determined in accordance with the definitions of such terms in the Senior Bond Ordinance, and are not directly comparable to the information provided in “FINANCIAL INFORMATION – Historical Financial Operations.” See “APPENDIX C – GLOSSARY OF TERMS.”

² Other Available Funds is defined in the Senior Bond Ordinance to mean for any Fiscal Year the amount determined by the Manager to be transferred from the Capital Fund to the Revenue Fund; but in no event is such amount to exceed 25% of the aggregate Debt Service Requirements for such Fiscal Year. See “APPENDIX C – GLOSSARY OF TERMS.”

³ Debt service is net of capitalized interest, certain PFC revenues and other available funds irrevocably committed to the payment of Debt Service Requirements, as well as the debt service on certain Senior Bonds that have been economically defeased. See “FINANCIAL INFORMATION – Senior Bonds – Outstanding Senior Bonds – Passenger Facility Charges.”

⁴ The calculation of debt service coverage appearing in the financial statements of the Airport System appended to this Official Statement is based upon the combined debt service on both Senior Bonds and Subordinate Bonds and therefore differs from the coverage of debt service on Senior Bonds only as shown in the table.

⁵ Reflects the restatement of the Fiscal Year 2006 financial statements as described in “FINANCIAL INFORMATION – Historical Financial Operations,” as well as the application of less PFC revenues than were included in the calculation of debt service coverage as presented in the July 2007 Report of the Airport Consultant.

⁶ Unaudited, preliminary and subject to change. This information is an update to the Fiscal Year 2007 coverage estimated in the July 2007 Report of the Airport Consultant.

Proposed Amendments to the Senior Bond Ordinance

Various amendments to the Senior Bond Ordinance were proposed by the City. Certain of these amendments required the consent of the registered owners of a majority in aggregate principal amount of all Senior Bonds then outstanding under the Senior Bond Ordinance. In July 2005, the City Council adopted a Supplemental Ordinance that approved several, but not all, of the amendments that had been consented to by the requisite amount of the registered owners of the Senior Bonds and those amendments

are in effect and have been incorporated in “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE.”

Certain amendments to the Senior Bond Ordinance that were proposed and consented to by the requisite amount of the registered owners of the Senior Bonds, but not adopted by the City Council, are set forth in “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE.” These Proposed Amendments may become effective only upon adoption of a Supplemental Ordinance by the City Council. The City Council is under no obligation to adopt any of these Proposed Amendments, and no representation is made herein regarding which of the Proposed Amendments, if any, may eventually be adopted. By purchase and acceptance of the Series 2008A1-A4 Bonds, the Owners and Beneficial Owners thereof are deemed to have consented to the adoption of the Proposed Amendments, either in whole or in part, substantially in the form set forth in “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE,” and to the appointment of American National Bank as their agent with irrevocable instructions to file a written consent to that effect at the time and place and in the manner provided by the Senior Bond Ordinance.

BOND INSURANCE

The following information has been furnished by Financial Security for use in this Official Statement. None of the City, the Department or the Underwriters has reviewed such information or makes any representation as to the accuracy or completeness thereof or as to the absence of material adverse changes therein.

Bond Insurance Policy

Concurrently with the issuance of the Series 2008A1-A4 Bonds, Financial Security will issue its Bond Insurance Policy for the Subseries 2008A1 Bonds maturing on November 15, 2014, and the Subseries 2008A3 Bonds, collectively defined herein as the “Insured Bonds.” The Bond Insurance Policy guarantees the scheduled payment of principal of and interest on the Insured Bonds when due as set forth in the form of the Bond Insurance Policy included as APPENDIX I to this Official Statement.

The Bond Insurance Policy is not covered by any insurance security or guaranty fund established under New York, California, Connecticut or Florida insurance law.

Financial Security Assurance Inc.

Financial Security is a New York domiciled financial guaranty insurance company and a wholly owned subsidiary of Financial Security Assurance Holdings Ltd. (“Holdings”). Holdings is an indirect subsidiary of Dexia, S.A., a publicly held Belgian corporation, and of Dexia Credit Local, a direct wholly-owned subsidiary of Dexia, S.A. Dexia, S.A., through its bank subsidiaries, is primarily engaged in the business of public finance, banking and asset management in France, Belgium and other European countries. No shareholder of Holdings or Financial Security is liable for the obligations of Financial Security.

At December 31, 2007, Financial Security's consolidated policyholders' surplus and contingency reserves were approximately \$2,703,119,716 and its total net unearned premium reserve was approximately \$2,274,576,959 in accordance with statutory accounting principles. At December 31, 2007, Financial Security's consolidated shareholder's equity was approximately \$2,962,301,379 and its total net unearned premium reserve was approximately \$1,796,984,819 in accordance with generally accepted accounting principles.

The consolidated financial statements of Financial Security included in, or as exhibits to, the annual and quarterly reports filed after December 31, 2007 by Holdings with the Securities and Exchange Commission are hereby incorporated by reference into this Official Statement. All financial statements of Financial Security included in, or as exhibits to, documents filed by Holdings pursuant to Section 13(a), 13(c), 14 or 15(d) of the Securities Exchange Act of 1934 after the date of this Official Statement and before the termination of the offering of the Insured Bonds shall be deemed incorporated by reference into this Official Statement. Copies of materials incorporated by reference will be provided upon request to Financial Security Assurance Inc.: 31 West 52nd Street, New York, New York 10019, Attention: Communications Department (telephone (212) 826-0100).

The Bond Insurance Policy does not protect investors against changes in market value of the Insured Bonds, which market value may be impaired as a result of changes in prevailing interest rates, changes in applicable ratings or other causes. Financial Security makes no representation regarding the Insured Bonds or the advisability of investing in the Insured Bonds. Financial Security makes no representation regarding the Official Statement, nor has it participated in the preparation thereof, except that Financial Security has provided to the City the information presented under this caption for inclusion in the Official Statement.

RISKS AND OTHER INVESTMENT CONSIDERATIONS

The purchase and ownership of Beneficial Ownership Interests in the Series 2008A1-A4 Bonds involve investment risk and considerations. Prospective investors are urged to read this Official Statement in its entirety. The factors set forth below, among others, may affect the security for the Series 2008A1-A4 Bonds.

Limited Description of the Subseries 2008A2-A4 Term Rate Bonds

This Official Statement describes the Subseries 2008A2-A4 Term Rate Bonds only while bearing interest at a Term Rate, not secured by a Credit Facility and subject to the DTC book-entry only system. Owners and Beneficial Owners of the Subseries 2008A2-A4 Term Rate Bonds should not rely on this Official Statement for information in connection with a Subseries of the Subseries 2008A2-A4 Term Rate Bonds that becomes secured by a Credit Facility or is converted to an Interest Rate Mode other than a Term Rate, but should look solely to the offering document that may be used in connection with any necessary remarketing.

No Credit Facility; Risk of Failed Remarketing

Except for the Insured Bonds, none of the Subseries 2008A1-A4 Bonds are secured by a Credit Facility to provide credit or liquidity support. The Bond Insurance Policy relates only to the Insured Bonds. For a further description of the Bond Insurance Policy and its issuer, Financial Security, see "BOND INSURANCE." No assurances are given as to the current or future financial condition of Financial Security. The long-term credit ratings of the Insured Bonds are based on the issuance of the Bond Insurance Policy concurrently with the issuance of the Insured Bonds. Such ratings are based solely on the general credit of Financial Security, and any downgrade in the rating of Financial Security may have a negative impact on the market price of the Insured Bonds. See "RATINGS."

The Bond Insurance Policy does not provide liquidity support with respect to the payment of the purchase price of tendered Series 2008A3 Bonds, and no Credit Facility currently is in place to provide liquidity support for any other Series 2008A2-A4 Term Rate Bonds. Thus, upon the mandatory tender of Subseries 2008A2-A4 Term Rate Bonds for purchase, the Purchase Price of such tendered Subseries 2008A2-A4 Term Rate Bonds will be payable solely, if at all, from the proceeds of the remarketing of such Subseries 2008A2-A4 Term Rate Bonds and, at the option of the City, from Net

Revenues. In the event that the Paying Agent does not have sufficient moneys to pay the Purchase Price of all Subseries 2008A2-A4 Term Rate Bonds subject to mandatory tender and purchase on such date, none of the Subseries 2008A2-A4 Term Rate Bonds are to be purchased on such purchase date, and such Subseries 2008A2-A4 Term Rate Bonds will thereafter bear interest at the Maximum Term Rate during the Delayed Remarketing Period until all such Subseries 2008A2-A4 Term Rate Bonds can be successfully remarketed. See “THE SERIES 2008A1-A4 BONDS – The Subseries 2008A2-A4 Term Rate Bonds – Tenders – Delayed Remarketing Period.”

Dependence on Continued Level of Airline Traffic and Activity

The Series 2008A1-A4 Bonds are payable solely from and secured by a pledge of the Net Revenues of the Airport System and certain Airport System funds and accounts held under the Senior Bond Ordinance. The City also has irrevocably committed a portion of its PFC revenues to the payment of Debt Service Requirements on the outstanding Senior Bonds, including the Series 2008A1-A4 Bonds, through 2013. Both Gross Revenues and PFCs are dependent primarily on the level of aviation activity and enplaned passenger traffic at the Airport. The level of aviation activity and enplaned passenger traffic at the Airport will be dependant upon many local, regional, national and international factors, including economic and political conditions, aviation security concerns and, the financial health of the airline industry and of individual airlines, airline service and routes, airline competition and airfares, airline mergers and alliances, availability and price of aviation and other fuel and capacity of the national air traffic control system and of the Airport. See “Air Travel Security Concerns” and “AVIATION ACTIVITY AND AIRLINES.”

Market Share Risk

The United Group, consisting of United, its low-fare Ted unit and its United Express commuter affiliates, is the principal air carrier operating at the Airport. United currently leases all 43 of the full service jet gates on Concourse B, constituting approximately 45.3% of the current 95 full service jet gates at the Airport, as well as the regional jet facility on the east end of Concourse B. The United Group also currently accounts for over 50% of (1) passenger enplanements at the Airport and (2) the airline rentals, fees and charges component of the Airport System’s operating revenues, and approximately 27.8% of Airport System Gross Revenues. After the United Group, the Frontier Group is the next largest air carrier operating at the Airport. In 2007 the Frontier Group accounted for (1) over 20% of passenger enplanements at the Airport, (2) approximately 16.3% (preliminary) of the airline rentals, fees and charges component of the Airport System’s operating revenues and (3) approximately 7.8% (preliminary) of the Airport System’s Gross Revenues. See “Risk of Future Airline Bankruptcies” and “Frontier Bankruptcy” below.

Except for the United Group, the Frontier Group and Southwest (which accounted for approximately 5.3% of passenger enplanements at the Airport in 2007), no single airline accounted for more than 5% of passenger enplanements at the Airport in 2006 or 2007, or more than 5% of either the airline rentals, fees and charges component of the Airport System’s operating revenues or the Airport System’s Gross Revenues in 2007. No assurances can be given with regard to the future level of activity of the United Group, the Frontier Group or Southwest at the Airport, or that, in the event that the operations of the United Group, the Frontier Group or Southwest at the Airport are reduced or discontinued, for whatever reason, such operations would be replaced by other carriers. See “INTRODUCTION – Denver International Airport – Frontier Bankruptcy,” “RISKS AND OTHER INVESTMENT CONSIDERATIONS – Risk of Future Airline Bankruptcies – Frontier Bankruptcy,” “AVIATION ACTIVITY AND AIRLINES – Aviation Activity – Airline Information – *United – Frontier – Southwest – Other Airlines*” and “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Passenger Airlines Use and Lease Agreements – United Use and Lease Agreement.”

Regulations and Restrictions Affecting the Airport

The operations of the Airport are affected by a variety of contractual, statutory and regulatory restrictions and limitations, including, without limitation, the provisions of the Use and Lease Agreements, the federal acts authorizing the imposition, collection and use of PFCs and extensive federal legislation and regulations applicable to all domestic airports. See, for example, “AVIATION ACTIVITY AND AIRLINES – Security Matters.” It is not possible to predict whether future restrictions or limitations on Airport operations will be imposed, whether future legislation or regulations will affect anticipated federal funding or PFC collections for capital projects for the Airport, whether additional requirements will be funded by the federal government or require funding by the City or whether such restrictions or legislation or regulations would adversely affect Gross Revenues. See also “AGREEMENTS FOR USE OF AIRPORT FACILITIES” and “FINANCIAL INFORMATION – Passenger Facility Charges – *Federal Grants and Other Funding.*”

Airport Use and Lease Agreements

A significant portion of Gross Revenues is derived from the Use and Lease Agreements. Pursuant to the Use and Lease Agreements, each Signatory Airline has agreed to pay the rates and charges for its use of the Airport. The United Use and Lease Agreement expires in 2025, and the other existing Use and Lease Agreements expire between 2008 and 2012, but may be terminated by the City or by a Signatory Airline, including United, under certain circumstances. No representations are made herein regarding whether additional Use and Lease Agreements will be executed or with respect to extensions or terminations thereof. See “Risk of Future Airline Bankruptcies” below and “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Passenger Airlines Use and Lease Agreements – United Use and Lease Agreement.”

Air Travel Security Concerns

Concerns about the safety of airline travel and the effectiveness of security precautions may influence passenger travel behavior and air travel demand. Anxieties about the safety of flying and the inconveniences and delays associated with security screening procedures could lead to both the avoidance of airline travel and the switching from air to surface transportation modes for short trips.

Risk of Future Airline Bankruptcies

Since 2001, several airlines with operations at the Airport, including United and Frontier, filed for bankruptcy protection, although with the exception of Midway Airlines and Vanguard Airlines, which eventually ceased operations and Frontier Airlines, which filed for bankruptcy protection on April 10, 2008 and is continuing operations, all of these airlines have reorganized and emerged from bankruptcy protection. Additional bankruptcies, liquidations or major restructurings of airlines with operations at the Airport could occur in the future; however, the City cannot predict the extent to which any such events would impact the ability of the Airport to pay the outstanding Senior Bonds, including the Series 2008A1-A4 Bonds. See “Frontier Bankruptcy” below and “AIRLINE BANKRUPTCY MATTERS” for a discussion of various impacts to the Airport of an airline bankruptcy.

Frontier Bankruptcy

On April 10, 2008, Frontier filed for bankruptcy protection under Chapter 11 of the Bankruptcy Code in the United States Bankruptcy Court for the Southern District of New York (Case No. 08 11298). The Chapter 11 filing permits Frontier to continue operations while developing a plan of reorganization to address existing debt, capital and cost structures. The City makes no representations regarding the financial condition of Frontier and its future plans generally, or with regard to the Airport in particular. Investors are referred to SEC filings, bankruptcy court filings and press releases made by Frontier. The SEC website is <http://www.sec.gov> and the United States Bankruptcy Court for the Southern District of

New York website is <http://www.nysb.uscourts.gov>. None of the City, the Department or the Underwriters undertake any responsibility for or make any representations as to the accuracy or completeness of the content of information available from the SEC or the bankruptcy court, including, but not limited to, updates of such information or links to other internet sites accessed through the SEC or bankruptcy court web sites. No assurances can be given as to whether Frontier's efforts to reorganize will be successful, or with regard to Frontier's future level of activity at the Airport. In the event Frontier reduces or discontinues its operations at the Airport, for whatever reason, Frontier's current level of activity at the Airport may not necessarily be replaced by other carriers. See also "Risk of Future Airline Bankruptcies" above, "AIRLINE BANKRUPTCY MATTERS" and "AVIATION ACTIVITY AND AIRLINES – Airline Information – *Frontier*."

Limited Purpose of the July 2007 Report of the Airline Consultant

The July 2007 Report of the Airport Consultant was prepared by the City's Airport Consultant in connection with the marketing of the Series 2007 Bonds. **THE JULY 2007 REPORT IS APPENDED TO THIS OFFICIAL STATEMENT SOLELY FOR THE PURPOSE OF PRESENTING CERTAIN HISTORICAL INFORMATION RELATING TO THE AIRPORT AND THE AIRPORT SYSTEM AND NOT FOR ANY OTHER PURPOSE.** The July 2007 Report has not been revised since its dated date, although the City believes that all material facts contained in such historical information (but not including forecasts and estimates) relating to the Airport and the Airport System in the July 2007 Report other than in the Excluded Portion are true, correct and complete in all material respects, and the City is not aware of any material changes to such facts other than as described in this Official Statement. Consequently, the City makes no representations and gives no assurances herein as to any of the forecasts, estimates or the Excluded Portion in the July 2007 Report or the assumptions underlying such forecasts, and in particular as to whether there have been any material adverse changes thereto. **BECAUSE THE JULY 2007 REPORT HAS NOT BEEN UPDATED, PROSPECTIVE INVESTORS ARE ADVISED THAT THE FORECASTS, ESTIMATES AND EXCLUDED PORTION IN THE JULY 2007 REPORT SHOULD NOT BE RELIED UPON IN MAKING ANY DECISION TO PURCHASE THE SERIES 2008A1-A4 BONDS.**

Forward Looking Statements

This Official Statement contains statements relating to future results that are "forward looking statements" as defined in the Private Securities Litigation Reform Act of 1995. When used in this Official Statement, the words "estimate," "anticipate," "forecast," "project," "intend," "propose," "plan," "expect," "assume" and similar expressions identify forward looking statements. Such statements are subject to risks and uncertainties that could cause actual results to differ materially from those contemplated in such forward looking statements. See "FORWARD LOOKING STATEMENTS."

THE AIRPORT SYSTEM

General

The Airport System is owned by the City, and the power to operate, maintain and control the Airport System is vested in the Department. The City by ordinance has designated the Department as an "enterprise" within the meaning of the Colorado Constitution, with the authority to issue its own revenue bonds or other financial obligations in the name of the City.

The primary asset of the Airport System is the Airport, which opened on February 28, 1995, and replaced Stapleton. The Airport System also includes certain land still owned by the City at the Stapleton site. See "FINANCIAL INFORMATION – Stapleton."

The Airport serves as the primary air carrier airport for the Rocky Mountain region, and according to preliminary statistics compiled by Airports Council International, the Airport was ranked as the 5th busiest airport in the nation and the 11th busiest airport in the world based on total passengers in 2007. See “AVIATION ACTIVITY AND AIRLINES.”

Management

Under the City Charter, the management, operation and control of the Airport System are delegated to the Department of Aviation under the direction of a Manager appointed by and responsible directly to the Mayor. The Manager of Finance, appointed by the Mayor, currently is the Chief Financial Officer and *ex-officio* Treasurer of the City and is responsible for the issuance of Airport System debt and for the investment of Airport System funds. At a special municipal election held on November 7, 2006, the City’s electors approved certain changes to the City Charter, which took effect January 1, 2008, that created a new Department of Finance and the position of Manager of Finance, replacing the Department of Revenue and the Manager of Revenue. The newly created Department of Finance consolidates all of the City’s financial operations in one department, including the management of the debt and financial obligations of the City.

Kim Day became Manager of the Department of Aviation in March of 2008. Ms. Day has more than 30 years of experience in the aviation industry, including seven years in the public sector. She is also a registered architect in California and Washington. Prior to joining the City, Ms Day was an aviation consultant for two years with Jacobs Consultancy Inc., the Airport Consultant. She had previously served as the Executive Director of Los Angeles World Airports (“LAWA”), which is the largest airport authority in the world and the agency that manages the four airports owned and operated by the City of Los Angeles, California, including Los Angeles International Airport, after having served as Deputy Director of Project and Facilities Development for LAWA. Prior to joining LAWA, Ms. Day worked for over 20 years as an architect, specializing in the planning and design of aviation projects.

Claude J. Pumilia was appointed the City’s Chief Financial Officer and Manager of Finance (formerly the Manager of Revenue) in April 2007. Mr. Pumilia has over 15 years of experience as a senior financial and business executive at the Fortune 100 companies of Compaq Computer Corp., Hewlett-Packard Co. and, most recently, CA Inc., where he served as senior vice president of finance. Prior to working for these companies, Mr. Pumilia served as a strategy consultant with McKinsey & Company Inc., an associate at the law firm of Baker & Botts and an associate at Anderson Consulting.

Cheryl Cohen-Vader was appointed Chief Deputy Manager of Aviation in April 2006 after having served as Manager of Revenue for the City since January 1996. Ms. Cohen-Vader has over 21 years of professional experience in commercial and investment banking. Prior to her appointment as Manager of Revenue, she served as an investment banker in the public finance divisions of Kirkpatrick Pettis Smith Polian, Inc. (now D.A. Davidson & Co.), Weldon Sullivan Carmichael & Company and Citicorp Securities. From 1977 to 1981, Ms. Cohen-Vader worked as a corporate lending officer in the international division of the Bank of New York where she specialized in trade financing. Ms. Cohen-Vader served, as one of five public members, on the Municipal Securities Rulemaking Board for a three year period that commenced October 1, 1998.

Stan Koniz, a Certified Public Accountant, became Deputy Manager of Aviation/Business and Technologies in December 2006, having served in this position in an acting capacity since February 2005. Mr. Koniz had previously served as Assistant Deputy Manager of Aviation/Finance since August 1999. Prior to joining the City, Mr. Koniz worked for the Cyprus Amax Coal Company since 1997 in the positions of Market Development Manager and Vice President Customer Alliances. From 1981 through 1997, Mr. Koniz was a senior level financial manager with Public Service Company of Colorado where he held management positions in the accounting and procurement/contract administration areas.

Patrick Heck became Manager of Aviation/Revenue Management and Business Development in October, 2007, after having served as Acting Deputy Manager of Aviation/Revenue Management and Business Development since June, 2007, and Strategic Advisor for the Airport since August, 2006. Prior to joining the City, Mr. Heck held various positions with United Airlines at the Flight Training Center in Denver, including Senior Financial Analyst, Manager of Scheduling and Director of Sales and Marketing.

Sally Covington became Deputy Manager of Aviation/Public Relations and Marketing in February 2006 after having served as Acting Deputy Manager of Aviation/Public Relations and Marketing since August 2003 and Director of Marketing and Air Service Development for the Airport. Ms. Covington has more than 21 years of experience in marketing and communications. Prior to joining the City, she was vice president of marketing for the Higher Education and Advanced Technology Center in Denver. Ms. Covington has held positions in Texas, including Dean of External Affairs for a state college, and worked in the Texas State Senate.

John Kinney, C.A.E., C.M., became Deputy Manager of Aviation/Operations in November 2006 after having served as Strategic Advisor for the Airport since September 2005. Prior to joining the City, Mr. Kinney has been actively involved in the management of airports for the past 23 years, serving in a variety of senior management functions at both commercial service and general aviation airports. Mr. Kinney was the airport director at Scottsdale Airport for 10 years after which he served the Department of Homeland Security in Chicago and throughout Montana in senior management positions as the Federal Security Director and Assistant Federal Security Director.

Ruth Rodriguez became Deputy Manager of Aviation/Maintenance and Engineering in October 2006, after having spent the prior 32 years in public and private management. Ms. Rodriguez has been a senior executive manager for local, county and federal government agencies and has worked in the private sector as an executive consultant and community development manager.

Helen Raabe, Esq., became Director of the Airport Legal Services Section of the City Attorney's Office in February 2004. As supervising attorney for the Airport, Ms. Raabe is responsible for managing the legal staff and representing the Airport in various matters related to aviation, airport finance, real estate and concessions. Ms. Raabe has been with the City and County of Denver since June of 1987, as a staff attorney for the Airport until 1999, as Deputy City Attorney from 2000 through 2003 and as head of Airport Legal Services since 2004. She was previously a trial attorney at the law firm of Coghill & Goodspeed in Denver and also served as a law clerk for the Honorable Richard P. Matsch, U.S. District Court for the District of Colorado.

DENVER INTERNATIONAL AIRPORT

The Airport site encompasses approximately 53 square miles located about 24 miles northeast of Denver's central business district. The passenger terminal complex is reached via Peña Boulevard, a 12-mile dedicated access road from Interstate 70.

Airfield

The Airport's airfield includes six runways and related aircraft parking ramps, taxiways and perimeter taxiways. Five of the Airport's runways are 12,000-feet long by 150-feet wide, and the sixth runway is 16,000-feet long by 200-feet wide, making it the longest commercial service precision-instrument runway in North America. The airfield can accommodate fully loaded jumbo jets and large airliners, including the new Airbus A-380, and can provide unrestricted global access for any airline using the Airport. Four of the Airport's runways have north/south alignments and two have east/west alignments, and are able to accommodate simultaneous parallel arrivals during poor weather conditions when instrument flight rules are in effect. The runway/taxiway lighting system, with lights embedded in

the concrete pavement to form centerlines and stopbars at intersections, also allows air traffic controllers to guide pilots and direct them through the airfield during periods of poor visibility. The airfield has substantial expansion capabilities, having been designed to accommodate up to 12 runways. See also “CAPITAL PROGRAM” for a discussion of the airfield maintenance and improvements planned for the Airport.

Airfield facilities also include a Federal Aviation Administration (“FAA”) air traffic control tower and base building structures, an airport maintenance complex, four “rapid response” aircraft rescue and firefighting stations, de-icing pads, glycol storage/distribution/collection/recycling facilities and a hydrant fueling system. See “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Systems Leases.”

Terminal Complex

The passenger terminal complex consists of (1) a landside terminal, (2) three airside concourses currently having a total of 95 full service jet gates and 64 commuter aircraft parking positions consisting of 34 regional jet positions, including the recently constructed Concourse B Commuter Facility Project described below and 30 positions on Concourse A currently being used by Great Lakes Aviation and (3) the Airport Office Building. The terminal and concourses are connected by an underground automated guideway transit system, or “AGTS,” and an elevated walkway connects the terminal with the Airport Office Building and Concourse A. A shuttle bus system also is available for the emergency transportation of passengers between the landside terminal and Concourses B and C.

The landside terminal encompasses approximately 1.2 million square feet (exclusive of international customs facilities, terminal support area and mechanical/electrical space), and includes ticketing, baggage system facilities, including federal explosive detection systems installed “in-line” for the screening of checked baggage, passenger drop off/pick up, ground transportation, concessions and other general passenger support services. Concourse A, nearest the terminal, encompasses approximately 1 million square feet and includes 30 full service jet gates, of which 8 gates are configured for international flights, as well as facilities dedicated to commuter airline operations. Concourse B encompasses approximately 1.7 million square feet and includes 43 full service jet gates plus facilities dedicated for commuter airline operations. The commuter aircraft facilities on Concourse B were recently improved in order to accommodate larger regional jet aircraft and provide various enhancements for passengers (the “Concourse B Commuter Facility Project”). Concourse C encompasses approximately 690,000 square feet and currently includes 22 full service jet gates and commuter aircraft facilities. Ten additional full service jet gates are being constructed as part of the Concourse C Expansion Project discussed in “CAPITAL PROGRAM – Planned Projects in the 2008-2013 Capital Program” below. An expansion of the commuter aircraft facilities on Concourse C has also been designed as part of the Concourse C Expansion Project but has been deferred due to a change in planned utilization of Airport facilities. The Airport was designed to facilitate expansion to more than 200 full service jet gates either through lengthening of the existing concourses or the construction of two additional concourses. The Airport currently has over 80 concessionaires operating at approximately 140 locations in the terminal complex. For a discussion of the airline leases for gates on the concourses and space in the terminal, see “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Passenger Airlines Use and Lease Agreements – United Use and Lease Agreement – Other Agreements – *Terminal Complex Concessions.*”

Two multi-level parking structures adjacent to the landside terminal provide in excess of 14,000 public parking spaces, and both close-in and remote surface parking lots provide in excess of 27,000 additional parking spaces. The 2008-2013 Capital Program includes plans to construct a future public parking structure and shuttle lot. See “CAPITAL PROGRAM” and “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Other Agreements – *Public Parking.*”

In April 2006, the City announced the award of a contract to CMCB Development Co. of Denver (“CMCB”) to develop a 17-acre retail development along Peña Boulevard, the major access highway to the Airport, near the Airport’s 45 minute waiting area. The development, known as the “Landings at DIA,” will incorporate the waiting area and constitutes the first phase in a planned 500-acre development that is designed to provide additional revenue to the Airport. CMCB will lead the development, with SullivanHayes Brokerage as leasing agent. The City entered into a ground lease agreement with CMCB for this project in May of 2007. Groundbreaking for the project is expected to occur in the second quarter of 2008, with the first phase of the development expected to be completed by the end of 2008.

Proposed Airport Hotel

In June of 2007 the City received several proposals from qualified participants in response to its Request for Proposal for the Hotel at Jeppesen Terminal (the “Hotel RFP”). The Hotel RFP sought proposals for the ownership, management, financing and/or construction of a first-class hotel property (the “Airport Hotel”) to be located immediately adjacent and attached to the terminal complex at the Airport, on land owned by the City. In December of 2007 the City selected Starwood Hotels and Resorts to construct and operate a Westin branded hotel. The various agreements relating to this project are currently being negotiated. The project is expected to be funded through the issuance by the City of revenue bonds payable from net revenues of the hotel, and not from Net Revenues. However, final financing arrangements have not yet been determined.

Other Facilities

Various other facilities at the Airport include general aviation facilities, remote facilities for the customer service and vehicle maintenance operations of rental car companies, facilities constructed and used by cargo carriers, a U.S. Postal Service sorting and distribution facility and the WorldPort at DIA Project, consisting of warehousing, office and distribution facilities and related infrastructure. Also located at the Airport are support facilities for United, including aircraft and ground support equipment maintenance and air freight facilities, and a flight kitchen built by United and subleased to LSG Sky Chefs (the brand name of LSG Lufthansa Service Holding AG) and support facilities originally built for Continental Airlines (“Continental”) and financed in part from a portion of the proceeds of the Series 1992C Bonds, including aircraft and ground support equipment maintenance, air freight and flight kitchen facilities, portions of which are currently being subleased to other users by Continental. See “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Other Building and Ground Leases” and “FINANCIAL INFORMATION – Senior Bonds – Special Facilities Bonds.”

CAPITAL PROGRAM

The 2008-2013 Capital Program

It is the City’s practice to develop a capital program for the Airport System and reevaluate the capital needs of the Airport System on a regular basis. See “FINANCIAL INFORMATION – Historical Financial Operations – Management’s Discussion and Analysis of Financial Performance.”

The City has a current Capital Program for the Airport that represents the City’s expectations of future Airport System capital needs in order to maintain, reconstruct and expand Airport facilities through 2013. The Concourse B Commuter Facility Project described in “DENVER INTERNATIONAL AIRPORT – Terminal Complex” above was opened in the spring of 2007, and a 1,714 parking space expansion of the west-side terminal parking structure opened in January of 2008. The six-year capital program developed for the Airport for the years 2008 through 2013 (the “2008-2013 Capital Program”) is set forth in the following table. The Airport System’s capital needs between 2007 and 2013 are estimated to cost \$1.2 billion and are expected to be financed with a combination of Airport System Revenue

Bonds, Commercial Paper Notes, installment purchase agreements, federal grants and Airport System moneys.

Planned Projects in the 2008-2013 Capital Program

Planned Projects in the 2008-2013 Capital Program include the projects described below.

Airfield Improvements. The City expects to continue and increase an existing paving and slab replacement program to gradually repair, rehabilitate and upgrade the runways and taxiways at the Airport. The total estimated cost of this program reflected in the 2008-2013 Capital Program is approximately \$150 million, of which approximately 57% is expected to be funded from FAA Federal Airport Improvement Program (“AIP”) discretionary and entitlement grants and the balance from proceeds of Airport System revenue bonds and other Airport System moneys.

In connection with the Concourse C Expansion Project described below in “Terminal and Concourse Improvements,” the City plans to construct a new apron around the new facilities for aircraft loading and provide the associated continuation of taxiways and a holding area for full-sized aircraft. The total estimated cost of this portion of the Concourse C Expansion Project is approximately \$48.4 million, of which approximately 41% is expected to be funded from AIP entitlement and discretionary grants and the balance from proceeds of Airport System revenue bonds and other Airport System moneys.

Other airfield improvements include upgrading runway and taxiway safety areas and maintaining and improving airfield lighting, drainage and other facilities. See “FINANCIAL INFORMATION – Federal Grants.”

Terminal and Concourse Improvements. The City is planning to expand Concourse C (the “Concourse C Expansion Project”) in order to add ten full service jet gates to the east end of the concourse. Also planned is a one-story commuter jet aircraft facility that is to be connected to the expanded east end of Concourse C by a pedestrian bridge. The Concourse C Expansion Project also includes the related apron, taxiway, holding and runway paving described above under “Airfield Improvements.” The design for the entire Concourse C Expansion Project, including the commuter jet facility, has been completed. The Concourse C Expansion Project, including the related airfield improvements, is expected to cost approximately \$280 million, which was partially funded with the proceeds of certain of the Series 2007 Bonds. The construction of the commuter jet aircraft facility has

been deferred and the remainder of the Concourse C Expansion Project is expected to be completed in the spring of 2010. The City anticipates that various airlines will utilize the new full service jet gates.

The 2008-2013 Capital Program also includes a terminal complex project that will provide access from a new rail station to be constructed by the Regional Transportation District (“RTD”) to the Airport terminal. RTD, the public agency responsible for mass transit in the Denver metropolitan area, is currently in the environmental processing and preliminary engineering phases of providing commuter rail service from Denver Union Station, located in downtown Denver, to the Airport. Through the issuance of revenue bonds, Federal Transit Administration (“FTA”) grants, regional use and sales taxes and other funding sources, the RTD is planning to fund, design, build and operate a rail line to the Airport, as well as the station platforms and other rail transit amenities at the Airport station. The City, through the proceeds from future Airport System revenue bonds, is planning to design, build and operate the rail station facilities required to provide access from the rail station to the terminal building, including the elevators, escalators, baggage checking and security requirements necessary to accomplish this access. Construction on the 23-mile rail line and associated stations is expected to begin in 2011 and be completed by 2014, with the rail system becoming operational in 2015.

The City is planning a series of projects to improve the baggage system at the Airport in order to improve the efficiency of airline operations. These projects include the design and construction of a relocation project for terminal screening, the design and analysis of a spine system to deliver baggage from the terminal to the concourses and construction of phase one of the spine system and the renovation and upgrading of the Airport baggage system, including sortation carousels, baggage claim carousels, odd-size baggage systems and related right-of-way clearances in the terminal, the baggage tunnel and the concourses. Certain improvements to the Airport baggage system are included in the 2007 Project.

The 2008-2013 Capital Program includes a project to upgrade the automated guideway transit system, or “AGTS,” computer hardware and equipment located in the central control center for the AGTS and a project to extend the AGTS south of the terminal in order to accommodate additional trains, allowing the AGTS to handle six train system operations.

Roads, Parking and Ground Transportation Improvements. The 2008-2013 Capital Program includes the construction of a new parking structure and shuttle lot, improvements to Peña Boulevard and the rehabilitation of pavement in targeted roadway and parking areas of the Airport.

Other Projects. The 2008-2013 Capital Program also includes the improvement of Airport building systems such as the fire protection system, the baggage information display system, electrical and mechanical systems and elevators and the expansion of security screening checkpoints.

Proposed Improvements

As part of an ongoing effort to upgrade the Airport’s snow removal capabilities, the Department has recently implemented a new snow removal plan. The plan, approved by City Council, includes the use of multi-functional equipment, snow melters, contractors and additional facilities. The plan will be funded by a combination of Airport System Revenue Bonds, installment purchase agreements, federal grants and other Airport System moneys. The total capital cost of this new plan is not yet reflected in the 2008-2013 Capital Program.

AVIATION ACTIVITY AND AIRLINES

Denver Air Service Region

The primary region served by the Airport is the Denver metropolitan area, encompassing the counties of Adams, Arapahoe, Boulder, Broomfield, Denver, Douglas and Jefferson. The secondary region served by the Airport is defined by the location of (and the airline service provided from) other large-hub and medium-hub air carrier airports. The nearest such airports, by road miles, are in Salt Lake City (530 miles to the northwest), Kansas City (590 miles to the east), Oklahoma City (620 miles to the southeast), Albuquerque (440 miles to the south), Phoenix (810 miles to the southwest) and Las Vegas (760 miles to the southwest).

Aviation Activity

Passenger Traffic. Denver's central geographic location makes it a major destination point for communities throughout the Rocky Mountain region and a major transportation hub for airline flights connecting between the east and west coasts and other major metropolitan centers. According to preliminary statistics compiled by Airports Council International, the Airport was ranked as the 5th busiest airport in the nation and the 11th busiest airport in the world based on total passengers in 2007.

The tables set forth below under "*Passenger and Revenue Growth*" and "*Summary of Aviation Activity*" illustrate the total enplanements and market share of individual airlines serving the Airport for the past five years.

Passenger and Revenue Growth. Currently, 30 passenger airlines provide scheduled service at the Airport, including the seven largest U.S. passenger airlines, five foreign flag passenger airlines and regional/commuter airlines. In addition, several passenger charter airlines and all-cargo airlines provide service at the Airport. See "Airlines Serving the Airport" below. In 2007, the Airport served approximately 24.9 million enplaned passengers (passengers embarking on airplanes), the highest number in the history of the Airport and Stapleton. Approximately 57.1% of the passengers enplaned in 2007 were passengers originating their travel at the Airport and 42.9% were passengers making connecting flights at the Airport.

The Airport has generally had steady growth in both passenger traffic and revenues since it opened in 1995, however, in 2001 and 2002, the Airport, like all major airports in the United States, experienced significant declines in passenger traffic and associated revenues as a result of the terrorist events of September 11, 2001, economic conditions and other factors. The Airport began recovering in 2003, with the number of enplaned passengers at the Airport increasing 5.2% in 2003 over 2002. The number of enplaned passengers at the Airport continued to increase by 12.7% in 2004, 2.6% in 2005, 9.0% in 2006 and 5.4% in 2007, compared to the previous years. The number of enplaned passengers at the Airport in January 2008 increased by 1.7% from passengers enplaned at the Airport in January 2007.

Future aviation activity and enplaned passenger traffic at the Airport will depend on many local, regional, national and international factors, including economic and political conditions, aviation security concerns, the financial health of the airline industry and of individual airlines, airline service and routes, airline competition and airfares, airline mergers and alliances, availability and price of aviation and other fuel and capacity of the national air traffic control system and of the Airport. See particularly "RISKS AND OTHER INVESTMENT CONSIDERATIONS."

¹ See "AVIATION ACTIVITY AND AIRLINES."

² Ted commenced service at the Airport in February 2004.

³ Frontier filed for bankruptcy protection on April 10, 2008 and is continuing operations. See "INTRODUCTION – Denver International Airport – Frontier Bankruptcy" and "RISKS AND OTHER INVESTMENT CONSIDERATIONS – Risk of Future Airline Bankruptcies – Frontier Bankruptcy"; includes Lynx, which commenced service at the Airport in December 2007.

⁴ The weight of enplaned cargo does not impact the Airport's Gross Revenues. Revenue is received from cargo carriers only from landing fees and space rentals, which historically have constituted less than 2% of Gross Revenues.

Source: Department of Aviation management records

Originating and Connecting Passengers

Originating passengers are those enplaned passengers whose flights originate at the Airport (residents and visitors) and who are not connecting from another flight. Historically, originating passengers have accounted for over 50% of total enplaned passengers at the Airport. See “Aviation Activity – *Summary of Aviation Activity*” above.

Most major airlines have developed their current route systems around connecting passenger hubs at particular airports. The Airport serves as an important connecting hub in the route systems of both United and Frontier, making it one of the few dual-hub airports in the nation. The Airport is Frontier’s only hub. The Airport has historically been the second busiest connecting hub in United’s route system, after Chicago O’Hare, both in terms of passengers (based on information provided by individual airports) and flight operations (according to data published by Official Airline Guides, Inc.).

In 2007, approximately 10.4 million passengers (42.9%) of the approximately 24.9 million passengers enplaned at the Airport connected from one flight to another. Nearly all of the passengers using the Airport as a connecting hub connected either between the flights of United and its regional airline affiliates operating as United Express, or between the flights of Frontier and its regional affiliates operating as Frontier JetExpress. The United Group and the Frontier Group accounted for approximately 72.1% and 22.6%, respectively, of the connecting passengers at the Airport in 2007. See “Aviation Activity – *Summary of Aviation Activity*” above.

Airlines Serving the Airport

The following airlines currently provide scheduled passenger service at the Airport:

<u>Major/National</u>	<u>Regional/Commuter</u>	<u>Foreign Flag</u>
AirTran Airways	Big Sky Airlines	Air Canada
Alaska Airlines	Comair (operating as Delta Connection)	British Airways
American Airlines	ExpressJet (operating as Continental Express and Delta Connection)	Lufthansa German Airlines
Continental	GoJet Airline (operating as United Express)	Mexicana de Aviacion
Delta	Great Lakes Aviation	Aeromexico
Frontier ¹	Horizon Air (operating as Alaska Airlines and Frontier Jet Express) ²	
JetBlue Airways	Lynx ¹	
Midwest Airlines	Mesa Airlines (operating as United Express and America West Express)	
Northwest	Pinnacle Airlines, Inc. (operating as Northwest Airlink)	
Southwest	Republic Airlines (operating as Frontier JetExpress)	
United/Ted	Shuttle America (operating as United Express)	
US Airways	SkyWest Airlines (operating as United Express and Delta Connection)	
	Trans States Airlines (operating as United Express and American Connection)	

¹ Frontier filed for bankruptcy protection on April 10, 2008 and is continuing operations. See “INTRODUCTION - Denver International Airport - *Frontier Bankruptcy*” and “RISKS AND OTHER INVESTMENT CONSIDERATIONS - Risk of Future Airline Bankruptcies - Frontier Bankruptcy”; Lynx is a subsidiary of Frontier

² Horizon Air is a sister airline of Alaska Airlines and operates at the Airport under its own livery and as Frontier JetExpress under a code-share agreement with Frontier.

Source: Department of Aviation management records

In addition to the passenger airlines listed in the preceding table, several passenger charter airlines and several all-cargo airlines, including, among others, ABX Air, Ameriflight, Air Transport International, DHL Worldwide Express, FedEx, Key Lime Air, Kitty Hawk Airlines, UPS Air Cargo and Volga Antonov, provide service at the Airport.

Airline Information

United. United, one of the world’s largest airlines, is the principal air carrier operating at the Airport. The Airport is a primary connecting hub in United’s route system both in terms of passengers (based on information provided by individual airports) and flight operations (according to data published by Official Airline Guides, Inc.). Under the United Use and Lease Agreement, United currently leases 43 of the existing 95 full service gates at the Airport, as well as a 16-gate regional jet facility described as the Concourse B Commuter Facility Project in “DENVER INTERNATIONAL AIRPORT – Terminal Complex.” These 43 gates and the regional jet facility are all of the gates on Concourse B. In addition, the United Group, consisting of United, its low-fare Ted unit and its United Express commuter affiliates, has accounted for the percentages set forth in the table below of passenger enplanements, originating passengers and connecting passengers at the Airport for the past five years, as well as airline rentals, fees and charges component of the Airport System’s operating revenues and the Airport System’s Gross Revenues for the past five years and the first month of 2007 and 2008. See also “Aviation Activity – Originating and Connecting Passengers” in this section.

See also “Aviation Activity – Originating and Connecting Passengers” in this section, as well as “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Passenger Airlines Use and Lease Agreements – United Use and Lease Agreement.”

Frontier. Frontier has the second largest market share at the Airport, which serves as Frontier’s only hub. Frontier currently leases 15 full service jet gates at the Airport on Concourse A under a Use and Lease Agreement with the City, uses six additional full service jet gates on Concourse A on a preferential use basis and uses one common use international gate on Concourse A on a subordinated basis. The Frontier Group, consisting of Frontier and its Frontier JetExpress commuter affiliate, accounted for the percentages set forth in the table below of passenger enplanements, originating passengers and connecting passengers at the Airport for the past five years, as well as airline rentals, fees and charges component of the Airport System’s operating revenues and the Airport System’s Gross Revenues for the past five years and the first month of 2007 and 2008.

Frontier filed for bankruptcy protection on April 10, 2008 and is continuing operations. As described in “INTRODUCTION - Denver International Airport - *Frontier Bankruptcy*,” the City has no information on the financial condition of Frontier. However, the City’s accounts (unaudited) reflect the following information concerning amounts owed by, and credits due to, Frontier as of April 10, 2008: (1) estimated outstanding rents - none; (2) estimated landing fees for March 2008 (due April 20, 2008) - \$1.7 million; (3) estimated Frontier share of 2007 net revenue credit - \$7.0 million; and (4) estimated Frontier share of 2007 State fuel tax credit - \$3.74 million. The above credits are expected to be applied toward Frontier’s rents and landing fees.

See “Aviation Activity – Originating and Connecting Passengers” in this section, “INTRODUCTION – Denver International Airport – *Frontier Bankruptcy*,” “RISKS AND OTHER INVESTMENT CONSIDERATIONS – Risk of Future Airline Bankruptcies – Frontier Bankruptcy” and “AIRLINE BANKRUPTCY MATTERS.”

Source: Department of Aviation management records

Frontier has recently expanded its hubbing operations at the Airport by introducing Lynx Aviation, a new Frontier subsidiary, which is serving smaller airports in the region. Lynx commenced operations at the Airport in December 2007 with ten 74 seat capacity Bombardier Q400 turboprop aircraft.

Southwest. Southwest commenced service at the Airport in January 2006. Southwest accounted for approximately 3.3% of passenger enplanements at the Airport in 2006 and for approximately 5.3% of passenger enplanements at the Airport in 2007, which exceeded the passenger enplanements of any airline other than the United Group and the Frontier Group serving the Airport in 2007. In 2007, Southwest also accounted for approximately 4.4% (preliminary) of the airline rentals, fees and charges component of the Airport System’s operating revenues and approximately 2.0% (preliminary) of Airport System Gross Revenues.

Other Airlines. Other than the United Group, the Frontier Group and Southwest, no single airline currently accounts for more than 5% of any of passenger enplanements at the Airport. In 2007, American accounted for approximately 3.5% of passenger enplanements at the Airport, and Delta, Continental and Northwest currently account for approximately 2.3%, 2.2% and 2.1%, respectively, of passenger enplanements at the Airport. See “Aviation Activity – *Passenger Traffic*” in this section, as well as “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Passenger Airlines Use and Lease Agreements.”

Availability of Information Concerning Individual Airlines. Certain of the airlines or their parent corporations, including UAL Corporation, Frontier and Southwest, are subject to the information reporting requirements of the Securities Exchange Act of 1934, as amended, and as such are required to file periodic reports, including financial and operational data, with the Securities and Exchange Commission. All such reports and statements may be inspected in the Public Reference Room of the Securities and Exchange Commission at Room 1024, Judiciary Plaza, 450 Fifth Street, NW, Washington, DC, 20549, and at the SEC’s regional offices at the Northwestern Atrium Center, 500 West Madison Street, Suite 1400, Chicago, IL 60661-2511 and 233 Broadway, New York, NY 10279. Copies of these reports and statements also may be obtained from the Public Reference Section of the Securities and Exchange Commission at 450 Fifth Street, NW, Washington, DC 20549, at prescribed rates. The SEC maintains a website at <http://www.sec.gov> containing reports, proxy and information statements and other information regarding registrants that file electronically with the Securities and Exchange Commission. In addition, each domestic airline is required to file periodic reports of financial and operating statistics

with the U.S. Department of Transportation. These reports may be inspected at the following location: Department of Transportation, Research and Special Programs Administration, Office of Airlines Statistics at Room 4125, 400 7th Street, SW, Washington, DC 20590, and copies of the reports may be obtained from the DOT at prescribed rates.

None of the City, the Department or the Underwriters undertake any responsibility for and make no representations as to the accuracy or completeness of the content of information available from the Securities and Exchange Commission or the Department of Transportation as discussed above, including, but not limited to, updates of such information or links to other internet sites accessed through the Securities and Exchange Commission or the Department of Transportation web sites.

Airlines owned by foreign governments or foreign corporations operating airlines (unless such foreign airlines have American Depository Receipts registered on a national exchange) are not required to file information with the Securities and Exchange Commission. Airlines owned by foreign governments, or foreign corporations operating airlines, file limited information only with the Department of Transportation.

AGREEMENTS FOR USE OF AIRPORT FACILITIES

The City has entered into numerous agreements in connection with the operation of the Airport. The Use and Lease Agreements with passenger airlines operating at the Airport and certain other such agreements are discussed below.

Passenger Airlines Use and Lease Agreements

The following airlines have executed Use and Lease Agreements with the City that include leased gates. In addition to the 81 leased gates, 14 gates, including common use international gates on Concourse A, are controlled by the Airport and used on a non-preferential use basis by various airlines.

Passenger Airlines Use and Lease Agreements with Leased Gates

<u>Airline</u>	<u>Number of Gates</u>	<u>Concourse</u>	<u>Lease Expiration</u>
AirTran Airways	1	C	February 2011
Alaska Airlines	1	C	December 2010
American Airlines	3	C	December 2010
Continental	3	A	February 2010
Delta ¹	3	C	December 2010
Frontier ^{1,2}	15	A	February 2010
Midwest Airlines	1	C	December 2010
Northwest ¹	3	C	December 2010
Southwest	5	C	December 2010
United	43	B	February 2025
US Airways	<u>3</u>	C	December 2010
	<u>81</u>		

¹ Delta emerged from bankruptcy on April 30, 2007 and Northwest emerged from bankruptcy on May 31, 2007. Frontier filed for bankruptcy protection on April 10, 2008, and is continuing operations. See "INTRODUCTION – Denver International Airport – Frontier Bankruptcy," "RISKS AND OTHER INVESTMENT CONSIDERATIONS – Risk of Future Airline Bankruptcies – Frontier Bankruptcy" and "AIRLINE BANKRUPTCY MATTERS."

² Frontier also currently uses six full service jet gates on Concourse A on a preferential basis and one common use international gate on a subordinated basis.

The following airlines have executed Use and Lease Agreements with the City that do not include leased gates but in many cases include other leased premises such as ticket counters: Aeromexico, Air Canada, ATA, Atlantic Southeast Airlines, Big Sky Transportation Co., British Airways, Chautauqua Airlines, Comair, ExpressJet/Continental Express, GoJet, Great Lakes Aviation, Horizon Air, JetBlue,

Lufthansa German Airlines, Mesa Airlines, Mexicana de Aviacion, Pinnacle Airlines, Republic Airlines, Shuttle America, SkyWest, Trans States Airlines. These airlines sublease gates from or use gates pursuant to code-sharing arrangements with airlines leasing gates at the Airport or use common use international gates on Concourse A. These Use and Lease Agreements expire between 2008 and 2012.

In the Use and Lease Agreements with each of the passenger airlines operating at the Airport, (1) each of such Signatory Airlines and the City agree to a compensatory methodology for establishing terminal rental rates and a cost center residual methodology for establishing landing fees, (2) each such Signatory Airline acknowledges that the rate base for rentals, fees and charges must generate Gross Revenues that, together with Other Available Funds (consisting of transfers from the Capital Fund), are sufficient to satisfy the Rate Maintenance Covenant, and agrees to pay such rentals, rates, fees and charges, (3) the City is permitted from time to time to amend the rate-making system with the written consent of a majority of the Signatory Airlines represented by (a) a numerical majority and (b) a majority in terms of rentals, rates, fees and charges paid in the preceding Fiscal Year (the "Majority in Interest") and (4) the City is also permitted to adjust rates and charges at the beginning of each Fiscal Year and during each Fiscal Year after mid-year review and consultation with the Signatory Airlines. In all passenger airline Use and Lease Agreements executed since 2005, the provisions thereof dealing with utilization of preferential gates have been modified in order to provide for a more efficient utilization of these gates.

As described above, the City is permitted to adjust rates and charges at the beginning of and during each Fiscal Year. For adjustments at the beginning of each Fiscal Year, not later than 45 days prior to the end of each Fiscal Year, the City is required to furnish the Signatory Airlines with projections of the rentals, rates, fees and charges for the ensuing Fiscal Year for each cost center of the Airport and of each Signatory Airline's cost per enplaned passenger for the ensuing Fiscal Year. Not later than 30 days prior to the end of each Fiscal Year, the City and the Signatory Airlines are required to consult and review the projections of rentals, rates, fees and charges. For adjustments during a Fiscal Year, the City is required to furnish the Signatory Airlines in August with a projection of rentals, rates, fees and charges, which is to reflect the most recently available information regarding current aircraft operations and enplaned passengers, as well as expenses actually incurred and revenues realized to date during such Fiscal Year. The City is also required to provide a pro forma projection of revenues and expenses for the current Fiscal Year and a projection of cost per enplaned revenue passenger for each such Signatory Airline. Within 15 days of providing such projections, the City is required to convene a meeting with the Signatory Airlines to review these projections and any adjustments to the monthly rentals, rates, fees and charges for the Fiscal Year.

For Fiscal Years through 2005, 75% of the Net Revenues remaining after payment of debt service and fund deposit requirements, with an annual maximum of \$40 million, was required to be credited to the Airline Revenue Credit Account of the Capital Fund to be applied as a credit against Signatory Airline rentals, fees and charges in the following Fiscal Year, with the balance to be credited to the Capital Improvement Account of the Capital Fund to be used for any lawful Airport purpose. For Fiscal Years 2006 and thereafter, 50% of remaining Net Revenues are to be credited to the Airline Revenue Credit Account, subject to the annual maximum of \$40 million. For Fiscal Years 2003, 2004, 2005 and 2006, the maximum of \$40 million was credited to the Airline Revenue Credit Account. The Net Revenues to be credited to the Airline Revenue Credit Account for Fiscal Year 2007 are expected to be the maximum of \$40 million, although this amount will not be finally determined until the summer of 2008. See also "FINANCIAL INFORMATION – Capital Fund."

The City may terminate an airline Use and Lease Agreement after a 30 day notice and cure period in the event that the airline either (1) fails to pay the rentals, rates, fees, charges or other money payments that it has agreed to pay pursuant to the Agreement, (2) uses its leased property at the Airport for any purpose not authorized by the Agreement, (3) sublets its leased property at the Airport other than as

provided in the Agreement, (4) becomes subject to certain insolvency events or (5) fails to comply with certain federal regulations in connection with its leased property at the Airport.

An airline may terminate the Use and Lease Agreement after a 30 day notice and cure period, whether or not Senior Bonds or other obligations of the City or the Department are outstanding, in the event that: (1) its governmental authorization to operate aircraft in or out of the Airport is withdrawn, so long as (a) it did not request such withdrawal or (b) the City has been given the opportunity to appear before the appropriate governmental entity prior to such withdrawal or the airline has given the City reasonable advance notice of the possible occurrence of such withdrawal; (2) a court of competent jurisdiction issues an injunction against the City preventing the operation of the Airport and such injunction remains in effect for 90 days or more and is not stayed; or (3) the operation of the Airport is substantially restricted by reason of governmental action or casualty (not caused by the airline) and such restriction remains in effect for 90 days or more. Additionally, in the case of United, United may also terminate if (1) the City fails to observe or perform any material covenant in the United Use and Lease Agreement or (2) United's cost per enplaned revenue passenger for any Fiscal Year exceeds an average of \$20 (in 1990 dollars) as discussed in "United Use and Lease Agreement" below.

United Use and Lease Agreement

United leases gates under a Use and Lease Agreement originally entered into in December 1991 and having substantially the same terms as the other passenger airlines Use and Lease Agreements described in "Passenger Airlines Use and Lease Agreements" above. Under the United Use and Lease Agreement, United agreed to lease, on a preferential use basis, Concourse B, and, on an exclusive use basis, certain ticket counters and other areas in the terminal complex of the Airport, all through February 2025. The United Use and Lease Agreement was amended in 1999 and 2001, prior to United's bankruptcy. In 2003, in connection with its bankruptcy proceedings, United assumed the United Use and Lease Agreement as so amended, and in connection with the assumption, certain changes were made to the United Use and Lease Agreement under a stipulated order (the "Stipulated Order") of the bankruptcy court. After the assumption and in connection with United's emergence from bankruptcy generally, the United Use and Lease Agreement was further amended in 2005, 2006 and 2007. The United Use and Lease Agreement as described below includes all amendments thereof to date.

In the event that United's cost per enplaned revenue passenger for any Fiscal Year exceeds or is projected to exceed \$20 (in 1990 dollars), the City is required to take measures to reduce such cost in a manner consistent with operating and managing a safe and efficient airport. United's cost per enplaned revenue passenger at the Airport has never reached the \$20 threshold. The cost per enplaned passenger for 2006 was \$11.41 (\$11.19 in 1990 dollars). The cost per enplaned passenger for 2007 is not yet available. See also "FINANCIAL INFORMATION – Rentals, Fees and Charges for the Airport."

As a result of the Stipulated Order and the 2005 and 2006 amendments to the United Use and Lease Agreement, the City agreed to reduce Airport rates and charges for all airlines on a net basis by \$4 million annually in each of years 2004 through 2010, for an aggregate amount of \$28 million over a seven-year period. In years 2006 through 2010, airline rates and charges are to be further reduced on a net basis up to an aggregate amount of \$50 million according to a sliding scale based on the net amount available for revenue sharing each year. The sources available to meet these cost reductions goals include, without limitation, revenues from the additional \$1.50 PFC that commenced April 1, 2001 (the "Additional \$1.50 PFC"), the City's share of Net Revenues available for revenue sharing and annual debt service interest savings from refunding outstanding Airport revenue bonds. The City met the \$4 million per year cost reduction goals through 2006 and believes that it has met such goals in 2007. Because the net amount available for revenue sharing in 2004, 2005 and 2006 was, and in 2007 is expected to be, in excess of \$55 million in each year, it has not been necessary to further reduce airline rates and charges.

The rates and charges cost reductions may cease or be reduced and subsequently reinstated under certain circumstances set forth in the United Use and Lease Agreement as so amended.

United discontinued use of the automated baggage system at the Airport in September 2005 and reverted to the traditional tug and cart system. The rates and charges associated with the automated baggage system are to continue to be charged to the airlines. See “FINANCIAL INFORMATION – Rentals, Fees and Charges for the Airport.” However, the City agreed with United and the other airlines to mitigate automated baggage system costs over time. The City agreed to a reduction in United’s rates and charges associated with the automated baggage system of \$4.9 million in 2006, \$8.5 million in 2007 and \$11.0 million in 2008 through 2025, the last year of the term of the United Use and Lease Agreement. This agreed reduction is to occur only after the reduction in rates and charges to all airlines by \$4 million per year from 2004 through 2010, as described above. The City agreed to further mitigate United’s baggage system charges by defeasing certain outstanding Airport System Revenue Bonds and reducing amortization charges allocated to the automated baggage system in stated amounts not to exceed \$10 million per year, using available Capital Fund moneys and other legally available Airport funds.

In the 2005 amendments to the United Use and Lease Agreement, United agreed that it would enplane revenue connecting passengers at the Airport in each year through the end of the term of the United Use and Lease Agreement in the following minimum amounts: for 2006, 7.5 million; for 2007, 7.6 million; and for 2008 and subsequent years, 7.7 million. The United Group had 7.4 million revenue connecting passengers in 2005, 7.9 million revenue connecting passengers in 2006 and 7.7 million revenue connecting passengers in 2007. If United fails to meet this “Base Hub Commitment” in any calendar year, United will not be in default under the United Use and Agreement Lease Agreement; however, for each connecting revenue enplaned passenger by which United falls below the Base Hub Commitment for that year, the City’s commitment to reduce rates and charges to United will decline by \$6.00, such amount to be set-off against United’s share of the Net Revenues credit described above.

Cargo Operations Leases

The City has executed Use and Lease Agreements with the following all-cargo airlines, which also constitute Signatory Airlines: ABX Air, Air Transport International, Ameriflight, DHL Worldwide Express, FedEx, Key Lime Air, Kitty Hawk Airlines, UPS Air Cargo and Volga Antonov, as well as with several companies having only ground handling facilities. The City also has executed a ground lease with the U.S. Postal Service for its sorting and distribution facilities at the Airport. Several other cargo carriers are operating at the Airport on a non-signatory basis.

In 2000, the City, for and on behalf of the Department, entered into a 30-year Master Lease with WorldPort LLC for the construction of up to seven buildings, as well as ramp areas, for air cargo support activities at the Airport. These facilities were to be owned by the City and subleased by WorldPort LLC to air cargo companies and other tenants. Only two of the seven buildings that were planned to be developed were completed by WorldPort LLC, and only one of the buildings has been leased. Special Facilities Bonds were issued by the City to finance construction of the WorldPort project, payable solely from facilities rentals to be received from WorldPort LLC and not from general Airport Revenues. All of such outstanding special facilities bonds were redeemed on August 1, 2007. The City terminated the Master Lease effective March 5, 2008, and acquired from an affiliate of JP Morgan Chase Bank, the provider of the direct pay letter of credit that secured the bonds, all of the existing improvements. The City assumed two existing subleases and is examining future use for the remaining portions of the facilities.

There are currently at least two other airports in the Denver metropolitan area that are physically capable of handling the same types of aircraft utilized by carriers that conduct cargo operations at the Airport. To the extent that any such carriers elect to discontinue operations at the Airport in favor of an

alternative local site, Net Revenues would not be adversely affected. The Airport receives revenue from cargo carriers only from landing fees and space rentals, which historically have constituted less than 2% of Gross Revenues.

Other Building and Ground Leases

The City has entered into a Use and Lease Agreement with Continental with respect to certain support facilities originally built for Continental's then-planned hubbing operation at the Airport (portions of which are being subleased by Continental to other users) and special facilities leases and ground lease agreements with United and each of the rental car companies currently operating at the Airport with respect to their respective facilities at the Airport. In addition, in February 1995 the City leased a 12.4-acre site for 30 years to Signature Flight Support (formerly AMR Combs), which has financed and constructed general aviation facilities on the site and, in May 2007, the City entered into a ground lease for a 17-acre site for 40 years for a retail development known as the "Landings at DIA" along Peña Boulevard. See also "DENVER INTERNATIONAL AIRPORT – Terminal Complex," "FINANCIAL INFORMATION – Senior Bonds – Special Facilities Bonds" and "AIRLINE BANKRUPTCY MATTERS – *Assumption or Rejection of Agreements.*"

Effect of Bankruptcy on Airline Agreements and Other Obligations

For a discussion of the effect of airline bankruptcies on agreements with, and certain other financial obligations to, the City in connection with the Airport, see "AIRLINE BANKRUPTCY MATTERS."

Systems Leases

Certain systems at the Airport, including fueling, are being operated by the airlines. The City has leased the hydrant fueling system to certain of the airlines and cargo carriers, who have contracted with Aircraft Service International, Inc. to operate that system.

Other Agreements

The City has also entered into various agreements in addition to those described above that generate a significant portion of Airport Gross Revenues. The following is a brief description of some of these additional agreements. The revenues received from the following agreements constitute only a portion of the concession income, parking income and rental car revenue set forth in "FINANCIAL INFORMATION – Historical Financial Operations."

Terminal Complex Concessions. Concessions and passenger services are provided in the terminal complex by concessionaires and nonairline tenants under agreements with the City that provide for the payment to the City of the greater of a minimum annual guarantee, that was set by the City to recover the cost of the space occupied by nonairline tenants, or a percentage of gross revenues. The concession agreements also contain a reestablishment clause allowing the City to adjust rents within certain parameters if necessary to satisfy the Rate Maintenance Covenant. Revenues from terminal complex concessions constituted approximately 5.9% of Airport Gross Revenues in 2006 and approximately 6.6% (preliminary) of Airport Gross Revenues in 2007.

Unlike the concession programs at most other U.S. airports, the Airport does not have one or two "master concessionaires" under contract who, in turn, sublease the concessions to others. The Airport's program since its opening in 1995 has emphasized direct contracting with individual concessionaires, providing opportunities for small businesses, greater competition, more choices for consumers and more

revenue to the Airport. The Airport currently has over 80 concessionaires operating at approximately 140 locations in the terminal complex.

Public Parking. Public automobile parking at the Airport is accommodated in parking structures, economy lots adjacent to the terminal, a remote shuttle parking lot and an overflow shuttle lot. The City has agreements with private contractors to manage these public parking facilities at the Airport, and also a concession agreement with a company operating a private parking lot on Airport property with approximately 1,500 spaces called “WallyPark.” Public parking revenues constituted approximately 18.0% of Airport Gross Revenues in 2006 and approximately 18.0% (preliminary) of Airport Gross Revenues in 2007.

Rental Cars. The City has concession agreements with ten rental car companies to provide service at the Airport. Under the concession agreements, each company pays to the City the greater of a minimum annual guarantee or a percentage of annual gross revenues. Rental car privilege fee revenues constituted approximately 5.6% of Airport Gross Revenues in 2006 and approximately 5.9% (preliminary) of Airport Gross Revenues in 2007.

Other. Other nonairline revenues include employee parking fees and storage area, building and terminal space (such as customer service counters) rentals by nonairline tenants at the Airport.

FINANCIAL INFORMATION

Historical Financial Operations

The following table sets forth comparative operating results of the Airport System for Fiscal Years 2002 through 2007. See also “APPENDIX A – ANNUAL FINANCIAL REPORT OF THE AIRPORT SYSTEM FOR FISCAL YEARS 2006 AND 2005” and “Management’s Discussion and Analysis of Financial Performance” below.

The figures for 2005 and 2006 include several prior period adjustments that will be reflected in the 2007 financial statements. These adjustments were made to reflect: (1) an increase of approximately \$10.7 million in aviation fuel tax receipts discovered as the result of an audit of State aviation fuel tax receipts; (2) the re-categorization of approximately \$10 million of capital expenditures to operation and maintenance expenses; and (3) the addition of approximately \$196.8 million of assets financed with Special Facilities Bonds, and associated depreciation, to the Airport financial statements. See “Aviation Fuel Tax” and “Special Facilities Bonds” below.

¹ See "Management's Discussion and Analysis of Financial Performance" below.

² This constitutes the net prepetition receivable of United that was recognized in 2002 and paid in 2003.

³ Depreciation and amortization increased significantly in 2003 due in part to assets placed in service in 2003, including the Sixth Runway; decreased in 2004 due primarily to the partial write-off of the automated baggage system; and increased again in 2005 due primarily to the completion of an explosive detection system project implemented for the screening of checked baggage (the "EDS").

⁴ In accordance with Governmental Accounting Standards Board ("GASB") Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and Insurance Recoveries*, implemented by the City in 2004, the City concluded that sections of the automated baggage system were permanently impaired, being a significant, unexpected decline in the service utility of a capital asset, and removed them from its books, resulting in the impairment losses stated in the table in 2004 and 2005. See "AGREEMENTS FOR USE OF AIRPORT FACILITIES – United Use and Lease Agreement" and Note 5 to the Fiscal Year 2006 and 2005 financial statements of the Airport System appended to this Official Statement.

⁵ These amounts are net of the PFC collection fee retained by the airlines. The PFC revenues recorded as nonoperating revenues include the revenues of the \$3.00 portion of the PFC and a part of the revenues from the \$1.50 portion of the PFC not related to capital projects. The PFC revenues recorded as capital contributions constitute the balance of the revenues of the \$1.50 portion of the PFC that may be used for FAA-approved capital projects. For 2005 and 2006, all capital PFC revenue was reallocated to the payment of debt service related to the automated baggage system and, in 2006, the original cost of the Airport. See "Passenger Facility Charges" below.

⁶ Includes expenses incurred since February 1995 to maintain and preserve Stapleton. See "Stapleton" below for further information.

⁷ Capital contributions in 2003 constitute capital grants received pursuant to a Memorandum of Agreement and a Letter of Intent under which the Transportation Security Administration (the "TSA") reimbursed the City for a portion of the cost of the EDS and others amounts received from FAA grants. The amount received in 2003 was classified as capital contributions; the amounts received in 2004, 2005 and 2006 were classified as capital grants.

⁸ Capital contributions recognized in 2005 constitute the addition of certain assets financed with Special Facilities Bonds, and associated depreciation, to the Airport financial statements.

Management's Discussion and Analysis of Financial Performance

The following is a discussion and analysis by Airport management of the financial performance of the Airport System for Fiscal Years 2002 through 2007. The effects of the restatement of the 2005 and 2006 financial statements are included in the discussion. All figures presented below are approximate unless otherwise stated.

2007 vs. 2006 (Unaudited). Operating revenues at the Airport were \$531.6 million for the year ended December 31, 2007, an increase of \$23.3 million (4.6%), as compared to December 31, 2006. The increase in revenue was primarily related to the increase in passenger traffic, which led to an increase in concession, parking, fuel tax and car rental revenues. Passenger traffic increased 5.4% for the year ended December 31, 2007.

Operating expenses, exclusive of depreciation, were \$290.7 million for the year ended December 31, 2007, an increase of \$29.6 million (11.3%) as compared to December 31, 2006, and an increase of \$31.8 million (12.3%) as compared to the original 2007 operations and maintenance budget. The increase was attributable to an increase in personnel costs, snow removal, other City agency costs associated with snow removal, janitorial services and repair and previously capitalized maintenance costs that were determined to be non-capital expenditures. The preliminary 2008 budget was revised for the same reasons.

Total nonoperating expenses, net of operating revenues, decreased by \$10.5 million to \$57.3 million in 2007. This was due to an increase in investment income of \$26.1 million (46.5%) resulting from an increase in yields and additional investments of cash received from the Series 2007 Bonds and an increase in PFC revenues of \$3.7 million (3.9%) resulting from an increase in passenger traffic. These were offset by an increase in interest expense of \$3.5 million associated with the Series 2007 Bonds and an increase in Stapleton costs of \$14.9 million related to the adoption of GASB Statement No. 49 that requires the accrual of all remaining costs and anticipated costs to complete the remediation of certain environmental conditions at Stapleton. See "Stapleton" below.

2006 vs. 2005. Operating revenues at the Airport were \$508.3 million for the year ended December 31, 2006, an increase of \$10.6 million (2.1%), as compared to December 31, 2005. The increase in revenue was primarily related to the increase in passenger traffic, which led to an increase in concession, parking, and car rental revenues. Passenger traffic increased 9.0% for the year ended December 31, 2006.

Operating expenses, exclusive of depreciation, were \$261.1 million for the year ended December 31, 2006, an increase of \$23.5 million (9.9%) as compared to December 31, 2005. The increase was attributable to an increase in personnel costs, snow removal (due to December 2006 blizzards), guard services, janitorial services and repair and previously capitalized maintenance costs that were determined to be non-capital expenditures.

Total nonoperating expenses, net of nonoperating revenues, decreased by \$39.5 million to \$67.8 million in 2006. This decrease was due to an increase in investment income of \$20.3 million, or 56.7%, which was due to an increase in yields and additional investment of cash received related to notes payable. In addition, PFC revenues increased \$9.5 million, or 11.3%, due to an increase in passenger traffic. Lastly, there was a decrease in other expense due to the completion of environmental costs associated with remediation of Stapleton, offset by an increase of \$2.2 million of interest expense due to an increase in notes payable.

In 2006 and 2005, capital grants totaled \$29.2 million and \$31.5 million, respectively. The decrease in 2006 capital grants was due to the completion of the EDS project in 2005, which was

federally funded. All PFCs were reallocated to the payment of debt service related to the automated baggage system and the original cost of the Airport.

A more detailed discussion and analysis by Airport management of the financial performance and activity of the Airport System for 2006 compared to 2005 (excluding the impact of the restatements discussed above) is included as part of the financial statements of the Airport System appearing as “APPENDIX A – ANNUAL FINANCIAL REPORT OF THE AIRPORT SYSTEM FOR FISCAL YEARS 2006 AND 2005.”

2005 vs. 2004. Operating revenues at the Airport were \$497.7 million, an increase of \$20.1 million (4.2%) for the year ending December 31, 2005, as compared to December 31, 2004. The increase in revenue was related primarily to the increase in passenger traffic, which led to an increase in concession, parking and car rental revenues, as well to an increase in landing fees. Passenger traffic increased 2.6% for the year ended December 31, 2005. Operating expenses, exclusive of depreciation, were \$237.6 million, an increase of \$16.3 million (7.4%) for the year ended December 31, 2005, as compared to December 31, 2004. The increase was attributable to an increase in personnel costs, electricity, natural gas rates, diesel fuel and gasoline costs and repair and previously capitalized maintenance costs that were determined to be non-capital expenditures.

Total nonoperating expenses, net of nonoperating revenues, decreased by \$31.3 million to \$107.2 million in 2005. This decrease was due to the increase in investment income of \$13.3 million, or 59.3%, which resulted from an increase in yields and more cash being invested long term. In addition, non-capital PFC revenues increased \$22.0 million, or 35.4%, due to an increase in passenger traffic, as well as no PFC’s being expended on capital projects. Lastly, there was a decrease in interest expense of \$16.2 million from the refunding of debt. These factors were offset by an increase in other expense due to an additional \$23.3 million in environmental costs associated with remediation of Stapleton. See “Stapleton” below.

In 2005 and 2004, capital grants totaled \$31.5 million and \$42.1 million, respectively. The decrease in 2005 capital grants was due to the completion of the EDS project, which was federally funded. Also, in 2005 there was no capital PFC revenue, while in 2004 capital PFC revenues totaled \$20.1 million. The decrease in capital PFCs was due to reallocation of PFC’s revenues from the capital projects to the payment of debt service related to the automated baggage system.

In 2005, net assets decreased by \$44.6 million, compared to an increase of \$31.7 million in 2004. Income from operations decreased \$76.9 million (71.2%) due to an increase in operating expenses of \$9.9 million and an increase in depreciation and impairment loss of \$83.8 million as a result of the write down of a portion of the automated baggage system.

In 2005, the City added approximately \$196.8 million of assets financed with Special Facilities Bonds, and associated depreciation, to the Airport financial statements.

2004 vs. 2003. Operating revenues at the Airport in 2004 were \$477.7 million, an increase of 4.5% as compared to 2003. The increase in revenues was related primarily to an increase in passenger traffic which led to an increase in facility rentals, concession and parking revenues. Operating expenses, exclusive of depreciation, increased by \$9.3 million (4.4%) to \$221.2 million in 2004 as compared to 2003, attributable to an increase in personnel, utility rates and repair and maintenance costs.

Total nonoperating expenses, net of nonoperating revenues, increased by \$3.3 million to \$138.6 million in 2004. The increase was due primarily to an increase in interest expense of \$7.5 million (3.5%) as the result of issuance of new debt for capital projects. The decrease in investment income of \$3.3 million (13.0%) was due to an unrealized loss on investments and a decrease in yields. In addition, non-capital PFC revenues decreased \$2.0 million (3.1%). These were offset by a decrease in other expenses

of \$9.6 million. The decrease was the result of the near completion of environmental and demolition costs associated with Stapleton.

In 2004 and 2003, capital grants totaled \$11.3 million and \$26.0 million, respectively, while capital PFCs totaled \$20.1 million and \$7.9 million, respectively. The increase in capital PFCs was due to the increase in passenger traffic and reallocation of PFCs from operating to capital. Other capital contributions of \$30.8 million and \$6.6 million were received in 2004 and 2003, respectively, consisting of amounts reimbursed to the City by the TSA pursuant to a Memorandum of Agreement and TSA Letter of Intent for the EDS project.

In 2004, net assets increased by \$31.7 million, compared to an increase of \$5.7 million in 2003. Income from operations increased \$7.6 million (7.6%) due to an increase in operating revenues of \$20.6 million, offset by an increase in operating expenses of \$9.3 million and an increase in depreciation of \$3.6 million as a result of the write-off of a portion of the automated baggage system.

2003 vs. 2002. Operating revenues at the Airport in 2003 were \$457.1 million, an increase of 3.0% as compared to 2002. The increase in revenue was primarily related to the increase in passenger traffic, parking revenues and landing fee rates. Operating expenses, exclusive of depreciation, decreased by \$26.6 million (11.1%) in 2003 as compared to 2002. The significant decrease was attributable to the recognition of the Adams County noise penalty settlement that was accrued for in 2002 of \$14.5 million compared to \$2.5 million in 2003, the payment of previously recognized bad debt related to United's prepetition receivable and other reductions resulting from budgetary control and fiscal restraint.

In 2003, net assets increased by \$5.7 million, compared to an increase of \$51.1 million in 2002. Income from operations increased \$20.7 million (25.9%), due primarily to the increase in operating revenues and a decrease in operating expenses, offset by an increase in depreciation and amortization of \$19.0 million.

Total nonoperating expenses, net, increased by \$15.4 million to \$135.3 million. The increase was due primarily to a decrease in investment income of \$16.1 million (38%) resulting from a decrease in yields. In 2003 there was a decrease of \$4.2 million (92%) in non-capital grants received from the federal government. The increase in PFCs of \$1.3 million (2.1%) was due to an increase in passenger traffic. Interest expense increased by \$5.5 million (2.6%) as the result of the reclassification of deferred refunding from other expense to interest expense, offset by both lower interest rates realized from debt refunding and a decline in variable interest rates paid on several series of outstanding Senior Bonds and Subordinate Bonds.

In 2003 and 2002, capital grants totaled \$26.0 million and \$84.1 million, respectively, while capital PFCs totaled \$7.9 million and \$7.0 million, respectively. Other capital contributions of \$6.6 million were also received in 2003, consisting of amounts reimbursed to the City by the TSA pursuant to a Memorandum of Agreement and TSA Letter of Intent for the EDS project. The decrease in capital grants and capital PFCs was due to the completion of the Sixth Runway that was heavily grant funded.

Senior Bonds

Outstanding Senior Bonds. The following table sets forth the Senior Bonds that are currently outstanding and the Senior Bonds that are expected to be outstanding upon the issuance of the Series 2008A1-A4 Bonds and the related current refunding and defeasance of the Refunded Bonds. See also "Plan of Financing" below.

Outstanding Senior Bonds

<u>Issue</u>	<u>Principal Amount Outstanding</u>	
	<u>As of the Date Hereof</u>	<u>After Issuance of the the Series 2008A1-A4 Bonds</u>
Series 1991A Bonds ¹	\$ 10,015,000	\$ 10,015,000

¹ A portion of Series 1991A Bonds and Series 1991D Bonds are capital appreciation bonds shown at their principal value at maturity.

² In 1999, the City used the proceeds from certain federal grants to establish an escrow to defease \$54.88 million of Series 1991D Bonds and Series 1992C Bonds. In 2006 and 2007, the City used Airport Net Revenues and revenues from PFCs to establish escrows to defease \$141.23 million of Senior Bonds. Neither defeasance satisfied all of the requirements of the Senior Bond Ordinance, and consequently such economically defeased Senior Bonds are reflected as still being outstanding. See also Note 8 to the financial statements of the Airport for Fiscal Year 2006 appended to this Official Statement.

³ These constitute variable interest rate obligations. Except for the Subseries 2008A2-A4 Term Rate Bonds, these Senior Bonds are secured by letters of credit or standby bond purchase agreements constituting Credit Facilities under the Senior Bond Ordinance. The City's repayment obligations to the financial institutions issuing such Credit Facilities constitute Credit Facility Obligations under the Senior Bond Ordinance.

⁴ The Series 2000B Bonds, the Series 2000C Bonds, the 2006A Bonds, the Series 2007F1-F4 Bonds and the Series 2007G1-G2 Bonds are associated with certain swap agreements discussed in "Subordinate Bonds and Other Subordinate Obligations – *Subordinate Hedge Facility Obligation*" below and in Note 12 to the financial statements of the Airport System for Fiscal Year 2006 appended to this Official Statement, effectively converting the floating rates of the Series 2000B Bonds, the Series 2000C Bonds, the Series 2007F1-F4 Bonds and the Series 2007G1-G2 to fixed rates and converting the fixed rates of the Series 2006A Bonds to variable rates.

[Footnotes continued on next page]

⁵ These constitute auction rate bonds.

⁶ All of these Senior Bonds, together with the Series 2001C3 Subordinate Bonds and the Series 2001C4 Subordinate Bonds, are planned to be current refunded with the proceeds of the Series 2008A1-A4 Bonds. See “APPLICATION OF PROCEEDS” and “Plan of Financing” below.

Sources: The Department of Aviation and DEPFA First Albany Securities LLC

All or certain of the maturities of all series of the Senior Bonds issued since 1995 have been additionally secured by policies of municipal bond insurance. The related bond insurers have been granted certain rights under the Senior Bond Ordinance with respect to the Senior Bonds so insured.

Support facilities located at the Airport that were originally built to support Continental’s then-planned hub at the Airport (specifically an aircraft maintenance facility, a flight kitchen, a ground support equipment facility and an air freight facility) were financed in part from a portion of the proceeds of the Series 1992C Bonds. In 1992, Continental and the City entered into several 25-year leases pursuant to which Continental agreed to be responsible for all costs attributable to its support facilities at the Airport, including an amount equal to the debt service on the Senior Bonds issued for such purpose. Continental subleases portions of these support facilities to a variety of other users. See also “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Other Building and Ground Leases.”

Estimated Senior Bonds Debt Service Payment Schedules. The following table sets forth the City’s estimated aggregate debt service payment schedules for the Senior Bonds both prior to and after the issuance of the Series 2008A1-A4 Bonds and the related defeasance of certain of the Refunded Bonds. The schedules do not include the costs associated with related credit facility obligations, and assume that the City will elect to exercise its option to redeem certain Senior Bonds prior to their stated maturities.

Subordinate Bonds and Other Obligations

Subordinate Bond Ordinance. Subordinate Bonds, Subordinate Contract Obligations, Subordinate Credit Facility Obligations and Subordinate Hedge Facility Obligations are secured by a pledge of the Net Revenues that is subordinate to the pledge of the Net Revenues that secures the Senior Bonds. Subordinate obligations are issued pursuant to the Airport System Subordinate Bond Ordinance approved by the City Council in 1997, as supplemented and amended by a separate Airport System Supplemental Subordinate Bond Ordinance for each series of such subordinate obligations (collectively, the “Subordinate Bond Ordinance”).

Subordinate Bonds include all obligations issued and outstanding from time to time under the Subordinate Bond Ordinance except for Subordinate Credit Facility Obligations, Subordinate Contract Obligations and Subordinate Hedge Facility Obligations.

Subordinate Credit Facility Obligations generally comprise repayment or other obligations incurred by the City pursuant to a credit agreement or similar instrument in respect of draws or other payments or disbursements made under a Subordinate Credit Facility, and which obligations are payable

from all or any designated portion of the Net Revenues on a basis that is subordinate only to the Senior Bonds and any Credit Facility Obligations and on a parity with Subordinate Bonds.

Subordinate Contract Obligations and Subordinate Hedge Facility Obligations generally are comprised of contracts, agreements or obligations payable from all or a designated portion of the Net Revenues on a basis subordinate to the Senior Bonds and any Credit Facility Obligations and on a parity with Subordinate Bonds, but do not include Subordinate Bonds, Subordinate Credit Facility Obligations, obligations that may be treated as Operation and Maintenance Expenses under U.S. generally accepted accounting principles and obligations incurred and payable in full within a single Fiscal Year (whether or not such obligations may be treated as Operation and Maintenance Expenses).

The Subordinate Bond Ordinance permits the City, on its own behalf or for and on behalf of the Department, to issue additional Subordinate Bonds and Subordinate Contract Obligations for the purpose of paying the cost of acquiring, improving or equipping Facilities or refunding, paying and discharging any Subordinate Bonds, Subordinate Contract Obligations, Subordinate Credit Facility Obligations, Senior Bonds, Junior Lien Bonds or other securities or obligations. Under the terms of the Subordinate Bond Ordinance, the City, on its own behalf or for and on behalf of the Department, may issue up to \$800 million aggregate principal amount of Subordinate Bonds and Subordinate Contract Obligations upon the Manager’s certificate that the City is not in default in making any payments required under the Senior Bond Ordinance or the Subordinate Bond Ordinance. In order to issue additional Subordinate Bonds and Subordinate Contract Obligations in excess of \$800 million (other than for a refunding), the City must comply with certain conditions as set forth in the Subordinate Bond Ordinance.

Outstanding Subordinate Bonds. The following table sets forth the Subordinate Bonds that are currently outstanding and the Subordinate Bonds that are expected to be outstanding upon the issuance of the Series 2008A1-A4 Bonds and the related current refunding and defeasance of the Refunded Bonds. See also “Plan of Financing” below.

Outstanding Subordinate Bonds

<u>Issue</u> ^{1,2,3}	Principal Amount Outstanding	
	As of the Date Hereof	After Issuance of the the Series 2008A1-A4 Bonds
Series 2001C3 Subordinate Bonds	\$ 50,000,000	\$--
Series 2001C4 Subordinate Bonds	50,000,000	--
	\$100,000,000	\$--

¹ The outstanding Subordinate Bonds are Periodic Auction Reset Securities, or “PARSsm.” PARSsm is a service mark of Goldman, Sachs & Co.

² The outstanding Subordinate Bonds have been hedged with the 1999 Swap Agreements and 2002 Swap Agreements discussed below.

³ All of the outstanding Series 2001C3 Subordinate Bonds and Series 2001C4 Subordinate Bonds are planned to be current refunded with the proceeds of the Series 2008A1-A4 Bonds. See “APPLICATION OF PROCEEDS” and “Plan of Financing” below.

Sources: The Department of Aviation and DEPFA First Albany Securities LLC

Subordinate Commercial Paper Notes. On July 7, 2003, the City authorized the issuance, from time to time, of its Airport System Subordinate Commercial Paper Notes, Series A, and its Airport System Subordinate Commercial Paper Notes, Series B, (Taxable) (collectively, the “Series A-B Commercial Paper Notes”), constituting Subordinate Bonds, for the purpose of funding the costs of acquiring, improving and equipping facilities for the Airport, refunding or paying certain Airport System obligations and any such other lawful undertakings as may be determined by the Manager of Aviation to be of benefit to the Airport System. The aggregate principal amount of Series A-B Commercial Paper Notes that may be outstanding at any time may not exceed the lesser of \$300 million or the amount that, together with the interest (including accreted amounts) due thereon to the stated maturity date of each such outstanding Series A-B Commercial Paper Note, exceeds the amount available to be drawn on the credit facility securing the Series A-B Commercial Paper Notes. The Series A-B Commercial Paper

Notes are currently secured by a letter of credit issued severally by JPMorgan Chase Bank, National Association (62.893%) and Bayerische Landesbank, acting through its New York Branch (“Bayern LB”), individually and as agent (37.107%), in the original stated amount of \$127.2 million. There currently are \$100 million of Tax-Exempt Commercial Paper Notes outstanding. See “Plan of Financing” below.

Subordinate Hedge Facility Obligations. In 1998, 1999, 2002, 2005 and 2006, the City entered into various interest rate swap agreements constituting Subordinate Hedge Facility Obligations under the Senior Bond Ordinance and the Subordinate Bond Ordinance in respect of certain series of the outstanding Senior Bonds. Detailed information regarding these swap agreements is set forth in Note 12 to the financial statements of the Airport System for Fiscal Year 2006 appended to this Official Statement. See “APPENDIX A – ANNUAL FINANCIAL REPORT OF THE AIRPORT SYSTEM FOR FISCAL YEARS 2006 AND 2005.”

On December 21, 2007, the City entered into interest rate swap agreements (the “2007A Swap Agreements”), constituting Subordinate Hedge Facility Obligations, with two financial institutions to effectively change the amounts it receives under the 2002 swap agreements described above from a percentage of the London Interbank Offered Rate (LIBOR) for one-month deposits of U.S. dollars (“one-month LIBOR”) to a percentage of LIBOR for ten-year deposits of U.S. dollars (“ten-year LIBOR”). The 2007A Swap Agreements have notional amounts of \$150.0 million and \$50.0 million, respectively, and provide for certain payments to or from each financial institution equal to the difference between a percentage of one-month LIBOR payable by the Airport System and a percentage of ten-year LIBOR payable by the respective financial institutions.

Special Facilities Bonds

The City has issued various series of Special Facilities Bonds to finance the acquisition and construction of certain facilities at the Airport. These bonds are payable solely from designated payments received under lease agreements and loan agreements for the related Airport special facilities and are not payable from Gross Revenues.

United financed and recently refinanced its support facilities at the Airport (aircraft and ground support equipment, maintenance and air freight facilities and a flight kitchen that is subleased to Dobbs International Services) largely through the issuance by the City, for and on behalf of the Department, of its Special Facilities Bonds. In connection with the issuance of the original United Special Facilities Bonds in 1992 (the “1992 Special Facilities Bonds”), United executed a 31-year combined special facilities and ground lease (the “1992 Lease”) for all of the support facilities and certain tenant finishes and systems on Concourse B, the lease payments under which constituted the sole source of payment for the 1992 Special Facilities Bonds. In June 2007, the 1992 Bonds were refunded and defeased with the proceeds of \$270,025,000 Airport Special Facilities Bonds (United Air Lines Project), Series 2007A (the “2007 Special Facilities Bonds”) issued by the City, for and on behalf of the Department. In connection with the issuance of the 2007 Special Facilities Bonds, the 1992 Lease was amended (the “Amended Lease”). The Amended Lease terminates on October 1, 2023, unless extended as set forth in the Amended Lease or unless terminated earlier upon the occurrence of certain events as set forth in the Amended Lease and the lease payments under the Amended Lease constitute the sole source of payment for the 2007 Special Facilities Bonds.

See “DENVER INTERNATIONAL AIRPORT – Other Facilities” and “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Other Building and Ground Leases.”

Certain rental car companies currently and previously operating at the Airport financed or refinanced separate outlying service and storage facilities at the Airport, as well as certain terminal area improvements and improvements at the Airport relating to the operations of such rental car companies

and other providers of ground transportation services at the Airport, and two of such companies also financed the acquisition of shuttle vehicles to be owned and used by such companies, through the issuance by the City, for and on behalf of the Department, of its \$36,535,000 Airport Special Facilities Revenue Bonds (Rental Car Projects), Tax-Exempt Series 1999A, \$38,945,000 Airport Special Facilities Revenue Refunding and Improvement Bonds (Rental Car Projects), Taxable Series 1999B, and \$3,105,000 Airport Development Revenue Bonds (Rental Car Projects), Taxable Series 1999C, currently outstanding in the aggregate principal amount of \$39,880,000. In 1999, each of such rental car companies executed a 15-year Special Facilities and Ground Lease with the City with respect to the use and occupancy of its respective facilities at the Airport. In addition, two of the rental car companies executed nine-year Loan Agreements with the City to acquire shuttle vehicles.

Installment Purchase Agreements

The City has entered into certain Master Installment Purchase Agreements with GE Capital Public Finance, Inc., Siemens Financial Services, Inc. and Koch Financial Corporation in order to provide for the financing of certain portions of the Airport's capital program, including among other things, the acquisition of various runway maintenance vehicles and equipment, additional jetways and flight information display systems, ticket counter improvements in the landside terminal and the funding of the portion of the costs of completing, in 2005, modifications to the baggage system facilities at the Airport that enabled the TSA to install and operate its own explosives detection systems for the screening of checked baggage "in-line" with the existing baggage systems facilities. The aggregate outstanding principal amount of the Master Installment Purchase Agreements as of December 31, 2007 was \$61,671,055. The City plans to utilize installment purchase agreement financing to acquire a portion of its new snow removal equipment. See "CAPITAL PROGRAM – Planned Improvements."

The obligation of the City under each Master Installment Purchase Agreement to make payments thereunder is a special obligation of the City payable solely from the Capital Fund and such other legally available funds as the City may apply, but none of these Master Installment Purchase Agreements constitutes a pledge of the Capital Fund or any other revenues of the Airport System.

Plan of Financing

DEPFA First Albany Securities LLC (formerly First Albany Capital Inc.) and Estrada Hinojosa & Company, Inc., have prepared the Plan of Financing in connection with the City's plan to restructure its outstanding auction rate securities and certain of its other outstanding variable rate securities, all of which are secured by bond insurance. This restructuring is being undertaken in order to eliminate the City's exposure to the volatility in interest rates in the auction rate and variable rate markets precipitated in large part by downgrades in the ratings of bond insurers. The Plan of Financing includes the issuance of the Series 2008A1-A4 Bonds in order to current refund and defease the Refunded Bonds, the recent issuance of \$100 million of Tax-Exempt Commercial Paper Notes in order to current refund and defease all of the then outstanding Series 2001C1 Subordinate Bonds and Series 2001C2 Subordinate Bonds and the conversion of the Series 2007F1-F4 Bonds from an auction rate to a variable rate in accordance with the provisions of the Supplemental Ordinance relating to such Senior Bonds.

The Plan of Financing also assumes the issuance of additional Senior Bonds and Commercial Paper Notes between 2008 and 2012 for the purpose of funding certain projects in the 2008-2013 Capital Program. The issuance of such additional Senior Bonds and Commercial Paper Notes will be dependent upon various factors, including market conditions, the continued need for particular projects in the 2008-2013 Capital Program, the eventual scope and timing of particular Planned Projects and the financial feasibility of issuing additional Senior Bonds or Commercial Paper Notes at particular times. Consequently, there can be no assurance that any of the other additional Senior Bonds and/or Commercial Paper Notes assumed in the Plan of Financing will be issued. See also "INTRODUCTION – Plan of

Financing,” “Subordinate Bonds and Other Obligations – *Subordinate Commercial Paper Notes – Subordinate Hedge Facility Obligations*” above, “CAPITAL PROGRAM.”

Capital Fund

The amount on deposit in the Capital Fund as of December 31, 2007 (preliminary), was approximately \$185.9 million, which has been designated by the City as follows: (1) \$67.1 million for the Coverage Account (constituting Other Available Funds); (2) \$78.7 million to cover existing obligations and contingencies; and (3) \$40.1 million for any lawful Airport System purpose. See also “SECURITY AND SOURCES OF PAYMENT – Flow of Funds.”

Rentals, Fees and Charges for the Airport

Using compensatory and residual rate-making methodologies in its existing Use and Lease Agreements, the City has established rentals, fees and charges for premises and operations at the Airport. These include landing fees, terminal complex rentals, baggage system fees, concourse ramp fees, AGTS charges, international facility fees and fueling system charges, among others. The City also collects substantial revenues from other sources such as public parking, rental car operations and retail concession operations. For those airlines that are not signatory to Airport Use and Lease Agreements, the City assesses rentals, fees and charges following procedures consistent with those outlined in the Use and Lease Agreements, at a premium of 20% over Signatory Airline rates. In addition, nonsignatory airlines do not share in the year-end airline revenue credit. See generally “AGREEMENTS FOR USE OF AIRPORT FACILITIES.”

The City believes that its rate-making methodologies, including its allocation of costs for purposes of setting rates and charges, are reasonable. However, no assurance can be given that challenges will not be made to the rates and charges established by the City or its method of allocating particular costs. See “SECURITY AND SOURCES OF PAYMENT – Rate Maintenance Covenant,” “RISKS AND OTHER INVESTMENT CONSIDERATIONS – The Rate Maintenance Covenant” and “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Passenger Airlines Use and Lease Agreements – United Use and Lease Agreement.”

Passenger Facility Charges

General. Public agencies controlling certain commercial service airports (those with regularly scheduled service and enplaning 2,500 or more passengers annually) are permitted to charge each enplaning revenue passenger using the airport a passenger facility charge for the purpose of developing additional capital funding resources for the expansion of the national airport system. The proceeds from PFCs must be used to finance eligible airport-related projects that serve or enhance the safety, capacity or security of the national airport transportation system, reduce noise from an airport that is part of such system or furnish opportunities for enhanced competition between or among air carriers, including associated debt service. Public agencies desiring to impose and use PFCs are required to apply to the FAA for such authority and satisfy the requirements of 49 U.S.C. §40117 (the “PFC Enabling Act”). Applications by certain public agencies, including the Department, after October 1, 2000, also require an acceptable airport competition plan.

The City first began imposing a PFC on enplaned revenue passengers on July 1, 1992, at the rate of \$3.00, which was increased to \$4.50 effective April 1, 2001. The PFC is collected by air carriers as part of the price of a ticket and then remitted to the City. The air carriers are permitted by the PFC Enabling Act to retain a portion of each PFC collected as compensation for collecting and handling PFCs. Effective May 1, 2004, the collection fee was increased from \$0.08 of each PFC collected and remitted to \$0.11 of each PFC collected. PFC revenues received by the Airport are net of this collection fee. See

also “AIRLINE BANKRUPTCY MATTERS – PFCs” for a discussion of the impact upon PFC collections in the event of an airline bankruptcy.

The amount of PFC revenues received each Fiscal Year is determined by the PFC rate and the number of qualifying passenger enplanements and level of passengers at the Airport. PFC revenue for the years 2004, 2005, 2006 and 2007 increased 14.2%, 2.2%, 11.3% and 3.9% (preliminary), respectively, compared to the corresponding prior periods. See also “APPENDIX C – GLOSSARY OF TERMS” and “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE.”

The City’s authorization to impose the PFC will expire upon the earlier of January 1, 2030, or the collection of approximately \$3.3 billion of PFC revenues, net of collection fees. Through 2007, the City had collected an aggregate of approximately \$922.3 million (preliminary) of PFC revenues. In addition, the City’s authority to impose the PFC may be terminated: (1) by the FAA, subject to certain procedural safeguards, if (a) PFC revenues are not being used for approved projects in accordance with the FAA’s approval, the PFC Enabling Act or the related FAA regulations, or (b) the City otherwise violates the PFC Enabling Act or FAA regulations; or (2) if the City violates certain provisions of the Airport Noise and Capacity Act of 1990 (the “Noise Act”) and its related regulations, subject to certain procedural safeguards. The City has covenanted that as long as the imposition and use of the PFC is necessary to operate the Airport System in accordance with the requirements of the Senior Bond Ordinance, the City will use its best efforts to continue to impose the PFC and to use PFC revenues at the Airport and to comply with all valid and applicable federal laws and regulations pertaining thereto necessary to maintain the PFC. However, no assurance can be given that the City’s authority to impose the PFC will not be terminated by Congress or the FAA or that the PFC program will not be modified or restricted by Congress or the FAA so as to reduce PFC revenues available to the City. In the event the FAA or Congress reduced or terminated the City’s ability to collect PFCs, the City would likely need to increase airline rates and charges to pay debt service on the Senior Bonds and the Subordinate Bonds and to comply with both the Rate Maintenance Covenant and a similar covenant made in connection with the Subordinate Bonds. See also “Federal Grants and Other Funding” below for a discussion of pending legislation affecting the maximum permissible PFC.

Irrevocable Commitment of Certain PFCs to Debt Service Requirements. The definition of Gross Revenues in the Senior Bond Ordinance does not include PFC revenues unless, and then only to the extent, included as Gross Revenues by the terms of a Supplemental Ordinance. To date, no Supplemental Ordinance has included PFC revenues in the definition of Gross Revenues. The definition of Debt Service Requirements in the Senior Bond Ordinance provides that, in any computation required by the Rate Maintenance Covenant and for the issuance of Additional Parity Bonds, there is to be excluded from Debt Service Requirements amounts irrevocably committed to make such payments. Such irrevocable commitments may be provided from any available Airport System moneys, including PFC revenues. See “APPENDIX C – GLOSSARY OF TERMS” and “SECURITY AND SOURCES OF PAYMENT – Rate Maintenance Covenant – Additional Parity Bonds.”

Under the Senior Bond Ordinance, in order to administer PFC revenues, the City created within the Airport System Fund the PFC Fund, consisting of the PFC Debt Service Account and the PFC Project Account, and defined “Committed Passenger Facility Charges” to mean generally two-thirds of the PFC received by the City from time to time (currently the revenues derived by the City from \$3.00 of the \$4.50 PFC). Pursuant to the PFC Supplemental Ordinance, the City has agreed to deposit all PFC revenues upon receipt in the following order of priority: (1) to the PFC Debt Service Account in each Fiscal Year through 2013, inclusive, the lesser of (a) all Committed Passenger Facility Charges received in each such Fiscal Year, and (b) the portion of Committed Passenger Facility Charges received in each such Fiscal Year that, together with other available amounts credited to the PFC Debt Service Account, will be sufficient to make the payments from the PFC Debt Service Account to the Bond Fund required in each such Fiscal Year, as set forth in the PFC Supplemental Ordinance (the “Maximum Committed

Amounts”); and (2) to the PFC Project Account all PFCs received in each Fiscal Year that are not otherwise required to be applied in clause (1). The City has also irrevocably committed amounts on deposit in the PFC Debt Service Account, up to the Maximum Committed Amounts, to the payment of the Debt Service Requirements on Senior Bonds through December 31, 2013. The Maximum Committed Amounts or any lesser amount of Committed Passenger Facility Charges and other credited amounts that may be deposited to the PFC Debt Service Account are to be transferred to the Bond Fund and used to pay Debt Service Requirements on Senior Bonds in each Fiscal Year through 2013. See also “APPENDIX D – SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE – PFC Fund” for the Maximum Committed Amounts that have been irrevocably committed to the payment of the Debt Service Requirements of the Senior Bonds through Fiscal Year 2013.

The irrevocable commitment of the Committed Passenger Facility Charges up to the Maximum Committed Amounts in the PFC Debt Service Account applies only with respect to the current \$4.50 PFC and not with respect to any PFC that might be imposed as a result of future PFC approvals by the FAA, and is only for the payment of Debt Service Requirements on Senior Bonds through December 31, 2013.

All PFCs deposited to the PFC Project Account may be used for any lawful PFC eligible Airport System purpose as directed by the Manager, including Debt Service Requirements on Senior Bonds.

Aviation Fuel Tax

An amount equal to 65% of any sales and use taxes imposed and collected by the State on aviation fuel sold for use at the Airport by turbo propeller or jet engine aircraft and credited to the State aviation fund is distributed to the City on a monthly basis and may be used by the City exclusively for “aviation purposes” as defined in the statute, excluding subsidization of airlines except for the promotion and marketing of air service at airport facilities. Such receipts are treated by the City as Gross Revenues. State aviation fuel tax receipts remitted to the Airport in 2006 and 2007 were approximately \$13.7 million (restated from the 2006 financial statements to include an additional \$10.7 million discovered by an audit of State tax receipts) and \$14.4 million, respectively.

The City also imposes a separate aviation fuel tax, which is not subject to the State allocation requirements but is treated as Gross Revenues under the Senior Bond Ordinance. City tax receipts in 2006 and 2007 were approximately \$6.5 million and \$7.6 million, respectively.

Federal Grants and Other Funding

Proceeds from federal grants are not included in the definition of Gross Revenues under the Senior Bond Ordinance and therefore are not pledged to the payment of Senior Bonds or Subordinate Bonds. The Airport and Airway Improvement Act of 1982 created the Airport Improvement Program (the “AIP”). AIP grants include entitlement funds that are apportioned annually based upon enplaned passengers and discretionary funds that are available at the discretion of the FAA based upon a national priority system.

FAA authorization and the funding of the Airport and Airway Trust Fund (the primary source of AIP funding) expired on September 30, 2007. The FAA is currently operating under a short-term extension of “Vision 100 - Century of Aviation Reauthorization Act” (Public Law 108-176), which covered federal fiscal years 2004 through 2007. This third temporary extension of the Act expires on June 30, 2008. A new four-year FAA authorization (the “FAA Reauthorization”) is pending before Congress. The House of Representatives has passed its version of the FAA Reauthorization, while the Senate version awaits action by the full Senate. A conference committee is expected to be necessary to resolve bicameral disagreements, and President Bush has released a Statement of Administration Policy

providing his views on a number of the constituent elements of the FAA Reauthorization. The imposition and collection of PFCs are not impacted by the delay in passing an authorization.

Two provisions in the House and Senate versions of the pending FAA Reauthorization would affect the future of capital funding for the Airport. The House and Senate versions each have an increase in AIP funding from the current \$3.7 billion authorized for federal fiscal year 2007. Each version of the FAA Reauthorization has \$3.8 billion available for federal fiscal year 2008, \$3.9 billion for federal fiscal year 2009, \$4.0 billion for federal fiscal year 2010 and \$4.1 billion for federal fiscal year 2011. The House version, but not the Senate version, also includes an increase in the maximum permissible PFC from \$4.50 to \$7.00. See “Passenger Facility Charges” above. This issue is expected to be an item of consideration in the conference committee.

In accordance with current laws and regulations relating to PFCs, because the City imposes a PFC at the rate of \$4.50, annual AIP entitlement grants available to the Airport are reduced by the amount of PFC revenues received during such year, with a maximum reduction of 75% of the amount of the available AIP entitlement grants. The House version of the pending FAA Reauthorization contains a phase-out of AIP entitlements for any airport that increases its PFC above \$4.50. If that language is included in the final version of the legislation and the City increases the PFC above \$4.50, it will have to forego the remaining 25% of its AIP entitlement grants. However, it is expected that the increase in revenue to the Airport from an increase in the PFC would exceed the amount of the lost AIP entitlement grants.

Stapleton

When the Airport opened in February 1995, the City ceased aviation operations at Stapleton and proceeded to dispose of Stapleton’s approximately 4,051 acres. A plan for the redevelopment of the Stapleton site as a mixed-use community containing residential areas, commercial centers and open space and parks was approved by the City Council in March 1995 (the “Redevelopment Plan”). In 1998 the City entered into a Master Lease and Disposition Agreement with the Stapleton Development Corporation (“SDC”), a Colorado nonprofit corporation created by the City and the Denver Urban Renewal Authority, under which the SDC manages, operates and disposes of the Stapleton site in accordance with the Redevelopment Plan.

Prior to February 2000, the City sold approximately 500 acres of the Stapleton site to various private parties. In February 2000, SDC entered into the Stapleton Purchase Agreement with Forest City Enterprises, Inc. under which this entity agreed to (1) purchase the remaining developable Stapleton property over a 15-year period at land values set forth in a December 1999 appraisal (approximately \$123.4 million), (2) pay certain development fees and (3) develop the property according to the principles set forth in the Redevelopment Plan. The SDC has to date sold a total of approximately 1,422 acres of Stapleton property for a total of approximately \$46.8 million, and there are approximately 145 acres of pending sales in the amount of approximately \$5.6 million. An additional 474 acres of open space has been dedicated for parks and other public use space. The proceeds from the sales, net of closing costs, have been deposited to the Capital Fund.

The City allocated approximately \$120 million for certain Stapleton environmental remediation pursuant to an agreement among the City and nine of the air carriers that formerly operated at Stapleton (the “Stapleton Airlines Agreement”), and purchased an environmental liability insurance policy to cover cost overruns and unknown events. Pursuant to the Stapleton Airlines Agreement, three of the signatory air carriers that formerly operated at Stapleton paid an aggregate of \$15 million to the City to perform certain environmental remediation that was related to or caused by their past operations at Stapleton. The cost of certain other environmental remediation at Stapleton that was not attributable to the past operations of any specific airlines is to be funded from rate-based charges to the airlines operating at the

Airport and from Stapleton Gross Proceeds (as defined in the Stapleton Airlines Agreement) in a maximum amount of \$85 million. This amount has been funded as follows: \$13.1 million in Airport Net Revenues previously withheld from the 1996 year-end revenue credit; \$30 million from Airport System Revenue Bonds; and \$41.9 million advanced from the Capital Fund. The debt service on these bonds is being paid by the City from airline rates and charges collected from the airlines through 2025, and the Capital Fund advance is being repaid as Stapleton Gross Proceeds are recognized. Under certain circumstances the City may perform remediation that is beyond the level otherwise required by the Stapleton Airlines Agreement, and the City is permitted to pay up to an additional \$20 million for such additional remediation from the City's share of Airport Net Revenues. The City has paid \$20 million to date for such additional remediation, and does not expect to incur additional costs for environmental remediation at Stapleton that will not be reimbursed under the environmental liability insurance policy discussed above. All of the signatory air carriers were released from any further liability to the City for any obligations relating to or arising out of environmental remediation at Stapleton or disposing of the Stapleton site.

Noise Agreement with Adams County

The City and Adams County, Colorado, from which a portion of land for the Airport was annexed, entered into an Intergovernmental Agreement on a New Airport, dated April 21, 1988 (the "Intergovernmental Agreement"), that, among other things, establishes maximum levels of noise at 101 grid points in the vicinity of the Airport that may not be exceeded on an average annual basis. The Intergovernmental Agreement also establishes a noise contour for the Airport beyond which the City agrees to keep aircraft noise below certain levels.

When calculated noise levels, based on a full year of data, exceed the Intergovernmental Agreement standards, the City and Adams County agreed to jointly petition the FAA to implement changes in flight procedures or Airport operations to bring the noise levels within the standards of the Intergovernmental Agreement. If the FAA fails to act, the City is obligated to impose rules and regulations to meet the noise standards. As defined in the Intergovernmental Agreement, a failure to act by the FAA occurs if (1) the FAA has not stated its intention to implement changes to achieve and maintain the noise levels required by the Intergovernmental Agreement within 180 days of the date of the joint petition by the City and Adams County, or (2) the FAA has not implemented such changes within one year of the date of the joint petition. If the City does not act within 90 days following the FAA's failure to act to impose rules and regulations to achieve the noise standards, Adams County or any affected city may seek a court order compelling the City to do so. If the court does not order the City to act, or finds that the City does not have the authority to act, then the City is obligated to pay to Adams County \$500,000 for each annual Class II violation that occurs at any grid point (when individual grid point values are exceeded by at least two decibels), or the noise contour restriction is exceeded.

Since the opening of the Airport, 13 annual noise reports for the period commencing with the opening of the Airport in February 1995 through December 31, 2007, have been prepared by the City in accordance with the Intergovernmental Agreement. Over that period of time the potential Class II violations have decreased to the extent that the annual noise reports for calendar years ending December 31, 2005, 2006 and 2007 reflected only one potential Class II violation for each year (maximum potential liability of \$500,000 per year) and that the noise contour restriction in the Intergovernmental Agreement had not been exceeded in either year. After a judgment was rendered against the City in favor of Adams County and the Cities of Aurora, Brighton, Commerce City and Thornton for eight noise violations that occurred in 1995 and, together with interest, was paid by the City, the City has settled with, and paid to, Adams County, and if applicable, the other cities, the claims for both Class II violations and noise violations, if any, occurring in the years 1996 through 2006. In the City's judgment, it is likely that noise levels at a limited number of grid points may continue to exceed the levels established under the Intergovernmental Agreement.

Investment Policy

The Senior Bond Ordinance permits the City to invest Airport System funds in “Investment Securities” as defined therein. See “APPENDIX C – GLOSSARY OF TERMS.”

In addition to the Senior Bond Ordinance, provisions of the City Charter regulate the investment of Airport System funds. In accordance with the City Charter, the Chief Financial Officer is responsible for the management of the investment of City funds, including Airport System funds. The Chief Financial Officer is authorized to invest in the following securities: obligations of the United States Government; obligations of United States Government agencies and United States Government sponsored corporations; prime bankers’ acceptances; prime commercial paper; certificates of deposit issued by banks and savings and loan institutions; repurchase agreements; security lending agreements; highly rated municipal securities; money market funds that purchase only the types of securities specified in this paragraph; and other similar securities as may be authorized by ordinance. An ordinance authorizing investment of City funds in forward purchase agreements, debt service reserve fund put agreements and debt obligations of the Resolution Funding Corporation has been approved by the City. The City is not authorized to leverage its securities for investment purposes.

Consistent with the City Charter, the City has adopted a written investment policy which, among other things, mandates diversification by specifying maximum limits for each eligible security type as well as further restrictions, such as the credit quality of commercial paper and the amount of securities of any single issuer that may be held. Investment maturities are generally matched to anticipated cash flow requirements and each month securities held by the City are valued by the City on the basis of fair market value.

Property and Casualty Insurance

The City maintains property insurance for most of the City’s real and personal property located at the Airport except for any real and personal property for which the City contracts with its lessees to provide such insurance. Airport real and personal property is insured based on a total loss limit of \$1 billion, subject to a \$250,000 per occurrence deductible, on a reported value of approximately \$2.9 billion. Valuation of Airport real and personal property is based upon replacement cost, subject to the total loss limit and various sub-limits. Airport motor vehicles and mobile equipment assets are insured under the same property insurance policy at reported values of approximately \$70.9 million. Terrorism and non-certified acts of terrorism are included under the Airport’s property insurance at a sub-limit of \$1 million per occurrence and \$5 million in the aggregate. As an additional cost savings initiative, Airport management has determined that it is not cost-effective to maintain property insurance on the Airport’s runways and roadways, which are valued at approximately \$1.7 billion.

The City maintains liability insurance to cover liabilities arising out of Airport operations. A \$50 million per occurrence liability limit is currently provided with various aviation specific sub-limits. In addition, an Excess Airport Owners and Operators Liability policy provides a limit of \$450 million per occurrence in excess of the \$50 million primary layer. Prior to the events of September 11, 2001, war risk/terrorism insurance was provided as a free rider to the Airport’s general liability insurance policy. After such events the rider was cancelled by the insurer and such insurance was unavailable for a period of time. War risk/terrorism insurance has again been made available to the Airport, although at a cost that Airport management has determined to be prohibitive.

Continued Qualification as an Enterprise

Pursuant to the City Charter, the City by ordinance has designated the Department as an “enterprise” within the meaning of Article X, Section 20 of the State Constitution, the effect of which is

to exempt the Department from the restrictions and limitations otherwise applicable to the City under such constitutional provision. “Enterprises” are defined as government-owned businesses authorized to issue their own revenue bonds and receiving under 10% of their annual revenues in grants from all State and local governments combined. The constitutional provision contemplates that qualification as an “enterprise” is to be determined on an annual basis, and while the City regards the possibility to be remote that the Department might be disqualified as an “enterprise,” such disqualification would have the effect, during such period of disqualification only, of requiring inclusion of the Airport System in the City’s overall spending and revenue base and limitations, and of requiring voter approval for various actions, including, with certain exceptions, the issuance of additional bonds payable from the Net Revenues. One of such exceptions is the ability to refund bonds at a lower interest rate.

AIRLINE BANKRUPTCY MATTERS

Since 2001, several airlines with operations at the Airport, including United and Frontier, have filed for bankruptcy protection, although with the exception of Midway Airlines and Vanguard Airlines, which eventually ceased operations and Frontier Airlines, which filed for bankruptcy protection on April 10, 2008 and is continuing operations, all of these airlines have reorganized and emerged from bankruptcy protection. Additional bankruptcies, liquidations or major restructurings of airlines with operations at the Airport could occur in the future; however, the City cannot predict the extent to which any such events would impact the ability of the Airport to pay the outstanding Senior Bonds, including the Series 2008A1-A4 Bonds. See also “AVIATION ACTIVITY AND AIRLINES – Airline Information – *Frontier*,” “RISKS AND OTHER INVESTMENT CONSIDERATIONS” and “AGREEMENTS FOR USE OF AIRPORT FACILITIES – Passenger Use and Lease Agreements.” The following is a discussion of various impacts to the Airport of an airline bankruptcy.

Assumption or Rejection of Agreements

In the event an airline that has executed a Use and Lease Agreement or other agreement with the City seeks protection under U.S. bankruptcy laws, such airline or its bankruptcy trustee must determine whether to assume or reject its agreements with the City within certain timeframes provided in the bankruptcy laws. In the event of assumption, the airline is required to cure any prior monetary defaults and provide adequate assurance of future performance under the applicable Use and Lease Agreement or other agreements. Due to the recent nature of the Chapter 11 bankruptcy filing by Frontier, the City has not yet received an indication from Frontier whether the airline expects to assume its Use and Lease Agreement as part of its reorganization proceedings.

Rejection of a Use and Lease Agreement or other agreement or executory contract will give rise to an unsecured claim of the City for damages, the amount of which in the case of a Use and Lease Agreement or other agreement is limited by the Bankruptcy Code. However, the amount ultimately received in the event of a rejection of a Use and Lease Agreement or other agreement could be considerably less than the maximum claim amounts allowed under the Bankruptcy Code. Certain amounts unpaid as a result of a rejection of a Use and Lease Agreement or other agreement in connection with an airline in bankruptcy, such as airfield costs and costs associated with the baggage claim area and the AGTS, would be passed on to the remaining airlines under their respective Use and Lease Agreements, thereby increasing such airlines’ cost per enplanement, although there can be no assurance that such other airlines would be financially able to absorb the additional costs. In addition, adjustments could be made to terminal and concourse rents of nonairline tenants, although there can be no assurance that such other tenants would be financially able to absorb the increases.

With respect to any airline that may seek bankruptcy protection under the laws of a foreign country (such as Air Canada as described above), the City is unable to predict what types of orders or

relief could be issued by foreign bankruptcy tribunals, or the extent to which any such orders would be enforceable in the United States. Typically, foreign airline bankruptcy proceedings obtain an order in the United States to support and complement the foreign proceedings and stay the actions of creditors in the United States.

Prepetition Obligations

During the pendency of a bankruptcy proceeding, absent a court order, a debtor airline may not make any payments to the City on account of goods and services provided prior to the bankruptcy. Thus, the City's stream of payments from a debtor airline would be interrupted to the extent of prepetition goods and services, including accrued rent and landing fees. If the use and lease agreement of an airline in bankruptcy is rejected, the airline (or a successor trustee) may seek to avoid and recover as preferential transfers certain payments, including landing fees and terminal rentals, paid by such airline in the 90 days prior to the date of the bankruptcy filing.

PFCs

Pursuant to the PFC Enabling Act, the FAA has approved the City's applications to require the airlines to collect and remit to the City a \$4.50 PFC on each enplaning revenue passenger at the Airport as further discussed in "FINANCIAL INFORMATION – Passenger Facility Charges."

The PFC Enabling Act provides that PFCs collected by the airlines constitute a trust fund held for the beneficial interest of the eligible agency (*i.e.*, the City) imposing the PFCs, except for any handling fee or retention of interest collected on unremitted proceeds. In addition, federal regulations require airlines to account for PFC collections separately and to disclose the existence and amount of funds regarded as trust funds for financial statements. However, the airlines are permitted to commingle PFC collections with other revenues and are also entitled to retain interest earned on PFC collections until such PFC collections are remitted. In the event of a bankruptcy, the PFC Enabling Act, as amended in December 2003, provides certain statutory protections for the City of PFC collections, however, it is unclear whether the City would be able to recover the full amount of PFC trust funds collected or accrued with respect to an airline in the event of a liquidation or cessation of business. The City also cannot predict whether an airline operating at the Airport that files for bankruptcy would have properly accounted for PFCs owed to the City or whether the bankruptcy estate would have sufficient moneys to pay the City in full for PFCs owed by such airline. In its Chapter 11 bankruptcy filings, Frontier has stated that it has established a separate account for PFCs in accordance with law, that it has not granted, nor will it grant, any security interest to a third party in the PFCs owed to the City, and that Frontier understands that collected PFCs are to be held in trust and are not considered property of its debtor estates. As of the date hereof, Frontier is current in its PFCs owed to the City.

LITIGATION

The Airport System is involved in several claims and lawsuits arising in the ordinary course of business. The City believes that any liability assessed against the City as a result of such other claims or lawsuits which are not covered by insurance would not materially adversely affect the financial condition or operations of the Airport System.

FORWARD LOOKING STATEMENTS

This Official Statement contains statements relating to future results that are "forward looking statements" as defined in the federal Private Securities Litigation Reform Act of 1995. When used in this

Official Statement, the words “estimate,” “forecast,” “intend,” “propose,” “plan,” “expect,” “assume” and similar expressions identify forward looking statements. Such statements are subject to risks and uncertainties that could cause actual results to differ materially from those contemplated in such forward looking statements. For a discussion of certain of such risks and possible variations in results, see “RISKS AND OTHER INVESTMENT CONSIDERATIONS – Forward Looking Statements.”

RATINGS

Moody’s Investors Service, Inc. (“Moody’s”), Standard & Poor’s Ratings Service, Inc. (“S&P”) and Fitch, Inc. (“Fitch”) have published ratings of “Aaa,” “AAA” and “AAA,” respectively, with respect to the Insured Bonds based on the understanding that upon delivery of the Insured Bonds, the Bond Insurance Policy insuring the payment when due of principal of and interest on the Insured Bonds will be issued by the Bond Insurer. See “BOND INSURANCE.”

Moody’s, S&P and Fitch have also assigned ratings to the Series 2008A1-A4 Bonds of “A1,” “A+” and “A+,” respectively, in each case with a rating outlook of “stable,” which ratings were all confirmed on April 11, 2008.

The City and the Bond Insurer have furnished to these rating agencies the information contained in the Official Statement and certain other materials and information relating to the Series 2008A1-A4 Bonds, the Airport System and the Bond Insurer, including certain materials and information not included in this Official Statement. Generally, rating agencies base their ratings on such materials and information, as well as investigations, studies and assumptions by the rating agencies.

A rating reflects only the view of the agency assigning such rating and is not a recommendation to buy, sell or hold the Series 2008A1-A4 Bonds. An explanation of the significance of such ratings may be obtained only from the rating agency furnishing the same. Such ratings may be changed at any time, and no assurance can be given that they will not be revised downward or withdrawn entirely by any of such rating agencies if, in the judgment of any of them, circumstances so warrant. Any such downward revision or withdrawal of any of such ratings may have an adverse effect on the market price of the Series 2008A1-A4 Bonds.

UNDERWRITING

The Series 2008A1-A4 Bonds are being purchased from the City by the Underwriters specified on the cover page hereof at a price of \$618,703,270.57, constituting the aggregate principal amount of the Series 2008A1-A4 Bonds plus an original issue premium of \$12,656,769.10 and less an underwriting discount of \$2,793,498.53. Pursuant to a Bond Purchase Agreement entered into by and between the City, for and on behalf of the Department, and Goldman Sachs & Co., as representative of the Underwriters, the Underwriters agree to accept delivery of and pay for all of the Series 2008A1-A4 Bonds if any are delivered. The obligation to make such purchase is subject to certain terms and conditions set forth in the Bond Purchase Agreement, the approval of certain matters by counsel and certain other conditions.

CONTINUING DISCLOSURE

The Senior Bond Ordinance requires the City to prepare and mail to Owners of Senior Bonds requesting such information certain financial reports and an annual audit related to the Airport System prepared in accordance with U.S. generally accepted accounting principles, a copy of which is also

required to be filed with certain nationally recognized municipal securities information repositories. In addition, in order to provide certain continuing disclosure with respect to the Series 2008A1-A4 Bonds in accordance with Rule 15c2-12, which prohibits underwriters from purchasing or selling certain municipal securities unless the issuers of those securities agree to provide continuing disclosure information for the benefit of the owners of those securities, the City will deliver a Continuing Disclosure Undertaking in which it will agree to provide or cause to be provided annually certain additional financial information and operating data concerning the Airport System and other obligated persons and to provide notice of certain enumerated events, if determined to be material. See “APPENDIX G – FORM OF CONTINUING DISCLOSURE UNDERTAKING” for a description of the annual information and the notices of material events to be provided and other terms of the Continuing Disclosure Undertaking.

The City has delivered continuing disclosure undertakings in connection with the issuance of various series of its outstanding Senior Bonds, and believes that it has continually complied with the requirements set forth in Rule 15c2-12 and its previous continuing disclosure undertakings, including the ongoing process of filing material event notices in connection with downgrades in the insured ratings of certain series of Senior Bonds as the result of downgrades in the ratings of the related bond insurers.

LEGAL MATTERS

All legal matters incident to the validity and enforceability of the Series 2008A1-A4 Bonds are subject to the approval of Hogan & Hartson LLP, Denver, Colorado, Bond Counsel, and Bookhardt & O’Toole, Denver, Colorado, Bond Counsel. The substantially final form of the opinions of Bond Counsel is appended to this Official Statement. Certain legal matters will be passed upon for the City by David Fine, Esq., City Attorney, and Peck, Shaffer & Williams LLP, Denver, Colorado, Special Counsel to the City; and for the Underwriters by Sherman & Howard L.L.C., Denver, Colorado, and Kamlet Shepherd & Reichert, LLP, Denver, Colorado.

TAX MATTERS

The following discussion is a summary of the opinions of Bond Counsel that are to be rendered on the tax-exempt status of interest on the Series 2008A1-A4 Bonds and of certain federal and State income tax considerations that may be relevant to prospective purchasers of Series 2008A1-A4 Bonds. This discussion is based upon existing law, including current provisions of the Internal Revenue Code of 1986, as amended (the “Code”), existing and proposed regulations under the Code, and current administrative rulings and court decisions, all of which are subject to change.

Upon issuance of the Series 2008A1-A4 Bonds, Hogan & Hartson LLP, Bond Counsel, and Bookhardt & O’Toole, Bond Counsel, will each provide opinions, substantially in the form appended to this Official Statement, to the effect that, under existing law, interest on the Series 2008A1-A4 Bonds is excluded from gross income for federal income tax purposes, except for any period during which such Series 2008A1-A4 Bonds are held by a person who is a “substantial user” of the Airport System or a “related person,” as those terms are used in Section 147(a) of the Code, but is an item of tax preference in calculating the federal alternative minimum tax liability of individuals, trusts, estates and corporations.

The foregoing opinions will assume compliance by the City with certain requirements of the Code that must be met subsequent to the issuance of the Series 2008A1-A4 Bonds. The City will certify, represent and covenant to comply with such requirements. Failure to comply with such requirements could cause the interest on the Series 2008A1-A4 Bonds to be included in gross income, or could otherwise adversely affect such opinions, retroactive to the date of issuance of the Series 2008A1-A4 Bonds.

The opinions of Bond Counsel will also provide to the effect that, under existing law and to the extent interest on any Series 2008A1-A4 Bond is excluded from gross income for federal income tax purposes, such interest is not subject to income taxation by the State.

If a holder purchases a Series 2008A1-A4 Bond for an amount that is greater than its stated redemption price at maturity, such holder will be considered to have purchased the Series 2008A1-A4 Bond with “amortizable bond premium” equal in amount to such excess. A holder must amortize such premium using a constant yield method over the remaining terms of the Series 2008A1-A4 Bond, based on the holder’s yield to maturity. As bond premium is amortized, the holder’s tax basis in such Series 2008A1-A4 Bond is reduced by a corresponding amount, resulting in an increase in the gain (or decrease in the loss) to be recognized for federal income tax purposes upon a sale or other disposition of the Series 2008A1-A4 Bond prior to its maturity. No federal income tax deduction is allowed with respect to amortizable bond premium on a Series 2008A1-A4 Bond. Purchasers of Series 2008A1-A4 Bonds with amortizable bond premium should consult with their own tax advisors regarding the proper computation of amortizable bond premium and with respect to state and local tax consequences of owning such Series 2008A1-A4 Bonds.

Other than the matters specifically referred to above, Bond Counsel express, and will express, no opinions regarding the federal, State, local or other tax consequences of the purchase, ownership and disposition of Series 2008A1-A4 Bonds. Prospective purchasers of the Series 2008A1-A4 Bonds should be aware, however, that the Code contains numerous provisions under which receipt of interest on the Series 2008A1-A4 Bonds may have adverse federal tax consequences for certain taxpayers. Such consequences include the following: (1) Section 265 of the Code denies a deduction for interest on indebtedness incurred or continued to purchase or carry the Series 2008A1-A4 Bonds or, in the case of financial institutions, that portion of a holder’s interest expense allocated to interest on the Series 2008A1-A4 Bonds; (2) with respect to insurance companies subject to the tax imposed by Section 831 of the Code, Section 832(b)(5)(B)(i) reduces the deduction for loss reserves by 15% of the sum of certain items, including interest on the Series 2008A1-A4 Bonds; (3) interest on the Series 2008A1-A4 Bonds earned by certain foreign corporations doing business in the United States could be subject to a branch profits tax imposed by Section 884 of the Code; (4) passive investment income, including interest on the Series 2008A1-A4 Bonds, may be subject to federal income taxation under Section 1375 of the Code for Subchapter S corporations that have Subchapter C earnings and profits at the close of the taxable year if greater than 25% of the gross receipts of such Subchapter S corporation is passive investment income and (5) Section 86 of the Code requires recipients of certain Social Security and certain railroad retirement benefits to take into account, in determining the inclusion of such benefits in gross income, receipts or accrual of interest on the Series 2008A1-A4 Bonds.

The Internal Revenue Service (the “Service”) has an ongoing program of auditing state and local government obligations, which may include randomly selecting bond issues for audit, to determine whether interest paid to the holders is properly excludable from gross income for federal income tax purposes. It cannot be predicted whether the Series 2008A1-A4 Bonds will be audited. If an audit is commenced, under current Service procedures the holders of the Series 2008A1-A4 Bonds may not be permitted to participate in the audit process. Moreover, public awareness of an audit of the Series 2008A1-A4 Bonds could adversely affect their value and liquidity.

Bond Counsel will render their opinions as of the issue date, and will assume no obligation to update their opinions after the issue date to reflect any future facts or circumstances, or any future changes in law or interpretation, or otherwise. Moreover, the opinions of Bond Counsel are not binding on the courts or the IRS; rather, such opinions represent Bond Counsel’s legal judgment based upon their review of existing law and upon the certifications, representations and covenants referenced above.

Amendments to federal and state tax laws are proposed from time to time and could be enacted, and court decisions and administrative interpretations may be rendered, in the future. There can be no assurance that any such future amendments or actions will not adversely affect the value of the Series 2008A1-A4 Bonds, the exclusion of interest on the Series 2008A1-A4 Bonds from gross income, alternative minimum taxable income, state taxable income, or any combination from the date of issuance of the Series 2008A1-A4 Bonds or any other date, or that such changes will not result in other adverse federal or state tax consequences. For example, on November 5, 2007, the United States Supreme Court heard oral arguments on an appeal from a Kentucky state court which ruled that the United States Constitution prohibited the state from providing a tax exemption for interest on bonds issued by the state and its political subdivisions but taxing interest on obligations issued by other states and their political subdivisions.

Prospective purchasers of Series 2008A1-A4 Bonds should consult their own tax advisors as to the applicability and extent of federal, State, local or other tax consequences of the purchase, ownership and disposition of Series 2008A1-A4 Bonds in light of their particular tax situation.

VERIFICATION OF MATHEMATICAL ACCURACY

A portion of the net proceeds of the Series 2008A1-A4 Bonds will be deposited to one or more irrevocable Escrow Accounts to be established pursuant to an escrow agreement to be entered into by and between the City and Zions First National Bank, Denver, Colorado, as escrow agent, and utilized, together with any earnings on such deposits, to redeem and pay the Refunded Bonds in accordance with the schedules set forth in such agreement. Causey Demgen & Moore Inc., certified public accountants, will verify from the information provided to them the mathematical accuracy as of the date of issuance of the Series 2008A1-A4 Bonds of the computations contained in the provided schedules to determine that the anticipated receipts from the securities and cash deposits to be held in escrow will be sufficient to pay, when due, the principal, interest and redemption premium, if any, with respect to the Refunded Bonds. No opinion will be expressed as to the assumptions provided to such firm, or as to the exemption from taxation of the interest on the Series 2008A1-A4 Bonds. See also "APPLICATION OF PROCEEDS."

EXPERTS

DEPFA First Albany Securities LLC and Estrada Hinojosa & Company, Inc. have served as Financial Consultants to the City with respect to the Series 2008A1-A4 Bonds and in such capacity have prepared the Plan of Financing.

The July 2007 Report of the Airport Consultant appended to this Official Statement was prepared by Jacobs Consultancy Inc. in its capacity as Airport Consultant to the City and in connection with the marketing of the Series 2007 Bonds. The July 2007 Report has not been revised since its dated date. **BECAUSE THE JULY 2007 REPORT HAS NOT BEEN UPDATED, PROSPECTIVE INVESTORS ARE ADVISED THAT THE FORECASTS, ESTIMATES AND EXCLUDED PORTION IN THE JULY 2007 REPORT SHOULD NOT BE RELIED UPON IN MAKING ANY DECISION TO PURCHASE THE SERIES 2008A1-A4 BONDS.** See "INTRODUCTION - Limited Purpose of July 2007 Report of the Airport Consultant."

FINANCIAL STATEMENTS

The financial statements of the Airport System as of and for the years ended December 31, 2006 and 2005 are attached to this Official Statement as “APPENDIX A – ANNUAL FINANCIAL REPORT OF THE AIRPORT SYSTEM FOR FISCAL YEARS 2006 AND 2005.” BKD, LLP has not performed any procedures relating to this Official Statement. The consent of BKD, LLP to the inclusion of APPENDIX A was not sought or obtained. The financial statements present only the Airport System and do not present the financial position of the City and County of Denver, Colorado.

The 2006 financial statements do not reflect the restatement of certain amounts as discussed in “FINANCIAL INFORMATION – Historical Financial Operations.”

[Remainder of page intentionally left blank]

MISCELLANEOUS

The cover page, prefatory information and appendices to this Official Statement are integral parts hereof and must be read together with all other parts of this Official Statement. The descriptions of the documents, statutes, reports or other instruments included herein do not purport to be comprehensive or definitive and are qualified in the entirety by reference to each such document, statute, report or other instrument. During the offering period of the Series 2008A1-4 Bonds, a copy of the Senior Bond Ordinance may be obtained from the City and the Department.

So far as any statements made in this Official Statement involve matters of opinion, forecasts, projections or estimates, whether or not expressly stated, they are set forth as such and not as representations of fact.

Independent Accountants' Report on Financial Statements and Supplementary Information

The Honorable John W. Hickenlooper, Mayor
Members of the City Council
The Honorable Dennis J. Gallagher, Auditor
Members of the Audit Committee
City and County of Denver
Denver, Colorado

We have audited the accompanying basic financial statements of City and County of Denver, Colorado Municipal Airport System (the Airport System), an enterprise fund of the City and County of Denver, as of and for the year ended December 31, 2006, as listed in the table of contents. These financial statements are the responsibility of the City and County of Denver's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of the Airport System as of and for the year ended December 31, 2005, were audited by other accountants whose report dated May 5, 2006, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the financial statements of the Airport System are intended to present the financial position and the changes in financial position and cash flows of only that portion of the business-type activities of City and County of Denver that is attributable to the transactions of the Airport System. They do not purport to, and do not, present fairly the financial position of the City and County of Denver as of December 31, 2006 and 2005, the changes in its financial position, or, where applicable, its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the 2006 financial statements referred to above present fairly, in all material respects, the financial position of the Airport System as of December 31, 2006, and the changes in its financial position and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Honorable John W. Hickenlooper, Mayor
Members of the City Council
The Honorable Dennis J. Gallagher, Auditor
Members of the Audit Committee
City and County of Denver

The accompanying management's discussion and analysis as listed in the table of contents is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The Introductory Section; the Schedule of Compliance with Rate Maintenance Covenant as Defined in the 1984 Airport System General Bond Ordinance Airport Revenue Account; the Schedule of Required Deposits to the Bond Account, Bond Reserve Account, and the Operation and Maintenance Reserve Account as Defined in the 1984 Airport System General Bond Ordinance; the Summary of Insurance Coverage; and the Annual Financial Information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The Introductory Section; the Schedule of Compliance with Rate Maintenance Covenant as Defined in the 1984 Airport System General Bond Ordinance Airport Revenue Account; the Schedule of Required Deposits to the Bond Account, Bond Reserve Account, and the Operation and Maintenance Reserve Account as Defined in the 1984 Airport System General Bond Ordinance; the Summary of Insurance Coverage; and the Annual Financial Information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

BKD, LLP

July 2, 2007

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Management's Discussion and Analysis (Unaudited)
December 31, 2006 and 2005

Management's Discussion and Analysis

The following discussion and analysis of the financial position of and activity of the Municipal Airport System (Airport System) of the City and County of Denver, Colorado (the City) provides an introduction and understanding of the basic financial statements of the Airport System as of and for the years ended December 31, 2006 and 2005. The Airport System includes the Denver International Airport (the Airport) and the former Stapleton International Airport (Stapleton). This discussion has been prepared by management and should be read in conjunction with the financial statements and the notes thereto, which follow this section.

Financial Highlights

Operating revenues at the Airport were \$500.8 million for the year ended December 31, 2006, an increase of \$6.3 million (1.3%), as compared to December 31, 2005. The increase in revenue was primarily related to the increase in passenger traffic, which led to an increase in concession, parking, and car rental revenues. Passenger traffic increased 9.1% for the year ended December 31, 2006.

Operating expenses, exclusive of depreciation, were \$256.1 million for the year ended December 31, 2006, an increase of \$25.0 million (10.8%) as compared to December 31, 2005. The increase was attributable to an increase in personnel costs, snow removal (due to December 2006 blizzards), guard services, janitorial services and repair and maintenance costs.

Overview of the Financial Statements

The Airport System is an enterprise fund of the City. An enterprise fund is established to account for operations that are financed and operated in a manner similar to business-type activities, where fees are charged to external parties to cover the costs of providing goods and services. An enterprise fund uses the accrual basis of accounting, and accordingly, revenues are recognized when earned and expenses are recognized as incurred.

The Airport System's financial statements consist of statements of net assets, statements of revenues, expenses and changes in net assets, statements of cash flows, and notes to those financial statements. The statements of net assets present information on the Airport System's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets serve as a useful indicator of whether the financial position of the Airport System is improving or deteriorating. The statements of revenues, expenses, and changes in net assets present information showing how the Airport System's net assets changed during the fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods. The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the financial statements.

December 31, 2006 and 2005

Operating Revenues

% of Total Operating Revenues

In order to understand some of the variances in the Airport System financial statement changes, the analysis below explains the increase in revenues.

The Airport System's activities increased in four areas as described below and decreased in cargo for the year ended December 31, 2006 as compared to 2005 (in thousands):

	<u>2006</u>	<u>2005</u>	<u>Percentage Change</u>
Enplanements	23,665	21,702	9.0%
Passengers	47,325	43,388	9.1%
Aircraft operations (1)	610	568	7.4%
Cargo (in pounds)	621,655	683,237	(9.0)%
Landed weight (in tons)	31,848	29,636	7.5%

(1) Aircraft operations are takeoffs, landings, or other communications with the control tower.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Management's Discussion and Analysis (Unaudited)
December 31, 2006 and 2005

The Airport System's activities increased in three areas as described below and decreased slightly in landed weight and cargo for the year ended December 31, 2005 as compared to 2004 (in thousands):

	<u>2005</u>	<u>2004</u>	<u>Percentage Change</u>
Enplanements	21,702	21,144	2.6%
Passengers	43,388	42,276	2.6%
Aircraft operations (1)	568	567	0.2%
Cargo (in pounds)	683,237	699,827	(2.4)%
Landed weight (in tons)	29,636	29,651	(0.1)%

(1) Aircraft operations are takeoffs, landings, or other communications with the control tower.

Operating revenues increased by 1.3%, from \$494.5 million in 2005 to \$500.8 million in 2006, primarily due to increases in parking, concession revenues, and car rentals. The parking revenue increase of \$12.6 million, or 12.9%, is attributable to an increase in originating and deplaning (O&D) passenger traffic and an increase in parking rates, discussed below. Concession revenues between 2006 and 2005 increased \$1.7 million, or 5.3%. The concession revenue increase was attributable to food and beverage service and retail concession revenue growth due to an increase in passenger traffic and an increase in the spend rate per passenger. Car rental revenues increased by \$4.5 million, or 12.0%, to \$41.6 million due to an increase in O&D passenger traffic and increased usage charges.

Facility Rentals and Landing Fees decreased in 2006 compared to 2005 by \$6.4 million (3.2%) and \$2.3 million (2.4%) respectively. Charges to airlines are based on the costs of providing the facilities and services. In 2006 these costs decreased because of a reduction in the debt service allocated to airline cost centers, thereby reducing the airline revenues.

Aviation fuel tax revenue in 2006 decreased \$4.3 million, or 25.2%, primarily due to a decrease in aviation fuel usage related to aircraft tanker fueling outside of the Airport.

Operating revenues increased by 3.5%, from \$477.7 million in 2004 to \$494.5 million in 2005, primarily due to increases in parking, landing fees, concession revenues, and car rentals. The parking revenue increase of \$9.5 million, or 10.8%, is attributable to an increase in originating and deplaning (O&D) passenger traffic and a rate increase effective June 15, 2005. The Airport System increased maximum daily parking rates in the garage and valet by \$3, from \$15 to \$18 and \$21 to \$24 per day, respectively. Also, there was a \$2 increase in the economy parking lot, from \$7 to \$9 per day. The landing fees increase of \$6.0 million, or 6.7%, is attributable to reductions in the year-end settlement in the landing fee rate calculation for signatory airlines. Concession revenues between 2004 and 2005 increased \$1.9 million, or 6.3%. The concession revenue increase was attributable to food and beverage service and retail concession revenue growth due to an increase in passenger traffic and an increase in the spend rate per passenger. Car rental revenues increased by \$3.4 million, or 10.1%, to \$37.2 million due to an increase in O&D passenger traffic and increased usage charges.

Aviation fuel tax in 2005 increased \$1.6 million, or 10.3%, primarily due to an increase in aviation fuel usage and prices.

MUNICIPAL AIRPORT SYSTEM**

Management's Discussion and Analysis (Unaudited)
December 31, 2006 and 2005

Operating Expenses Before Depreciation, Amortization and Impairment Losses

(In thousands)

	<u>2006</u>	<u>2005</u>	<u>2004</u>
Operating expenses before depreciation, amortization and impairment losses			
Personnel services	\$ 97,592	\$ 92,980	\$ 90,006
Contractual services	139,652	122,193	117,091
Maintenance, supplies, and materials	<u>18,903</u>	<u>15,956</u>	<u>14,117</u>
Total operating expenses before depreciation, amortization, and impairment losses	<u>\$ 256,147</u>	<u>\$ 231,129</u>	<u>\$ 221,214</u>

% Total Operating Expenses Before Depreciation, Amortization and Impairment Losses

2006/2005

Operating expenses before depreciation, amortization and impairment losses increased by 10.8%, from \$231.1 million in 2005 to \$256.1 million in 2006. The increase in contractual services in 2006 compared to 2005 of \$17.5 million was due to an increase in snow removal costs due to blizzards that occurred in December 2006, as well as an increase in janitorial services, guard services and repair and maintenance expense.

Contractual services also saw an increase in the repair and maintenance expense for the Automated Ground Transportation System (AGTS) train due to an increase in the contracted maintenance rates.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Management's Discussion and Analysis (Unaudited)
December 31, 2006 and 2005

Personnel services increased by \$4.6 million, or 5.0%, to \$97.6 million in 2006 compared to \$93.0 million in 2005. The increase in personnel costs was due in part to an increase in permanent salaries of 2.25% granted in 2006. Also, snow overtime costs relating to the December 2006 blizzards and a performance based bonus given to all personnel in December of 2006, contributed to the increase. Maintenance, supplies, and materials increased \$2.9 million, or 18.5%, to \$18.9 million from \$16.0 million in 2005 due to an increase in runway lighting costs and plumbing supplies costs. An increase in commercial chemical solvents used during the December 2006 blizzards, heating plant repair parts and jet bridges, also contributed to the increase in 2006.

2005/2004

Operating expenses before depreciation, amortization and impairment losses increased by 4.5%, from \$221.2 million in 2004 to \$231.1 million in 2005. The increase in contractual services in 2005 of \$5.1 million was due to an increase in electricity, gas, janitorial services, and repair and maintenance expenses offset by a decrease in aircraft noise penalty cost of \$1.5 million.

Contractual services also saw an increase in the repair and maintenance expense for the Automated Ground Transportation System (AGTS) train due to an increase in the contracted maintenance rates. In addition, contract snow removal costs were higher in 2005 due to an April 2005 blizzard.

Personnel services increased by \$3.0 million, or 3.3%, to \$93.0 million in 2005 compared to \$90.0 million in 2004. The increase in personnel and other city personnel (fire and police) costs was due in part to an increase in permanent salaries of 2.25% granted in 2005. Also, snow overtime costs relating to the April 2005 blizzard contributed to the increase.

Maintenance, supplies, and materials increased \$1.8 million, or 13.0%, to \$16.0 million from \$14.1 million in 2004 due to the increase in runway lighting and janitorial supplies. In addition, an increase in natural gas rates, diesel fuel, and gasoline rates, as a result of increasing oil costs, also contributed to the increase in 2005.

Impairment Losses

In 2005, the Airport System concluded that sections of the automated baggage system were permanently impaired. As a result, the Airport System removed these sections of the automated baggage system, from its books, resulting in an impairment loss of \$85.3 million in 2005. See further discussion regarding the write-off of the automated baggage system in the Capital Assets section below.

Nonoperating Revenues and Expenses

2006

Total nonoperating expenses, net of nonoperating revenues, decreased by \$39.5 million to \$67.8 million in 2006. This decrease was due to an increase in investment income of \$20.3 million, or 56.7%, which was due to an increase in yields and additional investment of cash received related to notes payable. In addition, PFC revenues increased \$9.5 million, or 11.3%, due to an increase in passenger traffic. Lastly, there was a decrease in other expense due to the completion of environmental costs associated with remediation of Stapleton, offset by an increase of \$2.2 million of interest expense due to an increase in notes payable.

In 2006 and 2005, capital grants totaled \$29.2 million and \$31.5 million, respectively. The decrease in 2006 capital grants was due to the completion of the Explosive Detection System (EDS) in 2005, which was federally

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Management's Discussion and Analysis (Unaudited)
December 31, 2006 and 2005

funded. All PFCs were reallocated to the payment of debt service related to the automated baggage system and the original cost of the Airport.

2005

Total nonoperating expenses, net of nonoperating revenues, decreased by \$31.3 million to \$107.2 million in 2005. This decrease was due to the increase in investment income of \$13.3 million, or 59.3%, which was due to an increase in yields and more cash being invested long term. In addition, PFC revenues increased \$22.0 million, or 35.4%, due to an increase in passenger traffic. Lastly, there was decrease in interest expense of \$16.2 million from the refunding of debt. These factors were offset by an increase in other expense due to an additional \$16.2 million in environmental costs associated with the remediation of Stapleton.

In 2005 and 2004, capital grants totaled \$31.5 million and \$42.1 million, respectively. The decrease in 2005 capital grants was due to the completion of the Explosive Detection System (EDS), which was federally funded. Also, in 2005, there was no capital PFC revenue while in 2004, capital PFC revenues totaled \$20.1 million. The decrease in capital PFCs was due to reallocation of PFCs revenues from capital projects to the payment of debt service related to the automated baggage system.

Net assets(deficit):			
Invested in capital assets, net of related debt	(212,179)	(236,200)	(168,315)
Restricted	543,978	488,337	547,526
Unrestricted	370,970	388,059	305,549
Total net assets	<u>\$ 702,769</u>	<u>\$ 640,196</u>	<u>\$ 684,760</u>

2006

Assets decreased by \$.6 million in 2006 as compared to 2005. This was principally due to the decrease in capital assets of \$22.1 million. The decline in capital assets was due to normal annual depreciation of approximately \$143.5 million and retirements of \$9.2 million. The decrease in capital assets was offset by purchases of machinery, equipment and additions to construction in progress of approximately \$130.6 million for improvements.

Cash, cash equivalents and investments increased by \$28.9 million in 2006 as compared to 2005 resulting in part from operating activities, passenger facility charges and note proceeds. This was offset by payments of debt of \$123.1 million and purchases of capital assets. See the statement of cash flows for more information regarding the change in cash and investments.

CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM

Management's Discussion and Analysis (Unaudited)
December 31, 2006 and 2005

Grants receivable increased by \$10.4 million. Grants receivable of \$9.5 million were outstanding at the end of 2006 relating to the bomb detection system project and final reimbursements due from TSA.

Lastly, deferred bond issue costs declined by \$14.8 million due to the removal of costs related to the 1996 bonds that were refunded totaling \$17.4 million, the addition of costs related to the 2006 bonds that were issued totaling \$6.4 million and the annual amortization of the costs totaling \$3.8 million.

Total liabilities decreased by \$68.5 million in 2006, compared to 2005, primarily due to the decrease in bonds (which was attributable to principal payments paid during 2006) and deferred rent, offset by an increase in notes payable.

Of the Airport System's 2006 total net assets, 77.4% are restricted for future debt service. The bond reserve account and bond accounts that are externally restricted for debt service represent \$544.0 million.

At December 31, 2006, the remaining net assets include unrestricted net assets of \$371.0 million, which may be used to meet any of the Airport System's ongoing operations. Management of the Airport System has internally designated \$67.3 million of its unrestricted net asset amounts, as allowed in the 1984 Airport System General Bond Ordinance as supplemented and amended, to help meet debt covenant coverage requirements. In addition, (\$212.2) million represents the Airport's investment in capital assets, net of related debt. A negative investment results because the outstanding indebtedness exceeds the assets' net book value.

2005

Assets decreased by \$173.4 million in 2005 as compared to 2004. This was largely due to a decrease in capital assets of \$125.1 million. The decline in capital assets was due to two factors: 1) the write-off of portions of the automatic baggage system and sortation systems with a net book value of approximately \$43.0 million and \$33.5 million, respectively, and 2) normal annual depreciation of approximately \$146.9 million. These decreases in capital assets were offset by purchases of machinery, equipment, and additions to construction in progress of approximately \$107.1 million.

Cash, cash equivalents, and investments also contributed to the Airport System's decrease in total assets. Cash, cash equivalents, and investments decreased by \$22.8 million in 2005 as compared to 2004 due to payments of debt principal of approximately \$120 million and purchases of capital assets as discussed above. These payments were offset by increased cash flows received from operating activities, passenger facility charges, and capital grant receipts. See the statement of cash flows for more information regarding the change in cash and investments.

Grants receivable declined by \$21.1 million. In 2004, the Airport System was due an outstanding reimbursement from the Transportation Security Administration (TSA) to cover costs relating to the bomb detection system initially paid by the Airport System in 2004. The TSA made the reimbursement in 2005, thus relieving this receivable. Only \$1.7 million in grants receivable were outstanding in 2005 related to the bomb detection system project.

Lastly, deferred bond issue costs declined by \$12.6 million due to the removal of costs related to the 1995 bonds that were refunded totaling \$15.4 million, the addition of costs related to the 2005 bonds that were issued totaling \$6.9 million and the annual amortization of the costs totaling \$2.2 million.

CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM

Management's Discussion and Analysis (Unaudited)
December 31, 2006 and 2005

Liabilities decreased by \$128.8 million in 2005, compared to 2004, primarily due to the decrease in bonds and notes payable, which was attributable to principal payments paid during 2005 as discussed above.

Of the Airport System's 2005 total net assets, 76.3% were restricted for future debt service and capital construction. The bond reserve account and bond accounts that are externally restricted for debt service represent \$480.0 million. The Stapleton redevelopment and sixth runway totaling \$8.3 million, are restricted because the funds were received from other entities and are to be used only for specific capital projects.

At December 31, 2005, the remaining net assets include unrestricted net assets of \$388.1 million, which may be used to meet any of the Airport System's ongoing operations. Management of the Airport System has internally designated \$67.3 million of its unrestricted net asset amounts, as allowed in the 1984 Airport System General Bond Ordinance as supplemented and amended, to help meet debt covenant coverage requirements. In addition, (\$236.2) million represents the Airport's investment in capital assets, net of related debt. A negative investment results because the outstanding indebtedness exceeds the assets' net book value.

Long-Term Debt

As of December 31, 2006 and 2005, the Airport System had approximately \$3.6 billion and \$3.7 billion, respectively, in outstanding bonded debt, both senior and subordinate, paying fixed and variable interest rates. The total annual debt service (principal and interest) was approximately \$295.4 million in 2006. The Airport System has called or refunded over \$2.0 billion in higher interest rate debt originally issued in the early 1990s. This has resulted in cumulative present value debt service savings of approximately \$737.0 million.

The Airport System's senior lien debt is currently rated by Standard & Poors, Moody's, and Fitch at A+, A1 and A+, respectively, with stable outlooks as of December 2006.

The Airport System's governing bond ordinances (the bond ordinance) require that the Airport System's net revenues plus other available funds, as defined in the bond ordinance, be sufficient to provide debt service coverage of 125% of the annual debt service requirement on senior bonds. The debt service coverage ratio for the years ended December 31, 2006 and 2005 was 174% and 162%, respectively, of total debt service.

The Airport System entered into a \$23.0 million and \$2.0 million, for a total of \$25 million, Master Installment Purchase Agreement with Koch Financial Corporation on October 26, 2006, to finance various capital equipment purchases, for ten-year and five-year terms, respectively. The Airport System also entered into a \$9.0 million Master Installment Purchase Agreement with GE Capital Public Finance, Inc., on October 26, 2006, to finance four train cars, for a ten-year term.

On August 17, 2006, the Airport issued \$279,585,000 and \$170,005,000 of Airport System Revenue Bonds, Series 2006A and 2006B respectively, in a fixed rate mode for the purpose of currently refunding \$461,860,000 of the 1996A, 1996B, 1996C and 1996D bonds.

On August 9, 2006, the Airport System amended the 2005A Swap Agreements, described below. The notional amounts of the 2005 Swap Agreements were reduced to \$56.0 million, \$56.0 million, \$112.0 million and \$56.0 million, respectively, and the aggregate weighted average fixed rate payable by the Airport System under the 2005 Swap Agreements was reduced to 3.66%.

On August 9, 2006 the Airport System entered into interest rate Swap Agreements (the 2006B Swap Agreements) with four financial institutions in order to synthetically create variable rate debt in association with the refunding of the

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Management's Discussion and Analysis (Unaudited)
December 31, 2006 and 2005

Series 1996A and 1996D Bonds on August 17, 2006. The 2006B Swap Agreements have notional amounts of \$56.0 million, \$56.0 million, \$112.0 million and \$56 million, respectively, and provide for certain payments to or from each financial institution equal to the difference between a variable rate based on the Bond Market Association Index payable by the Airport System under each Agreement and a fixed rate payable by the respective financial institutions. The aggregate weighted average fixed rate payable by the financial institutions under the 2006B Swap Agreements is 4.09%. The 2006B Swap Agreements have an effective date of November 15, 2006. Payments under these Agreements commenced on December 1, 2006.

The net effect of the 2006B Swap Agreements, when considered together with the fixed rate Series 2006A bonds, is that the Airport System will effectively pay a variable rate based on BMA plus or minus the difference between the fixed rate on the Series 2006A bonds and the fixed rate received under the 2006B Agreements on \$280.0 million of obligations.

In November 2006, the 2005 Swap Agreements became effective (see "The 2005 Swap Agreements"). The net effect of the 2005 Swap Agreements, when considered together with the fixed rate Series 2006A bonds and the 2006B Swap Agreements is that the Airport System will pay a fixed rate plus or minus the difference between the BMA index and 70.0% of 1-month London Interbank Offered Rate (LIBOR) minus the difference of the fixed receiver rate on the 2006B Swap and the weighted average fixed payor rate on the 2005 Swap on \$280.0 million of obligations.

The Airport System entered into a \$20.0 million Master Installment Purchase Agreement with GE Capital Public Finance, Inc. on August 1, 2006 to finance capital equipment purchases based on a five year useful life.

On June 1, 2006 the Airport System entered into interest rate swap agreements (the "2006A Swap Agreements"), constituting Subordinate Hedge Facility Obligations, with three financial institutions in order to take advantage of and secure prevailing interest rates in contemplation of the refunding of the Series 1997E Bonds through the Airport System's issuance of variable rate bonds on or before November 15, 2007. The 2006A Swap Agreements have notional amounts of \$181.0 million, \$121.0 million and \$60.0 million, respectively, and provide for certain payments to or from each financial institution equal to the difference between the fixed rate payable by the Airport System under each Agreement and 70% of LIBOR for one month deposits of U.S. dollars payable for the respective financial institutions. The aggregate weighted average fixed rate payable by the Airport System under the 2006A Swap Agreements is 4.01%. The 2006A Swap Agreements have an effective date of November 15, 2007. Payments under these Agreements have not commenced.

On August 25, 2005, the Airport issued \$227,740,000 of Airport System Revenue Bonds, Series 2005A in a fixed mode for the purpose of currently refunding \$230,760,000 of the 1995A bonds.

On November 10, 2005, the Airport issued \$91,750,000 and \$87,700,000 in an auction rate mode and a variable rate mode, respectively, for the purpose of currently refunding \$90,510,000 and \$87,845,000 of the 1995B and 1995C bonds, respectively.

As previously discussed, on April 14, 2005, the Airport System entered into interest rate swap agreements (the 2005A Swap Agreements), constituting Subordinate Hedge Facility Obligations, with four financial institutions, in order to take advantage of and secure prevailing interest rates in contemplation of the refunding of the Series 1996A Bonds and the Series 1996D Bonds through the Airport System's issuance of variable rate bonds on or before November 15, 2006. The 2005 Swap Agreements originally had notional amounts of \$120 million, \$60 million, \$60 million, and \$60 million, respectively, prior to amendment, and provided for certain payments to or from each financial institution equal to the difference between the fixed rate payable by

December 31, 2006 and 2005

the Airport System under each of the 2005 Swap Agreements and the floating rate equal to 70% of one month LIBOR.

In July 2005, the Airport System and United reached an agreement for United to permanently release two Concourse A gates that had been temporarily released by United under the Stipulated Order. In exchange, the Airport System agreed to allocate \$10.0 million in surplus PFC revenues or other available funds to reduce the Debt Service Requirements on the automated baggage system, which is discussed below.

Capital Assets

As of December 31, 2006 and 2005, the Airport System had capital assets of approximately \$3.3 billion and \$3.4 billion, respectively. These amounts are net of accumulated depreciation of approximately \$1.4 billion and \$1.2 billion, respectively.

Explosive Detection System: On September 2, 2003, the Airport and TSA entered in to a Memorandum of Agreement (TSA MOA), regarding the implementation of screening of all checked baggage by the EDS. The total cost of the EDS project was estimated to be approximately \$92.0 million. With the approval of TSA, as required under the TSA MOA, the Airport entered into a contract with Siemens Dematic Corporation for the implementation of the EDS project, designed by Logplan. The construction of the EDS baggage system commenced in 2003 and each of the Airport's six terminal modules and customs recheck areas were 100% automated in May 2005. Total cost of the project was \$170.5 million, of which \$71.0 million is being funded by federal grants.

Automated Baggage System: United discontinued use of the automated baggage system and reverted to the traditional tug and cart system on September 6, 2005. At December 31, 2004, the book value of the baggage system equipment was \$49.6 million. The rates and charges associated with the system continued to be charged to United as the exclusive user of Concourse B. However, the Airport System began discussions with United and all airlines to explore ways to mitigate automated baggage system costs over time, consistent with the cost reduction goals and sources of funds outlined in the Stipulated Order. These discussions culminated with the 2005-2 Amendatory Agreement whereby the Airport System will reduce United's Rates and Charges up to \$11.0 million per year, over three years, in exchange for certain concessions. Airport System management commissioned a study to determine what, if any, of the existing automated baggage system would be usable in a new system. Based upon this study, management concluded that the bulk of the automated baggage system was impaired and, as a result, management wrote off approximately \$43.0 million of the baggage system during 2005, with a remaining book value at December 31, 2006 of \$3.2 million.

2006 Amendment: In a 2006 Amendment, the Airport System agreed to further mitigate United's baggage system charges by defeasing certain outstanding Airport System Revenue Bonds and reducing amortization charges allocated to the automated baggage system in stated amounts not to exceed \$10 million per year, using available Capital Fund moneys and other legally available Airport funds to defease associated debt. The Airport System also agreed to improve the existing commuter facilities on the east end of Concourse B in order to accommodate larger regional jet aircraft and provide new and enhanced passenger amenities. These improvements, referred to herein as the Concourse B Commuter Facility Project, are estimated to cost approximately \$41.5 million. The facility opened April 24, 2007.

Under the 2006 Amendment, United will gradually relinquish its six leased gates on Concourse A. The Airport System expects that Frontier or other airlines will lease, or use on a nonpreferential basis, the gates relinquished

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Management's Discussion and Analysis (Unaudited)
December 31, 2006 and 2005

by United as they become available. United relinquished one of the Concourse A gates on July 1, 2006, relinquished a second Concourse A gate effective November 30, 2006, and has agreed to relinquish the remaining four Concourse A gates upon the completion of the Concourse B Commuter Facility Project. The full relinquishment occurred May 1, 2007.

Baggage Sortation System: The Airport System management commissioned Aviation and Airport Professionals (AvAirPros) to study the future baggage handling system master plan. The master plan states that, at this time, the existing concourses (A, B, and C) are configured with sortation systems that were operable with the automated baggage system discussed above; however, it is not clear whether these existing systems would be capable of being integrated into a new airport-wide baggage system in the future.

Based upon this study, management believed that the sortation systems on concourses A and C were impaired and removed the assets from the books, which resulted in a loss of \$11.9 million. United continues to use a portion of the concourse B sortation system, which remains on the Airport System's books with a net book value of approximately \$8.7 million. The Airport System removed the unused portion of approximately \$47.0 million from its books, resulting in a loss of \$21.6 million.

PFC: In 1992, the PFC program authorized the imposition of a fee of \$3.00 per enplaned passenger and the use of this funding for approved projects, with certain qualifying airports permitted to charge a maximum PFC of \$4.50. In 2000, the Federal Aviation Administration approved the Airport's application for an increase in the rate of PFC from \$3.00 to \$4.50, the revenues from which are to be used for qualified costs of the Airport, including associated debt service and approved capital projects. The Airport increased the PFC rate from \$3.00 to \$4.50 effective April 1, 2001. As of December 31, 2006, a total of \$832.6 million has been remitted to the Airport, (including interest earned on late payments), of which \$105.0 million has been expended on approved projects, \$723.9 million has been used to pay debt service on the Airport's general airport revenue bonds, and \$3.7 million is unexpended. The Airport System's authorization to impose the PFC expires on the earlier of January 1, 2030 or upon the collection of \$3.3 billion authorized maximum amount of PFC revenues.

Construction Commitments: As of December 31, 2006, the Airport System had outstanding contractual commitments of approximately \$344.9 million and had made over \$98.4 million in contractual payments for the year then ended.

The Airport's current 2007-2012 Capital Program includes approximately \$373.4 million of planned projects. The Airport has also identified a number of Demand Responsive Projects that will be undertaken only if there is sufficient need of such projects and they are financially viable. The 2007-2012 Capital Programs are expected to be financed with a combination of Airport Revenue bonds, commercial paper, installment purchase agreements, federal grants, Passenger Facility Charges (PFCs), and Airport System monies.

On April 6, 2006, the Airport announced that CMCB Development Company of Denver was the successful bidder on a 17-acre retail development along Pena Boulevard. The development called "The Landings" is located north of Pena Boulevard just southeast of the Conoco station and is the first phase in what could be a 500-acre retail development along the major highway in and out of Denver International Airport. The City is currently negotiating a development agreement with CMCB Development Company of Denver.

In addition, construction is proceeding on a fourth module of the parking garage on the west side of Jeppesen Terminal. Lastly, the Airport and United have agreed to a 2006 Amendatory Lease Agreement (the Agreement). According to the Agreement, United Airlines will release six Concourse A gates it currently leases over the next

**CITY AND COUNTY OF DENVER, COLORADO

Management's Discussion and Analysis (Unaudited)
December 31, 2006 and 2005

9 months. Frontier Airlines, which now leases 16 gates on Concourse A, will lease all newly available Concourse A gates. United relinquished one of the Concourse A gates on July 1, 2006, and a second one on November 30, 2006. The remaining gates were released May 1, 2007.

Economic Factors

Passenger traffic was up 9.1% in 2006 compared with a national average increase of 5.1% as reported by the Airport Council International (ACI), an airline industry group. Much of this passenger growth is attributed to the increased service of low-cost carriers in the Denver market.

Southwest Airlines (Southwest) announced in October 2005 its intention to commence service to the Airport. Service began in January 2006, with an initial daily schedule of 13 departing flights, utilizing two gates on Concourse C. Effective March 1, 2006, Southwest leased a third gate and increased its schedule to 20 daily departing flights. On August 1, 2006, Southwest Airlines leased an additional gate and that brings their total number of usage to four gates.

The dominant air carrier at Denver International is United. On December 9, 2002, United filed for bankruptcy protection under Chapter 11 of the Bankruptcy Code. The Chapter 11 filing permitted United to continue operations while developing a plan of reorganization to address existing debt, capital, and cost structures. In February 2006, United emerged from bankruptcy. United, together with its TED low-fare unit and its United Express commuter affiliates, accounted for approximately 56.4% and 56.0% of passenger enplanements at the Airport in 2006 and for the first three months of 2007, respectively.

As previously discussed, operating revenue was up 1.3%. Operating income before depreciation and amortization of \$244.7 million represented a decrease of \$18.7 million. Revenues Available for Sharing, the net revenue that is split 50%/50% with the signatory airlines under the use and lease agreements, was over \$97.4 million, its highest level ever. The airlines will receive the maximum allocation of \$40.0 million, with the balance flowing to the Airport System's Capital Fund for discretionary purposes.

Request for Information

This financial report is designed to provide a general overview of the Airport System's finances for all those with an interest. Questions concerning any of the information presented in this report or requests for additional information should be addressed to Stan Koniz, Chief Financial Officer, Denver International Airport, Airport Office Building, 8th Floor, 8500 Pena Boulevard, Denver, CO 80249-6340. Copies are available on-line at www.flydenver.com.

Noncash activities:

The Airport System issued bonds in the amount of \$449,590,000 and \$407,190,000 in 2006 and 2005, respectively, in order to refund debt. Net bond proceeds of \$465,989,377 and \$415,715,139 for 2006 and 2005, respectively, were deposited immediately into an irrevocable trust for the defeasance of outstanding revenue bond principal, payment of a redemption premium and accrued interest amounts. Original issue premiums on bonds of \$20,731,149 and \$10,901,979 were realized on the issuance of bonds in 2006 and 2005, respectively.

See accompanying notes to financial statements.

CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM

Notes to Financial Statements

December 31, 2006 and 2005

(1) Organization and Reporting Entity

(a) Nature of Operations

Pursuant to Article XX of the State of Colorado Constitution and the City and County of Denver, Colorado (the City) Charter, the City acquired, owns, operates, and maintains certain airport facilities. These facilities include Denver International Airport (Denver International) and certain assets of Stapleton International Airport (Stapleton) and are referred to herein as the City and County of Denver Municipal Airport System (the Airport System). The Airport System is operated as the Department of Aviation, with a Manager of Aviation appointed by and reporting to the Mayor.

Denver International consists of a landside terminal building, three airside concourses, six runways, roadways, and ancillary facilities on a 53-square mile site. Stapleton was closed to all air traffic on February 27, 1995. See note 6 for further discussion.

(b) Reporting Entity

The accompanying financial statements present only the Airport System enterprise fund and are not intended to present fairly the financial position of the City, and the changes in its financial position and the cash flows of its proprietary fund types in conformity with accounting principles generally accepted in the United States of America.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The Airport System is an enterprise fund of the City and, as such, is an integral part of the City. An enterprise fund is established to account for an activity that is financed with debt secured solely by a pledge of net revenues from fees and charges of the activity or when laws and regulations require that the activity's costs of providing services, including capital costs (such as depreciation or capital debt service), be recovered with fees and charges rather than with taxes or similar revenues. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted (GAAP) in the United States of America. As an enterprise fund, the Airport System uses the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized as incurred (flow of economic resources measurement focus).

The Airport System has applied all applicable Governmental Accounting Standards Board (GASB) pronouncements, including National Council on Governmental Accounting Statements and Interpretations in effect at December 31, 2006. In implementing GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, the Airport System elected not to adopt Financial Accounting Standards Board pronouncements issued after November 30, 1989.

During the year ended December 31, 2006, the Airport System adopted GASB Statement No. 46, *Net Assets Restricted by Enabling Legislation*. This statement establishes and modifies requirements

CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM

Notes to Financial Statements

December 31, 2006 and 2005

related to restrictions of net assets resulting from enabling legislation. The impact of this standard on the Airport System was immaterial.

During the year ended December 31, 2005, the Airport System adopted GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, an amendment of GASB Statement No. 3, *Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements*. This Statement addresses common deposit and investment risks and requires governmental entities to provide disclosures related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk. This information is designed to inform financial statement users about deposit and investment risks that could affect the Airport System's ability to provide services and meet its obligations as they become due.

(b) Cash and Cash Equivalents

Cash and cash equivalents, which the City manages, consist principally of U.S. Treasury Securities, U.S. agency securities, and commercial paper with original maturities of less than 90 days.

(c) Investments

Investments, which the City manages, are reported at fair value, which is primarily determined based on quoted market prices at December 31, 2006 and 2005. The Airport System's investments are maintained in segregated pools at the City and include U.S. Treasury securities, U.S. Agency securities, commercial paper, and repurchase agreements.

(d) Inventories

Inventories consist of materials and supplies which have been valued at the lower of cost (weighted average cost method) or market.

(e) Capital Assets

Capital assets are recorded at cost and consist of buildings, roadways, airfield improvements, machinery and equipment, land, and land rights at Denver International. Costs associated with ongoing construction activities of Denver International are included in construction in progress. Interest incurred during the construction phase is reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds over the same period. The capitalized interest incurred for 2006 and 2005 was \$4,547,332 and \$4,696,585, respectively. Assets under capital leases are recorded at the present value of future minimum lease payments and are amortized using the straight-line method over the shorter of the lease term or their estimated useful life.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

Depreciation is recorded using the straight-line method over the following estimated useful lives:

Buildings	20 – 40 years
Roadways	30 – 40 years
Runways/taxiways	35 – 40 years
Other improvements	15 – 40 years
Major system equipment	15 – 25 years
Vehicles and other equipment	5 – 10 years

(f) Bond Issue Costs, Deferred Losses on Bond Refundings, and Unamortized Premiums (Discounts)

Bond issue costs, deferred losses on bond refundings, and unamortized premiums (discounts) are deferred and amortized over the life of the old bonds, or the remaining life of the refunding bonds, whichever is shorter, using the effective interest rate method. Bond issue costs are recorded as deferred charges. Unamortized premiums on bond refundings are recorded as an addition to the face amount of the bonds payable. Unamortized discounts and deferred losses on bond refundings are recorded as a reduction of the face amount of the bonds payable.

(g) Assets Held for Disposition

Assets held for disposition consist of the Stapleton assets. Depreciation is not recorded on those assets held for sale. Ongoing maintenance and redevelopment costs are expensed as incurred. See note 6 for further discussion.

(h) Compensated Absences Payable

Accumulated vested sick and vacation benefits are recorded as an expense and a liability as benefits accrue to employees. The Airport System uses the vesting method for estimating sick leave compensated absences payable.

(i) Deferred Rent

Deferred rent is recorded when rental payments are received by the Airport System prior to a legal claim to them. Included in deferred rent are customer credits and deposits.

(j) Net Assets

2006

The Airport System's assets exceeded liabilities by \$702,769,048 as of December 31, 2006, a \$62,573,081 increase in net assets from the prior year-end. Of the Airport System's 2006 net assets, 77.4% are restricted for future debt service. The bond reserve account and bond accounts represent \$543,978,207 which is externally restricted for debt service. The net assets restricted for the Stapleton and sixth runway capital projects represent \$0.

The remaining net assets include unrestricted net assets of \$370,969,769 which may be used to meet any of the Airport System's ongoing operations. Management of the Airport System has internally

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

designated \$67,267,320 of its unrestricted net asset amounts, as allowed in the 1984 Airport System General Bond Ordinance as supplemented and amended, to help meet debt covenant coverage requirements. In addition, (\$212,178,928) represents the Airport System's investment in capital assets, less the related indebtedness outstanding used to acquire those capital assets.

2005

The Airport System's assets exceeded liabilities by \$640,195,967 as of December 31, 2005, a \$44,564,269 decrease in net assets from the prior year-end. Of the Airport System's 2005 net assets, 76.3% were restricted for future debt service and capital construction. The bond reserve account and bond accounts represented \$480,040,793 that was externally restricted for debt service. The net assets restricted for the Stapleton and sixth runway capital projects represented \$8,296,639.

The remaining net assets included unrestricted net assets of \$388,058,574 which may be used to meet any of the Airport System's ongoing operations. Management of the Airport System has internally designated \$67,267,320 of its unrestricted net asset amounts, as allowed in the 1984 Airport System General Bond Ordinance as supplemented and amended, to help meet debt covenant coverage requirements. In addition, (\$236,200,039) represented the Airport System's investment in capital assets, less the related indebtedness outstanding used to acquire those capital assets.

(k) *Restricted and Unrestricted Resources*

Use of restricted and unrestricted resources are made on a case-by-case basis by management depending on overall requirements. Generally, management applies restricted resources and then unrestricted resources when both restricted and unrestricted resources are available to pay an expense.

(l) *Operating Revenues and Expenses*

The statement of revenues, expenses, and changes in net assets distinguish operating revenues and expenses from nonoperating activity and capital contributions. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with Denver International's principal ongoing operations. The principal operating revenues of the Airport System are charges to airline tenants for facility rentals, landing fees and parking. Operating expenses include the cost of providing services, administrative costs, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses or capital contributions. Such items include Passenger Facility Charges (PFCs), interest expense, interest income, and grants from the federal government and Stapleton demolition and remediation expenses.

(m) *Governmental Grants*

The Airport System periodically receives grant revenues from federal agencies which are either for capital projects or operating purposes. Revenue is considered earned as the related approved capital outlays or expenses are incurred by the Airport System. Revenues from capital grants are reported as capital contributions on the statements of revenue, expenses and changes in net assets and revenues from operating grants are reported as nonoperating revenues.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

(n) Rates and Charges

The Airport System establishes annually, as adjusted semi-annually, airline facility rentals, landing fees, and other charges sufficient to recover the costs of operations (excluding certain debt service payments), maintenance, and debt service related to the airfield and the space rented by the airlines. Any differences between amounts collected from and actual costs allocated to the airlines' leased space are credited or billed to the airlines. As of December 31, 2006 and 2005, the Airport System had accrued a liability, included in current other liabilities, of \$14,799,763 and \$3,259,726, respectively.

For the years ended December 31, 2000 through 2005, 75% of Net Revenues (as defined by the bond ordinance) remaining at the end of each year were to be credited in the following year to the passenger airlines signatory to use and lease agreements; and thereafter it is 50%, capped at \$40,000,000 for all years. The Net Revenues credited to the airlines totaled \$40,000,000 for both 2006 and 2005. Liabilities for these amounts were accrued as of December 31, 2006 and 2005, respectively, and are reported in the statement of net assets as revenue credit payable.

(o) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ significantly from those estimates.

(p) Reclassifications

Certain 2005 balances have been reclassified to conform with the 2006 financial statements presentation.

(3) Cash, Cash Equivalents, and Investments

(a) Deposits

The Airport System's deposits are commingled with the City's and are subject to, and are in accordance with, the State of Colorado's Public Deposit Protection Act (the PDPA). In addition, the City's investment policy requires that Certificates of Deposit be purchased from institutions that are certified as eligible public depositories. Under the PDPA, all uninsured deposits exceeding the amount insured by the FDIC, are to be fully collateralized with specific approved securities identified in the PDPA. The eligible collateral pledged must be held in custody by any Federal Reserve Bank, or branch thereof, or held in escrow by some other bank in a manner as the banking commissioner shall prescribe by rule and regulation, or may be segregated from the other assets of the eligible public depository and held in its own trust department. All collateral so held must be clearly identified as being security maintained or pledged for the aggregate amount of public deposits accepted and held on deposit by the eligible public depository. Deposits collateralized under

CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM

Notes to Financial Statements

December 31, 2006 and 2005

the PDPA are considered collateralized with securities held by the pledging financial institution's trust department or agent in the "City's name."

At December 31, 2006, the carrying amount of the Airport System's deposits, excluding certificates of deposit, was \$0 and the bank balance was \$0. At December 31, 2006, the Airport System owned \$11,354,644 of certificates of deposit issued by Colorado Business Bank, a certified eligible public depository.

Custodial credit risk is the risk that in the event of a failure of a financial institution or counterparty, the Airport System would not be able to recover its deposits, investments, or collateral securities.

St. Paul/Travelers Insurance (St. Paul) manages an owner-controlled insurance plan on behalf of the Airport System. St. Paul pays claims from an escrow account held in the Airport System's name that is uninsured, uncollateralized, and subject to custodial credit risk. The balance of the account at December 31, 2006 was \$236,881. All other deposits are not subject to custodial credit risk since they are deposited in certified eligible public depositories under the PDPA.

(b) Investments

The Airport System's investments are managed by the City and are subject to the Investment Policy of the City. It is the policy of the City to invest its funds in a manner which will provide for the highest investment return consistent with the preservation of principal and provision of the liquidity necessary for daily cash flow demands. The City's Investment Policy applies to all investment activity of the City under the control of the Manager of Revenue (the Manager), including investments of certain monies related to business-type activities, and trust and agency funds. The City's investment policy does not apply to the investments of the deferred compensation plan or component units. Other monies that may from time to time be deposited with the Manager for investment shall also be administered in accordance with the Investment Policy. The City does not currently invest with external investment pools.

The City Charter, Section 2.5.3(c), and Denver Revised Municipal Code, Section 20-21, authorizes the type of investments that the City can hold. The investment policy generally requires that investments shall be managed in accordance with portfolio theory management principles to compensate for actual or anticipated changes in market interest rates. To the extent possible, investment maturity will be matched with anticipated cash flow requirements of each investment pool. Additionally, to the extent possible, investments will be diversified by security type and institution. This diversification is required in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio. Deviations from expectations shall be reported in a timely fashion and appropriate action taken to control adverse developments.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

At December 31, 2006 and 2005, respectively, the Airport System's cash, cash equivalents, and investment balances were as follows (in thousands):

	December 31, 2006	December 31, 2005
Money Market Funds	\$ 55,796	\$ 43,507
Certificate of Deposit	11,355	—
Commercial paper	246,001	305,092
Repurchase agreements	125,706	142,035
U.S. Treasury securities	87,446	190,203
U.S. Agency securities	601,111	417,668
	<u>\$ 1,127,415</u>	<u>\$ 1,098,505</u>

A reconciliation of cash, cash equivalents, and investment balances as shown in the basic financial statements as of December 31, 2006, is as follows (amount expressed in thousands).

	December 31, 2006	December 31, 2005
Cash on hand	\$ —	\$ 103
Cash and cash equivalents	39,549	7,587
Investments	363,132	387,010
Restricted cash equivalents	271,288	226,951
Restricted investments	453,446	476,854
	<u>\$ 1,127,415</u>	<u>\$ 1,098,505</u>

Interest Rate Risk: Interest rate risk is the risk that changes in the financial market rates of interest will adversely affect the value of an investment. The City manages interest rate risk for the investment under the control of the manager by limiting the maximum maturity of investments. Bond reserve proceeds that are invested in U.S. Treasury and U.S. Agency securities can have a maximum maturity of ten years. All other U.S. Treasury and U.S. Agency securities can have a maximum maturity of five years. Repurchase agreements are open repurchase agreements and not exposed to interest rate risk.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

At December 31, 2006, the Airport System's investment balances and maturities, in years, for those investments subject to interest rate risk were as follows (amounts are expressed in thousands):

Investment type	Investments maturity in years				
	Fair value	Less than 1	1-5	6-10	Greater than 10**
Discount Commercial Paper	\$ 246,001	\$ 246,001	\$ —	\$ —	\$ —
U.S. Treasury securities	87,445	—	63,321	24,124	—
U.S. Agency securities	601,111	144,203	255,010	157,533	44,365
Total	\$ 934,557	\$ 390,204	\$ 318,331	\$ 181,657	\$ 44,365

The Airport System's portfolio of U.S. agency securities includes callable securities with scheduled interest changes. If a callable investment is purchased at a discount, the maturity date is assumed to be the maturity date of the investment. If the investment is bought at a premium, the maturity date is assumed to be the call date. As of December 31, 2006, the Airport System owned callable securities with a fair value of \$250,489,681. Of these, securities with scheduled increases to predetermined interest rates had a fair value of \$102,772,048.

**The Manager is authorized to waive certain portfolio constraints when such action is deemed to be in the best interest of the City. The Manager has waived the maximum maturity for certain investments in U.S. Agency securities that are part of the Airport System structured pool created to facilitate an economic defeasance of a portion of the future debt service payments due on certain Airport System bonds.

Credit Risk: Credit risk is the risk that the issuer or other counterparty to a debt security will not fulfill its obligation to the Airport System. National rating agencies assess this risk and assign a credit quality rating for most investments. Obligations of the U.S. Government or obligations explicitly guaranteed by the U.S. Government are not assigned credit quality ratings. Credit quality ratings are reported on obligations of U.S. Government agencies that are not explicitly guaranteed by the U.S. Government. The City's Investment Policy requires that commercial paper and bankers' acceptances be rated by at least two of the recognized rating agencies and have a minimum rating of A-1, P-1, and F-1 from Standard & Poor's, Moody's, and Fitch, respectively, at the time of purchase.

As of December 31, 2006, the Airport System owned \$ 246,000,560 in commercial paper that had minimum ratings of A-1, D-1 and F-1, by two rating agencies.

Custodial Credit Risk: Custodial credit risk for investments is the risk that, in the event of failure, the Airport System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments are exposed to custodial credit risk if they are uninsured, are not registered in the City's name, and are held by either the counterparty to the investment purchase or are held by the counterparty's trust department or agent but not held in the City's name. None of the Airport System's investments owned at December 31, 2006, were subject to custodial credit risk.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

In accordance with the City's Investment Policy, all of the City's repurchase agreements are collateralized at 102% of the market value of the portfolio by U.S. Government agency securities at the time of purchase. Collateral valuation is calculated and adjusted at least once per week and adjusted on an as needed basis. Collateral for all repurchase agreements are held by the City's custodian, J.P. Morgan. None of the Airport System's repurchase agreements owned at December 31, 2006 were subject to custodial risk.

Concentration of Credit Risk: The City's Investment Policy states that a maximum of 5% of the portfolio may be invested in commercial paper or certificates of deposit issued by any one provider. As of December 31, 2006, all investments in commercial paper and certificates of deposit are in compliance with this policy.

(4) Accounts Receivables

Management of the Airport System reviews accounts receivables periodically and an allowance for doubtful accounts has been established based upon management's assessment of the probability of collection. As of December 31, 2006 and 2005, an allowance of \$340,941 and \$323,486, respectively, had been established. No amount is reserved for United Airlines (United) in 2006. See further discussion regarding United in note 21 of the financial statements.

(5) Capital Assets

Changes in capital assets for the years ended December 31, 2006 and 2005 were as follows (in thousands):

	2006				
	January 1, 2006	Additions	Transfers of completed projects	Retirements and impairments	December 31, 2006
Depreciable:					
Buildings	\$ 1,692,776	\$ —	\$ 26,318	\$ (4,382)	\$ 1,714,712
Improvements other than buildings	1,926,666	—	73,569	(4,496)	1,995,739
Machinery and equipment	530,719	4,808	23,420	(1,799)	557,148
	4,150,161	4,808	123,307	(10,677)	4,267,599
Less accumulated depreciation and amortization	(1,243,928)	(143,506)	—	1,885	(1,385,549)
	2,906,233	(138,698)	123,307	(8,792)	2,882,050
Nondepreciable:					
Construction in progress	163,483	125,763	(123,307)	(381)	165,558

Total capital assets	\$ 3,490,129	\$ (39,821)	\$ —	\$ (85,286)	\$ 3,365,022

In 2004, the Airport System implemented GASB No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and Insurance Recoveries*. GASB No. 42 describes the impairment of a capital asset as “a significant, unexpected decline in the service utility of a capital asset.” The significant and unexpected decline is based on events or changes in circumstances that were not anticipated when the capital asset was placed in service.

For the years ended December 31, 2006 and 2005, the Airport System experienced impairments of capital assets of \$0 and \$85.3 million, respectively. Capital assets which incurred significant impairment losses, and which comprise a majority of the \$85.3 million, included the Automated Baggage System and the Concourse A, B, and C sortation systems.

Automated Baggage System (ABS)

In September 2005, United Airlines discontinued use of the ABS and reverted to the traditional tug and cart system.

No other airlines used the ABS; therefore, this asset was no longer being used by the Airport System. Based on the requirements of GASB No. 42, there had been a significant, unexpected change in the service utility of the ABS. In order to determine if the ABS was temporarily or permanently impaired, the Airport System hired a consultant to identify what portion, if any, of the ABS should remain to support a future baggage system. Based upon the consultant’s findings, management concluded that a small portion (net book value of \$3.2 million) of structural steel and electrical infrastructure would be used to support a new system; therefore, this portion was judged temporarily impaired and retained on the books. The remaining net book value of the ABS of \$43.0 million was impaired and written off in September 2005.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

Sortation Systems

During 2005, the Airport System hired a consultant to determine if the idle sortation systems in Concourses A and C could be used for a future baggage handling system. Based upon the results of this study, management determined that the idle assets would not be used; thus, should be impaired for the remaining net book value.

In addition, United Airlines discontinued use of sections of the sortation system in Concourse B when it discontinued use of the ABS in September 2005. Based upon an investigation performed by management, the Airport System determined that the sections still in use totaled a net book value of \$8.7 million. This amount was not impaired and will be depreciated using the original useful life of the sortation system as management's expectation is that the remaining section of the system will continue to be used. The remaining net book value was considered impaired.

As a result, the Airport System recognized impairment losses in 2005 on the three sortation systems for approximately \$33.5 million.

(6) Assets Held for Disposition

The City ceased aviation operations at Stapleton upon the opening of Denver International on February 28, 1995, and is continuing to dispose of the Stapleton property. Certain portions of Stapleton were acquired with proceeds from federal grants, which provide for the return of certain federal funds. In addition, certain portions of the property are also subject to deed restrictions, under which the property would revert to the United States government. The City is able to seek releases from the grant assurances and deed restrictions from the Secretary of Transportation as dispositions occur, provided that: 1) the property is sold at fair market value, and 2) the proceeds are used to develop, improve, and construct Denver International. The City intends to continue to seek such releases and, in accordance with certain use and lease agreements, use any net proceeds from sales of Stapleton to retire or defease subordinate debt.

As a result of the long-term nature of the development plan, the timing and ultimate amount of net proceeds from the disposition of Stapleton's existing plant and improvements is not presently determinable. The carrying value of Stapleton was \$18,806,825 and \$22,724,103 at December 31, 2006 and 2005, respectively. The current accrued environmental liability for Stapleton was \$3,474,011 and \$8,033,010 at December 31, 2006 and 2005, respectively.

(7) Due to Other City Agencies

The City provides various services to the Airport System, including data processing, investing, financial services, budgeting, and engineering. Billings from the City, both direct and indirect, during 2006 and 2005 totaled \$12,181,634 and \$12,239,690, respectively, and have been included in operating expenses.

In addition to the above services, the Airport System also pays directly salaries and wages for police, fire and other city personnel which are reflected as Personnel services expenses. The total services paid for City service and personnel are \$38,883,126 and \$39,213,224 at December 31, 2006 and 2005, respectively. The outstanding liability to the City and its related agencies in connection with these services totaled \$17,186,337 and \$18,082,646 at December 31, 2006 and 2005, respectively.

The Airport System has issued bonds, paying fixed and variable interest rates, collateralized by and payable from Airport System Net Revenues, as defined in the 1984 Airport System General Bond Ordinance as supplemented and amended (Bond Ordinance) and the 1990 Airport System General Subordinate Bond Ordinance as supplemented and amended (Subordinate Bond Ordinance). Interest is payable semi-annually. The variable rate bonds are issued in weekly mode. Auction rate bonds carry interest rates that are periodically reset for either 7 or 35-day periods. As such, the actual interest rate on the bonds will vary weekly, based on market conditions in the short-term tax-exempt bond market. The maturity dates, interest rates, and principal amounts outstanding as of December 31, 2006 are as follows:

Economic Defeasance

On November 1, 1999, the Airport System entered into an economic defeasance of \$54,880,000 from certain 1998 and 1999 federal grant proceeds from the United States Department of Transportation under the 1990 Letter of Intent. These funds were set aside in special escrow accounts (Escrow A and Escrow B) held by the

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

City. Escrow A proceeds will be used to defease \$40,080,000 of the Series 1992C maturing on November 15, 2025. Escrow B proceeds will be used to defease \$14,800,000 of the Series 1991D maturing on November 15, 2013. These bonds are considered defeased for bond ordinance purposes; however, the defeasance was not considered a legal defeasance or an in-substance defeasance under accounting principles generally accepted in the United States of America and, therefore, the bonds remain outstanding in the accompanying financial statements.

On December 27, 2006, the Airport entered into an economic defeasance of \$90,000,000 funded by PFC and net revenues. These funds were set aside in a special escrow account ABS Baggage System defeasance held by the City. The proceeds will be used to defease a portion of the Airport System Revenue bonds related to the ABS baggage system.

Bond Issuances

On August 17, 2006, the Airport issued \$279,585,000 and \$170,005,000 of Airport System Revenue Bond Series 2006A and 2006B, respectively, in a fixed rate mode for the purpose of currently refunding \$461,860,000 of the 1996A, 1996B, 1996C and 1996D bonds.

On August 25, 2005, the Airport issued \$227,740,000 of Airport System Revenue Bond Series 2005A in a fixed rate mode for the purpose of currently refunding \$230,760,000 of the Airport 1995A bonds.

On November 10, 2005, the Airport issued \$91,750,000 and \$87,700,000 in an auction rate mode and a variable rate mode, for the purpose of currently refunding \$90,510,000 and \$87,845,000 of the 1995B and 1995C bonds, respectively.

Deferred Refunding

The proceeds of the 2006A-B bonds were used, together with other Airport monies, to currently refund all of the outstanding Series 1996A, 1996D and all but \$12,605,000 of the 1996B and 1996C Airport System Revenue Bonds. Series 2006A-B bonds are structured to provide the Airport with maximum interest savings through 2010 which will be applied to meet a portion of the airline rates and cost reduction goals in the United Stipulated Order. Interest savings for refunding is \$39,808,609 and debt service savings is \$53,303,609 (including principal). The economic gain resulting from the transaction was \$32,671,373. The Airport realized a cash flow savings of \$985,173 with this transaction in 2006. The current refunding resulted in a defeasance of debt between the reacquisition price of \$474,320,556 and the net carrying amount less the unamortized portion of \$430,542,581, which resulted in a deferred loss on refunding amount of \$43,777,975. The deferred loss on refunding is being amortized over the remaining life of the old debt.

The proceeds of the 2005A, B1-B2 and C1-C2 bonds were used together with other Airport monies, to currently refund all of the outstanding series 1995A, 1995B, and all but \$10,625,000 of the 1995C Airport System Revenue Bonds. The Series 2005A bonds interest requirements are based on interest rates of 4.05% to 5.0%. The series 2005B1-B2 and 2005C1-C2 bonds are based on an assumed interest rate of 3.4%. Series 2005A, B1-B2, and C1-C2 bonds are structured to provide the Airport maximum interest savings through 2010 for purposes of the Stipulated Order by matching the principal amortization of the refunding bonds with that of the refunded bonds. The interest savings of \$70,425,785 and debt savings of \$63,056,480 (including principal), are expected to be achieved based upon the interest rate assumptions. The economic gain resulting

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

from the transaction was \$45,502,306. The Airport realized a cash flow savings of \$1,176,945 with these transactions in 2005. The current refunding resulted in a defeasance of debt between the reacquisition price of \$426,093,727 and the net carrying amount less the unamortized portion of \$381,669,202 which resulted in a deferred loss on refunding amount of \$44,424,525. The deferred loss on refunding amount is being amortized over the remaining life of the defeased debt, which is shorter than the life of the refunding debt.

Defeased Bonds

The Airport System has defeased certain revenue bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the accompanying financial statements. As of December 31, 2006 and 2005, respectively, \$32,180,000 and \$32,180,000 of bonds outstanding are considered defeased.

(9) Bond and Notes Payable Debt Service Requirements

(a) Bonds Payable

Bond debt service requirements of the Airport System for bonds payable to maturity as of December 31, 2006 are as follows:

	Principal	Interest
Year:		
2007	\$ 107,085,000	\$ 191,059,701

Total	<u>\$ 77,263,268</u>	<u>\$ 38,608,870</u>

(b) Notes Payable

The Airport System entered into a \$60 million Master Installment Purchase Agreement with Siemens Financial Services on November 5, 2003 to fund the reimbursable portion of the construction of the in-line EDS baggage screening system. Payments are due annually in advance beginning December 31, 2006. The interest rate is 3.4% and is based on a 30/360 calculation. The Airport System entered into two Master Installment Purchase Agreements on March 15, 2004, one with Siemens Financial Services for \$20 million and one with GE Capital Public Finance Inc. for \$13 million, to finance various capital equipment purchases at rates and terms of 3.46% and 3.6448% based on a 30/360 calculation for 2004. Payments are due semiannually to Siemens Financial Services and quarterly to GE Capital Public Finance. The Airport System entered into three Master Installment Purchase Agreements on October 26, 2006, and one on August 1, 2006. Two agreements with Koch Financial Corporation for \$23.0

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

million and \$2.0 million for a total of \$25.0 million and two agreements with GE Capital Public Finance for \$9.0 million and \$20.0 million. These transactions will finance capital equipment purchases at rates and terms of 4.34%, 4.22%, 4.16% and 4.67% based on a 30/360 calculation for 2006. Under the Master Installment Purchase Agreements, the financing companies have a security interest in equipment purchased with the proceeds until the loans are repaid.

The payment schedule relating to note requirements as of December 31, 2006 is as follows:

	Principal	Interest	
Year:			
2007	\$ 27,497,017	\$ 3,423,670	
2008	12,146,762	2,403,466	
2009	11,477,785	1,911,463	
2010	11,563,556	1,438,698	
2011	9,194,019	949,031	
2012 – 2016	17,106,347	1,870,769	
	\$ 88,985,486	\$ 11,997,097	

Changes in notes payable for the years ended December 31, 2006 and 2005 were as follows:

	Balance January 1, 2006	Additions	Retirements	Balance December 31, 2006
Notes payable	\$ 56,763,324	\$ 54,000,000	\$ (21,777,838)	\$ 88,985,486
Less current portion				(27,497,017)
Noncurrent portion				\$ 61,488,469

	Balance January 1, 2005	Additions	Retirements	Balance December 31, 2005
Notes payable	\$ 76,212,912	\$ —	\$ (19,449,588)	\$ 56,763,324
Less current portion				(20,117,026)
Noncurrent portion				\$ 36,646,298

(10) Demand Bonds

Included in long-term debt are \$48,000,000 for Series 1992F,G; \$200,000,000 for Series 2000B; \$100,000,000 for Series 2000C; \$41,100,000 for Series 2002C; \$73,300,000 for Series 2004A; \$73,300,000

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

for Series 2004B; \$85,000,000 for Series 2005C1-C2 of Airport System Revenue Bonds Series respectively, which bear interest at flexible or weekly rates and are subject to mandatory redemption upon conversion of the interest rate to a different rate type or rate period. If the bonds are in a weekly (or monthly) mode, the bonds are subject to purchase on demand of the holder at a price of par plus accrued interest. Each series has an irrevocable letter of credit or standby bond purchase agreement which the remarketing agent for the bonds can draw upon to purchase the bonds. If the bonds purchased by the remarketing agent could not be resold within a designated period of time, each irrevocable letter of credit and standby bond purchase agreement contains provisions for a take out agreement which would convert the obligation to an installment loan with the provider of that agreement. If the take out agreement were to be exercised, the Airport System would be required to pay interest amounts on the loan that are expected to be higher than the interest amount on the bonds.

Irrevocable letters of credit were issued as collateral for the Series 1992F, 1992G, and 2002C revenue bonds in the amounts as follows:

Bonds	Par amount outstanding	Letter of credit amount	Annual commitment fee	Letter of credit expiration date
Series 1992F	\$ 26,200,000	\$ 31,059,400	0.370%	September 24, 2009
Series 1992G	21,800,000	25,829,467	0.370%	September 24, 2009
Series 2002C	41,100,000	51,232,000	0.370%	October 8, 2009

As of December 31, 2006 and 2005, no amounts have been drawn under any of the existing agreements.

(11) Bond Ordinance Provisions

Additional Bonds

The Airport System may issue additional parity and subordinate bonds, subject to certain coverage and other provisions, for the purpose of acquiring, improving or equipping facilities related to the Airport System.

Airport System Revenue Bonds

Under the terms of the Bond Ordinance, all bond series, except for the Series 2001 C1-C4 Bonds, (the Senior Bonds) are collateralized by a first lien on the Net Revenues of the Airport System. Under the terms of the Subordinate Bond Ordinance, the Series 2001 C1-C4 Bonds are collateralized by Net Revenues of the Airport System subordinate to the Senior Bonds.

The Airport System is required by the Bond Ordinance to set and collect rates and charges sufficient, together with other available funds, to provide for the payment of all operating and maintenance expenses for the current fiscal year plus 125% of the aggregate principal and interest payments of the Senior Bonds for such fiscal year prior to the issuance of additional bonds. Management believes the Airport System is in compliance with the bond covenants listed in the bond ordinance.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

(12) Swap Agreements

The Airport System has entered into interest rate swap agreements in order to protect against rising interest rates. In accordance with GAAP, the fair value of swap agreements is not reported in the financial statements.

(1) The associated debt series for the 2006 swap agreement are the proposed issuance of Airport System Revenue Refunding Bonds for the 1997E bonds.

CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM

Notes to Financial Statements

December 31, 2006 and 2005

Payments by the Airport System to counterparties relating to these swap agreements, including termination payments, are Subordinate Obligations, subordinate to debt service payments on the Airport System's Senior Bonds, and on parity with the Airport System's Subordinate Bonds. The year-end fair values were calculated using the mid-market LIBOR and BMA swap curves as of December 31, 2006. Fair values represent the difference between the present value of the fixed payments and the present value of the floating payments, at forward floating rates as of December 31, 2006. When the present value of payments to be made by the Airport System exceeds the present value of payments to be received, the swap has a negative value to the Airport System. When the present value of payments to be received by the Airport System exceeds that of payments to be made, the swap has a positive value to the Airport System.

Risks Associated with the Swap Agreements

The following risks are generally associated with swap agreements:

Credit Risk – All of the Airport System's swap agreements rely upon the performance of swap counterparties. The Airport System is exposed to the risk of these counterparties being unable to fulfill their financial obligations to the Airport System. The Airport System measures the extent of this risk based upon the credit ratings of the counterparty and the fair value of the swap agreement. If the Airport System delivers a surety policy or other credit support document guaranteeing its obligations under the swap agreement that is rated in the highest rating category of either Standard & Poor's, Moody's Investors Service or Fitch, for any swap agreement, the counterparty to that agreement is obligated to either be rated, or provide credit support securing its obligations under the swap agreement rated, in the highest rating category of either Standard & Poor's, Moody's Investors Service or Fitch; or, under certain circumstances, provide collateral. The Airport System is obligated, under the swap agreements, to provide such surety policy or credit support if the unsecured and unenhanced ratings of the Airport System's Senior Bonds is below any two of BBB by Standard & Poor's, Baa2 by Moody's Investors Service or BBB by Fitch. As of December 31, 2006, the ratings of the Airport System's Senior Bonds were A+ by Standard & Poor's (with a stable outlook), A1 by Moody's Investors Service (with a stable outlook) and A+ by Fitch (with a stable outlook). Therefore, no surety policy or credit has been provided to the counterparties by the Airport System. Failure of either the Airport System or the counterparty to provide credit support or collateral, as described in the swap agreements, is a termination event under the swap agreements (see termination risk below).

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

The ratings of the counterparties, or their credit support providers, as of December 31, 2006 are as follows:

Counterparty (credit support provider)	Ratings of the counterparty or its credit support provider		
	S&P	Moody's	Fitch
Goldman Sachs Capital Markets, L.P. (Goldman Sachs Group, Inc.)	AA-	Aa3	AA-
Lehman Brothers Special Financing Inc. (Lehman Brothers Holdings Inc.)	A+	A1	A+
Merrill Lynch Capital Services, Inc. (Merrill Lynch & Co., Inc.)	AA-	Aa3	AA-
RFPC, LTD. (Ambac Assurance Corp.)	AAA	Aaa	AAA
Societe Generale, New York Branch	AA	Aa2	AA
Royal Bank of Canada	AA-	Aaa	AA
JP Morgan Chase Bank, N.A.	AA-	Aa2	AA-
Jackson Financial Products, LLC (Merrill Lynch & Co., Inc.)	A+	Aa3	AA-
Piper Jaffray Financial Products, Inc. (Morgan Stanley Capital Services Morgan Stanley)	A+	Aa3	AA-

As of December 31, 2006, there was no risk of loss for the swap agreements that had negative fair values. For the swap agreements that had positive fair values, the risk of loss is the amount of the derivatives fair value.

Termination Risk – Any party to the Airport System’s swap agreements may terminate the swap if the other party fails to perform under the terms of the contract. Additionally, the Airport System may terminate any of its swap agreements at any time at its sole discretion. Further, certain credit events can lead to a termination event under the swap agreements (see Credit Risk above). If, at the time of termination, the swap has a negative fair value, the Airport System could be liable to the counterparty for a payment equal to the swap’s fair value. If any of the Airport System’s swap agreements are terminated, the associated variable rate bonds would either no longer be hedged with a synthetic fixed interest rate or nature of the basis risk associated with the swap agreement which may change. The Airport System is not aware of any existing event that would lead to a termination event with respect to any of its swap agreements.

Basis Risk – Each of the Airport System’s swap agreements are associated with certain debt obligations or other swaps. The Airport System pays interest at variable interest rates on some of the associated debt obligations and associated swaps. The Airport System receives variable payments under some of its swap agreements. To the extent the variable rate on the associated debt or the associated swap paid by the Airport System is based on an index different than that used to determine the variable payments received by the Airport System under the swap agreement, there may be an increase or decrease in the synthetic interest rate intended under the swap agreement. The nature of this risk for each of the Airport System’s series of swaps is discussed more specifically in the descriptions of these swap agreements below.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

Description of the Swap Agreements and Associated Debt

The 1998 Swap Agreements and Associated Debt – On January 1, 1998, the Airport System entered into interest rate swap agreements (the 1998 Swap Agreements) with three financial institutions in order to take advantage of and secure prevailing interest rates in contemplation of the future refunding of certain senior bonds through the Airport System's issuance of variable rate bonds on or before October 4, 2000. Each 1998 Swap Agreement has a notional amount of \$100 million and provides for certain payments to or from each financial institution equal to the difference between a fixed rate payable by the Airport System under each Agreement and the prevailing variable rate on certain of the Airport System's variable rate bonds payable by the respective financial institutions. Upon the occurrence of certain events, a counterparty to a 1998 Swap Agreement may elect to apply an alternative variable rate, 70% of the London Interbank Offered Rate for one-month deposits of U.S. dollars (LIBOR) plus 0.10%, instead of the variable rate payable on the associated debt. Events that could trigger the right of the counterparty to apply the alternative rate include, among other things, a downgrade of the short-term ratings of the associated debt to below A-1+ by S&P, VMIG-1 by Moody's or F-1+ by Fitch or the long-term ratings of the bonds are downgraded to below one of the highest two rating categories of any two of S&P, Moody's or Fitch, or an event of taxability. An event of taxability includes, among other things, a change in tax law that causes the relationship between the Bond Markets Association Index (BMA) and LIBOR such that the daily average BMA Index as a percentage of daily average LIBOR exceeds 80% for a period of 90 consecutive days or 75% for a period of 120 consecutive days. The effect of a counterparty applying the alternative rate would be to increase the basis risk for the swap. There would be a greater likelihood of differences between the variable rate paid by the Airport System on the associated debt and variable payments received from the counterparty under the swap. There was no such taxability event nor a downgrade of the short-term ratings for the year ended December 31, 2006.

In August 2000, the Airport System issued the Series 2000B and the Series 2000C Bonds in order to refund a portion of the Series 1990A Bonds, and treated such 1998 Swap Agreements as relating to the payments due on the Series 2000B Bonds and the Series 2000C Bonds (the associated debt), thereby effectively converting the floating rates of the Series 2000B Bonds and the Series 2000C Bonds to a fixed interest rate. The aggregate weighted average fixed rate payable by the Airport System under the 1998 Swap Agreements is 4.7463%. The 1998 Swap Agreements became effective on October 4, 2000, and payments under these 1998 Swap Agreements commenced on November 1, 2000.

The 1999 Swap Agreements and Associated Debt – On July 28, 1999, the Airport System entered into interest rate Swap Agreements (the 1999 Swap Agreements) with three financial institutions in order to take advantage of and secure prevailing interest rates in contemplation of the future refunding of a portion of the Series 1991A Bonds and Series 1991D Bonds through the Airport System's issuance of variable rate bonds on or before October 4, 2001. The 1999 Swap Agreements have notional amounts of \$100 million, \$50 million and \$50 million, respectively, and provide for certain payments to or from each financial institution equal to the difference between a fixed rate payable by the Airport System under each Agreement and the BMA Index payable by the respective financial institutions. Historically, average BMA Index has been lower than the variable interest rate the Airport System pays on the associated debt. The Airport System attributes this difference to the fact that the associated debt is subject to the alternative minimum tax. This means that, on average, the Airport System pays more in interest on the associated debt than it receives under

CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM

Notes to Financial Statements

December 31, 2006 and 2005

the 1999 Swap Agreements. This basis risk is modified when the 1999 Swap Agreements and associated debt are considered together with the 2002 Swap Agreements.

On October 4, 2001, the Airport System issued the Series 2001 C1-C4 to refund a portion of the Series 1991A Bonds and Series 1991D Bonds. The net effect of the 1999 Swap Agreements, when considered together with the variable rate Series 2001 C1-C4 Subordinate Bonds, is that the Airport System will effectively pay a fixed rate, plus or minus the difference between the actual rate on the Series 2001 C1-C4 Subordinate Bonds and the Bond Market Association Index, on \$200 million of obligations. The aggregate weighted average fixed rate payable by the Airport System under the 1999 Swap Agreements is 5.6029%. The 1999 Swap Agreements became effective on October 4, 2001, and payments under these Agreements commenced on November 1, 2001.

The 2002 Swap Agreements and Associated Debt – On April 11, 2002, the Airport System entered into interest rate Swap Agreements (the 2002 Swap Agreements) with two financial institutions in order to effectively change the amounts it receives under the 1999 Swap Agreements from the Bond Market Association Index (BMA) to a percentage of the London Interbank Offered Rate for one-month deposits of U.S. dollars (LIBOR). The 2002 Swap Agreements have a notional amount of \$200 million, relate to the 2001 C1-C4 bonds and provide for certain payments to or from each financial institution equal to the difference between BMA payable by the Airport System and a percentage of LIBOR payable by the respective financial institutions. The net effect of the 2002 Swap Agreements, when considered together with the 1999 Swap Agreements, is that the Airport System will receive 76.165% of LIBOR, rather than BMA, to offset the actual rate paid on the Series 2001 C1-C4 bonds.

The Airport System is exposed to basis risk under the 1999 and 2002 Swap Agreements, due to the differences in indices between the variable interest rate it pays on the associated debt and 76.165% of LIBOR received under the 2002 Swap Agreements. The 2002 Swap Agreements became effective on April 15, 2002 and payments under these Agreements commenced on May 1, 2002.

The 2005 Swap Agreements – In April 2005, the Airport System entered into interest rate Swap Agreements (the 2005 Swap Agreements) with four financial institutions in order to take advantage of and secure prevailing interest rates in contemplation of the future refunding of a portion of the Series 1996A Bonds and Series 1996D Bonds through the Airport System's issuance of variable rate bonds on or before November 15, 2006. On August 9, 2006, the Airport System amended the 2005 Swap Agreements. The notional amounts of the 2005 Swap Agreements are approximately \$56 million, \$56 million, \$112 million and \$56 million, respectively, and provide for certain payments to or from each financial institution equal to the difference between a fixed rate payable by the Airport System under each Agreement and 70% of the London Interbank Offered Rate for one-month deposits of U.S. dollars (LIBOR) payable by the respective financial institutions.

In August 2006, the Airport System issued the Series 2006A bonds in order to refund the Series 1996A and 1996D bonds, and entered into the 2006B Swap Agreements (described below under "*The 2006B Swap Agreements*"). The net effect of the 2005 Swap Agreements, when considered together with the fixed rate Series 2006A bonds and the 2006B Swap Agreements is that the Airport System will pay a fixed rate plus or minus the difference between the BMA index and 70% of 1-month LIBOR on \$280 million of obligations.

CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM

Notes to Financial Statements

December 31, 2006 and 2005

The aggregate weighted average fixed rate payable by the Airport System under the 2005 Swap Agreements is 3.66%. The Airport System is exposed to basis risk under the 2005A Swap Agreements, due to the difference in indices between BMA paid on the associated 2006B Swap Agreements and 70.0% LIBOR received under the 2005 Swap Agreements. The 2005 Swap Agreements became effective on November 15, 2006 and payments under the Agreements commenced on December 1, 2006.

The 2006A Swap Agreements – On June 1, 2006, the City entered into interest rate swap agreements (the “2006A Swap Agreements”) with three financial institutions in order to take advantage of and secure prevailing interest rates in contemplation of the refunding of the Series 1997E bonds through the Airport System’s issuance of variable rate bonds on or before November 15, 2007. The 2006A Swap Agreements have notional amounts of approximately \$181.0 million, \$121.0 million and \$60.0 million, respectively, and provide for certain payments to or from each financial institution equal to the difference between the fixed rate payable by the Airport System under each Agreement and 70% of London Interbank Offered Rate (LIBOR) for one month deposits of U.S. dollars payable for the respective financial institutions.

The Airport System is exposed to market-access risk under the 2006A Swap Agreements. Market-access risk is the risk that the Airport System will not be able to enter the credit markets or that costs associated with entering the credit market will increase. If the 2006A Swap Agreements become effective and proposed refunding bonds are not issued, the Airport System would make net swap payments as required under the Swap Agreement. The Airport System would make fixed payments to the counterparties and receive variable payments of 70% of LIBOR. If the proposed variable rate bonds are issued, actual savings ultimately recognized by the transaction will be affected by the terms of the proposed variable rate refunding bonds and the net effect of the variable rate payments received under the swap and the payments on the bonds.

If the proposed variable rate refunding bonds are issued, and the 2006A Swap Agreements become effective, the Airport System will be exposed to basis risk under the 2006A Swap Agreements, due to the differences between the variable interest rate to be paid on the associated debt and 70% of LIBOR to be received under the 2006A Swap Agreements.

If the 2006A Swap Agreements become effective, the net effect, when considered together with the proposed variable rate refunding bonds, is that the Airport System will effectively pay a fixed rate, plus or minus the difference between the actual rate of the variable rate refunding bonds and 70% of LIBOR on \$362.0 million of obligations. The aggregate weighted average fixed rate payable by the Airport System under the 2006A Swap Agreements is 4.01%. The 2006A Swap Agreements have an effective date of November 15, 2007. Payments under these Agreements have not commenced.

The 2006B Swap Agreements-On August 9, 2006 the Airport System entered into interest rate swap agreements (the “2006B Swap Agreements”) with four financial institutions in order to synthetically create variable rate debt in association with the refunding of the Series 1996A and 1996D bonds on August 17, 2006. The 2006B Swap Agreements have notional amounts of approximately \$56.0 million, \$56.0 million, \$112.0 million and \$56.0 million, respectively, and provide for certain payments to or from each financial institution equal to the difference between a variable rate based on the Bond Market Association Index payable by the Airport System under each Agreement and a fixed rate payable by the respective financial institutions.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

In August 2006, the Airport System issued the Series 2006A bonds in order to refund the Series 1996A and 1996D bonds. The net effect of the 2006B Swap Agreements, when considered together with the fixed rate Series 2006A bonds, is that the Airport System will effectively pay a variable rate based on BMA plus or minus the difference between the fixed rate on the Series 2006A bonds and the fixed rate received under the 2006B Agreements on \$280.0 million of obligations. In November 2006, the 2005 Swap Agreements became effective (see “The 2005 Swap Agreements”). The net effect of the 2005 Swap Agreements, when considered together with the fixed rate Series 2006A bonds and the 2006B Swap Agreements is that the Airport System will pay a fixed rate plus or minus the difference between the BMA index and 70.0% of 1-month LIBOR, minus the difference of the fixed receiver rate on the 2006B Swap and the weighted average fixed payor rate on the 2005 Swap on \$280.0 million of obligations.

The aggregate weighted average fixed rate payable by the financial institutions under the 2006B Swap Agreements is 4.09%. The 2006B Swap Agreements became effective on November 15, 2006 and payments under these Agreements commenced on December 1, 2006.

Swap Payments and Associated Debt

As rates vary, variable rate bond interest payments and net swap payments will vary. As of December 31, 2006, debt service requirements of the related variable rate debt and net swap payments, assuming current interest rates remain the same, for their terms, were as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Interest rate swaps net</u>	<u>Total</u>
Year:				
2007	\$ —	\$ 33,230,200	\$ 4,621,069	\$ 37,851,269
2008	—	33,230,200	4,621,069	37,851,269
2009	—	33,230,200	4,621,069	37,851,269
2010	—	33,230,200	4,621,069	37,851,269
2011	—	33,230,200	4,621,069	37,851,269
2012-2016	31,695,000	165,738,850	23,126,849	220,560,699
2017-2021	385,975,000	135,504,485	19,451,249	540,930,734
2022-2025	361,915,000	39,967,171	2,405,317	404,287,488
Total	<u>\$ 779,585,000</u>	<u>\$ 507,361,506</u>	<u>\$ 68,088,760</u>	<u>\$ 1,355,035,266</u>

Variable Rate Bonds and Swap payments are calculated using rates in effect on December 31, 2006.

(13) Denver International Special Facility Revenue Bonds

To finance the acquisition and construction of various facilities at Denver International, the City issued three series of Special Facility Revenue Bonds. These bonds are special limited obligations of the City, payable and secured by a pledge of certain revenues to be received from lease agreements for these facilities. The bonds do not constitute a debt or pledge of the full faith and credit of the City or the Airport System, and accordingly, have not been reported in the accompanying financial statements. As of December 31, 2006 and 2005, Special Facility Revenue Bonds outstanding totaled \$327,610,000 and \$332,320,000, respectively.

Notes to Financial Statements

December 31, 2006 and 2005

(14) Capital Lease

The Airport System entered into a capital lease agreement for runway equipment with GE Capital Public Finance on July 1, 2003. The capital lease was paid off in 2006. Amortization of the capital lease is included in depreciation expense. The related net book value of the equipment as of December 31, 2005 was as follows:

Equipment	\$	6,009,746
Less accumulated depreciation		<u>(3,240,972)</u>
Net book value	\$	<u><u>2,768,774</u></u>

Changes in capital lease for the years ended December 31, 2006 and 2005 were as follows:

	<u>Balance January 1, 2006</u>	<u>Additions</u>	<u>Retirements</u>	<u>Balance December 31, 2006</u>
Capital lease	\$ 1,061,885	\$ —	\$ (1,061,885)	\$ —

(16) Pension Plan

Plan Description

Employees of the Airport System, as well as substantially all of the general employees of the City, are covered under the Denver Employees Retirement Plan (DERP). The following is a brief description of the retirement plan. Plan participants should refer to the appropriate source documents or publicly available financial reports for more complete information.

The DERP is a cost sharing multiple-employer, defined benefit plan established by the City to provide pension and post-retirement health benefits for its employees. The DERP is administered by the DERP Board of Trustees in accordance with sections 18.401 through 18.433.4 of the City's Revised Municipal Code. Amendments to the plan are made by ordinance. These Code sections establish the plan, provide complete information on the DERP, and vest the authority for the benefit and contribution provision with the City Council. The DERP Board of Trustees acts as the trustee of the plan's assets. As of January 1, 2006, the date of the last actuarial valuation, the plan was underfunded; however, there is no net pension obligation reported because the actuarial valuation adjusts contributions in the ensuing year to fully fund the plan. The Retirement Board monitors the plan continually to ensure an appropriate level of funding.

The plan issues a publicly available financial report that includes financial statements and required supplementary information. The report is available by contacting:

Denver Employees Retirement Plan
777 Pearl Street
Denver, Colorado 80203

**CITY AND COUNTY OF DENVER, COLORADO

Pension Plan's Funding Policy and Annual Pension Cost

For DERP, The City contributes 8.50% of covered payroll and employees make a pre-tax contribution of 2.50% in accordance with Section 18-407 of the revised Municipal Code of the City. The City's contributions to DERP for the years ended December 31, 2006, 2005 and 2004 were \$36,036,000, \$35,036,000 and \$33,108,000, respectively, which equaled the required contributions each year.

The City's annual pension cost for the current year and related information for the plan is as follows (dollar amounts expressed in thousands):

Actuarially determined	DERP	DERP health benefits
	<hr/>	<hr/>
Contribution rates (as a percentage of covered payroll):		
Employer	8.31%	0.82%
Plan members	2.48%	0.25%
Annual pension cost	\$53,428	\$5,292
Total contributions made	\$49,245	\$5,264
Actuarial valuation date	1-1-06	1-1-06
Actuarial cost method	Projected unit credit	Projected unit credit
Amortization method	Level dollar, open basis	Level dollar, open basis

(17) Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or an unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employees or other beneficiary) held in trust by the City for the exclusive benefit of the participants and their beneficiaries.

It is the opinion of the City's legal counsel that the City has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor.

(18) Commitments and Contingencies

(a) Commitments

At December 31, 2006, the Airport System has the following contractual commitments for construction and professional services:

Construction projects	\$ 124,489,128
Construction projects to be funded by bonded debt	208,771,710
Projects related to remediation – Stapleton	<u>11,672,406</u>
Total commitments	<u><u>\$ 344,933,244</u></u>

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

(b) Noise Litigation

The City and Adams County entered into an intergovernmental agreement for Denver International dated April 21, 1988 (the Intergovernmental Agreement). The Intergovernmental Agreement establishes maximum levels of noise that should not be exceeded on an average annual basis at various grid points surrounding the Airport. Penalties must be paid to Adams County when these maximums are exceeded.

As of December 31, 2006, the Airport System accrued \$.5 million in the accompanying financial statements for noise violations and penalties.

(c) Claims and Litigation

The Airport System is involved in several other claims and lawsuits and is the subject of certain other investigations. The Airport System and its legal counsel estimate that the ultimate resolution of these matters will not materially affect the accompanying financial statements of the Airport System.

(d) Denver International Assets under Operating Leases

The Airport leases portions of its buildings and improvements to airline and concession tenants under noncancelable operating leases. Lease terms vary from 1 to 30 years. The operating leases with the concession tenants require rental payments equal to the greater of a fixed minimum amount per square foot or percentage of gross receipts. Rental income under operating leases for 2006 and 2005 was \$61,479,426 and \$53,393,400, respectively.

Minimum future rentals due from concession tenants are as follows for the years ending December 31:

2007	\$ 45,635,800
2008	42,615,500
2009	41,786,300
2010	40,905,500
2011	38,868,900
2012-2016	80,636,200
2017-2021	52,600
Total minimum future rentals	\$ <u><u>290,500,800</u></u>

The United lease provides that it can be terminated by the airline if the airline's cost per enplaned passenger exceeds \$20 in 1990 dollars. Current costs per enplaned passenger did not approach this limit for either 2006 or 2005. Rental rates for airlines are established under a ratemaking methodology whereby a compensatory method is used to set terminal rental rates and a residual method is used to set landing fees. Rentals, fees, and charges must generate gross revenues together with other available funds sufficient to meet the rate maintenance covenant per the Bond Ordinance.

**CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM**

Notes to Financial Statements

December 31, 2006 and 2005

(e) Federal grants

Under the terms of the Federal grants, periodic audits are required and certain costs may be questioned as not being appropriate expenditures under the terms of the grants. Such audits could lead to reimbursement to the grantor agencies. The Airport System management believes disallowances, if any will be immaterial to its financial position and operations of the Airport.

(19) Insurance

The Airport System is exposed to various risks of loss related to torts; thefts of, damage to, and destruction of assets; errors and omissions; and natural disasters. The Airport System has purchased commercial insurance for the various risks.

Employees of the City (includes all DIA employees) are covered by the City's insurance policies. Effective October 1, 1989, the City established a workers' compensation self-insurance trust in accordance with State statutes, to be held for the benefit of the City's employees

The City's Workers' Compensation Internal Service Fund compensates City employees, or their eligible dependents, for injuries as authorized by the State Workers' Compensation law or City ordinances. The administrators of the fund provide safety training and enhancement programs, in addition to maintaining in-house records of claims. On August 1, 1991, a separate insurance program was established by the City to insure all contract labor working on-site at Denver International. The program provides medical and indemnity payments as required by law for on-the-job related injuries for all non-City employees and builders' risk, general liability, and professional liability for all applicable construction and consulting firms working on-site at the Denver International Airport. The insurance program covers only incidents incurred prior to September 1994.

Deductibles under this insurance program are: (1) workers' compensation liability of \$250,000 per occurrence; and (2) general liability, builders' risk, and professional liability insurance of \$25,000, \$100,000, and \$1,000,000 per occurrence, respectively.

Settled claims for these risks have not exceeded this commercial coverage in any of the past three fiscal years.

(20) Significant Concentration of Credit Risk

The Airport System derives a substantial portion of its operating revenues from airline's landing and facility rental fees (airline operating revenue). For the years ended December 31, 2006 and 2005, United Airlines represented approximately 59% and 59%, respectively, of the Airport System's airline operating revenue. Frontier Airlines represented 13% and 12% of the Airport System's airline operating revenue. No other airline represented more than 10% of the Airport System's airline operating revenues. The Airport System requires performance bonds to support airlines and concession accounts receivables.

(21) United Airlines

The dominant air carrier at Denver International Airport is United Airlines, one of the world's largest airlines. The Airport currently is the second largest connecting hub in United's route system, both in terms of

CITY AND COUNTY OF DENVER, COLORADO
MUNICIPAL AIRPORT SYSTEM

Notes to Financial Statements

December 31, 2006 and 2005

passengers and flight operations. Pursuant to the United Use and Lease Agreement, United currently leases 43 of the 95 full-service gates at the Airport. In addition, United together with its United Express commuter affiliates, accounted for 56.4% and 56.4% of enplaned passengers at the Airport in 2006 and 2005.

In May 2005, the Airport System and United reached an agreement in principle for United to permanently release two Concourse A gates that had been temporarily released by United under the Stipulated Order. In exchange, the Airport System allocated \$10.0 million in surplus PFC revenues or other available funds to reduce the Debt Service Requirements on United's automated baggage system.

In the 2005-2 Amendment to the United Use and Lease Agreement, the Airport System agreed to a reduction in United's rates and charges associated with the automated baggage system of \$4.9 million in 2006, \$8.5 million in 2007 and \$11.0 million in 2008 through 2025, the last year of the term of the United Use and Lease Agreement in exchange for United's agreement to grow the Denver hub. This agreed reduction will be achieved by defeasing outstanding debt with available \$1.50 PFCs.

In the 2006 Amendment, the Airport System agreed to further mitigate United's baggage system charges by defeasing certain outstanding Airport System Revenue Bonds and reducing amortization charges allocated to the automated baggage system in stated amounts not to exceed \$10.0 million per year, using available Capital Fund moneys and other legally available Airport funds. The Airport System also agreed to improve the existing commuter facilities on the east end of Concourse B in order to accommodate larger regional jet aircraft and provide new enhanced passenger amenities. These improvements, referred to herein as the Concourse B Commuter Facility Project, are estimated to cost approximately \$41.5 million. The Concourse B Commuter Facility Project was completed April 23, 2007.

Under the 2006 Amendment, United will gradually relinquish its six leased gates on Concourse A. The Airport System expects that Frontier or other airlines will lease, or use on a nonpreferential basis, the gates relinquished by United as they become available. United relinquished one of the Concourse A gates on July 1, 2006, and has relinquished a second Concourse A gate on November 30, 2006 and the remaining four Concourse A gates upon completion of the Concourse B Commuter Facility Project.

United emerged from bankruptcy in February 2006.

(22) Subsequent Events

The Airport System is seeking proposals from qualified participants to own, manage, finance and/or build a 500 room, four star, four diamond hotel to be connected to Jeppesen Terminal.

In April of 2007, the Airport drew on the Airport System Subordinate Commercial Paper 2006A notes with an outstanding principal of \$30 million.

The Airport is assisting United in refinancing its Special Facility bond obligations in the amount of \$270,000,000.

Delta Airlines emerged from Chapter 11 bankruptcy on April 30, 2007.

(d) Redemption Account

Required deposit to the Bond Redemption Account, on or prior to any date on which the Airport System exercises its option to call for prior redemption of any Bonds, an amount necessary to pay the redemption price of such bonds on such Redemption Date, except to the extent any other monies, including without limitation, monies in any escrow account, are available therefore.

As of December 31, 2006, the redemption account had a balance of \$17.1 million for the sixth runway and baggage system.

(e) Bond Account Summary

The sum of the required bond account balances described in items (a) through (d) above is as follows:

Aggregate required Bond Account balance	\$	24,008,634
Bond Account balance at December 31, 2006		24,008,634
Underfunded	\$	—

(2) Bond Reserve Account

The City is required, after making required monthly deposits to the Interest, Principal, Sinking Account, and Redemption accounts of the Bond Account, to apply Net Revenues to fund the Bond Reserve Account, in an amount equal to the maximum annual interest and principal payable on all outstanding Senior Bonds of the Airport System, as defined in the General Bond Ordinance. The amount deposited to the Bond Reserve Account at December 31, 2006 is \$325,070,055. The minimum Bond Reserve Account requirement is \$325,070,055.

(3) Operation and Maintenance Reserve Account

The operation and maintenance reserve account is an amount equal to two times the monthly average operating and maintenance costs of the preceding year. The Airport System is required to make equal monthly transfers sufficient to fully fund the Operations and Maintenance Reserve Account by January 1, 2007.

APPENDIX B

JULY 2007 REPORT OF THE AIRPORT CONSULTANT

This appendix contains the report dated July 25, 2007 prepared by Jacobs Consultancy Inc., the City's Airport Consultant, in connection with the marketing of the Series 2007 Bonds. The July 2007 Report has not been revised since its dated date, although certain information pertaining to the Airport and the Airport System as presented in the July 2007 Report has been updated herein, including information regarding Net Revenues and debt service coverage under "SECURITY AND SOURCES OF PAYMENT," the Airport's 2008-2013 Capital Program under "CAPITAL PROGRAM," the Airport passenger traffic and revenue information under "AVIATION ACTIVITY AND AIRLINES," information regarding the City's agreements with passenger airlines operating at the Airport and certain other agreements under "AGREEMENTS FOR USE OF AIRPORT FACILITIES" and Airport financial information under "FINANCIAL INFORMATION," including the caption "Plan of Financing."

The July 2007 Report of the Airport Consultant contains certain information relating to the Airport and the Airport System which forms the basis for the assumptions underlying the forecasts presented in the July 2007 Report and supplements the information presented in this Official Statement. **THE JULY 2007 REPORT IS APPENDED TO THIS OFFICIAL STATEMENT SOLELY FOR THE PURPOSE OF PRESENTING CERTAIN HISTORICAL INFORMATION RELATING TO THE AIRPORT AND THE AIRPORT SYSTEM AND NOT FOR ANY OTHER PURPOSE.** The City believes that all material facts contained in such historical information (but not forecasts and estimates) relating to the Airport and the Airport System in the July 2007 Report other than the section set forth on page A-47 of the July 2007 Report entitled "Economic Outlook" (the "Excluded Portion") are true, correct and complete in all material respects, and the City is not aware of any material changes to such facts other than as described in this Official Statement.

The forecasts in the July 2007 Report and the assumptions underlying such forecasts have not been updated since the date of the July 2007 Report to reflect, among other things, the following: (1) the passenger and financial forecasts presented in the July 2007 Report and any changes in the information used to develop the assumptions underlying such forecasts, including, without limitation, changes in the operations and finances of the Airport, the Airport's capital and financing plans, the April 10, 2008 bankruptcy filing of Frontier, the economy, fuel prices, air fares and the condition of the air transportation industry in general; (2) the actual series designations and Debt Service Requirements of the Series 2007 Bonds; and (3) the issuance of the Series 2008A1-A4 Bonds and the refunding of the Refunded Bonds. Consequently, the City makes no representations and gives no assurances herein as to any of the forecasts, estimates or the Excluded Portion in the July 2007 Report or the assumptions underlying such forecasts, and in particular as to whether there have been any material adverse changes thereto. **BECAUSE THE JULY 2007 REPORT HAS NOT BEEN UPDATED, PROSPECTIVE INVESTORS ARE ADVISED THAT THE FORECASTS, ESTIMATES AND EXCLUDED PORTION IN THE JULY 2007 REPORT SHOULD NOT BE RELIED UPON IN MAKING ANY DECISION TO PURCHASE THE SERIES 2008A1-A4 BONDS.**

8500 Peña Boulevard
Denver, Colorado 80249-6340

Re: Report of the Airport Consultant, City and County of Denver,
Colorado, for and on behalf of its Department of Aviation, Airport
System Revenue Bonds, Series 2007

Dear Mr. West:

We are pleased to submit this Report of the Airport Consultant on certain aspects of the proposed issuance of Airport System Revenue Bonds, Series 2007 (the 2007 Bonds) by the City and County of Denver, Colorado (the City), for and on behalf of its Department of Aviation (the Department).

The City owns and, through the Department, operates Denver International Airport (the Airport), which is the primary air carrier airport serving the Denver region. The Airport and the site of the former air carrier airport (Stapleton International Airport) serving the region, which is also owned by the City, constitute the Airport System.

The 2007 Bonds are to be issued as Senior Bonds under a General Bond Ordinance adopted by the City in 1984, as supplemented and amended by multiple Supplemental Bond Ordinances (collectively, the General Bond Ordinance) with a first lien on the Net Revenues* of the Airport System. (Capitalized terms in this report are used as defined in the General Bond Ordinance** or the Airport use and lease agreements, discussed later.)

The General Bond Ordinance sets forth the covenants of the City with respect to, among other things for the Airport System: (a) issuing additional Bonds, (b) establishing rates, fees, and charges as provided under the Rate Maintenance Covenant, and (c) paying

*Net Revenues equal Gross Revenues less Operation and Maintenance Expenses.

**See Appendix D of the Official Statement.

Mr. Turner West
July 25, 2007

Operation and Maintenance (O&M) Expenses and Debt Service Requirements, among other expenses.

This feasibility report was undertaken to estimate the ability of the Airport System to generate sufficient Net Revenues and Other Available Funds from 2007 through 2013, referred to in this report as the forecast period*, to meet the requirements of the Rate Maintenance Covenant of the General Bond Ordinance following the issuance of the 2007 Bonds.

2007 BONDS

The 2007 Bonds include multiple series and have multiple purposes, as follows:

- The 2007A-B and 2007D-E Bonds are to be issued to fund projects in the Airport Capital Program, as discussed below.
- Depending on market conditions for issuing bonds, the 2007C Bonds are to be issued to advance-refund all or a portion of the principal outstanding of the 1998B and 2003B Bonds.
- The 2007F Bonds are to be issued to current-refund a portion of the principal outstanding of the 1997E Bonds.

According to the Financial Consultants,** the 2007C Bonds are to be issued at the time the 2007A-B Bonds are issued, which would be followed by issuance of the 2007D-E Bonds and the 2007F Bonds. For purposes of this report, the financial forecasts do not include any debt service savings from the proposed issuance of the 2007C and 2007F Bonds, or other Bonds the City may issue during the forecast period to refund the principal of outstanding Bonds. As such, any mention of the 2007 Bonds in this report refers to the 2007A-B Bonds and 2007D-E Bonds.

*Coincides with the last year of the Airport Capital Program (2013).

**First Albany Capital and Estrada Hinojosa & Company, Inc.

Mr. Turner West
July 25, 2007

The City expects to issue the 2007A-B Bonds and the 2007D-E Bonds in the approximate principal amounts and for the uses indicated below.

Series	Principal to be issued (millions)	Uses of 2007A-B and 2007D-E Bonds (millions) (a)		
		Refund Outstanding Commercial Paper Notes	Reimburse Airport equity	Fund Airport Capital Program costs
2007A-B Bonds	\$224,016	\$30,000	\$40,000	\$130,170
2007D-E Bonds	<u>250,020</u>	<u>--</u>	<u>--</u>	<u>201,700</u>
Total (a)	<u>\$474,036</u>	<u>\$30,000</u>	<u>\$40,000</u>	<u>\$331,870</u>

(a) Issuance costs are not reflected above and, as such, the total principal amount to be issued does not equal the amounts to be used to refund the Commercial Paper Notes and to fund project costs.

Sources: First Albany Capital and Estrada Hinojosa & Company, Inc. (the Financial Consultants).

According to the Financial Consultants, the 2007A Bonds and the 2007D Bonds are to be issued as alternative minimum tax (AMT) Bonds, and the 2007B and the 2007E Bonds are to be issued as non-AMT Bonds.

The Airport Capital Program costs to be funded from the net proceeds of the 2007A-B Bonds and the 2007D-E Bonds are part of a broader City plan to expand and improve Airport facilities, as discussed later in this report.

The 2007A-B Bonds and the 2007D-E Bonds are considered “additional Bonds” under Section 704B of the General Bond Ordinance and, as such, the City is required to retain an Airport Consultant to demonstrate compliance with the additional Bonds test prior to issuance of those Bonds. The City retained Jacobs Consultancy as the Airport Consultant and compliance with the additional Bonds test for the 2007A-B Bonds has been demonstrated, as provided in a separate letter to the City for those Bonds. The additional Bonds test for the 2007D-E Bonds is to be undertaken and the results are to be provided to the City in connection with the proposed issuance of those Bonds.

AIRPORT CAPITAL PROGRAM

The Airport Capital Program includes projects to expand, maintain, and reconstruct Airport facilities in 2007, as well as the 6-year period from 2008 through 2013.

Mr. Turner West
July 25, 2007

From 2007 through 2013, the Department expects to invest approximately \$1.22 billion in Airport facilities from the net proceeds of the 2007A-B Bonds, the 2007D-E Bonds, and additional Bonds (the Future Planned Bonds*) the City expects to issue during the forecast period to fund projects from 2008 through 2013, as well as certain other sources of funds.

As certain projects in the 2007-2013 Capital Program are ready for their intended use, certain assumptions have been incorporated into the financial forecasts presented in this report regarding additional (a) Gross Revenues from airline rentals, fees, and charges and/or other sources, (b) O&M Expenses, and (c) debt service associated with the 2007 Bonds and the Future Planned Bonds.

Project Costs to Be Funded with 2007A-B and 2007D-E Bond Proceeds

The projects to be funded from the net proceeds of the 2007A-B Bonds and the 2007D-E Bonds (collectively, the 2007 Project) are expected to include the following:

- Construct 10 new mainline gates and additional apron area by expanding Concourse C to the east
- Construct a new commuter jet facility and additional apron area at the east end of Concourse C
- Extend Taxiway K in the north-south direction to the east of Concourse C
- Extend the east-west taxilanes to the north and south of Concourse C
- Construct an aircraft holding and remain overnight (RON) area to the east of Concourse C
- Improve baggage systems to increase the efficiency of airline operations
- Construct the Concourse B regional jet facility, which became operational on April 24, 2007, and was previously funded with Commercial Paper Notes
- Construct a new public parking structure adjacent to the Landside Terminal, which was previously funded with Commercial Paper Notes and Airport equity

*The Future Planned Bonds were assumed to be issued as Senior Bonds under the General Bond Ordinance.

Mr. Turner West
July 25, 2007

According to the Department, the 2007 Project is expected to cost approximately \$401.9 million.

Future Planned Bonds

The projects (i.e., the 2008-2013 Airport Capital Program) to be funded from the net proceeds of the Future Planned Bonds are expected to include, but are not limited to, the following:

- Rehabilitate taxiways and runways as part of the City's pavement management plan
- Continue improving the baggage system, including baggage sortation carousels, baggage claim carousels, odd-size baggage system, and right-of-way clearances
- Improve building systems, including the fire protection system, baggage information display system, electrical and mechanical systems, and elevators
- Construct a FasTracks rail station on the south side of the Landside Terminal to provide rail service between Denver Union Station and the Airport
- Upgrade the automated guideway transit system (AGTS) computer hardware, and extend the rail system to the south of the Landside Terminal to accommodate additional trains
- Expand the security screening checkpoint
- Construct future public parking structure and shuttle lot; improve Peña Boulevard; rehabilitate pavement in targeted roadway and parking areas

According to the Department, the 2008-2013 Airport Capital Program is estimated to cost approximately \$822.7 million.

Mr. Turner West
July 25, 2007

RATE MAINTENANCE COVENANT

The Rate Maintenance Covenant of the General Bond Ordinance states that the City agrees to fix, revise, charge, and collect rentals, rates, fees, and other charges for the use of the Airport System so that, in each Fiscal Year,* Gross Revenues together with any Other Available Funds will, at all times, be at least sufficient to provide for the payment of O&M Expenses for such Fiscal Year, and the larger of either:

- The total amount of required deposits to various Airport System funds and accounts during such Fiscal Year, or
- 125% of the aggregate Debt Service Requirements on Senior Bonds for such Fiscal Year.

In the General Bond Ordinance, "Other Available Funds" is defined to include the amount to be transferred in any Fiscal Year from the Coverage Account of the Capital Fund to the Revenue Fund, up to a maximum of 25% of the aggregate Debt Service Requirements on Senior Bonds. Based on audited data for 2006 and unaudited data for the first 3 months of 2007, at least 25% of Debt Service Requirements on Senior Bonds was on deposit in the City's Coverage Account during those periods.

Under various approvals from the Federal Aviation Administration (FAA), the City has the authority to collect a \$4.50 passenger facility charge (PFC) up to \$3.3 billion in PFC revenues; the City collected approximately \$850.4 million of its total approval through March 31, 2007. Through an adopted PFC Supplemental Bond Ordinance, the City has irrevocably committed to pay debt service on Senior Bonds with a portion of the PFC revenues it receives each year and deposits into the PFC Debt Service Account.

In general, the irrevocable commitment equals the revenues received from \$3.00 of each \$4.50 PFC** imposed by the City, which extends through December 31, 2011. Following the date of this report and prior to the issuance of the 2007 Bonds, the City expects to adopt a PFC Supplemental Bond Ordinance extending that commitment through December 31, 2013.

*The City's Fiscal Year is the same as the calendar year.

**Less the airline collection fee amount.

Mr. Turner West
July 25, 2007

The City expects that, during the forecast period, all of the revenues from the remaining \$1.50 PFC would be irrevocably committed to one of the following purposes:

- Payment of debt service on Senior Bonds
- Defeasance of the outstanding principal of certain Senior Bonds, which would reduce the level of debt service that would have otherwise been payable from Net Revenues

Under the General Bond Ordinance, the City is allowed to exclude from Debt Service Requirements on Senior Bonds all amounts irrevocably committed to pay such Debt Service Requirements for the purposes of calculating debt service coverage under the Rate Maintenance Covenant; this exclusion is reflected in the financial forecasts presented in this report.

AIRPORT USE AND LEASE AGREEMENTS

In 2006, the rentals, fees, and charges received from the airlines operating at the Airport under Airport use and lease agreements or other agreements with the City constituted approximately 53.7% of Gross Revenues. Nonairline revenues from public parking operations, concession fees, building and ground rentals, and other sources represented the remaining 46.3% of 2006 Gross Revenues.

The Airport use and lease agreements include provisions for:

- The establishment of airline rentals, fees, and charges to recover, in part, O&M Expenses, debt service on Bonds, and certain other costs of the Airport System.
- The annual recalculation of airline rentals, fees, and charges.
- The distribution of 50% of Net Revenues remaining at the end of the year* to the airlines signatory to the Airport use and lease agreements (the Signatory Airlines), up to a maximum credit in any year of \$40 million.
- An increase in rentals, fees, and charges at the Airport such that Net Revenues, together with Other Available Funds, are sufficient to satisfy the Rate Maintenance Covenant of the General Bond Ordinance.

*Only after all other requirements of the General Bond Ordinance have been satisfied.

Mr. Turner West
July 25, 2007

The City has executed Airport use and lease agreements, which include leased gates, with the passenger Signatory Airlines listed below. Of the 95 gates at the Airport, 87 are leased by the following airlines (the number of leased gates is shown in parentheses):

AirTran Airways (1)	Midwest Airlines (1)
Alaska Airlines (1)	Northwest Airlines (3)
American Airlines (3)	Southwest Airlines (5)
Continental Airlines (3)	United Airlines (43)
Delta Air Lines (3)	US Airways (3) (b)
Frontier Airlines (21) (a)	

-
- (a) Frontier leases 15 gates and an agreement amendment is pending for an additional 6 gates. Also, Frontier is expected to use or lease two gates on Concourse C, which are not included in the totals above.
- (b) The parent companies of America West Airlines and US Airways merged in September 2005.

The City also has Airport use and lease agreements with regional/commuter passenger airlines (also defined as Signatory Airlines)—such as those operating as United Express—that do not lease space at the Airport, but use Airport facilities to operate express flights under code-sharing arrangements with certain airlines listed above. In addition, the City has Airport use and lease agreements with five foreign-flag passenger airlines, and six all-cargo airlines.

Most of the passenger and cargo airline use and lease agreements at the Airport are scheduled to expire during the forecast period (in 2010). As of the date of this report, the City intends to negotiate similar agreements with lease terms of 5 years and substantially similar business terms.

United Airlines operates a major connecting hub at the Airport under an Airport use and lease agreement with the City that expires in 2025. The United's operations at the Airport include service by United mainline, Ted (a low-fare unit of United), and the United Express regional airline partners (collectively, the United Airlines Group). In 2006 and the first 3 months of 2007, the United Airlines Group enplaned 56.4% and 56.0%, respectively, of all passengers enplaned at the Airport.

Mr. Turner West
July 25, 2007

SCOPE OF REPORT

As stated earlier, our study was undertaken to estimate the ability of the Airport System to meet the requirements of the Rate Maintenance Covenant of the General Bond Ordinance in each year of the forecast period. In conducting our study, we analyzed:

- Future airline traffic demand at the Airport, giving consideration to the demographic and economic characteristics of the Airport service region; historical trends in airline traffic; recent airline service developments and airfares; and other key factors that may affect future airline traffic.
- The Airport Capital Program from 2007 through 2013, giving particular attention to major projects in the Capital Program and when those projects are expected to be completed and ready for their intended use.
- Estimated sources and uses of funds and annual Debt Service Requirements for the proposed 2007 Bonds and the Future Planned Bonds.
- Historical relationships among Gross Revenues, O&M Expenses, airline traffic, and other factors that may affect future Gross Revenues and O&M Expenses.
- Audited financial results for the Airport System in 2006, the City's current estimate of O&M Expenses for 2007, and the City's preliminary budget of O&M Expenses for 2008.
- The City's policies and contractual agreements relating to the use and lease of the Airport; the calculation and adjustment of airline rentals, fees, and charges; the operation of public automobile parking and other concession and service privileges; and the leasing of buildings and grounds.
- Certain cost reduction goals in the United Airport use and lease agreement, as amended.
- The City's intended use of PFC revenues during the forecast period under the terms of the General Bond Ordinance and the PFC Supplemental Bond Ordinance, and the proposed terms of the PFC Supplemental Bond Ordinance to be adopted by the City following the date of this report.

Mr. Turner West
July 25, 2007

We also identified key factors upon which the future financial results of the Airport System may depend and formulated assumptions about those factors. On the basis of those assumptions, we assembled the financial forecasts presented in the accompanying exhibits provided at the end of the attachment to this letter and summarized herein.

FORECAST DEBT SERVICE COVERAGE

Exhibit H (as mentioned above, all financial exhibits are provided at the end of the attachment) and the table on the following page summarize forecasts of Net Revenues and Other Available Funds, Debt Service Requirements, and debt service coverage, taking into consideration.

- The estimated debt service on the proposed 2007A-B Bonds and the 2007D-E Bonds and the Future Planned Bonds
- Additional Gross Revenues and O&M Expenses resulting from the completion of projects in the 2007-2013 Airport Capital Program

Exhibit C presents the estimated debt service on the 2007 Bonds and the Future Planned Bonds. As stated earlier, the forecasts do not reflect any Bonds the City may issue to refund outstanding Airport System Revenue Bonds.

DEBT SERVICE COVERAGE CALCULATION INCLUDING THE FUTURE PLANNED BONDS							
(in thousands, except coverage)							
	Estimated	Forecast					
	2007	2008	2009	2010	2011	2012	2013
Net Revenues and Other Available Funds	\$392,862	\$384,220	\$389,733	\$401,323	\$440,107	\$446,925	\$463,917
Debt Service Requirements (a)							
Senior Bonds	\$220,422	\$221,899	\$214,864	\$217,238	\$265,262	\$263,390	\$280,330
Subordinate Bonds	<u>11,806</u>	<u>11,806</u>	<u>11,806</u>	<u>11,806</u>	<u>11,806</u>	<u>11,806</u>	<u>11,806</u>
Total	\$232,228	\$233,705	\$226,670	\$229,044	\$277,068	\$275,196	\$292,136
Debt service coverage							
Senior Bonds	178%	173%	181%	185%	166%	170%	166%
All Bonds	169%	164%	172%	175%	159%	162%	159%

(a) The Financial Consultants.

Mr. Turner West
July 25, 2007

Estimated Debt Service Requirements are net of PFC revenues that are irrevocably committed to pay Debt Service Requirements on Senior Bonds, which include both the revenues from \$3.00 of the PFC that are required to be deposited in the PFC Debt Service Account plus all of the revenues from the \$1.50 PFC that the City intends to credit to the PFC Debt Service Account to pay Debt Service Requirements or use to defease certain Senior Bonds during the forecast period, as discussed earlier. Exhibit C presents the total PFC revenues assumed to be deposited in the PFC Debt Service Account and irrevocably committed to pay Debt Service Requirements during the forecast period.

The calculation of debt service coverage indicates compliance with the Rate Maintenance Covenant of the General Bond Ordinance in each year of the forecast period.

AIRLINE COST PER ENPLANED PASSENGER

As shown in Exhibit E, airline rentals, fees, and charges include Terminal Complex rentals, landing fees, and other fees and charges. These airline payments (costs) are expressed on a per enplaned passenger basis, as presented in the following table.

AVERAGE COST PER ENPLANED PASSENGER FOR ALL AIRLINES							
(in thousands, except cost per enplaned passenger)							
	Estimated 2007	Forecast					
		2008	2009	2010	2011	2012	2013
Net passenger airline rentals, fees, and charges	\$274,548	\$277,878	\$294,707	\$314,308	\$367,313	\$384,493	\$409,637
Enplaned passengers	<u>24,602</u>	<u>25,351</u>	<u>25,936</u>	<u>26,332</u>	<u>26,730</u>	<u>27,068</u>	<u>27,293</u>
Cost per enplaned passenger	\$11.16	\$10.96	\$11.36	\$11.94	\$13.74	\$14.20	\$15.01

The average cost per enplaned passenger, as shown above, is forecast to be approximately \$12.63 between 2007 and 2013, compared to costs per enplaned passenger at the Airport from 1996 (the first full year of Airport operations) through 2006, which ranged between \$11.41 and \$16.07.

Mr. Turner West
July 25, 2007

ASSUMPTIONS UNDERLYING THE FINANCIAL FORECASTS

The accompanying financial forecasts are based on information and assumptions that were either provided by, or reviewed with and agreed to by, Airport management. Accordingly, the forecasts reflect management’s expected course of action during the forecast period and, in management’s judgment, present fairly the expected financial results of the Airport System.

The key factors and assumptions that are significant to the forecasts are set forth in the attachment, “Background, Assumptions, and Rationale for the Financial Forecasts.” The attachment should be read in its entirety for an understanding of the forecasts and the underlying assumptions.

In our opinion, the assumptions underlying the financial forecasts provide a reasonable basis for the forecasts. However, any forecast is subject to uncertainties. Inevitably, some assumptions will not be realized, and unanticipated events and circumstances may occur. Therefore, there are likely to be differences between the forecast and actual results, and those differences may be material. We have no responsibility to update this report for events and circumstances occurring after the date of the report.

* * * * *

We appreciate the opportunity to serve as the City’s Airport Consultant in connection with this proposed financing.

Respectfully submitted,

JACOBS CONSULTANCY

AIRLINE TRAFFIC ANALYSIS

AIRPORT FACILITIES

Denver International Airport occupies about 33,800 acres (53 square miles) of land approximately 24 miles northeast of downtown Denver. The passenger terminal complex is accessed via Peña Boulevard, a 12-mile dedicated Airport access road from Interstate 70. The Airport has six runways and a related system of taxiways and aircraft aprons. Four of the runways are oriented north-south and two are oriented east-west. Five runways are 12,000 feet long and 150 feet wide, and the sixth runway is 16,000 feet long and 200 feet wide, making it the longest commercial-service runway in North America.

The passenger terminal complex consists of a Landside Terminal and three airside concourses (A, B, and C). The Landside Terminal accommodates passenger ticketing, baggage claim, concessions, and other facilities and is served by terminal curbside roadways for public and private vehicles. Automobile parking is provided in two public parking garages adjacent to the Landside Terminal, surface parking lots, and a remote shuttle bus lot. Spaces are also provided for employee parking.

Passengers travel between the Landside Terminal and Concourses A, B, and C via an underground automated guideway transit system (AGTS). In addition, a pedestrian passenger bridge provides access to Concourse A. Concourses A, B, and C provide 95 parking positions (gates) for large jet aircraft and up to 64 parking positions for regional/commuter airline aircraft.

Concourse A has 30 gates, 8 of which can accommodate international narrowbody aircraft. Of the 30 gates on Concourse A, 24 are leased by Continental Airlines and Frontier Airlines. Concourse B has 43 gates, all of which are leased by United Airlines. Concourse C has 22 gates, 20 of which are leased by Alaska Airlines, America West Airlines/US Airways, American Airlines, Delta Air Lines, Midwest Airlines, Northwest Airlines, and Southwest Airlines; 2 gates were added in 2006.

As discussed later in this report, the City intends to expand the number of Concourse C gates, expand the public parking facilities, and make various improvements and upgrades to the Landside Terminal.

AIRPORT ROLE

Denver International Airport has an important role in the national, State, and local air transportation systems and is the fifth busiest airport in the United States, in terms of total passengers (enplaned plus deplaned), the primary commercial service airport for the State of Colorado, and a hub for United and Frontier.

The top-five ranking of the Airport among the busiest domestic airports in the United States based on total passengers reflects the Airport's (1) central geographic location, (2) large origin-destination passenger base, and (3) role as a hub for United and Frontier.

Central Geographic Location

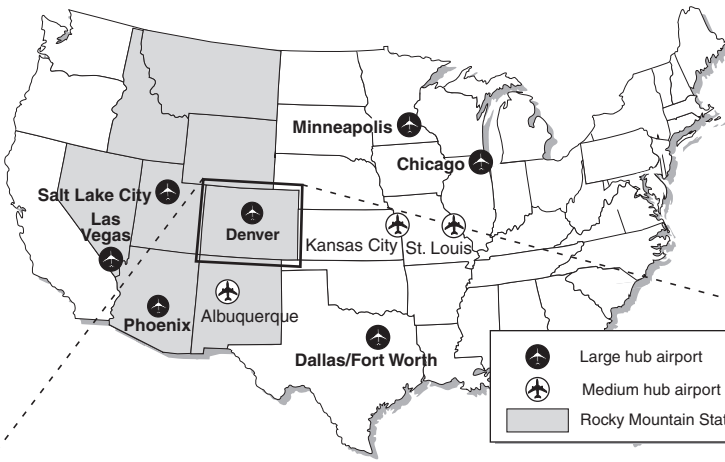

Located near the geographic center of the United States mainland, Denver has long been a major air transportation hub in the route system of United Airlines and other airlines, including Continental Airlines in the past and Frontier Airlines more recently. Denver's natural geographic advantage as a connecting hub location is enhanced by the capabilities of the Airport to accommodate aircraft landings and takeoffs in virtually all weather conditions. Figure 1 shows the central geographic location of the Denver hub compared with other U.S. hub airports.

Fifth Busiest U.S. Airport

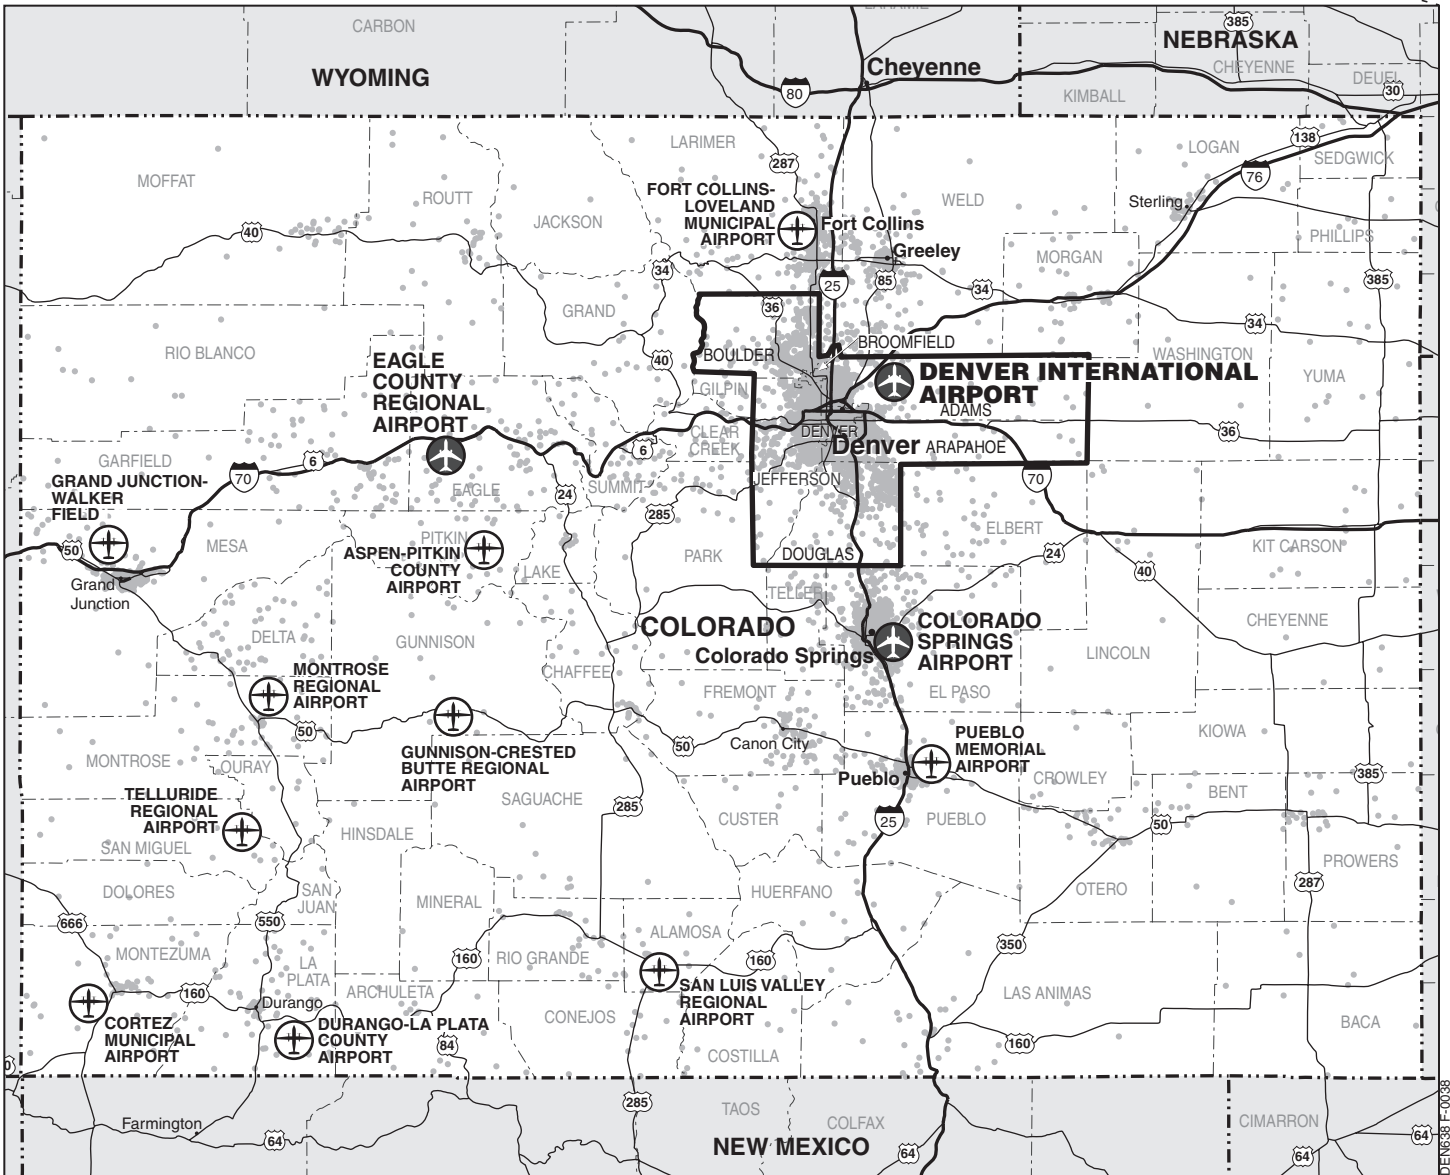

According to statistics compiled by Airports Council International (ACI), in terms of total passengers (enplaned plus deplaned), the Airport was the fifth busiest airport in the United States in 2006, as shown in Table 1. The seven largest domestic passenger airlines all serve the Airport, providing service to 159 destinations, including 138 within the continental United States, 1 in Alaska, 3 in Hawaii, and 17 international destinations. All of the large domestic all-cargo airlines provide regular service at the Airport.

Rank 2006	City (airport)	Total passengers (millions) (a)					Average annual increase 2002-2006
		2002	2003	2004	2005	2006	
1	Atlanta (Hartsfield-Jackson)	76.9	79.1	83.6	85.9	84.8	2.5%
2	Chicago (O'Hare)	66.6	69.4	75.5	76.8	77.0	3.7
3	Los Angeles (International)	56.2	55.0	60.7	61.5	61.0	2.1
4	Dallas/Fort Worth	52.8	53.2	59.4	59.1	60.2	3.3
5	Denver	35.7	37.5	42.4	43.3	47.3	7.3
6	Las Vegas (McCarran)	35.0	36.3	39.5	44.0	46.2	7.2

Figure 1
DENVER AIRPORT SERVICE REGION
 Denver International Airport
 July 2007

Source: U.S. 2000 Census data. This Report has not been revised since July 25, 2007. The forecasts, estimates and the Excluded Portion described on the cover page of this APPENDIX B should not be relied upon in making a decision to purchase the Series 2008A Bonds.

In 2006, approximately 44% of the approximately 23.7 million passengers enplaned at the Airport, or about 10.4 million passengers, connected from one flight to another, as shown on Figure 2. Of the 10 busiest domestic airports, in terms of enplaned passengers, the Airport has the fifth largest share of originating passengers (56%), which reflects the strength of the Denver market and its role as the primary commercial-service airport in the State of Colorado, as discussed in the following sections.

Large Origin-Destination Passenger Base

The Airport's large origin-destination passenger base is related to the strength of the Denver economy and supports the connecting hub operations of United and Frontier. This large base of local passengers allows United and Frontier to (1) improve load factors and profitability and (2) maintain high frequencies for scheduling passenger connections. The flights of 13.2 million passengers originated in Denver in 2006 (i.e., these originating passengers did not connect from another

flight). In 2006, the Airport ranked fifth in the nation in numbers of originating passengers.

Hub for United and Frontier Airlines

As stated earlier, the Airport serves as an important connecting hub in the route systems of both United and Frontier. As shown on Figure 3, the shares of passengers connecting through the Airport in 2006 reflect the Airport’s central geographic location, with the western United States (Rocky Mountain and Pacific states) accounting for 49% of connecting passengers and the eastern United States (Northeast, Midwest, and South states) accounting for 46% of connecting passengers. The shares of connecting passengers for United and Frontier reflect the service patterns of each airline. United’s shares of connecting passengers parallel those for the Airport as a whole, while Frontier’s shares differ for some regions as a result of its smaller route network. As shown in Table 2, the Airport accounts for the sixth highest number of daily scheduled seats at U.S. connecting hub airports in August 2007.

(a) Including regional airline affiliates.

Source: Official Airline Guides, Inc., online database for August 2007.

The Airport's Role in United's System. The United Airlines Group, which includes United mainline, United Express—the regional/commuter airline affiliates operating as United Express, and Ted—United's low-fare airline, accounted for 56% of the passengers enplaned at the Airport in 2006. From 2002 to 2006, the number of enplaned passengers at Denver and Chicago O'Hare international airports, United's two largest hubs, increased an average of 4.6% per year as the result of increases in the number of passengers enplaned by United Express, as shown on Figure 4. The

increasing use of regional airline affiliates is also evident in the growth in the number of enplaned passengers at United's other hubs and is part of an overall airline industry trend to outsource short-haul and low-density routes to regional airline partners in order to optimize airline revenues. United's plans to optimize revenue performance include a reduction in its 2007 mainline domestic capacity (to meet increased international passenger demand) and a 4% to 5% increase in the systemwide capacity of its regional/commuter airline affiliates*. It is expected that

*United Airlines Group, press release dated May 17, 2007, as reported at its corporate web site.

United’s revenue optimization strategies will vary each year, but the large number of regional airline affiliates at United’s hubs—five United affiliates serve Denver—underlines the airline’s continued plans to use United Express carriers and the continued role and development of the Airport as a connecting hub in United’s system.

In addition to the revenue enhancing advantages of using regional affiliates in short-haul markets, the increased use of regional affiliates also allows United to compete with low cost and other airlines in terms of service frequencies. As shown on Figure 5, United’s regional affiliates provide nearly as many nonstop daily departures as United’s mainline and Ted operations at the Airport. Similarly, at Chicago O’Hare International Airport, the regional affiliates operate more daily nonstop departures than United mainline.

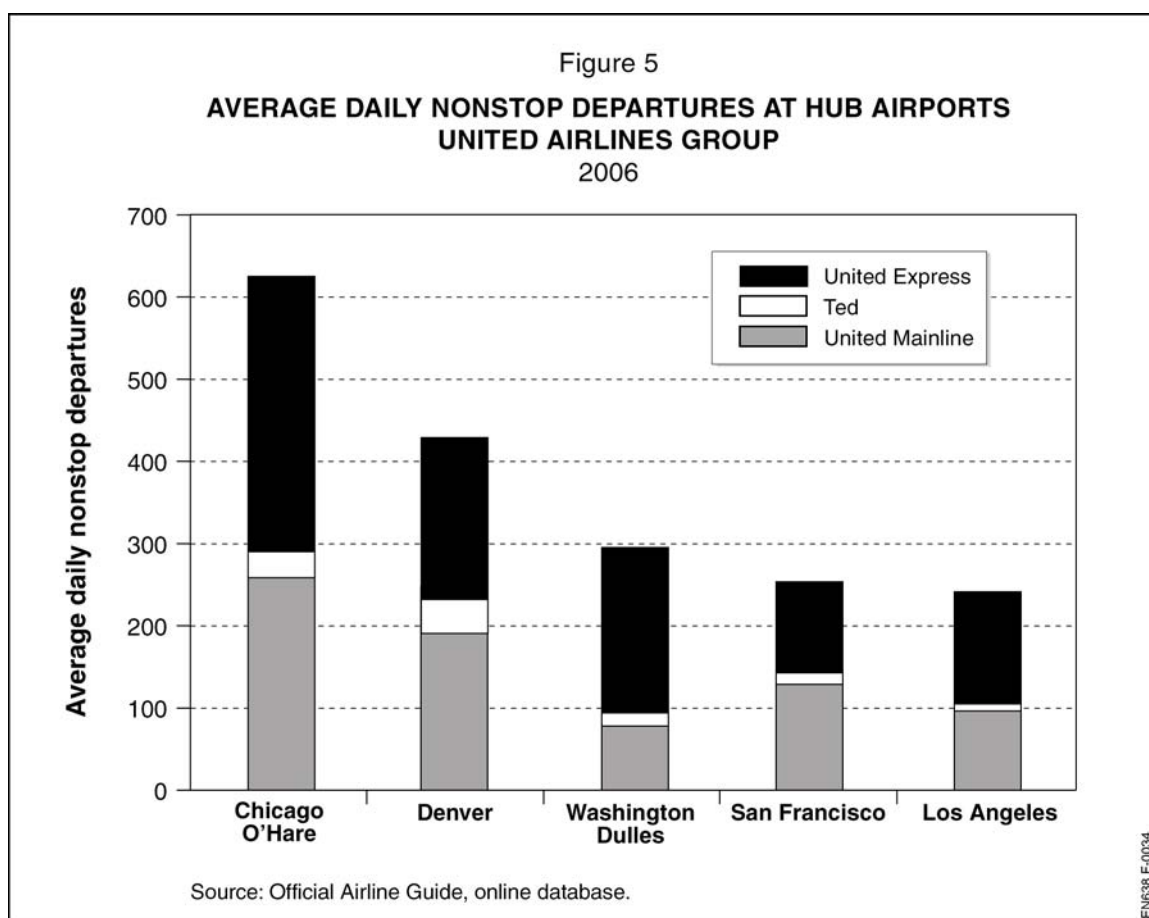

Table 3 presents trends in the numbers of passengers enplaned by United Airlines Group at the Airport in 1995 and 2000 through the first 3 months of 2007. Between 1995, when the Airport opened, and 2000—the year prior to the terrorist attacks on September 11, 2001, and the national economic downturn—United increased its number of connecting passengers an average of 5.3% per year. From 2000 through 2006, United’s number of connecting passengers at the Airport fluctuated, reflecting

Table 3

the national recovery from the 2001 events, United’s emergence from Chapter 11 bankruptcy protection, and United’s efforts to balance mainline domestic capacity and optimize its revenue performance. Overall, the total number of passengers enplaned by United at the Airport in 2006 approximately equaled the number enplaned in 2000.

Table 4 presents a comparison of connecting passenger trends for the United Airlines Group at the Airport and at United’s other hub airports from 2002 through 2006. As shown, United Airline Group’s number of connecting passengers at the Airport increased an average of 2.1% per year between 2002 and 2006, faster than at its Los Angeles and San Francisco hubs but slower than at its Chicago and Washington, D.C. (Dulles) hubs. The strong growth in United Airline Group’s numbers of connecting passengers at Washington Dulles International Airport—an average of 11.9% per year—reflects the continued development of United’s domestic and international hub operations.

Table 4

CONNECTING PASSENGERS BY HUB—UNITED AIRLINES GROUP

United Airlines Group Hub	2006		Average annual increase (decrease) 2002-2006
	Connecting passengers (millions)	Percent of enplaned passengers

Figure 6 summarizes comparative United mainline yields (cents per revenue passenger mile) at United's hub airports. As shown, United has generally realized the highest yield at Denver International Airport compared with its yields at its other hub airports since 2001, suggesting that the Airport has a more attractive market relative to the other airports shown. The relatively high historical average yields for United at the Airport (approximately 15% higher than the national average in 2006) are attributable, in part, to the shorter average itinerary length of United flights from the Airport (approximately 5% shorter than United's system average) and, in part, to the status of the Airport as a connecting hub, with United dominating service in many travel markets. Since 2001, average yields for United at the Airport has decreased as the share of low cost carriers have increased, resulting in decreased yields in many markets.

The Airport's Role in Frontier's System. The Airport is the only hub in Frontier Airlines' system and accounts for nearly half of its scheduled departing seats. Because Frontier operates only one hub, no airport, other than Denver International Airport, accounts for more than 5% of the airline's total system seats. As a result, Frontier is sensitive to changes in the Denver market, including service and fare competition on its Denver routes. Frontier is also susceptible to adverse weather conditions and other traffic delays in the Rocky Mountain region that may affect it more than other airlines that may be better able to spread the traffic risks over larger route networks. Table 5 presents passenger trends for Frontier and Frontier JetExpress and, in particular, the growth in Frontier's connecting activity at the Airport.

Source: Airport management records.

From 1995 to 2000, the number of passengers enplaned by Frontier at the Airport increased more than fivefold, with originating passengers accounting for most of the total (77.8% in 2000). Since 2000, the number of passengers enplaned by Frontier has continued to grow—an average increase of 21.5% per year between 2000 and 2006—with connecting passengers accounting for an increasing share of the total (43.2% in 2006). From 2005 to 2006, during the first year of Southwest service at the Airport, the growth in the number of passengers enplaned by Frontier slowed, reflecting the fare and service competition from Southwest beginning in 2006. Frontier’s originating passenger traffic increased 22.3% between 2005 and 2006 as the airline responded to Southwest’s service by decreasing fares; the number of passengers connecting on Frontier through Denver increased, but at a much slower rate than in previous years, as Southwest attracted passengers connecting through Denver to other airports in Southwest’s route system.

The domestic yields for Frontier Airlines (excluding Frontier JetExpress) at the Airport have remained lower than those for United. Since 2002, the differences between Frontier and United yields have varied—from 10% to 16% in any given year. In 2006, the domestic yield for Frontier was 13.7 cents per revenue-passenger-mile, compared with 15.0 cents for United and 12.8 cents in the nation.

Frontier has announced its intention to expand its Denver hub operation and increase connecting traffic by adding other high volume markets to its current route system, introducing and expanding Lynx Aviation, a new subsidiary, and entering into code-sharing agreements and other relationships with other airlines. In September 2006, Frontier formed Lynx Aviation to serve under-served markets in Colorado and in the Rocky Mountain region. Lynx Aviation plans to purchase 10 Q400 turboprop aircraft, each with a seating capacity of 74, to be operated under a separate operating certificate (with the option to purchase 10 additional aircraft). In January 2007, Lynx Aviation submitted its application to provide scheduled air transportation to the U.S. Department of Transportation and obtained conditional approval to sell tickets on June 30, 2007. Lynx Aviation is seeking final approval from the FAA to begin revenue service operations in September 2007, with initial service to three new cities from Denver—Wichita, Rapid City, and Sioux City.

Primary Commercial Service Airport in Colorado

Of the 13 commercial service airports in Colorado, Denver International Airport is the primary commercial service airport, accounting for more than 90% of the passengers enplaned in the State, as shown earlier on Figure 1 and in Table 6. Colorado Springs Airport, a small-hub airport 70 miles south of the Airport, principally serves local demand; originating passengers accounted for about 97% of total enplaned passengers at Colorado Springs Airport in 2006. Approximately 1.0 million passengers were enplaned and 50 scheduled daily aircraft departures were provided at Colorado Springs Airport in 2006, compared to 23.7 million passengers enplaned and 784 scheduled daily aircraft departures provided at Denver International Airport in the same year.

Airport Service Region

The primary Airport service region, both in terms of population and geography, is defined as the Denver Metropolitan Area. The population densities for the State of Colorado underline the importance of this region, as shown earlier on Figure 1. The Denver Metropolitan Area consists of Adams, Arapahoe, Boulder, Broomfield, Denver, Douglas, and Jefferson counties, as defined by the Metro Denver Economic Development Corporation, a not-for-profit affiliate of the Denver Metro Chamber of Commerce.

The secondary region served by the Airport, which includes many of the counties surrounding the Denver Metropolitan Area, is defined by the location of (and the airline service provided at) other large- and medium-hub air carrier airports. The nearest such airports are in Albuquerque (440 miles to the south), Salt Lake City (530 miles to the west-northwest), Kansas City (590 miles to the east), Las Vegas (760 miles to the west-southwest), and Phoenix (810 miles to the southwest). The location of the Airport and its primary service region, with access to the interstate highway system and major rail lines, as well as its extensive airline service, have

helped attract the regional and national headquarters of businesses and government agencies to the region.

The following sections present a review of (1) the economic basis for passenger demand, including socioeconomic, local industry, and other factors that contribute to passenger demand at the Airport, (2) the components of passenger demand, including originating and connecting passengers, (3) a review of air cargo activity at the Airport, (4) the key factors that will affect future airline traffic, both at the Airport and nationwide, and (5) forecasts of airline traffic at the Airport through 2013, including enplaned passengers and aircraft landed weight.

ECONOMIC BASIS FOR PASSENGER DEMAND

The Denver Metropolitan Area is the largest business center in, and the transportation hub for, the State of Colorado and the multistate Rocky Mountain region, which includes Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, and Wyoming. In 2006, the Denver Metropolitan Area accounted for over 55% of Colorado's population and 60% of its employment.

Population, Employment, and Per Capita Personal Income

Figure 7 summarizes historical economic indicators—population, nonagricultural employment, and per capita income—for the Denver Metropolitan Area, the State of Colorado, and the nation from 1995 through 2006. Both the Denver Metropolitan Area and the State of Colorado have experienced significantly higher economic growth than the nation: much of the economic growth in the State was generated in the Denver Metropolitan Area.

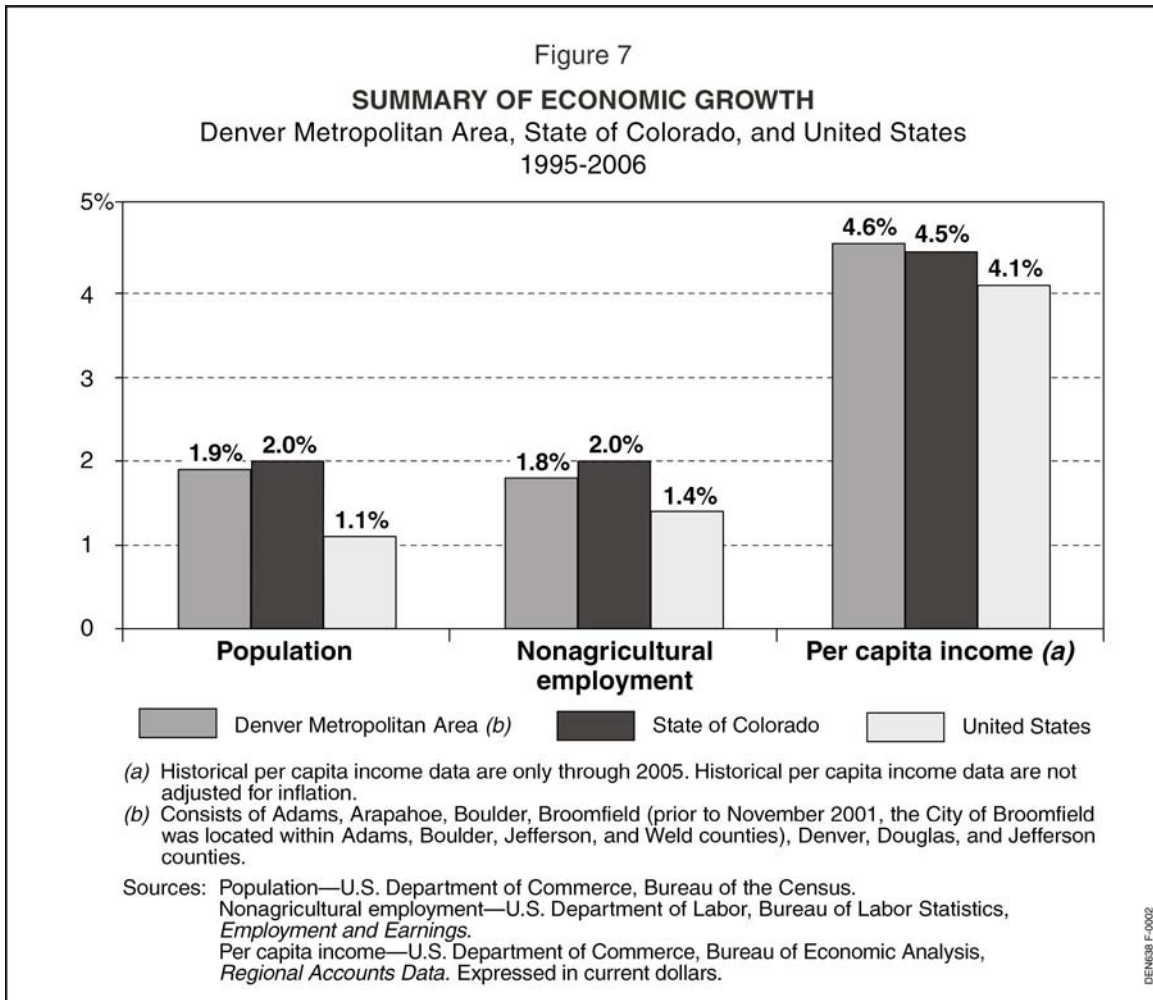

Table 7 presents data on historical and projected economic indicators—population, nonagricultural employment, and per capita personal income—for the Denver Metropolitan Area, the State of Colorado, and the nation. The economic indicators for the Denver Metropolitan Area and the State of Colorado were projected by the Colorado Department of Local Affairs, State Demography Office, the primary State agency for population and demographic information. Population data were projected in association with the Center for Business and Economic Forecasting, a private research firm specializing in Colorado regional economic forecasting, and reflect the interrelationships between demographic and economic change in the State. The economic indicators for the nation are projected by the National Planning Association (NPA), Data Services, Inc.*

From 1995 to 2006, population in the Denver Metropolitan Area increased an average of 1.9% per year, with slower growth during the last 6 years as the result of decreases in net in-migration and slower economic growth. However, population

*The National Planning Association is a nationally recognized private firm that analyzes and projects trends by county in the United States.

(e) Colorado Division of Local Government, State Demography Office, *The Population Projections Program*, online database, <http://dola.colorado.gov>, as of June 2007. Per capita income is projected for 2005 through 2013.

(f) Represents the percent change through 2005.

This Report has not been revised since July 25, 2007. The forecasts, estimates and the Excluded Portion described on the cover page of this APPENDIX B should not be relied upon in making a decision to purchase the Series 2008A Bonds.

growth in the Denver Metropolitan Area outpaced growth in the nation between 1995 and 2006 and is projected to increase an average of 1.4% per year between 2006 and 2013, slower than that in the State (an average of 1.7% per year) and faster than the national average (0.8% per year).

Between 1995 and 2006, nonagricultural employment in the Denver Metropolitan Area increased an average of 1.8% per year, with slower growth during the last 6 years, similar to the trends in population. Nonagricultural employment in Colorado and the nation increased an average of 2.0% and 1.4% per year, respectively, between 1995 and 2006.

Table 8 lists the 20 largest private employers in the Denver Metropolitan Area based on data compiled by Development Research Partners for March 2007.

Table 8			
20 LARGEST PRIVATE EMPLOYERS			
Denver Metropolitan Area			
Rank	Company	Description	Employment (a)
1	King Soopers Inc.	Grocery stores	10,700
2	Wal-Mart	General merchandise	10,000
3	Qwest Communications	Telecommunications	9,400
4	Lockheed Martin Corporation	Aerospace and defense-related	8,200
5	HealthONE	Health care	7,700
6	Safeway Inc.	Grocery stores	6,700
7	Exempla Healthcare	Health care	6,100
8	University of Denver	University	5,900
9	IBM Corporation	Computer systems	5,500
10	Centura Health	Health care	5,200
11	EchoStar Communications	Satellite television	5,000
12	United Airlines	Airline	5,000
13	Kaiser Permanente	Health care	4,800
14	Denver Health & Hospital Authority	Health care	4,500
15	Frontier Airlines	Airline	4,100
16	Ball Corporation	Aerospace, containers	3,800
17	Sun Microsystems	Information technology	3,800
18	Great-West Life & Annuity Insurance Co.	Insurance	3,800
19	University of Colorado Hospital	Health care	3,500
20	United Parcel Service	Parcel delivery	3,500

(a) Rounded to the nearest hundred.

Source: Compiled from various business lists and resources by Development Research Partners Inc., March 2007.

In addition to the employment trends cited above, the unemployment rate is also indicative of the general economic climate. Figure 8 shows a comparison of unemployment rates for the Denver Metropolitan Area and the nation in 2000 through 2006.

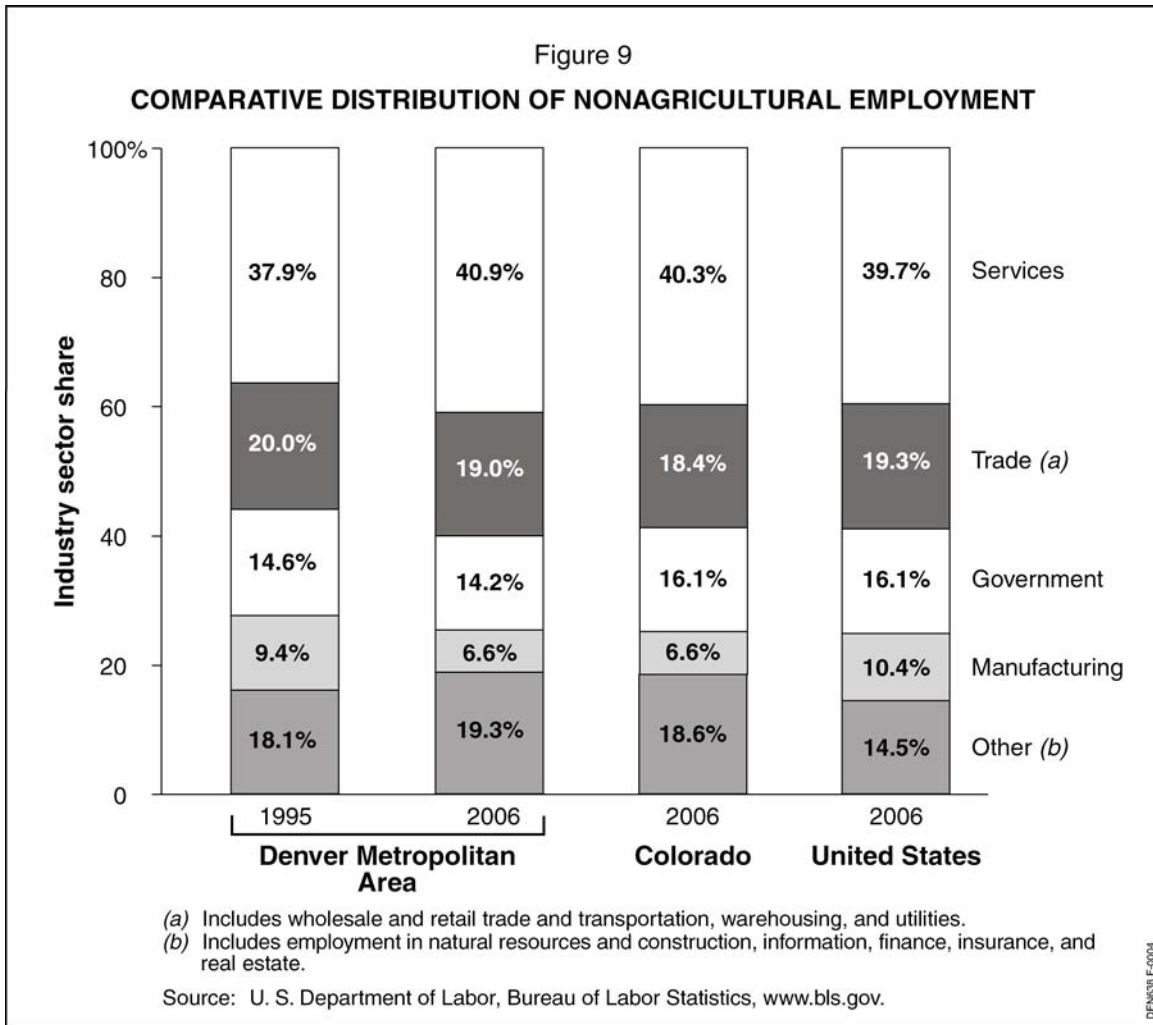

Figure 9 presents a comparison of historical nonagricultural employment by industry sector for the Denver Metropolitan Area in 1995 and 2006, and for Colorado and the United States in 2006.

Both the Denver Metropolitan Area and Colorado have experienced strong growth in per capita income since 1995—average increases of 4.6% and 4.5%, respectively, between 1995 and 2006. Per capita income levels and growth are closely related to growth in passenger traffic and the propensity to travel in a region because (1) income levels reflect the level of education of the work force and the mix of businesses, and (2) income growth translates into disposable income and thus reflects the potential for growth in the number of trips per person. According to the U.S. Department of Commerce, Bureau of Economic Analysis, the State of Colorado was the fifth fastest growing state in the nation in terms of total personal income between 1995 and 2006, as shown on Figure 10. Six of the eight Rocky Mountain region states rank in the top 10.

Denver Industry Clusters

The Metro Denver Economic Development Corporation (EDC), in association with Development Research Partners, recently conducted a study of Denver’s primary industry clusters, i.e., geographic concentrations of interconnected companies and institutions in a particular field. To further diversify the economic base and grow the overall economy, the EDC identified nine active industry clusters key to the region’s economic strength. For purposes of this discussion, information technology for hardware and for software (two clusters) are combined. (Average salary data by industry cluster are presented for 2005, the most recent year for which such data are available.)

Aerospace. The aerospace industry cluster includes companies that develop products and systems for commercial, military, and space applications. According to the EDC, Colorado’s aerospace industry employed 54,000 workers in 2006, including 24,700 private employees and 29,300 military personnel, and accounts for the second strongest private aerospace employment concentration in the country. Total Colorado aerospace employment increased an average of 3.8% per year between 2001 and 2006, compared with a 2.0% per year increase nationally. Colorado is home to four military commands, six major space contractors, and several universities involved in leading space research. The six major contractors are Lockheed Martin, Ball Aerospace, Boeing, Raytheon, Northrop Grumman, and

ITT Industries, in addition to more than 300 aerospace companies and suppliers. About 71% of aerospace companies are located in the seven-county Denver Metropolitan Area, according to the EDC. The average salary for an aerospace worker in Colorado in 2005 was \$96,400 compared to the national average of \$77,700.

Aviation. The aviation industry cluster includes companies that manufacture aircraft and provide air transportation services. According to the EDC, about 207 aviation companies were located in the Denver Metropolitan Area in 2006, most of which are involved with scheduled air transportation. Between 2001 and 2006, the aviation industry cluster in the Denver Metropolitan Area experienced an average decrease of 1.9% per year in employment, compared with an average decrease of 8.8% per year nationally, reflecting the effects of the 2001 terrorist attacks. Denver International Airport, three general aviation reliever airports, and top aircraft manufacturers create a solid foundation for 14,200 workers directly employed by air transportation companies in the Denver Metropolitan Area. The 2005 average annual salary for aviation employees in the Denver Metropolitan Area was \$42,300 compared to the national average of \$45,300.

Bioscience. The bioscience industry cluster is diverse and includes two sub-sectors: (1) pharmaceuticals and biotechnology and (2) medical devices and instruments. According to the EDC, the Denver Metropolitan Area has 4,700 biotechnology and pharmaceuticals workers plus 7,300 medical device and instrument production workers, for a total of more than 12,000 total direct bioscience workers. The industry is supported by 11 local higher education institutions with bioscience programs and numerous research assets, as well as the \$4.7 billion Fitzsimons Bioscience Campus (formerly the Fitzsimons Army Medical Center), which is being transformed into a state-of-the-art integrated life sciences community.

After decreasing in 2002 and 2003, employment in pharmaceuticals and biotechnology increased in 2004 through 2006. From 2001 to 2006, pharmaceuticals and biotechnology employment in the Denver Metropolitan Area increased an average of 1.2% per year, compared with an average decrease of 2.4% per year nationally. About 79% of Colorado's pharmaceuticals and biotechnology industry is located in the Denver Metropolitan Area. In 2005, the average annual salary for a pharmaceuticals and biotechnology worker was \$81,000 in the Denver Metropolitan Area compared to the national average of \$87,300.

Employment in the Denver Metropolitan Area medical device and instruments sector has fluctuated between growth and decline, resulting in a slight 5-year average growth of 0.3% per year, compared with an average increase of 0.1% per year nationally. About 78% of Colorado's medical device and instruments industry is located in the Denver Metropolitan Area. The 2005 average annual salary for a

medical device and instruments worker was \$55,800 in the Denver Metropolitan Area compared to the national average of \$51,500.

Energy. The energy industry cluster in the Denver Metropolitan Area included about 22,900 employees in three energy sub-sectors in 2006: (1) fossil energy, (2) renewable energy, and (3) energy research. According to the EDC, the 1,019 companies in the fossil energy industry cluster directly employed 11,000 people in the Denver Metropolitan Area, with an average annual 2005 salary of \$67,000 compared to the national average of \$71,200. Employment in fossil energy in the Denver Metropolitan Area declined an average of 3.2% per year between 2001 and 2006—reflecting the reorganization of local utility companies—compared to a 3.6% decline nationally. The 91 companies in the renewable energy industry cluster directly employed 5,600 people in the Denver Metropolitan Area, with an average annual 2005 salary of \$42,000 compared to the national average of \$41,300. Denver Metropolitan Area employment in renewable energy declined an average of 3.1% per year between 2001 and 2006, compared a 4.0% decline nationally. Most companies in the renewable energy industry cluster are public organizations involved in air quality, water quality, and solid waste management. The 803 companies in the energy research sector directly employ 6,300 people in the Denver Metropolitan Area with an average annual 2005 salary of \$65,400 compared to the national average of \$61,200. Employment in the energy research sector in the Denver Metropolitan Area increased an average of 1.7% per year between 2001 and 2006, compared with a 0.1% increase nationally. The majority of energy research companies are environmental consultants and noncommercial research institutions, including the National Renewable Energy Lab (the primary national laboratory for renewable energy and energy efficiency research and development) and the Colorado School of Mines and Colorado Energy Research institutes.

Financial Services. The financial services industry cluster employed a total of 90,000 people in 2006 and is divided into three subsectors: (1) banking and finance, (2) investments, and (3) insurance. The 3,474 companies in the banking and finance sector directly employed 41,000 people in the Denver Metropolitan Area, with an average annual 2005 salary of \$56,500 compared to the national average of \$54,900. Banking and finance employment in the Denver the Denver Metropolitan Area increased an average of 3.8% from 2001 to 2006, compared with an average decrease of 0.9% per year nationally. The 2,815 companies in the investments sector directly employed 22,900 people in the Denver Metropolitan Area, with an average annual 2005 salary of \$112,700 compared to the national average of \$151,800. Denver Metropolitan Area employment in the investments sector increased an average of 0.9% between 2001 and 2006, compared with a 1.2% per year decline nationally. The insurance industry sector directly employed 26,300 people in the Denver Metropolitan Area, with an average annual 2005 salary of \$67,200 compared with the national average of \$68,700. Insurance employment in the Denver Metropolitan Area decreased an average of 0.2% per year between 2001 and 2006, compared with a 4.0% per year decline nationally.

Information Technology (Hardware and Software). As mentioned earlier, there are two information technology industry clusters: hardware and software. The 288 companies in the hardware industry cluster directly employed 9,700 people in the Denver Metropolitan Area in 2006, with an average annual 2005 salary of \$74,500 compared with \$63,700 nationally. According to the EDC, hardware manufacturing companies continue to relocate overseas, resulting in several consecutive years of employment decline. As a result, employment in the hardware industry cluster in the Denver Metropolitan Area decreased an average of 8.5% per year from 2001 to 2006, compared with a 7.1% per year decrease nationally. The 3,434 companies in the software cluster directly employed 44,100 people in the Denver Metropolitan Area in 2006, with an average annual 2005 salary of \$82,300 compared with \$79,100 nationally. After decreasing each year following the dot-com downturn (representing an average decrease of 19.8% per year between 2001 and 2006), software employment in the Denver Metropolitan Area increased in 2006.

Beverage Production. With 5,500 employees involved in the production of beer and other beverages, the Denver Metropolitan Area has the fourth highest beverage industry employment concentration out of the 50 largest metropolitan areas, according to the EDC. The 2005 average annual salary for beverage production employees in the Denver Metropolitan Area was \$70,400, compared with \$46,100 nationally. Employment in the beverage production industry cluster declined an average of 2.9% per year in the Denver Metropolitan Area from 2001 to 2006, compared with a 1.3% average annual increase nationally. Major beverage production companies in the Denver Metropolitan Area include Molson Coors Brewing Company, Allegro Coffee Company, Celestial Seasonings, and IZZE Beverage Company, among others.

Broadcasting and Telecommunications. The broadcasting and telecommunications industry cluster includes companies that provide the means to deliver voice, data, and video to end users. In 2006, this industry cluster directly employed 43,400 people in the Denver Metropolitan Area, with an average annual salary of \$77,100 compared with \$65,200 nationally. According to the EDC, the telecommunications industry has declined since the dot-com downturn in 2000 and 2001. Employment in the broadcasting and telecommunications industry cluster in the Denver Metropolitan Area declined 5.7% per year from 2001 to 2006, compared with an average decrease of 6.0% per year nationally. Major broadcasting and telecommunications companies include Comcast Corporation, DirecTV, and Lucent Technologies.

Visitors to Denver

Since 1991, the Denver Metro Convention and Visitors Bureau has commissioned an annual in-depth study of the Denver tourism market. This study has been prepared each year by Longwoods International, a research firm that studies North American travel patterns, and coincides with a study of the Colorado tourism market sponsored by the Colorado Tourism Office. Key results of the Longwoods International study include:

- In 2006, slightly more than half (54%) of Denver's leisure visitors came from the West, consisting of the Mountain, West North Central, and West South Central census divisions. The Northeast contributed 6% of all visitors to Denver in 2006, down from 11% in 2005. Colorado in-state travel to Denver decreased from 15% in 2004 and 13% in 2005 to 12% in 2006.
- Eight out of ten Denver vacationers traveled 500 miles or more, twice the national average. As a result, Denver visitors plan their trips further in advance than most visitors do, and are more likely to fly.
- The number of people combining business and leisure trips increased substantially between 2004 and 2006. One out of three business travelers combined a leisure component on trips in 2006, an increase over the 22% in 2004 and the 31% in 2005 that combined business and leisure.

Table 9 presents a summary of the trends in visitor activity to the Denver Metropolitan Area in 1995 and 2000 through 2006, based on the Longwoods International study as well as the number of conventions and delegates reported by the Denver Metro Convention and Visitors Bureau.

Business Travel. In 2006, visitors traveling to Denver on business accounted for 22% of all overnight trips compared with 13% traveling to the State of Colorado, according to the Longwoods International study. Business travelers spent the largest amounts, generating \$96 per person per day, followed by "marketable" leisure visitors,* who generated \$93 per person per day. Visitors staying with friends and relatives accounted for only \$43 per person per day.

The recent expansion of the Colorado Convention Center has resulted in significant growth in convention activity in Denver. From 2005 to 2006, following the opening of two new hotels, the number of convention delegates increased 17.4%.

*Visitors who are not visiting friends or relatives and would, therefore, travel to any destination, but chose to visit Denver.

Table 9
VISITOR ACTIVITY
 Denver Metropolitan Area

Year	Overnight trips to Denver (millions)			Denver conventions	
	Leisure	Business	Total	Number	Delegates
1995	5.2	1.9	7.1	32	110,613
2000	6.9	2.7	9.6	37	145,787
2001	8.0	2.3	10.3	34	140,995
2002	8.1	2.1	10.2	31	94,168
2003	7.8	1.9	9.7	26	105,259
2004	7.9	2.0	9.9	30	114,528
2005	7.9	2.5	10.4	40	153,483
2006	9.1	2.6	11.7	55	180,195
Average annual increase (decrease)					
1995-2000	5.8%	7.3%	6.2%	2.9%	5.7%
2000-2006	4.7	(0.6)	3.4	6.8	3.6
1995-2006	5.2	2.9	4.6	5.0	4.5
2005-2006	15.2	4.0	12.5	37.5	17.4

Source: Colorado Tourism Office, visitor data compiled by Longwoods International, final reports for years noted and Denver Metro Convention and Visitors Bureau records.

Leisure Travel. Leisure visitors traveling to Denver accounted for most of the overnight trips (78%) and drove the growth trend in overall visitors. From 2005 to 2006, the number of leisure visitors increased 15.2%, reflecting, in part, the availability of new low-fare airline service at the Airport.

Colorado remained the country's top ski destination in 2006, with 23.1% of national overnight ski trips (up from 18.5% in 2005), with the next largest shares accounted for by California (16.1%) and Vermont (6.6%).

Economic Outlook

As discussed earlier, the economy of the Denver Metropolitan Area, similar to the State and much of the United States, experienced a slowdown between 2000 and 2003. Local economists view the Denver region's economic growth in 2005 and 2006 as the beginning of a positive economic growth trend.

- **Population**—The Colorado Division of Local Government projects that the Denver region's population will increase 1.4% per year between 2006 and 2013, compared to 1.7% per year in the State and, as projected by the National Planning Association, 0.8% per year in the United States as a whole. The Denver Regional Council of Governments projects similar population growth for the Denver Metropolitan Area through 2013—an average increase of 1.5% per year.
- **Nonagricultural employment**—The Colorado Division of Local Government projects that the Denver region's nonagricultural employment will increase 2.0% per year between 2006 and 2013, compared to 2.3% per year in the State and, as projected by the National Planning Association, 1.3% per year in the nation.
- **Per capita income**—The Colorado Division of Local Government projects that per capita income in the Denver region will grow 4.5% per year between 2005 and 2013, compared to 5.1% per year in the State and 4.0% in the United States as a whole between 2005 and 2013.

Economic analysts at the Metro Denver Economic Development Corporation and Development Research Partners project that employment should remain on an upward trend in the region. The EDC's short-term outlook for the Denver Metropolitan Area is for employment growth in all industry sectors (except Information), a strong commercial real estate market, heightened tourism and convention activity, income growth, and increased net migration.*

Factors expected to contribute to continued economic growth in the Denver Metropolitan Area and associated increases in airline travel include (1) diversity in the economic base, which lessens its vulnerability to weaknesses in particular industry sectors, (2) growth in the Denver industry clusters described earlier, (3) continued growth of the leisure and hospitality industry, (4) generally lower labor and living costs compared to those in many of the largest cities in the nation and other major western metropolitan areas, such as Los Angeles, San Francisco, and Seattle, (5) an educated labor force able to support the development of knowledge-based and service industries, and (6) continued reinvestment to support the development of tourism, conventions, and other businesses.

*Metro Denver Economic Development Corporation and Development Research Partners, *2007 Economic Forecast for Metro Denver*, January 25, 2007.

PASSENGER DEMAND COMPONENTS

The primary components of passenger demand include (1) the airline service and passenger shares at the Airport, (2) the originating passenger base, and (3) connecting passenger activity and trends.

Airline Passenger Service and Market Shares

Airline Service. Table 10 lists the passenger airlines scheduled to provide service at the Airport in August 2007. In addition, several all-cargo airlines, including ABX Air, Air Transport International, Ameriflight, Antonov Airlines, DHL, FedEx, Key Lime Air, Kitty Hawk Air Cargo, and UPS Air Cargo provide service at the Airport.

Table 10
SCHEDULED PASSENGER AIRLINES SERVING DENVER
August 2007

<i>Major/national</i>	<i>Regional/commuter</i>
AirTran Airways	Big Sky Airlines
Alaska Airlines	Comair (Delta Connection)
American Airlines	ExpressJet (Continental Express)

Enplaned Passenger Market Shares. The market shares for the passenger airlines serving the Airport are shown on Figure 11 and in Table 11. During the first 3 months of 2007, the United Airlines Group had the largest market share of enplaned passengers (56.0%) at the Airport, followed by Frontier and its regional/commuter airline affiliate Frontier JetExpress (20.2%), Southwest (4.8%), and American (4.1%).

- (a) Ted is a low-fare unit of United, which initiated service at the Airport on February 12, 2004.
- (b) Includes Mesa Airlines from 2003 through 2007; Great Lakes Aviation in January 2002; Air Wisconsin through 2006; SkyWest Airlines from 2002 through 2007; and Chautauqua Airlines, GoJet Airlines, Shuttle America, and Trans States Airlines from 2005 through 2007.
- (c) Includes Frontier JetExpress.
- (d) Initiated service at the Airport in January 2006.
- (e) Includes the enplaned passengers on the airline's commuter affiliates.
- (f) Includes activity of America West Airlines, which merged with US Airways in September 2005.

Source: Airport management records.

Consistent with its market share of enplaned passengers, United Airlines Group provides the most scheduled departing seats at the Airport and serves more destinations from the Airport than any other airline, including all of the top 20 origin-destination markets (additional information on these markets is shown later in Table 15). United Airlines is scheduled to provide more than twice as many scheduled departing seats as the second busiest airline serving the Airport, Frontier Airlines, in August 2007.

The share of Airport passengers enplaned by the United Airlines Group decreased from 62.6% in 2002 to 56.4% in 2006, primarily as a result of increased competition from other airlines serving the Airport, in particular Frontier Airlines, which serves the second largest number of destinations, including 19 of the Airport's top 20 origin-destination markets. Frontier Airlines increased its market share of Airport enplaned passengers from 10.9% in 2002 to 20.7% in 2006.

Southwest Airlines initiated service at the Airport in January 2006, and enplaned 4.8% of total Airport enplaned passengers in the first 3 months of 2007, up from 3.3% in 2006. In 2006, the United Airlines Group maintained its 2005 market share of enplaned passengers and Frontier Airlines (including Frontier JetExpress) increased its enplaned passenger market share, likely as a result of their competitive response to the new low-fare service offered by Southwest Airlines. Conversely, certain airlines, including Delta Air Lines, Northwest Airlines, and US Airways, had lower enplaned passenger market shares in 2006 compared with 2005, likely as a result of increased competition from other airlines.

Another significant trend at the Airport since 2002 has been the increased enplaned passenger market shares of the regional/commuter airlines. The combined market share of enplaned passengers for United Express and Frontier JetExpress (which initiated service in 2002) increased from 8.5% in 2002 to 14.6% in 2006. Since 1997, United Express has increased service at the Airport to replace United Airlines' service in certain smaller markets and to accommodate general increases in airline travel. According to Official Airline Guides, Inc., in August 2007, United will have marketing and code-sharing agreements with GoJet Airlines, Mesa Airlines, Shuttle America, SkyWest Airlines, and Trans States Airlines, which operate at the Airport as United Express. Frontier Airlines uses Frontier JetExpress, operated by Horizon Air and Republic Airlines, to serve certain cities from the Airport.

- (a) Ted is a low-fare unit of United, which initiated service at the Airport on February 12, 2004.
 (b) Includes Mesa Airlines from 2003 through 2007; Great Lakes Aviation in January 2002; Air Wisconsin through 2007; SkyWest Airlines from 2000 through 2007; and Chautauqua Airlines, GoJet Airlines, Shuttle America, and Trans States Airlines from 2005 through 2007.
 (c) Includes Frontier JetExpress beginning in 2002.
 (d) Initiated service at the Airport in January 2006.
 (e) Includes the enplaned passengers of the airline's commuter affiliates.
 (f) Includes activity of America West Airlines, which merged with US Airways in September 2005.

Source: Airport management records.

Originating Passenger Market Shares. Originating passengers account for more than half of all passengers enplaned at the Airport. The level of originating passengers is a function of the population, strong local economy, and the service provided by the airlines at the Airport. Since 2002, the United Airlines Group has accounted for approximately 40% of all originating passengers, with increasing shares by Ted and the United Express carriers, as shown in Table 12. The large numbers of originating passengers enplaned by the United Express affiliates, traditionally used to provide connecting passenger feeder service to airline hubs, reflects the increasing use of these regional carriers to increase the domestic seating capacity of a hub airline, such as United, and to improve service and market share with increased frequencies.

Frontier's share of originating passengers has increased since 2002 with the continued development of its service at the Airport. From 2002 to 2006, Frontier's numbers of originating passengers more than doubled, while its share of originating passengers increased from 13.1% to 21.0%.

Low-Cost Carrier Market Shares. A major trend at the Airport since 2001 has been the increased enplaned passenger market share of the low-cost carriers. As shown on Figure 12, the share of passengers enplaned by low-cost carriers at the Airport increased from 14.9% in 2002 to 26.7% in 2006. Frontier increased its share of enplaned passengers at the Airport from 10.9% in 2002 to 20.7% in 2006. This trend is similar to the national trend: the national market share of the low-cost carriers increased from 24% in 2002 to 27% in 2006 according to the U.S. Department of Transportation (DOT) T-100 database.

Although the U.S. DOT does not classify Ted as a low-cost carrier, it is marketed by United Airlines as a "low-fare" airline. Adding the market share of enplaned passengers on Ted to the market share of the low-cost carriers shown on Figure 12 would result in a low-cost/low-fare airline market share of about 35.2% in 2006.

Figure 12

LOW-COST CARRIER MARKET SHARES OF ENPLANED PASSENGERS
Denver International Airport

(a) Low-cost carriers include:

AirTran Airways

America West Airlines (b)

America West Express (b)

ATA Airlines (terminated service Jan. 2006)

Frontier Airlines

Frontier JetExpress

JetBlue Airways (initiated service January 2001)

Southwest Airlines (initiated service January 2006)

Spirit Airlines (operated between 2002 and 2004)

Vanguard Airlines (terminated service July 2002)

(b) In September 2005, America West Airlines and America West Express merged with US Airways. Data for America West Airlines and America West Express are reported separately from US Airways data and these airlines are considered to be low-cost carriers. Enplaned passengers on US Airways who did not fly on America West Airlines or America West Express are not included in the results shown above.

DENVER F-006

Enplaned Passengers

Table 13 summarizes historical enplaned passenger data for the Airport* organized by originating, connecting, and total enplaned passengers. The total number of enplaned passengers increased an average of 3.9% per year between 1995 and 2006, and increased 4.7% during the first 3 months of 2007 compared with the same period of 2006. The number of originating and connecting passengers increased an average of 3.4% and 4.5%, respectively, between 1995 and 2006. In the first 3 months of 2007, the number of originating passengers increased 7.3% and the number of connecting passengers increased 1.3% compared with the same period of 2006.

*Includes activity for Stapleton in January and February 1995.

Originating Passengers

The increase in the number of originating passengers* at the Airport since 1995 has largely resulted from overall population, employment, and income growth in the Denver Metropolitan Area, as discussed in the earlier section “Economic Basis for Passenger Demand.” Figure 13 presents the average annual increase in originating passengers at the Airport compared with the average annual increases in the population, nonagricultural employment, and per capita income in the Denver Metropolitan Area from 1995 through 2006 (per capita income through 2005). Between 1995 and 2006, the number of originating passengers increased an average of 3.4% per year—a higher rate than the average increase in population and

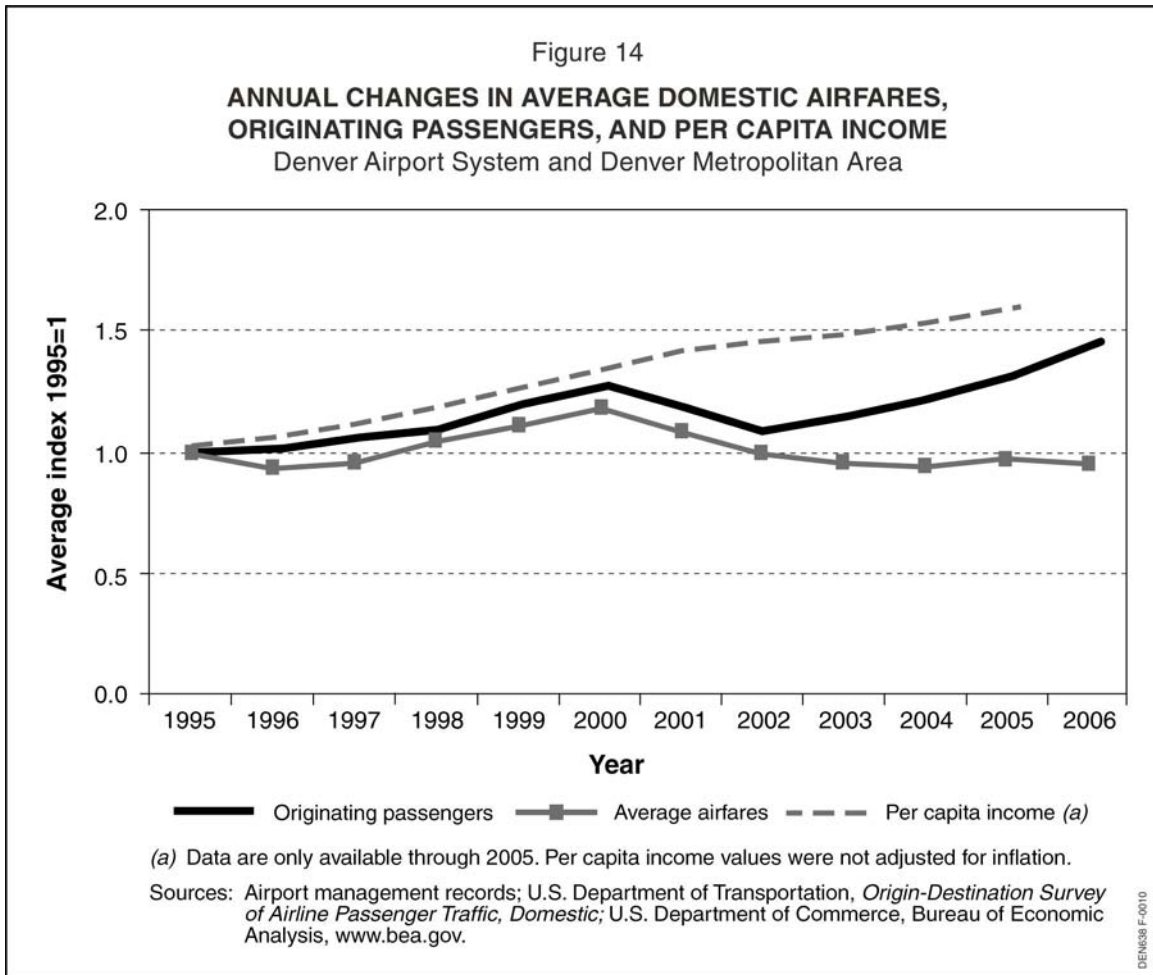

*Originating passengers, which include residents and visitors, are those enplaned passengers whose flights originate at the Airport, and who are not connecting from another flight.

nonagricultural employment, 1.9% and 1.8%, respectively. The number of originating passengers increased an average of 8.9% per year between 2003 and 2006, which was significantly higher than the average annual increase in the number of originating passengers at the Airport between 1995 and 2006 (3.4%), as a result of, but not solely attributable to, lower airfares.

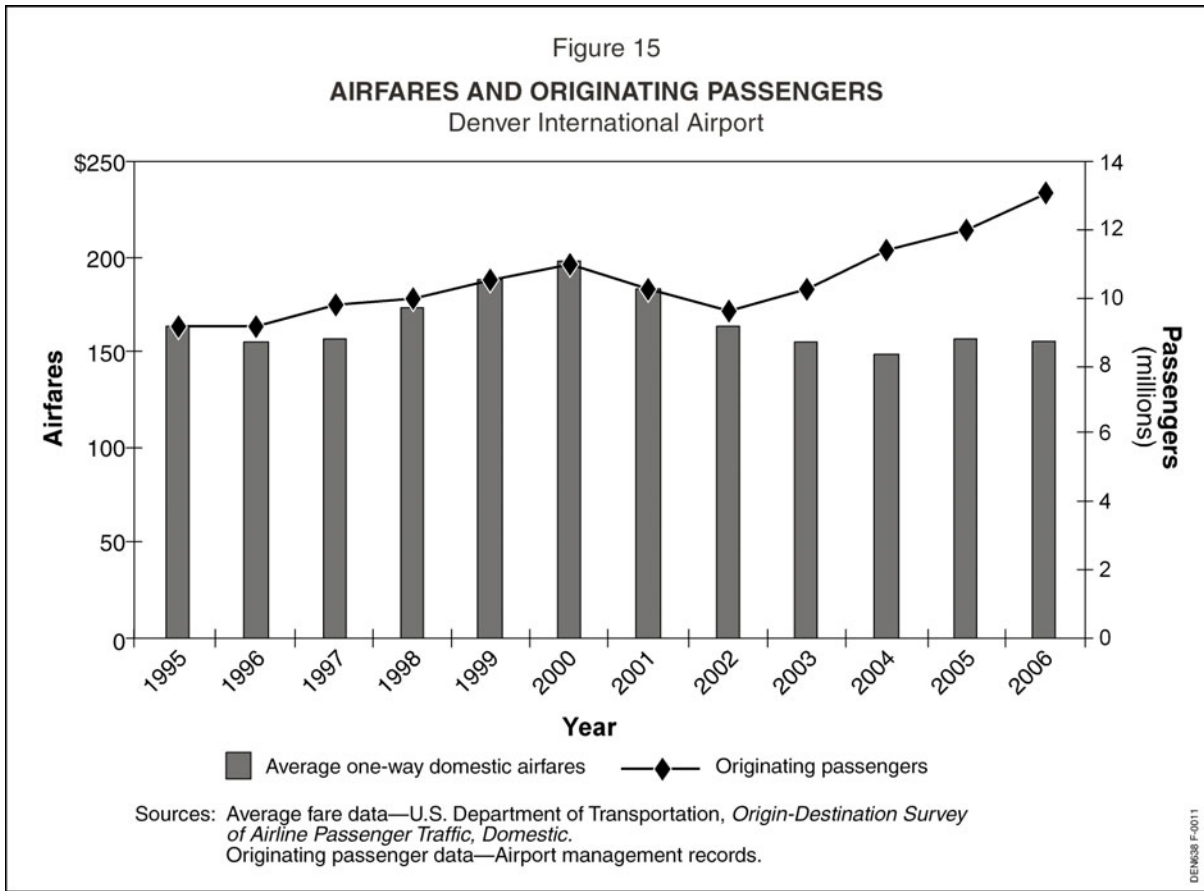

Relationship between Originating Passengers, Airfares, and Per Capita Income. Figure 14 shows the relationship between changes in the number of originating passengers, average domestic airfares, and per capita income between 1995 and 2006, using an index where 1995 equals 1.0 for all data. All dollar amounts in this report, such as per capita income and airfares, are in nominal values and were not adjusted for inflation. Observations on the relationships between originating passengers, airfares, and per capita income are provided below.

1. Between 1995 and 2000, the number of originating passengers increased in response to strong economic growth reflected in increasing per capita income, notwithstanding increases in average airfares.

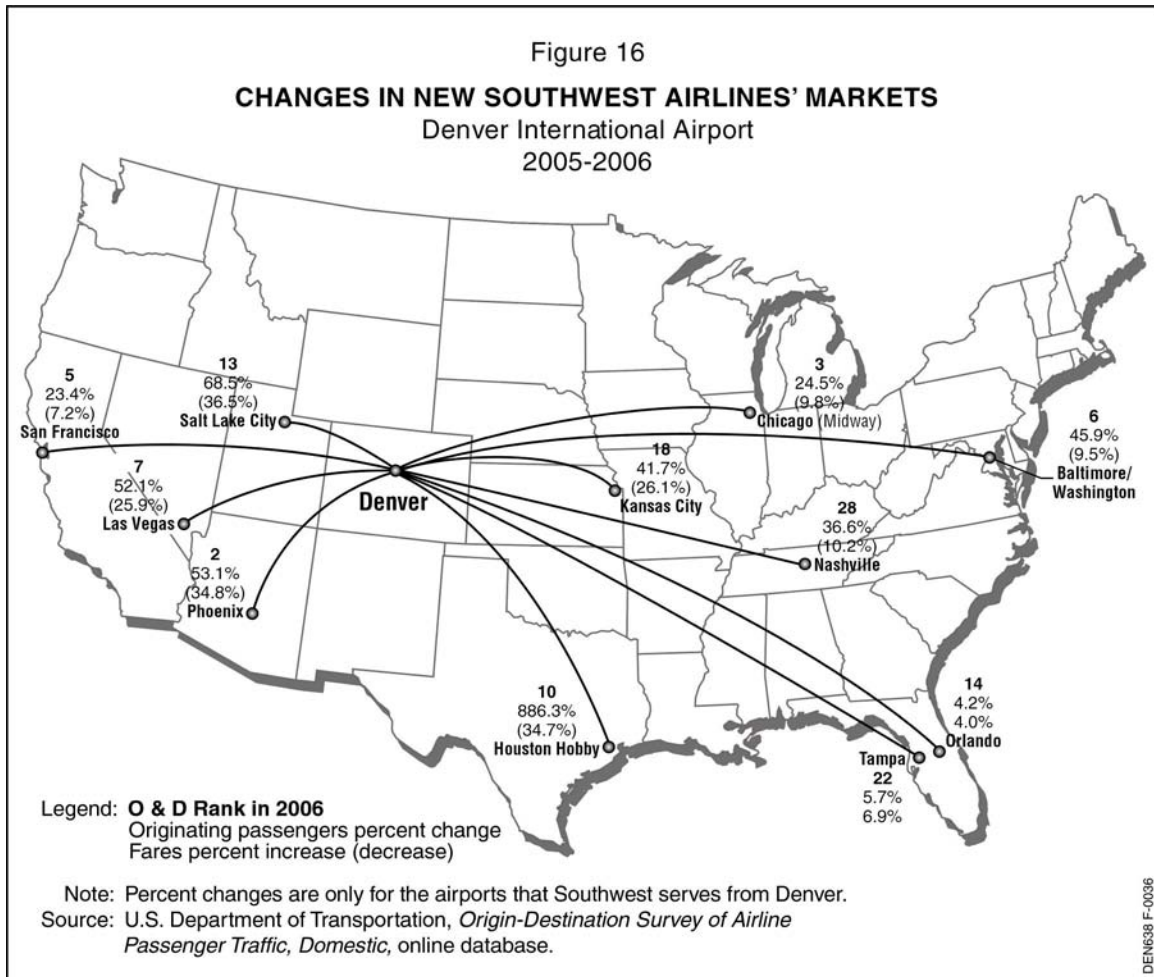

2. Between 2000 and 2002, the numbers of originating passengers decreased in response to the September 2001 terrorist attacks and slower economic growth, while per capita income levels moderated and average airfares decreased.
3. From 2002 to 2006, originating passenger traffic growth resumed, likely the result of the resumption of airline travel following the terrorist attacks in 2001, continued increases in per capita income, albeit at a slower rate, and slight decreases in average airfares.

Airline Fares and Originating Passengers. Figure 15 provides a specific comparison of changes in average domestic airfares and numbers of originating passengers at the Airport in 1995 through 2006. As stated earlier, the market share of the low-cost carriers at the Airport increased from 14.9% in 2002 to 26.7% (excluding Ted) in 2006, which is one reason for the decrease in airfares at the Airport over that period. In 2005, airline fares at the Airport increased slightly in response to the rising cost of jet fuel. This was followed by another slight decrease in 2006.

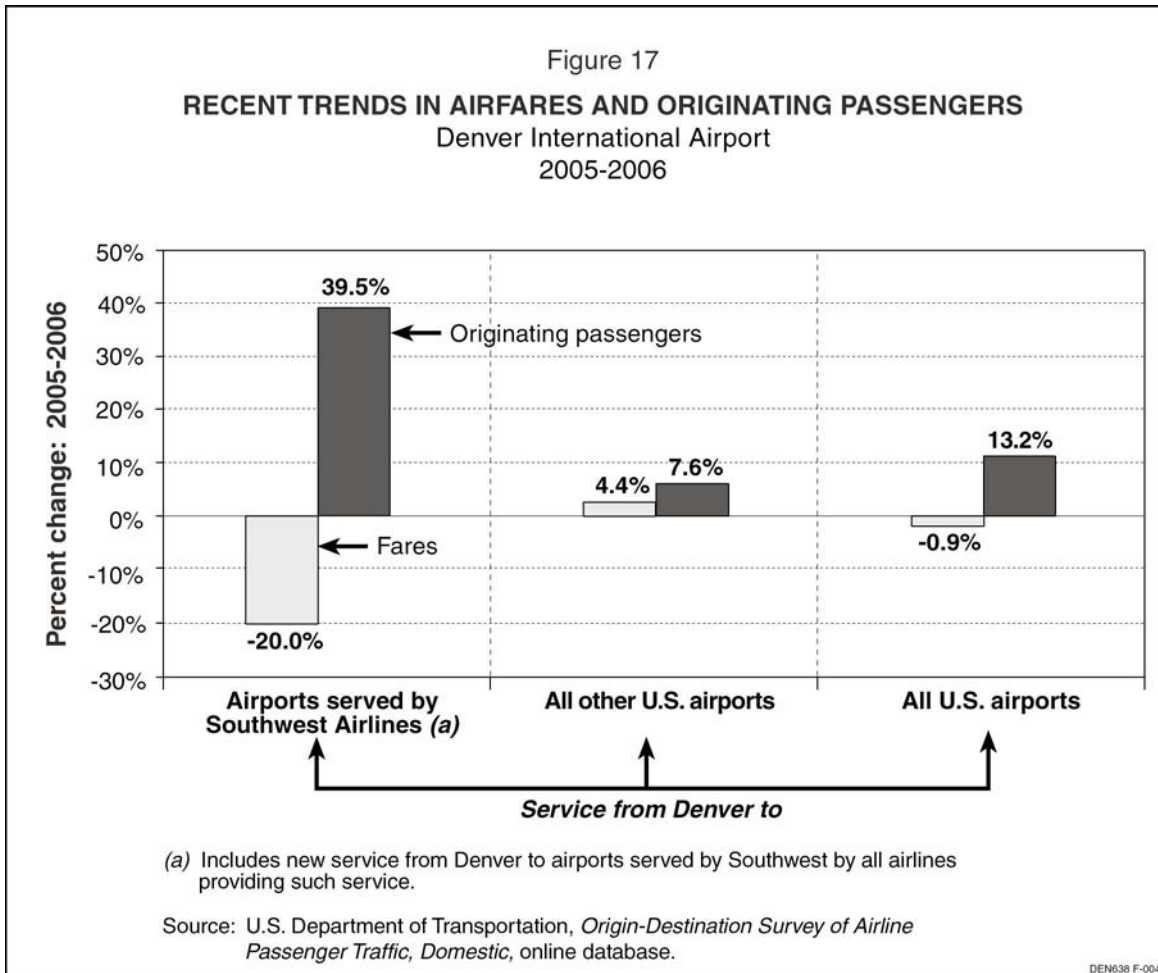

Southwest Service at Denver. From 1983 to 1986, Southwest served Stapleton with flights to Albuquerque and Phoenix. In January 2006, 20 years later, Southwest re-established service in Denver, with 13 daily departures from the Airport to 3 cities—Chicago (Midway), Las Vegas, and Phoenix. Since then, Southwest has added nonstop service to 8 additional destinations, for a total of 11 cities served from Denver in June 2007. As shown on Figure 16, the central geographical location of Denver provides Southwest with point-to-point access to all of the 63 airports it serves.

Since Southwest initiated service at the Airport, the number of originating passengers from Denver to the airports served by Southwest has increased 39.5%, as shown on Figure 17. During the first year of Southwest service at Denver, the change in originating passengers at individual airports varied depending on the characteristics of the market served (business or leisure) and the level of competition and service. For example, during the first year of Southwest service, the largest increase in originating passengers from Denver was to Houston (Hobby)—the 10th largest origin-destination (O&D) market (an increase of 886.3%). Prior to the initiation of Southwest service, nonstop service to Houston was provided only to Bush Intercontinental Airport/Houston, where the airfares were significantly higher before Southwest service was initiated in Denver. In contrast, originating passenger traffic from Denver to two predominantly leisure markets—Orlando and Tampa—increased 4.2% and 5.7%, respectively, following the initiation of service at the Airport by Southwest, notwithstanding increases in fares in both markets.

As shown on Figure 17, the initiation of service at the Airport by Southwest in January 2006 had affected fares and numbers of originating passengers at the Airport. The data presented in Figure 17 are from the U.S. Department of Transportation Origin-Destination Survey, a 10% sample of all tickets issued on

scheduled U.S. airlines, and are the only available data on fares and originating passengers by city-pair market. It is important to note that the percent differences in originating passengers on Figure 17 differ from those presented earlier in Table 13, which are based on Airport management records. Between 2005 and 2006, the number of originating passengers from Denver to Southwest airports increased 39.5%, in response to a 20.0% decrease in airfares.

Originating passenger traffic from Denver to all other U.S. airports (not served by Southwest) also increased—by 7.6%—despite a 4.4% increase in fares to those markets; again, this growth reflects the strength of the local economy. According to U.S. DOT data, the number of originating passengers from Denver to all U.S. airports increased 13.2% in 2006, partly in response to an overall decrease of 0.9% in total airline fares, but in large part due to the continued strong economic growth in the Denver Metropolitan Area.

Origin-Destination Passenger Markets. Table 14 presents the Airport's top 20 domestic origin-destination passenger markets in 2006. Table 14 also shows the number of average daily nonstop enplaned seats from the Airport to each of the top markets scheduled for August 2007. Of the 85,537 scheduled daily nonstop seats from the Airport, 65.5% are to the top 20 markets listed. U.S. mainland airports scheduled to be served nonstop from the Airport in August 2007 are shown on Figure 18. The Airport serves both (1) a significant number of regional destinations, indicating that it is a successful regional hub serving markets that have strong ties to the Denver Metropolitan Area, and (2) a significant number of major national markets.

Airline Service to Originating Passenger Markets. Table 15 presents the percentage shares of average daily scheduled departing seats to the Airport's top 20 origin-destination markets and to all other cities. Given the range in the size of aircraft operating at the Airport, the number of scheduled departing seats is more representative of airline service than the number of scheduled airline aircraft departures.

Frontier serves 19 of the top 20 origin-destination markets (the United Airlines Group serves all 20), with Frontier's largest shares of seats to San Diego, Kansas City, and Salt Lake City (non-United hubs) and the smallest shares to Washington, D.C. (a United hub), New York, and Houston (a Continental Airlines hub). Frontier's route strategy includes the addition of flights to new markets that the airline believes are underserved in Colorado and elsewhere in the Rocky Mountain region with the expansion of its JetExpress operation and the anticipated addition of the Bombardier Q400 turboprop aircraft through its Lynx Aviation subsidiary*. In 2007, Frontier added service to two new markets not served by any other carrier from Denver—Baton Rouge and Jacksonville. The addition of new markets served by Frontier from Denver is expected to contribute to the airline's traffic growth and to overall growth in numbers of enplaned passengers at the Airport.

*Frontier Airlines, Form 10-K, March 31, 2007.

Source: Official Airline Guides, Inc., online database, for August 2007.

Between January 2006 and August 2007, Southwest added service from Denver to 11 cities—2 markets are Frontier’s largest markets at the Airport, as mentioned above (Kansas City and Salt Lake City), 3 are existing Ted markets also served by Frontier and are large leisure markets where Southwest has a significant presence (Las Vegas, Phoenix, and Orlando), 4 are multi-airport markets where Southwest has a significant presence at a secondary airport (Chicago, San Francisco, Washington, D.C., and Houston), and the remaining 2 markets—Tampa and Nashville—are not in the Airport’s top 20 markets, but are also served by Frontier and United. Southwest recently announced plans to add service from Denver to five new markets during the fourth quarter of 2007—Albuquerque, Amarillo, Austin, Oklahoma City, and Seattle-Tacoma.* The addition of new service by Southwest from Denver to an increasing number of the airports in its system is expected to contribute to continued growth in passenger traffic at the Airport.

As shown in Table 15, the United Airlines Group is scheduled to provide 45.7% of all scheduled departing seats to the Airport’s top 20 destinations, including 36.1% on United mainline, 8.1% on Ted, and 1.5% on United Express affiliates. Frontier Airlines (including Frontier JetExpress) and Southwest Airlines are scheduled to provide 23.2% and 9.6%, respectively, of all scheduled departing seats to the Airport’s top 20 destinations in August 2007.

United Airlines Group serves each of the top 20 destinations shown in Table 15, while Frontier and Southwest serve 19 and 9 destinations, respectively. Not surprisingly, the United Airlines Group accounts for the largest share of seats to its hubs — Washington, D.C.; Chicago, Los Angeles, and , San Francisco—as well as to long-haul destinations with no or little service by Frontier or Southwest—Boston, Miami, and New York.

Connecting Passengers

As shown earlier in Table 13, from 1995 to 2006, the number of connecting passengers at the Airport increased an average of 4.5% per year, with faster growth during the first 5 years of that period (5.5%). The number of connecting passengers at the Airport increased at a slower rate between 2000 and 2006—an average of 3.6% per year—but faster than in the nation (1.4%) during this period. (See earlier discussion under “Airport Role” for a description of the Airport role as an important connecting hub in the route systems of both United and Frontier.)

*Southwest Airlines press release dated June 27, 2007. This press release included Southwest’s system plans to reduce the growth in available seat miles during the fourth quarter of 2007 and 2008 (reduced to 6% from 8%) and to add 19 new aircraft to its fleet in 2008 (reduced from an earlier plan to add 34).

AIR CARGO ACTIVITY

Table 16 presents data on enplaned cargo at the Airport in 1996 and in 2000 through the first 3 months of 2007. Enplaned air cargo at the Airport accounted for about 45% of total cargo (enplaned plus deplaned) weight in 2006. Enplaned cargo weight increased an average of 4.8% per year between 1996 and 2000, but has decreased each year since 2000, for reasons discussed below. During the first 3 months of 2007, total enplaned cargo weight decreased 16.2% compared with the same period of 2006.

Year	Air mail	Freight and express	Total	Total average annual increase (decrease)	All-cargo airline share of total cargo (a)
1996	68,746	134,918	203,664	--%	52.2%
2000	85,902	159,769	245,671	4.8	56.4
2001	53,421(b)	130,085	183,506	(25.3)	61.2
2002	22,421	141,618	164,039	(10.6)	69.7
2003	27,544	135,896	163,440	(0.4)	67.5
2004	20,016	140,586	160,602	(1.7)	71.1
2005	17,232	139,100	156,332	(2.7)	70.6
2006	11,064	129,204	140,268	(10.3)	75.3
January – March					
2006	5,026	33,502	38,528	--%	69.8
2007	1,028	31,241	32,269	(16.2)	78.5
<u>Annual average increase (decrease)</u>					
1996-2000	5.7%	4.3%	4.8%		
2000-2006	(28.9)	(3.5)	(8.9)		
1996-2006	(16.7)	(0.4)	(3.7)

<hr/>					
(a) Includes enplaned and deplaned cargo.					
(b) In 2001, FedEx and the U.S. Postal Service entered into a contract that resulted in a large portion of mail being transported from air to ground, with FedEx reporting this activity to the City as enplaned freight and express cargo. Previously, this activity was reported as air mail.					
Source: Airport management records.					

The decreases in cargo at the Airport in recent years are related to (1) the slowdown in the regional economy, particularly in the manufacturing sector, (2) a reduction in available belly-cargo capacity on passenger airlines as a result of increases in the use of regional jet aircraft and low-cost carrier operations which have less cargo capacity than larger air carrier aircraft, (3) the availability of reduced-cost belly-cargo capacity, particularly on widebody aircraft designed for containerized cargo, and direct international freighter service at other gateway airports, such as Chicago O'Hare, Los Angeles, and Dallas/Fort Worth international airports, and (4) an increasing trend among freight forwarders to bypass airports and truck cargo to gateways that have available reduced-cost belly-cargo capacity.

The decreases in enplaned cargo at the Airport since 2000 also reflect the reorganization and consolidation in the cargo industry over the past several years. As the transportation industry faces increased pricing pressures, many of the larger companies are strengthening their market position and ability to respond to shipping demands through acquisitions and internal restructuring and downsizing. For example, FedEx has been very active in developing integrated branding of its various service offerings. FedEx now offers multiple products, including express, ground, freight, and the recently announced nationwide less-than-a-truckload service. Much of this corporate restructuring has resulted in slower growth nationally in the air freight and express market as a greater percentage of FedEx's cargo is being transported by trucks. Similarly, UPS has been actively increasing its supply chain solutions second and third day service and its ground service.

The Denver region's manufacturing sector, which is directly associated with the use and production of air eligible commodities, has experienced a decline in total employees over the past several years. Total manufacturing sector employment in the Denver Metropolitan Area decreased from almost 113,000 employees in 1999 to 91,000 employees in 2006. Within the manufacturing sector, the computer and high-technology industries contributed to the decline in numbers of employees. The decline in manufacturing output also contributed, to some degree, to the decreases in the Airport cargo totals.

The freight forwarders are always attracted to large sources of (reduced cost) belly capacity at major international gateways. The increased use of regional jet aircraft and the increase in low-cost airline service which have less cargo capacity than larger air carrier aircraft at many airports—including Denver International Airport—has resulted in the freight forwarders increasing cargo consolidations at major gateways, such as Chicago O'Hare, Los Angeles, and Dallas/Fort Worth international airports.

KEY FACTORS AFFECTING FUTURE AIRLINE TRAFFIC

Besides the development of the economy of the Denver Metropolitan Area, discussed earlier, key factors that affect will airline traffic at Denver International Airport include:

- Economic and political conditions
- Aviation security concerns
- Financial health of the airline industry
- Airline service and routes
- Airline competition and airfares
- Airline consolidation and alliances
- Availability and price of aviation fuel
- Capacity of the national air traffic control system
- Capacity of the Airport

Economic and Political Conditions

Historically, airline passenger traffic nationwide has correlated closely with the state of the U.S. economy and levels of real disposable income. Recession in the U.S. economy in 2001 and stagnant economic conditions in 2002 contributed to reduced passenger traffic during those years. Future increases in passenger traffic will depend largely on the ability of the nation to sustain growth in economic output and income.

With the globalization of business and the increased importance of international trade, U.S. economic growth has become more closely tied to worldwide economic, political, and social conditions. As a result, international economics, currency exchange rates, trade balances, political relationships, public health concerns, and hostilities are now important influences on passenger traffic at major U.S. airports. Sustained future increases in both domestic and international passenger traffic will depend on stable international conditions and global economic growth.

Aviation Security Concerns

Concerns about the safety of airline travel and the effectiveness of security precautions influence passenger travel behavior and airline travel demand. Anxieties about the safety of flying and the inconveniences and delays associated with security screening procedures lead to both the avoidance of airline travel and the switching from air to surface modes for short trips.

Safety concerns in the aftermath of the terrorist attacks in September 2001 were largely responsible for the steep decline in airline travel nationwide in 2002. Since 2001, government agencies, airlines, and airport operators have upgraded security measures to guard against attacks and maintain confidence in the safety of airline

travel. These measures include strengthened aircraft cockpit doors, changed flight crew procedures, the increased presence of armed sky marshals, federalization of airport security functions under the Transportation Security Administration (TSA), and more intensive screening of passengers and baggage.

Historically, airline travel demand has recovered after temporary decreases stemming from terrorist attacks, hijackings, aircraft crashes, and international hostilities. Provided that intensified security precautions serve to maintain confidence in the safety of commercial aviation without imposing unacceptable inconveniences for airline travelers, it can be expected that future demand for airline travel at the Airport will depend primarily on economic, not security, factors.

Financial Health of the Airline Industry

Increases in passenger traffic at the Airport will depend partly on the profitability of the U.S. airline industry and the associated ability of the industry and individual airlines, particularly United Airlines, to make the necessary investments to increase service.

The 1990-1991 economic recession, coupled with increased operating costs and security concerns during the first Gulf War, generated then-record financial losses in the airline industry. These losses put particular pressures on financially weak or highly indebted airlines, forcing many to seek bankruptcy protection, sell productive assets, lay off workers, reduce service, or discontinue operations in the early 1990s.

Between 1995 and 2000, the airline industry as a whole was profitable, but as a result of the 2001 economic recession, the disruption of the airline industry that followed the September 2001 terrorist attacks, high fuel and other operating costs, and intense price competition, the industry has since experienced huge financial losses. In 2001 through 2005, the major U.S. airlines collectively recorded net losses of over \$38 billion.

To mitigate these losses, all the major network airlines have restructured their route networks and flight schedules and reached agreement with their employees, lessors, vendors, and creditors to cut costs, either under Chapter 11 bankruptcy protection or the threat of such. As discussed below, in December 2002, United Airlines filed for bankruptcy protection (emerged February 2006). US Airways filed twice for bankruptcy protection, in 2002 and 2004. In 2003, American Airlines avoided filing for bankruptcy protection only after obtaining labor cost concessions from its employees and drastically reducing service at its St. Louis hub. In February 2005, Delta Air Lines eliminated its Dallas/Fort Worth hub and restructured its other airport operations. In September 2005, both Delta and Northwest Airlines filed for bankruptcy protection. (Delta emerged in April 2007 and Northwest emerged in May 2007.) Among the smaller airlines, Hawaiian Airlines filed for bankruptcy

protection in March 2003 (emerged June 2005), ATA Airlines in October 2004 (emerged March 2006), Aloha Airlines in December 2004 (emerged February 2006), and Independence Air in November 2005 (ceased operations January 2006).

Future losses could force airlines to retrench, seek bankruptcy protection, discontinue marginal operations, or liquidate. The restructuring or liquidation of one or more of the large network airlines could significantly affect service at connecting hub airports, present business opportunities for the remaining airlines, and change travel patterns throughout the U.S. aviation system.

United Airlines emerged from bankruptcy with \$3 billion in exit financing in February 2006. During the restructuring process, United reduced capacity by ending unprofitable routes and restructuring its fleet, renegotiated its contracts with United Express carriers to reduce rates, eliminated 26,000 jobs, ended employee pensions, and gained pay and work rule concessions from remaining employees in order to cut expenses by \$7 billion. While in bankruptcy, United developed a low-fare unit (Ted) and premium transcontinental service, and expanded its enhanced economy class to some flights operated by United Express. While United's business plan includes the purchase of new aircraft through 2011, it has recently increased capacity under an initiative to use its current aircraft fleet more efficiently. This initiative involves shortening aircraft turnaround times and further depeaking operations at its hub airports.

Airline Service and Routes

The Airport serves both as a gateway to the Denver Metropolitan Area and as an airline connecting hub. The number of origin and destination passengers depends on the intrinsic attractiveness of the Denver Metropolitan Area as a business and leisure destination and the propensity of its residents to travel. The number of connecting passengers, on the other hand, depends on the airline service provided at the Airport.

Most major airlines have developed nationwide systems of hubs that allow the airlines to offer high-frequency service in many city-pair markets. Because most connecting passengers have a choice of airlines and intermediate airports, connecting traffic at an airport depends on the route networks and flight schedules of the airlines serving that airport and competing hub airports.

Denver International Airport is the primary air carrier airport for the Rocky Mountain region, and a connecting hub. Prior to 1995 when the Airport opened, United and Continental operated a "dual-hub" for many years at Stapleton International Airport, the former air carrier airport serving the Denver Metropolitan Area. As discussed in the earlier section, "Airport Role," the Airport is an important connecting hub for United and Frontier airlines. For the last 5 years, the Airport has been United's second busiest hub after Chicago O'Hare International Airport in

terms of numbers of enplaned passengers. In 2006, the United Airlines Group accounted for approximately 76% of total connecting passengers at the Airport. Frontier Airlines and Frontier JetExpress also use the Airport as a connecting hub, accounting for approximately 20% of total connecting passengers in 2006. The Airport is the busiest airport in Frontier's route network.

Airline Competition and Airfares

Airline fares have an important effect on passenger demand, particularly for relatively short trips where the automobile and other travel modes are alternatives and for price-sensitive "discretionary" travel. Airfares are influenced by labor, fuel, and other airline operating costs; taxes, fees, and other charges assessed by governmental and airport agencies; debt burden; passenger demand; capacity and yield management; market presence; and competitive factors. Increases in passenger traffic at the Airport will depend on the continued availability of competitive airfares and service.

Overcapacity in the industry, the ability of consumers to book flights easily via the Internet, and other competitive factors combined to reduce airfares nationwide between 2000 and 2005. In 2005, the average domestic yield for the major U.S. airlines was 11.7 cents per passenger-mile, compared with 14.5 cents in 2000. In 2006, the average domestic yield increased to 12.8 cents per passenger mile as airlines reduced capacity and were able to sustain fare increases.

Industry analysts have questioned the sustainability of the historical "revenue model" of the legacy network airlines, which involved charging uneconomically low discount fares to some travelers and high "walk-up" fares to others. The network airlines have recently simplified their fare structures. Widespread adoption of simplified fare structures, along with controls on airline seat capacity, is seen as keys to the industry regaining and sustaining profitability.

In many airline travel markets nationwide, new entrant and other airlines with lower cost structures have provided price and service competition. In Denver, AirTran Airways, America West Airlines, Frontier, and Southwest have provided such competition in many travel markets. As United and other legacy network airlines have restructured their operations and reduced costs, they have enhanced their ability to compete.

Airline Consolidation and Alliances

In response to competitive and financial pressures, some airlines have sought to consolidate. In April 2001, American completed an acquisition of failing Trans World Airlines. In August 2001, merger plans for United and US Airways were proposed, but rejected by the U.S. DOT because of concerns about reduced airline competition. As previously discussed, in September 2005, US Airways and America

West merged. In November 2006, the new US Airways proposed a merger with Delta while the latter was in bankruptcy, but the merger was rejected by Delta's management and creditors. Any future mergers could change airline service patterns, particularly at the connecting hub airports of the merging airlines.

Alliances provide airlines with many of the advantages of mergers. Such alliances typically involve marketing, code-sharing, and scheduling arrangements to facilitate the transfer of passengers between the airlines. In May 2004, US Airways joined the United-led Star alliance. In September 2004, Continental and Northwest joined the Delta-led SkyTeam alliance.

Availability and Price of Aviation Fuel

There has been no shortage of aviation fuel since the early 1970s, but the price of aviation fuel continues to be an important and uncertain factor affecting airline operating economics. Fuel prices are particularly sensitive to worldwide political instability. The invasion and occupation of Iraq, political unrest in other oil-producing countries, and other factors influencing the demand for and supply of oil caused aviation fuel prices to increase sharply beginning in 2003. In December 2006, average fuel prices were more than double what they were in December 2003. High fuel prices have been a major contributor to recent airline industry losses. While fuel prices have not affected the ability of airlines to provide service, future high prices will affect airline service, airfares, and passenger numbers.

Capacity of the National Air Traffic Control System

Demands on the national air traffic control system have, in the past, caused delays and operational restrictions affecting airline schedules and passenger traffic. The FAA is gradually automating and enhancing the computer, radar, and communications equipment of the air traffic control system and enhancing the use of runways through improved air navigation aids. Air traffic delays have decreased as a result of the reduction in aircraft operations since 2001. However, as demand exceeds 2001 levels, flight delays and restrictions are again likely.

Capacity of the Airport

In addition to any future constraints that may be imposed by the national air traffic control system, future growth in airline traffic at Denver International Airport may depend on the provision of increased capacity at the Airport itself. The existing six-runway layout at the Airport provides significant airfield capacity. Additionally, areas are reserved for as many as six additional runways, with accompanying long-term development plans to add gates to existing concourses and on new concourses. These plans indicate that forecast growth in airline traffic at the Airport will not be constrained by airfield or terminal capacity.

AIRLINE TRAFFIC FORECASTS

Assumptions

The forecasts of airline traffic at the Airport were developed taking into account analyses of (1) historical long-term trends in passenger traffic at the Airport, (2) recent trends in monthly passenger traffic at the Airport, (3) historical and projected economic indicators for the Denver Metropolitan Area, and (4) forecasts developed by the FAA.

In developing the forecasts, it was assumed that airline traffic at the Airport will increase as a function of growth in the population and economy of the Denver Metropolitan Area, continued airline competition, and the continued operation of connecting hubs at the Airport by both United and Frontier. It was also assumed that airline service at the Airport will not be constrained by the availability or price of aviation fuel, limitations in the capacity of the air traffic control system or the Airport, or government policies or actions that restrict growth, among other things.

Originating Passengers. Specifically, the forecast of originating passengers at the Airport through 2013 is based on the following assumptions:

1. Global economic growth will sustain future increases in domestic and international passenger traffic, and the general economy of the Denver Metropolitan Area will continue to increase faster over the long term than that of the United States as a whole, consistent with the growth rates in key economic indicators presented in the earlier section "Economic Basis for Passenger Demand."
2. No major act of terrorism or war will materially affect airline travel in the United States during the forecast period.
3. The national economy will experience sustained growth averaging between 1.5% and 1.9% per year, measured in terms of nonagricultural employment and per capita income, respectively.
4. Low-fare airline service will continue to be developed at the Airport and is expected to promote competition among airlines and ensure the continued availability of competitive airfares comparable to those now available.
5. Current and future fluctuations in fuel prices will not affect the ability of the airlines to serve the Airport or offer competitive airline fares.
6. The national air traffic control system will have sufficient capacity to accommodate airline traffic through the forecast period.
7. The City will develop the Airport generally in accordance with its Capital Program, as discussed in the later section "Airport Capital Program." The

existing and planned Airport facilities will be sufficient to accommodate airline traffic demand through the forecast period.

The number of originating passengers at the Airport is estimated to increase 5.2% in 2007, which incorporates the 7.3% growth in the first 3 months of 2007 compared with the same period of 2006. The 1.6% forecast growth rate for originating passengers between 2007 and 2013 is similar to the projected growth rates in the economic indicators for the Denver Metropolitan Area and reflects the continued growth in per capita and disposable income, which drives passenger demand and the propensity for airline travel.

Connecting Passengers. Many of the above assumptions underlying the forecast of originating passengers regarding, among other things, economic recovery, acts of terrorism, and fluctuating fuel prices also apply to the forecast of connecting passengers at the Airport. More specifically, it was assumed that:

1. The Airport will remain a system hub for United Airlines, based on:
 - a. United's indications during its Chapter 11 restructuring process that its business plan continues to include the use of connecting hub airports, and the Airport's performance and importance relative to other connecting hub airports in United's system.
 - b. United's agreement under the 2005-2 Amendment to enplane certain numbers of revenue-connecting passengers at the Airport through 2025, when its Airport use and lease agreement is scheduled to expire. As discussed more fully below, it was assumed that United would achieve its revenue-connecting passenger targets under the 2005-2 Amendment during the forecast period.
 - c. Denver's geographic advantage as a connecting hub for nationwide east-west traffic.
 - d. The expected growth in the origin-destination market in the Denver Metropolitan Area, which serves as a foundation for the viability of connecting hub operations.
 - e. The facilities at and capabilities of the Airport.
2. Frontier Airlines will continue to use the Airport as its main hub, and continue to develop connecting passenger activity.
3. Improved national economic conditions and improvements in airline industry profitability over the long term will enable the major airlines, particularly United, to add the capacity required to meet nationwide demand.

4. United will continue to develop strategies to optimize revenue performance, such as its 2007 reduction in domestic capacity to address slow revenue growth in the domestic market, and these strategies will not materially affect the role of the Airport as a United system hub.

The number of connecting passengers at the Airport is estimated to increase 2.3% in 2007, which takes into account a 1.2% increase through the first 3 months of 2007, compared with the same period of 2006. From 2007 to 2013, the number of connecting passengers is forecast to increase an average of 2.0% per year.

Under the 2005-2 Amendment, the United Airlines Group has agreed to enplane no fewer than the following numbers of revenue connecting passengers at the Airport: (a) 7,500,000 in 2006, (b) 7,600,000 in 2007, and (c) 7,700,000 in 2008 through 2011. In 2006, the United Airlines Group enplaned approximately 7,604,794 *revenue-plus nonrevenue* passenger data presented in Table 17.

Also under the 2005-2 Amendment, United has agreed that the City will decrease certain cost reduction goals benefiting United if United does not achieve the targeted numbers of revenue-connecting passengers discussed above. The number of connecting passengers at any airport is a function of the route strategy and network of an airline and, therefore, it was assumed that United would meet its targeted connecting passenger goals at the Airport rather than increase the rentals, fees, and charges it pays at the Airport. The 2005-2 Amendment is discussed more fully in the "Financial Analysis" section of this report.

Enplaned Passengers

Table 17 and Figure 19 present historical and forecast numbers of enplaned passengers (originating and connecting) at the Airport through 2013. The total number of enplaned passengers at the Airport is estimated to increase 4.0% in 2007 and forecast to increase 3.0% in 2008. From 2007 through 2013, the total number of enplaned passengers is forecast to increase an average of 1.7% per year, slower than the long-term trend (3.9% per year from 1995 through 2005) at the Airport. In 2013, enplaned passengers are forecast to number 27.3 million, which is approximately 6.0% lower than the 29.0 million enplaned passengers forecast for the Airport by the FAA* in the same year.

*Federal Aviation Administration, *Terminal Area Forecast*, February 2006, for years ending September 30.

Table 17

AIRLINE TRAFFIC FORECASTS
Denver International Airport
2005-2013

The forecasts presented in this table were prepared using the information and assumptions given in the accompanying text. Inevitably, some of the assumptions used to develop the forecasts will not be realized and unanticipated events and circumstances may occur. Therefore, there are likely to be differences between the forecast and actual results, and those differences may be material.

	Historical			Estimated			Forecast					
	2005	2006	2007 (a)	2008	2009	2010	2011	2012	2013

(a) Estimated on the basis of 3 months of actual data.

(b) Includes Frontier JetExpress.

Sources: Historical: Airport management records.
Estimated and forecast: Jacobs Consultancy, July 2007.

This Report has not been revised since July 25, 2007. The forecasts, estimates and the Excluded Portion described on the cover page of this APPENDIX B should not be relied upon in making a decision to purchase the Series 2008A Bonds.

Aircraft Landed Weight

Table 17 also presents aircraft landed weight at the Airport for 2005 through 2013. Total landed weight at the Airport is estimated to increase 1.7% in 2007 and forecast to increase 1.6% in 2008, from about 31.8 billion pounds in 2006 to an estimated 32.4 billion pounds in 2007, and to a forecast 32.9 billion pounds in 2008. Total landed weight is then forecast to increase to about 33.3 billion pounds in 2013, reflecting an average annual growth rate of 0.5% from 2007 through 2013.

The forecast of landed weight was derived from the forecast of passenger demand (discussed earlier), considering trends in average aircraft weight as well as assumed growth in all-cargo airline aircraft operations.

FINANCIAL ANALYSIS

FRAMEWORK FOR AIRPORT SYSTEM FINANCIAL OPERATIONS

The City accounts for Airport System financial operations according to generally accepted accounting principles for governmental entities and the requirements of the General Bond Ordinance, as discussed below.

General Bond Ordinance

Improvements to the Airport System have been financed largely through the City's issuance of Airport System Revenue Bonds under the General Bond Ordinance and, to a lesser extent, through the issuance of Airport System Subordinate Revenue Bonds under the Subordinate Bond Ordinance.

The General Bond Ordinance sets forth the covenants of the City with respect to, among other things for the Airport System:

- Issuing additional Bonds
- Establishing rentals, fees, and charges for use of the Airport and its facilities
- Paying Operation and Maintenance (O&M) Expenses and Debt Service Requirements, among other costs, as discussed later

Under Section 704B of the General Bond Ordinance, the 2007A-B and 2007D-E Bonds are considered "additional Bonds," and, as such, the City is required to retain an Airport Consultant to demonstrate compliance with the additional Bonds test prior to the issuance of such Bonds. The City retained Jacobs Consultancy as its Airport Consultant, and our financial forecasts prepared for the additional Bonds test were based, in part, on the assumptions underlying the financial forecasts presented in this report. A separate certificate documenting compliance with the additional Bonds test for the 2007A-B Bonds has been provided to the City. The additional Bonds test for the 2007D-E Bonds is to be calculated and a certificate of compliance provided to the City before the 2007D-E are issued, which is expected to occur after the issuance of the 2007A-B Bonds.

In the General Bond Ordinance, the City covenants to fix, revise, charge, and collect rentals, rates, fees, and other charges for the use of the Airport System so that, in each Fiscal Year, Gross Revenues together with Other Available Funds will, at all times, be at least sufficient to provide for the payment of O&M Expenses for such Fiscal Year, and the larger of either (a) the total amount of required deposits to various Airport System funds and accounts during such Fiscal Year, or (b) 125% of the aggregate Debt Service Requirements on Senior Bonds for such Fiscal Year. This

provision of the General Bond Ordinance is referred to as the Rate Maintenance Covenant.

Based on unaudited data for the first 3 months of 2007, the City had accumulated an estimated balance of approximately \$67.1 million in the Coverage Account of the Capital Fund, which is considered Other Available Funds under the General Bond Ordinance; such funds can be used by the City to meet the Rate Maintenance Covenant on Senior Bonds. The City intends to deposit additional amounts, if necessary, in the Coverage Account so as to maintain a balance equal to approximately 25% of the Debt Service Requirements on Senior Bonds and to apply such amounts as Other Available Funds each year.

Under the General Bond Ordinance, certain debt service on Senior Bonds may be excluded from Debt Service Requirements in calculating debt service coverage under the Rate Maintenance Covenant. See the later section of this report entitled "Passenger Facility Charge Revenues" regarding the framework for using passenger facility charge (PFC) revenues under the General Bond Ordinance for this purpose and the related assumptions underlying the financial forecasts.

Airport Use and Lease Agreements

The City and certain airlines serving the Airport have executed Airport use and lease agreements, as amended, that provide for, among other things: (1) the use and lease of space at the Airport, (2) the basis for calculation and recalculation of rentals, fees, and charges paid by the airlines operating at the Airport, and (3) the majority-in-interest (MII) rights of the airlines regarding changes to the methodology for establishing their rentals, fees, and charges. The Airport use and lease agreements also:

- Provide that 50% of the Net Revenues remaining at the end of each year, up to a maximum of \$40.0 million, and after all other requirements are satisfied, are to be credited to the airlines signatory to the agreement in the following year through the Airline Revenue Credit Account, as illustrated later on Figure 22.
- Contain a provision stating that, notwithstanding any other provision of the agreements regarding rate-making methodologies or rentals, fees, and charges, the rate base must generate Gross Revenues that, together with Other Available Funds, are sufficient to satisfy the Rate Maintenance Covenant each year.

United's Airport Use and Lease Agreement. As discussed earlier, United Airlines enplanes the largest share of passengers and is the largest lessee of space and facilities at the Airport under a use and lease agreement that expires in 2025. The following sections summarize certain elements of the Airport use and lease

agreement with United that were considered in developing the financial forecasts presented in this report.

The United Airport use and lease agreement provides that United may terminate its agreement if its cost per enplaned revenue passenger at the Airport exceeds \$20 (in 1990 dollars) in any given year. In calculating the cost per enplaned passenger, the denominator is to be no smaller than the number of United's enplaned revenue passengers in 1989, which was about 6.0 million. United's cost per enplaned revenue passenger at the Airport is not expected to exceed \$20 during the forecast period, as shown in Exhibit E (all financial exhibits are presented at the end of this report).

In February 2006, United emerged from Chapter 11 bankruptcy protection, at which time it assumed its use and lease agreement and a series of other agreements, as amended, at Denver International Airport, to provide for the following, among other things:

1. ***Capital Program implementation.*** The first phase of an improved regional jet facility and nine loading bridges on the east side of Concourse B became operational on April 24, 2007, and certain baggage system improvements in the Landside Terminal were substantially completed as of June 30, 2006.
2. ***Rentals, fees, and charges cost reductions for all airlines.**** Airline rentals, fees, and charges are to be reduced on a net basis up to an aggregate annual amount of \$4 million over a 4-year period, 2007 through 2010. In addition, the City is to further reduce airline rentals, fees, and charges on a net basis, up to an aggregate amount of \$50 million from 2007 through 2010 according to a scale based on the Net Revenues available for revenue sharing each year.
3. ***Rentals, fees, and charges cost reductions for United.**** The City is to reduce United's rentals, fees, and charges associated with the automated baggage system (ABS) by (a) \$18.5 million in 2007 and (b) \$21.0 million in each year from 2008 through 2025, the final year of United's current Airport use and lease agreement.

The City intends to achieve these cost reduction goals by (a) reallocating to other Airport cost centers a portion of the Bond principal associated with the Concourse B ABS (the debt service of which is paid by United through rentals, fees, and charges), (b) continuing to defease a portion of the Concourse B ABS Bond principal allocated to the Concourse B ABS using revenues generated from \$1.50 of the \$4.50 PFC levied at the Airport, and (c) the City's share of Net Revenues during the forecast period.

*Cost reduction goals for 2004 through 2006 were met by the City and are not described in this report.

As part of the cost reductions, United has surrendered and released to the City its six Concourse A gates and associated holdroom, apron level, and other space. An amendment to Frontier Airlines' Airport use and lease agreement, which includes these six Concourse A gates, is pending.

For purposes of this report, it was assumed that the City would meet its cost reduction goals during the forecast period through a combination of the following sources of funds and subject to the provisions of the amendments to the Airport use and lease agreement with United:

- Interest savings from the following refundings, which would be used to pay the reallocated debt service on Bonds associated with the ABS:
(a) the 1994 Bonds with the 2004 Bonds, (b) the 1995 Bonds with the 2005 Bonds, and (c) the 1996 Bonds with the 2006 Bonds.
- Revenues from the \$1.50 portion of the \$4.50 PFC to defease approximately \$60.0 million in remaining principal outstanding of Bonds associated with the Concourse B ABS.
- The City's share of Net Revenues to defease approximately \$66.8 million in remaining principal outstanding of Bonds associated with the Concourse B ABS, and to fund, as necessary, any of the cost reduction goals that are not funded from interest savings or revenues from \$1.50 of the \$4.50 PFC.

Additional information regarding the City's planned Bond defeasances is provided in the later section entitled "Plan of Financing."

4. ***United revenue-connecting-passenger targets.*** The United Airlines Group is to enplane no fewer than the following numbers of revenue-connecting passengers at the Airport: (a) 7,600,000 in 2007 and (b) 7,700,000 in each year, 2008 through 2025. As mentioned earlier, the United Airlines Group enplaned 7,886,244 revenue-connecting-passengers in 2006, which met its 2006 revenue-connecting-passenger target of 7,500,000 in that year. United's failure to reach such targeted levels would not constitute a default under its use and lease agreement, but would allow the City to decrease certain cost reduction goals that would accrue to United directly by \$6.00 for each revenue-connecting-passenger below the targeted level, provided that the total reduction does not exceed the cost reduction in the same year. In the financial forecasts presented in this report, it was assumed that United Airlines Group would meet or exceed its revenue-connecting-passenger targets and, as such, the City would not reduce any of the aforementioned cost reduction goals.

The rentals, fees, and charges cost reductions for all airlines are to cease if (1) the City is unable to meet its annual irrevocable commitment to pay Debt Service Requirements with PFC revenues under the General Bond Ordinance or (2) regulatory or other legal actions prohibit the cost reductions.

In addition, the cost reductions may be decreased if Airport management (1) determines in good faith that a deficiency exists in any of its required fund balances under the General Bond Ordinance, (2) receives an official written communication from any bond rating agency that a downgrade of the Airport’s credit rating is likely unless the City’s rentals, fees, and charges cost reduction contribution is decreased, (3) determines in good faith that operating cash balances are insufficient and the cost reduction contributions would jeopardize the ongoing operation of the Airport, or (4) the deposit to the Capital Improvement Account is not sufficient to make the final \$1.5 million payment to the Stapleton Development Corporation in 2007.

If any one of the events described above occurs and is successfully resolved by the City, the rentals, fees, and charges reductions would be reinstated in the calendar year following the successful resolution of the event, and the City would increase the reductions to provide United and other airlines the full benefit of the reductions provided for under the amendments to the Airport use and lease agreement with United.

Other Airline Airport Use and Lease Agreements. A list of the airlines other than United that lease gates in the Terminal Complex under Airport use and lease agreements with the City, as amended, and the lease expiration date for each agreement are provided in Table 18.

Table 18	
OTHER AIRLINE AIRPORT USE AND LEASE AGREEMENTS AND THEIR SCHEDULED EXPIRATION DATES	
AirTran Airways (February 2011)	Frontier Airlines (February 2010)
Alaska Airlines (December 2010)	Midwest Airlines (December 2010)
American Airlines (December 2010)	Northwest Airlines (December 2010)
Continental Airlines (February 2010)	Southwest Airlines (December 2010)
Delta Air Lines (December 2010)	US Airways (December 2010)
<hr/> Source: Airport management records.	

The City also has 5- and 10-year Airport use and lease agreements with other airlines that do not lease gates in the Terminal Complex, but use Airport facilities. Many of these agreements are with regional/commuter airlines operating at the

Airport that have code-sharing agreements with the airlines listed in Table 18. The City also has Airport use and lease agreements with foreign flag passenger airlines: Aeromexico, Air Canada, British Airways, Lufthansa German Airlines, and Mexicana de Aviación.

Most of the passenger and cargo airline Airport use and lease agreements with the City are scheduled to expire during the forecast period. The City does not expect any material change to the business terms or to expected future leasehold rentals under the succeeding agreements.

The City also has Airport use and lease agreements with certain all-cargo airlines and other cargo tenants, as discussed later in this report. Please refer to the "AGREEMENTS FOR USE OF AIRPORT FACILITIES" section of the Official Statement for a summary of the agreements between the City and the airlines serving the Airport.

PASSENGER FACILITY CHARGE REVENUES

PFC Approvals

As approved by the Federal Aviation Administration (FAA), the City imposes a \$4.50 PFC per eligible enplaned passenger at the Airport. Under various FAA approvals, the City has the authority to use approximately \$3.3 billion in PFC revenues for (1) \$3.1 billion in costs related to the construction of Denver International Airport, and (2) costs for projects in the Airport Capital Program.

Through March 31, 2007, the City had collected approximately \$850.4 million in PFC revenues of the \$3.3 billion in PFC revenue collection authorized by the FAA.

PFC revenues are not currently defined as Gross Revenues of the Airport System and are not expected to be defined as such during the forecast period. The treatment and use of PFC revenues during the forecast period are discussed below.

PFC Framework

Under a PFC Supplemental Bond Ordinance, the PFC Fund and two subaccounts—the PFC Debt Service Account and PFC Project Account—were established for the annual deposit and use of PFC revenues.

Under the PFC Supplemental Bond Ordinance, the City has also irrevocably committed to pay debt service on Senior Bonds with two-thirds of annual PFC revenues (defined as the Committed Passenger Facility Charges revenue in the Supplemental Bond Ordinance and generally equal to \$3.00 of each \$4.50 PFC) it receives each year and credits to the PFC Debt Service Account up to certain specified maximum amounts (the Maximum Committed Amounts) from 2007

through 2011. Following the date of this report and prior to the issuance of any of the 2007 Bonds, the City expects to adopt a PFC Supplemental Bond Ordinance extending that commitment through 2013.

PFC revenues received by the City in excess of the Committed Passenger Facility Charges revenue in any year, generally equal to \$1.50 of each \$4.50 PFC (or in excess of the Maximum Committed Amounts if the Maximum Committed Amounts are less than the \$3.00 portion of PFC revenues), are to be deposited in the PFC Project Account to be used for any lawful PFC-eligible Airport System purpose, as determined by the City. If the City chooses to deposit such PFC revenues into the PFC Debt Service Account for the payment of Debt Service Requirements on Senior Bonds, the PFC revenues are considered irrevocably committed to such payments.

For the purposes of calculating debt service coverage under the Rate Maintenance Covenant, the General Bond Ordinance allows the City to exclude any debt service irrevocably committed to be paid from the PFC Debt Service Account from the calculation of Debt Service Requirements on Senior Bonds. Since the Airport opened in 1995, the City has irrevocably committed a portion of its annual PFC revenues each year to pay Debt Service Requirements on Senior Bonds.

Forecast Assumptions

The Debt Service Requirements to be paid from PFC revenues during the forecast period (see Exhibit C) in this report, which include revenues from the \$3.00 portion of the PFC, which are required to be deposited in the PFC Debt Service Account, plus all of the revenues from the \$1.50 portion of the PFC, which the City expects to either deposit in the PFC Debt Service Account or use to defease certain Senior Bonds, are excluded from the calculation of debt service coverage under the Rate Maintenance Covenant of the General Bond Ordinance.

The assumptions underlying the financial forecasts are as follows:

- The City is to use two-thirds of its annual PFC revenues—the Committed Passenger Facility Charges revenue—through the forecast period in a manner consistent with the requirements of the Supplemental Bond Ordinance to pay Debt Service Requirements on Senior Bonds.
- All of the PFC revenues in excess of the Committed Passenger Facility Charges revenues (i.e., revenues from \$1.50 of the \$4.50 PFC) are to be used during the forecast period in the manner discussed below:
 - Pay Debt Service Requirements on that portion of the 2003B Bonds used to fund some of the costs of the sixth runway at the Airport, and defease the principal outstanding of the 2003B Bonds, which was were used to fund some of the costs of the sixth runway at the Airport.

- Defeasement approximately \$60.0 million in principal outstanding of Senior Bonds to meet a portion of the cost reduction goals under the United amendments, discussed earlier.
- Defeasement approximately \$63.0 million in principal outstanding of Senior Bonds allocated to the Concourse A ABS.
- Through approximately 2017, defeasement approximately \$175.0 million in principal outstanding of Senior Bonds issued to fund construction of the Airport.

AIRPORT CAPITAL PROGRAM

The City maintains an ongoing process of evaluating the capital requirements necessary to expand Airport facilities to keep pace with increasing aviation demand. These capital requirements are organized into the Airport Capital Program for the then current year (at this time, 2007), and a prospective 6-year period (2008-2013), the forecast period discussed in this report. During the forecast period (2007-2013), the Department expects to invest approximately \$1.22 billion in renovating, expanding, and constructing new Airport facilities.

The projects to be funded from the net proceeds of the 2007A-B Bonds and the 2007D-E Bonds (collectively, the 2007 Project) are expected to begin in 2007, except as noted in the following paragraph. The 2007 Project is expected to cost approximately \$401.9 million.

The portion of the 2007 Project to be funded from the net proceeds of the 2007A-B Bonds includes certain projects that began, and in some cases were completed, between 2005 and 2007. These projects were previously funded through a combination of Commercial Paper Notes (approximately \$30 million) and the City's annual share of Net Revenues (approximately \$40 million).

Projects in the 2008-2013 Capital Program (the 2008-2013 Project) are to be funded from the proceeds of additional Bonds that the City expects to issue during the forecast period (the Future Planned Bonds) and federal grants-in-aid. The City expects to complete all of the 2007 Project and most of the 2008-2013 Project during the forecast period. Assumptions regarding the funding of debt service on the 2007 Bonds and the Future Planned Bonds, additional O&M Expenses if any, and any other relevant costs are included in the financial forecasts presented in this report.

The projects in the Airport Capital Program, consisting of the 2007 Project and the 2008-2013 Project, and their estimated costs and funding sources are outlined in Exhibit A and summarized below by Airport System cost center.

Airfield Area

- Rehabilitate taxiways and runways as part of the City's pavement management plan (2007 Project and 2008-2013 Project).
- Upgrade runway and taxiway safety areas (2008-2013 Project).
- Extend Taxiway K in the north-south direction to the east of Concourse C (2007 Project).
- Extend the east-west taxilanes to the north and south of Concourse C (2007 Project).
- Implement a snow management plan (2008-2013 Project).
- Improve lighting, drainage, and other Airfield Area assets (2007 Project and 2008-2013 Project).

Concourse Apron

- Construct additional apron area surrounding the 10 planned mainline gates at Concourse C (2007 Project).
- Construct an aircraft holding and remain overnight (RON) area to the east of Concourse C (2007 Project).
- Improve ramp area drainage (2007 Project and 2008-2013 Project).

Terminal Complex

- Construct 10 new mainline gates by expanding Concourse C to the east (2007 Project and 2008-2013 Project).
- Construct a new commuter jet facility and additional apron area at the east end of Concourse C (2007 Project).
- Improve baggage system, including baggage sortation carousels, baggage claim carousels, odd-size baggage system, and right-of-way clearances (2007 Project and 2008-2013 Project).
- Improve building systems, including the fire protection system, baggage information display system, electrical and mechanical systems, and elevators (2007 Project and 2008-2013 Project).

- Construct the FasTracks rail station on the south side of the Landside Terminal to accommodate rail service by the Regional Transportation District (RTD) between Denver Union Station and the Airport (2008-2013 Project). According to the RTD, construction of the entire 23-mile rail line and associated stations is scheduled to begin in 2011 and is expected to be completed by 2014, with the system becoming operational in 2015.
- Construct the Concourse B regional jet facility, which became operational on April 24, 2007, and was previously funded with Commercial Paper Notes (2007 Project).
- Upgrade the automated guideway transit system (AGTS) computer hardware, and extend the rail system to the south of the terminal building to accommodate additional trains (2007 Project and 2008-2013 Project).
- Replace and rehabilitate loading bridges (2007 Project and 2008-2013 Project).
- Improve restrooms, concessions, seating areas, and other public space (2007 Project and 2008-2013 Project).
- Design the expansion of the international arriving passenger facilities (2007 Project and 2008-2013 Project).
- Expand the security screening checkpoint (2008-2013 Project).

Roadways, Public Parking, and Ground Transportation

- Construct new public parking structure adjacent to the Landside Terminal Building (previously funded with the City's annual share of Net Revenues and Commercial Paper Notes) (2007 Project).
- Construct future public parking structure and shuttle lot (2008-2013 Project).
- Improve Peña Boulevard (2007 Project and 2008-2013 Project).
- Rehabilitate pavement in targeted roadway and parking areas (2007 Project and 2008-2013 Project).
- Improve landscaping (2007 Project and 2008-2013 Project).

Cargo and Support Facilities

- Construct equipment storage and light maintenance facility (2008-2013 Project).

- Expand stock room and paint shop (2008-2013 Project).
- Upgrade aircraft rescue and fire fighting stations (2007 Project).

PLAN OF FINANCING

The major sources of funds the City expects to use for projects in the 2007-2013 Airport Capital Program are shown in Exhibits A and B, and are discussed below.

The City is eligible to receive FAA grants-in-aid under the Airport Improvement Program (AIP) for up to 75% of the costs of eligible projects. Certain of these grants are to be received as “entitlement” grants, the annual amount of which is calculated on the basis of the number of enplaned passengers and the amount of landed weight of all-cargo aircraft at the Airport. Other, “discretionary” grants are awarded on the basis of the FAA’s determination of the priorities for projects at the Airport and at other airports nationwide.

FAA authorization and the funding of the Airport and Airway Trust Fund (the primary source of AIP funding) are scheduled to expire on September 30, 2007. After this date, AIP funding will terminate until a reauthorization bill is passed. For purposes of the financial forecasts in this report, it was assumed that Congress will pass an FAA reauthorization bill or extend the current authorization such that no lapse in AIP funding authority will occur. Under the FAA’s proposed reauthorization bill, large-hub airports, including Denver International Airport, would no longer receive entitlement grants beginning in Federal Fiscal Year 2010, but would continue to be eligible for discretionary grants.

The federal funding shown in Exhibit A reflects a combination of (1) grants previously received from the FAA, and (2) expected entitlement and/or discretionary grants, consistent with FAA’s proposed reauthorization bill. It was also assumed that the City will continue to submit, and that the FAA will approve, future Airport competition plans, which are required under Vision 100—Century of Aviation Reauthorization Act of 2003 to receive FAA grants.

As stated earlier, the City imposes a \$4.50 PFC at the Airport under various FAA authorizations. For purposes of this report, it was assumed that the City would not impose a PFC in excess of \$4.50, but authority to do so may be possible under the next FAA reauthorization bill. The City intends to use revenues it receives from the \$4.50 PFC each year to (a) pay Debt Service Requirements on Senior Bonds issued to fund construction of the Airport, (b) defease Bond principal associated with the ABS and the sixth runway, and (c) defease Bond principal of Senior Bonds issued to fund construction of the Airport.

The City has entered into Master Installment Purchase Agreements (the Purchase Agreements) with GE Public Finance, Siemens Financial Services, Inc., and Koch Financial Corporation (the Financing Companies), which allow the City to take loans

to fund equipment at the Airport, and the City has taken such loans for certain projects at the Airport.

Under the Purchase Agreements, the City makes installment purchase payments to the Financing Companies for 3 to 10 years at current loan rates between 3% and 5%. See the later section of this report entitled "Application of Revenues" regarding the priority for making installment purchase payments to the Financing Companies relative to other City obligations under the General Bond Ordinance.

As mentioned earlier, the City intends to use the net proceeds of the 2007A-B Bonds and 2007D-E Bonds to fund the 2007 Project, and to issue the Future Planned Bonds to fund the 2008-2013 Project.

To the extent that the City does not receive the funding shown in Exhibit A, the City intends to either (1) defer projects or reduce project scopes, as appropriate, or (2) issue additional Bonds and/or use Airport equity.

2007 Bonds

The 2007 Bonds are to be issued under the General Bond Ordinance on parity with other outstanding Senior Bonds, and are to be payable from and secured by a pledge of and first lien on the Net Revenues of the Airport System.

The 2007 Bonds include multiple series and have multiple purposes, as follows:

- The 2007A-B and 2007D-E Bonds are to be issued to fund projects in the Airport Capital Program, as discussed below.
- Depending on market conditions for issuing bonds, the 2007C Bonds are to be issued to advance-refund all or a portion of the principal outstanding of the 1998B and 2003B Bonds.
- The 2007F Bonds are to be issued to current-refund a portion of the principal outstanding of the 1997E Bonds.

According to First Albany Capital and Estrada Hinojosa & Company, Inc. (the Financial Consultants), the 2007C Bonds would be issued when the 2007A-B Bonds are issued, which would be followed by the issuance of the 2007D-E Bonds and the 2007F Bonds. For purposes of this report, the financial forecasts do not include any debt service savings from the proposed issuance of the 2007C and 2007F Bonds, or other Bonds the City may issue during the forecast period to refund the outstanding principal of Bonds.

The City intends to use the proceeds of the 2007A-B Bonds and the 2007D-E Bonds to fund the 2007 Project.

The City expects to issue the 2007 Bonds in the approximate principal amount of \$401.9 million and, with interest earnings during construction, use the combined moneys for the following purposes:

- Pay the costs of certain planned projects (the 2007 Project) in the Airport Capital Program
- Refund outstanding Commercial Paper Notes, in the principal amount of \$30 million, which were drawn to fund projects between 2005 and 2007
- Reimburse the City's share of annual Net Revenues (\$40.0 million) used to fund projects between 2005 and 2007
- Pay capitalized interest on the 2007 Bonds
- Fund a deposit to the Bond Reserve Fund equal to the Minimum Bond Reserve Requirement under the General Bond Ordinance
- Pay the costs of issuance, including underwriters' discount and financing, legal, and other costs for the 2007 Bonds

Future Planned Bonds

Exhibit B also shows the aggregate sources and uses of funds for the Future Planned Bonds, which, together with federal grants-in-aid, would be used to:

- Pay the cost of planned projects from 2008 through 2013 not funded from the net proceeds of the 2007A-B Bonds and 2007D-E Bonds
- Pay capitalized interest on the Future Planned Bonds
- Fund a deposit to the Bond Reserve Fund equal to the Minimum Bond Reserve Requirement under the General Bond Ordinance
- Pay the costs of issuance of the Future Planned Bonds

During the forecast period, the City may use the proceeds from other Commercial Paper Notes and/or the Purchase Agreements to, among other things, (1) minimize the City's overall cost of issuing Bonds and/or (2) fund project and/or equipment costs during construction. Use of this source of funds for purposes other than that described above, however, was not assumed for purposes of the plan of financing for the 2008-2013 Airport Capital Program.

Defeasance of Bonds

As stated earlier, the City intends to defease certain outstanding Senior Bond principal with PFC revenues and the City's share of Net Revenues during the forecast period. The proposed amounts to be defeased are shown in Table 19.

Asset whose bonds are to be defeased	Principal outstanding of Bonds to be defeased	Source of Bond defeasance
Concourse B ABS	\$126,800	\$1.50 PFC/City Net Revenues
Concourse A ABS	63,000	\$1.50 PFC
Sixth runway	20,000	\$1.50 PFC
Other Senior Bonds (a)	<u>175,000</u>	\$1.50 PFC
	\$384,800	

(a) Amount to be defeased through 2017.

Source: The Financial Consultants.

For purposes of this report, it was assumed that, during the forecast period: (a) the portion of Bond principal shown above for the Concourse A ABS, the Concourse B ABS, and the sixth runway would be defeased, (b) a portion of the \$175 million in Bond principal shown above would be defeased, and (c) Debt Service Requirements and Bond fund transfers would be reduced accordingly. The table shown above is net of approximately \$90 million of Bond principal allocated to the ABS that was defeased by the City as of December 31, 2006.

DEBT SERVICE REQUIREMENTS

Exhibit C presents annual Debt Service Requirements for outstanding Bonds, the proposed 2007 Bonds, and the Future Planned Bonds. Debt Service Requirements for 2005 and 2006 are based on audited results provided by the City. Debt service is shown net of capitalized interest, certain PFC revenues, amounts in escrow to be used to economically defease certain Senior Bonds, and amounts expected to be used to defease certain Senior Bonds during the forecast period, as discussed earlier. Debt Service Requirements on Special Facilities Bonds are not payable from Net Revenues and, therefore, were not considered in this analysis.

Under interest rate exchange agreements between the City and various financial institutions, certain payments may be made to or from each financial institution equal to the difference between the fixed or variable rates payable by the City under each agreement and the fixed or variable rates payable by the financial institutions. Under these agreements, the City's obligation to make payments to the financial institutions is subordinate to the City's payment of debt service on Senior Bonds. For purposes of the financial forecasts presented in this report, however, it was assumed that such payments would be on parity with the payment of debt service on outstanding Senior Bonds.

In calculating airline rentals, fees, and charges, actual transfers required under the General Bond Ordinance to be made to the Bond Fund during the year were used rather than annual Debt Service Requirements. The total monthly transfers to the Bond Fund shown in Exhibit C each year are for the payments required on February 1 of that year through January 1 of the following year.

2007 Bonds

Debt service for the 2007A-B Bonds and the 2007D-E Bonds was estimated by the City's Financial Consultants based on the following assumptions:

	<u>2007A-B Bonds</u>	<u>2007D-E Bonds</u>
Delivery date:	August 29, 2007	August 29, 2007
Final maturity:	2032	2032
Assumed interest rate:	5.1%	5.1%

Future Planned Bonds

Debt service for the Future Planned Bonds reflects (1) allowances for future changes in bond interest rates and (2) varying bond terms of 20 and 30 years.

Allocation of Debt Service to Cost Centers

Exhibit C-1 summarizes the allocation of debt service (annual total of monthly transfers to the Bond Fund) to Airport System cost centers in accordance with procedures and formulas specified in the Airport use and lease agreements.

OPERATION AND MAINTENANCE EXPENSES

Exhibit D presents forecast Operation and Maintenance Expenses by object type and by cost center. The amounts for 2005 and 2006 reflect audited financial results for the Airport. The amounts for 2007 and 2008 reflect the City's operating budgets for those years.

The City establishes an operating budget target each year that takes into account (1) year-to-date O&M Expenses for the then-current fiscal year as well as budgeted expenses for that year, (2) expectations regarding passenger traffic for the budget year, (3) projected non-airline revenues, and (4) changes in City priorities or initiatives.

Historically, personnel services have represented the single largest category of expense at the Airport, which is typical of most U. S. airports. Personnel services include all salaries, wages, and benefits for filled personnel positions; for budgeting purposes, the same types of expenses were included for vacant positions.

2007 Operation and Maintenance Expenses

In 2007, budgeted personnel services represent approximately 39% of the total O&M Expenses budgeted for the Airport, as shown on Figure 20.

The next largest category of expense at the Airport is professional services, which includes management and other contracts for the provision of services at the Airport, including:

- AMPCO System Airport Parking, which operates and manages the public parking facilities at the Airport under a contract that allows AMPCO to be reimbursed for its expenses and to receive a management and incentive fee.
- AMPCO Transportation Services, which provides shuttle bus service from remote parking lots to the terminal complex. The City reimburses AMPCO for the actual cost of providing this service.

Other major expense categories include repairs and maintenance (including AGTS maintenance), cleaning services, and utility services. Electricity costs for all tenant-leased space, the use of tenant equipment, and tenant support facilities are billed directly to such tenants, and are not included in Airport O&M Expenses. Expenses associated with baggage handling and fueling systems—which are owned by the City—are paid directly by the airlines through third-party operator arrangements.

O&M Expenses are allocated to Airport System cost centers by Department staff based on historical Airport System operations, airport industry practices, provisions in the Airport use and lease agreements, and other considerations. As shown on Figure 19 for 2007, O&M Expenses in the Terminal Complex and Airfield Area account for 60% of total Airport O&M Expenses.

2008 Operation and Maintenance Expenses

The City recently completed its preliminary operating budget for 2008, which is approximately 8.3% higher than its original 2007 operating budget, reflecting, in part, increased personnel services expenses and contractual costs for security, parking shuttle bus, janitorial, and other services. The public parking contract, which is with AMPCO System Airport Parking, was also increased as a result of expected increases in parking activity. The major categories of O&M Expenses for 2008 and the distribution of expenses among Airport System cost centers are shown on Figure 21.

2009-2013 Operation and Maintenance Expenses

O&M Expenses for the remaining years of the forecast period reflect the following:

- Budgeted 2008 O&M Expenses were assumed to represent an appropriate baseline level of expense for forecasting future O&M Expenses.
- Additional expenses associated with projects expected to be completed during the forecast period, including additional O&M Expenses associated with the 10-gate expansion on Concourse C and construction of a new commuter facility on Concourse C.
- Certain O&M Expense line items were assumed to increase with forecast increases in enplaned passengers, as presented in previous sections.
- Inflation for all O&M Expenses was assumed to be approximately 3% per year, which is higher than the average rate of inflation* in the Denver area for the 5-year period, 2001-2006 of 1.75% per year.

*Source: U.S. Department of Labor, Bureau of Labor Statistics, from www.bls.gov, July 13, 2007.

GROSS REVENUES

Table 20 presents the major sources of Gross Revenues for the City in 2006 based on actual data and forecast for 2013. Line-item details for the two significant categories of Gross Revenues—airline rentals, fees, and charges and nonairline revenues—are shown in Exhibits E and F, respectively.

	Actual 2006		Forecast 2013	
	Revenues (thousands)	Percent of total	Revenues (thousands)	Percent of total
Airline rentals, fees, and charges				
Landing fees	\$ 92,191	15.8%	\$128,723	16.6%
Terminal Complex rentals	66,713	11.4	111,569	14.3
Tenant finishes and equipment charges	53,766	9.2	71,813	9.2
Baggage system fees	33,041	5.7	38,410	4.9
Other	<u>68,486</u>	<u>11.7</u>	<u>97,235</u>	<u>12.7</u>
Total airline revenues	\$314,197	53.7%	\$447,750	57.7%
Nonairline revenues				
Terminal concessions (a)	\$ 34,305	5.9%	\$ 48,490	6.2%
Public automobile parking	105,262	18.0	134,847	17.3
Rental car privilege fees	32,678	5.6	41,308	5.3
Other terminal revenues (b)	17,940	3.1	17,289	2.2
Building and ground rentals	15,459	2.6	16,975	2.2
Other	<u>22,251</u>	<u>3.8</u>	<u>31,808</u>	<u>4.1</u>
Total nonairline revenues	\$227,896	39.0%	\$290,717	37.3%
Interest income	<u>42,520</u>	<u>7.3</u>	<u>39,154</u>	<u>5.0</u>
Total Gross Revenues (c)	<u>\$584,613</u>	100.0%	<u>\$777,622</u>	100.0%

Note: Columns may not add to totals shown because of rounding.

(a) Includes revenue from food and beverage, merchandise, and terminal services.

(b) Includes revenue from employee parking, rental car service and storage areas, ground transportation, and other terminal space rentals.

(c) The amount shown for 2006 does not match the amount reported in Table 24 because of the manner in which certain year-end settlements and adjustments are calculated for rentals, fees, and charges.

Source: Airport management records.

The following sections discuss the basis for and assumptions used to forecast the financial results of the Airport System through the forecast period.

AIRLINE RENTALS, FEES, AND CHARGES

Airline rentals, fees, and charges are an important source of revenue for the City. In 2006, airline rentals, fees, and charges represented 53.7% of Airport Gross Revenues.

Historical and forecast airline rentals, fees, and charges, in total and expressed on a per-enplaned-passenger basis, for the Airport, for United Airlines, and for other airlines, are shown in Exhibit E. As stated earlier, United's cost per enplaned revenue passenger is not expected to exceed the \$20 "cap" under its use and lease agreement with the City during the forecast period (see Exhibit E).

Required Airport costs in the airline rate base include:

1. Operation and Maintenance Expenses
2. Debt service on Bonds issued for (a) the Airport, net of PFC revenues paid from the PFC Debt Service Account, and (b) Airport land acquisition
3. Amortization of City investments prior to and after the opening of the Airport on February 28, 1995

These costs represent a significant portion of the operating and capital repayment costs for managing and developing the Airport each year. Other costs included in the calculation of airline rentals, fees, and charges include, but are not limited to: (1) deposits to funds and accounts established under the General Bond Ordinance, as necessary, including the O&M Reserve Account, (2) equipment and capital outlay expenditures, and (3) the cost of City-used space in the Terminal Complex. The assumptions underlying the forecasts of future debt service and O&M Expenses—the two largest Airport cost components included in airline rentals, fees, and charges—were presented earlier in this report, and the costs allocable to airline cost centers and used to forecast airline rentals, fees, and charges are shown in Exhibit C-1 for debt service and Exhibit D for O&M Expenses.

Amortization charges for certain City investments are calculated over 30 years (except for certain equipment that is to be amortized over 5 years) at the weighted average, effective interest cost on all fixed-rate Bonds issued on behalf of the Airport. City investments after the Airport opened in 1995 are amortized over 15 years.

Payments that the City expects to make to the Financing Companies under the Purchase Agreements, net of AIP grants-in-aid and Transportation Security Administration (TSA) grants, are included as a "rate-base" cost in the forecast of airline rentals, fees, and charges presented in this report.

Interest income on amounts in the Bond Reserve Fund (provided that the minimum Bond Reserve Requirement has been funded) and on the Interest and Principal accounts of the Bond Fund is credited to Airport System cost centers in the same proportion as debt service is allocated. Nonsignatory airline landing fees and other nonairline revenues are credited to the landing fee rate base.

As discussed in the earlier section entitled "Airport Use and Lease Agreements," the City is obligated to meet certain rentals, fees, and charges cost reduction goals under various amendments to United's use and lease agreement, which were assumed to be in effect during the forecast period.

The following subsections summarize the rate-making methodologies and assumptions used to forecast airline rentals, fees, and charges, as presented in Exhibits E-1 through E-4.

Landing Fees

Exhibit E-1 shows the landing fees, calculated according to a cost-center residual cost methodology, under which the net requirements allocable to the Airfield Area are recovered through landing fees assessed per 1,000-pound units of airline aircraft landed weight.

Airfield Area costs to be recovered through landing fees are expected to increase during the forecast period as airfield projects are completed and the City begins to include related debt service and/or other costs in the airline rate base.

The Signatory Airlines were assumed to account for a significant portion of total forecast landed weight each year.

Terminal Complex Rentals

Terminal Complex rental rates are set to recover the net requirement of the Terminal Complex calculated according to a commercial compensatory rate-making methodology. The net requirement is divided by total rentable space to determine the average rental rate per square foot for that space. Airlines are charged this average rate for space they actually rent, except for approximately 93,400 square feet of space on Concourse B, which is charged at 65% of the average rental rate. Exhibit E-2 shows the calculation of the average rental rate for all Terminal Complex space (Landside Terminal and concourses).

As stated earlier, the City is planning to extend Concourse C by approximately 10 mainline gates to the west, and construct a new commuter jet facility on the east side of Concourse C. It is expected that the 10-gate expansion will become operational on January 1, 2011, and the new commuter jet facility will become operational on January 1, 2009. According to the City, debt service and O&M

Expenses associated with the expansions are to be included in the calculation of airline rentals, fees, and charges.

For purposes of this analysis, the following were assumed:

- Effective January 1, 2009, Great Lakes Aviation would relocate to Concourse C and use the new commuter jet facility. Under the Airport use and lease agreements, the rentals, fees, and charges for the Concourse C commuter jet facility are to be assessed based on the City's estimate of full use of the facility.
- Southwest Airlines and/or other airlines would lease 2 gates and associated space when the 10-gate expansion becomes operational on January 1, 2011.
- The airlines operating on Concourse C would lease one additional gate and associated space in 2012 and in 2013.
- Effective January 1, 2011, Continental Airlines would relocate from Concourse A to Concourse C and would continue to lease the same amount of gates and space. The vacated gates on Concourse A would be used and/or leased by Frontier Airlines.

As a result of these and other assumptions, the City is expected to realize additional rentals and charges associated with the Concourse Ramp Area and Concourse C tenant finishes.

Tenant Finishes and Equipment

Exhibit E-3 shows the calculation of charges to recover the costs of tenant finishes and equipment (including baggage sortation space and equipment). In meeting its cost reduction goals under certain amendments to the Airport use and lease agreement with United, the City intends to write off the book value associated with \$17.5 million of reimbursements from the Capital Fund to United for costs associated with certain modifications to the baggage system on Concourse B.

Although not part of the other Airport use and lease agreements, the City has agreed in principle to reduce Concourse C tenant finish charges by approximately 3% through 2010, which is the last year of the Airport use and lease agreements with the airlines operating on Concourse C. The reduction is to be achieved by applying a portion of the interest savings on the Bond refundings, discussed earlier, against Concourse C tenant finish costs.

Under an amendment to the Airport use and lease agreement with United, debt service and other costs associated with the Concourse B regional jet facility are allocable to Concourse B tenant finish charges and are to be recovered through facility rentals. As United occupies 96% of Concourse B, a significant portion of the

annual cost of this project is to be recovered from United each year. The new facility became operational on April 24, 2007.

Baggage System Fees

Exhibit E-4 shows the calculations of the automated baggage system fee and the conventional baggage system fee assessed to recover the terminal space and equipment costs, operating expenses, debt service, and amortization charges allocated to the two baggage systems.

In 2005, United discontinued use of the ABS and currently uses the conventional baggage system to transport all of its bags to and from the Landside Terminal. United had been the only airline using the ABS, which was subsequently shut down by the City.

Under the Airport use and lease agreements, the airlines on Concourse A and Concourse B have agreed to pay the net requirements of the ABS, which is allocated 35% to Concourse A and 65% to Concourse B, even though the ABS is inoperable. Debt service and amortization charges associated with the ABS reflect the City's intent during the forecast period to (a) defease the Bonds associated with the ABS and (b) write off Capital Fund investments in the ABS made by the City.

The conventional baggage system is maintained by a third party, which charges the airlines directly. Therefore, utility costs are the only operating expense associated with the baggage system to be incurred by the City and recovered from the airlines.

Other Airline Fees and Charges

Other airline fees and charges shown in Exhibit E include concourse ramp fees, AGTS charges, international facility fees, and fueling system charges. Such fees and charges are set according to a compensatory rate-making methodology to recover the costs associated with such facilities.

For those airlines that are not signatory to the Airport use and lease agreements, the City assesses rentals, fees, and charges following procedures consistent with those outlined in the Airport use and lease agreements, at a premium of 20% over Signatory Airline rates. In addition, nonsignatory airlines do not share in the year-end Net Revenue credit.

NONAIRLINE REVENUES

Exhibit F summarizes historical and forecast revenues from nonairline tenants and services.

Terminal Concessions

Space for concessions and services is provided in the Landside Terminal and the concourses. The City leases such space pursuant to concession agreements, which provide for payment to the City of the greater of a percentage of gross revenue or a minimum annual guarantee. The concession agreements also contain a re-establishment clause that allows the City to adjust rental rates, within certain parameters, if necessary to satisfy the Rate Maintenance Covenant.

Unlike most concession programs at U.S. airports, at Denver International Airport, the City has not contracted with one or two "master concessionaires" which, in turn, sublease the concessions to others. The Airport's concessions program has emphasized direct contracting with individual concessionaires, providing opportunities for local small businesses, greater competition, more choices for consumers, and more revenue to the Airport. Currently, approximately 60 concessionaires operate at the Airport in more than 140 locations.

Some of these concession agreements are scheduled to expire during the forecast period. As these agreements expire, the City intends to enter into new agreements with similar terms and conditions.

In 2006, revenues from Terminal Complex concessions represented 5.9% of Gross Revenues. In general, the forecasts of Terminal Complex concession and terminal services revenues were based on (1) forecasts of enplaned passengers presented earlier in this report, (2) recent historical trends in concessions revenues paid to the City, expressed on a per enplaned passenger basis, (3) allowances for inflation of 2.0% per year, and (4) the terms and conditions of agreements with the City. Exceptions to these factors are noted below.

Food and Beverage. The minimum annual guarantee for food and beverage space is \$59 per square foot per year. The food and beverage concession agreements provide for percentage fee revenues to the City ranging from 10% to 20% of gross revenues. Recent performance trends were taken into account in forecasting food and beverage concession revenues, and revenues were computed at the higher of the estimated percentage fee or minimum annual guarantee.

Specialty Retail. The minimum annual guarantee for retail space is approximately \$70 per square foot per year. The merchandise concession agreements provide for percentage revenues to the City that range from 10% to 20% of gross revenues. Recent performance trends were taken into account in forecasting merchandise revenues, and revenues were computed at the higher of the estimated percentage fee or minimum annual guarantee.

Services. Services include telephones, advertising, baggage carts, insurance, shoeshine stands, vending machines, bag storage facilities, automated bank teller machines, and other services. In general, these services are provided by concessionaires that pay the City the higher of a percentage of gross revenues or a minimum annual guarantee of \$36 per square foot per year, depending on the type of service provided. For most concessionaires, the estimated percentage fee is greater than the minimum annual guarantee, with percentage fees ranging from 10% to 12% of gross revenues.

Outside Nonairline Revenues

Outside nonairline revenues include public automobile parking, rental cars, and ground transportation services.

Public Automobile Parking. Public automobile parking at the Airport is accommodated in parking structures, surface lots adjacent to the Landside Terminal, and a remote parking lot. In 2006, public parking revenues accounted for 18.0% of total Gross Revenues.

Table 21 lists the City-owned parking facilities at the Airport, the number of spaces in each facility owned by the City, and parking rates in the facilities, which are adjusted by the City from time-to-time. As stated earlier, AMPCO System Airport Parking operates and manages the public parking facilities under a management contract with the City. Under this contract, the City retains all rights to implement, among other things, parking rate increases.

Table 21

CURRENT AIRPORT PUBLIC PARKING FACILITIES AND RATES

Parking facilities	Number of spaces	24-hour rate	Hourly rate
Short-term (close-in) parking			
Garages (a)	12,329	\$18	\$2
Short-term lots	208	(b)	\$3
Valet	657	\$27	\$11 first hour \$2 each additional hour
Long-term surface parking	8,301	\$9	\$1
Remote surface parking	8,963	\$5	\$1

Note: The Mt. Elbert remote shuttle lot, not included above, has 8,616 spaces and has historically been used for overflow parking. In November 2007, the Mt. Elbert lot will be available for full-time use following the completion of certain parking improvements included in the Airport Capital Program.

- (a) The City expects to open a new parking structure adjacent to the Landside Terminal with approximately 1,700 parking spaces by December 2007.
- (b) Short-term (close-in) parking is assessed at the same hourly rate regardless of the length of stay.

Source: Airport management records.

In general, parking transactions—a measure of customer use—and parking revenues per transaction—a measure of how long customers park—increased from 2001 through the first 3 months of 2007. Transactions and revenues by lot type at the Airport for 2006 and the first 3 months of 2007 are shown below in Table 22.

Table 22

PARKING TRANSACTIONS AND REVENUES

Parking facilities	2006	
	Transactions— percent of total	Parking revenues— percent of total
Garages	68%	61%
Valet	2	4
Long-term surface parking	18	23
Remote surface parking	<u>12</u>	<u>12</u>
Total	100%	100%
	First 3 months of 2007	
	Transactions— percent of total	Parking revenues— percent of total
Garages	67%	63%
Valet	2	4
Long-term surface parking	20	23
Remote surface parking	<u>11</u>	<u>10</u>
Total	100%	100%

Source: Airport management records.

To meet the demand for public parking facilities at the Airport, the City is in the process of constructing a new public parking structure adjacent to the Landside Terminal. The new structure is expected to (a) be operational by December 2007, (b) have the same parking rates as existing parking garages, and (c) provide approximately 1,700 public parking spaces.

Since the Airport opened in 1995, privately operated off-Airport parking lot sizes and competition have increased. Many airports in the United States face parking competition from off-airport parking facilities, which are typically owned and operated by private entities that provide courtesy vehicle services to and from the airport terminal building for their customers at no cost. In 2006, one of the largest off-Airport parking operators that serve the Airport doubled its number of covered spaces to 1,100. Published rates at this parking facility are approximately \$7 and \$12 per day for uncovered and covered parking (net of online coupons available at no charge or restrictions), respectively, compared to \$5 and \$18 per day for similar facilities at the Airport. Parking revenues per passenger during the forecast period are expected to increase, but at diminishing rates, consistent with on-Airport trends in recent years. Given the Airport property size and the courtesy vehicle travel distances for off-Airport parking operators to the Landside Terminal, competition from these off-Airport parking operators is not expected to result in year-to-year parking revenue decreases during the forecast period.

The City has an agreement with LRW Investment Company, scheduled to expire on October 31, 2009, to operate WallyPark, an automobile parking lot located on Airport property, and to provide courtesy vehicle service between WallyPark and the Airport terminal building for its customers. Published daily rates for the approximate 1,500 parking spaces at this facility are \$10.95 for self-parking and \$13.95 for valet parking. Pursuant to the agreement with the owner of WallyPark, the City is to receive the greater of (a) a minimum annual guarantee equal to 85% of the previous year's guaranteed payment to the City (estimated to be approximately \$247,000 in 2007) or (b) a percentage of gross revenues, ranging from 18% to 24% during the term of the agreement. For purposes of this report, it was assumed that WallyPark would continue to operate at the Airport under similar terms and conditions following expiration of the LRW Investment Company agreement with the City.

Public automobile parking revenues were forecast on the basis of (a) a review of yearly trends in parking revenues per originating passenger and per transaction from 2001 through the first 3 months of 2007, (b) moderate increases in the ratio of long-term parkers to originating passenger and average revenue per originating passenger as the City adjusts public parking rates, and (c) forecast increases in the number of originating passengers.

Rental Cars Privilege Fees. The City has concession agreements with the following rental car companies to provide service at the Airport through January 1, 2014: Advantage, Avis, Budget, Dollar, Enterprise, Hertz, Payless, Thrifty, and Alamo and National, which operate as rental car brands under Vanguard Car Rentals USA, Inc. In 2006, rental car privilege fee revenues accounted for 5.6% of Gross Revenues.

In March 2007, Enterprise entered into an agreement to acquire Vanguard Car Rentals USA, Inc., and stated that the acquisition of Vanguard is expected to close in the third or fourth quarter of 2007. On the basis of data for the first 3 months of 2007, the combined company would be the second largest rental car operation at the Airport based on gross revenues.

Figure 22 presents the market shares of the rental car companies that have concession agreements with the City for 2006 and the first 3 months of 2007.

Under the concession agreements, each rental car company pays the City 10% of its annual gross revenues or a minimum annual guarantee, whichever is greater. The minimum annual guarantee is equal to 85% of the percentage rent payable in the preceding year, but no less than the highest minimum annual guarantee for any previous year.

Rental car privilege fee revenues were forecast on the basis of (a) forecast numbers of originating passengers, (b) trends in the average gross rental car revenues per originating passenger for the last 5 complete fiscal years (2002-2006) and the first

3 months of 2007, which ranged between \$21 and \$25 per originating passenger, and (c) moderate increases in the average revenue per rented car as the on-Airport rental car companies adjust their daily rates. The acquisition of Vanguard by Enterprise is not expected to have a material effect on privilege fees paid to the City, which are forecast to be greater than the minimum annual guarantee in each year of the forecast period.

Ground Transportation Services. The City charges the operators of all commercial ground transportation vehicles (such as buses, limousines, shuttles, hotel/motel courtesy vans, off-Airport rental car vans, and off-Airport parking vans) on the basis of the frequency and duration of their use of the terminal roadways and curbside. Access to the terminal curbside is controlled by an automated vehicle identification system that tracks both the frequency and duration of use by each commercial vehicle operator.

Other Terminal Revenues

Other terminal revenues include employee parking fees, rental car service and storage area rentals and additional building rentals, and other terminal space rentals. Other terminal revenues accounted for 3.1% of Gross Revenues in 2006.

Employee Parking. The City provides two employee parking lots north of Peña Boulevard. Employee parking is also provided in the two lots adjacent to the parking garages in the terminal area and in the administration building. Employees (other than City employees) pay a monthly fee to the City to park at these locations. Shuttle bus service is provided to the employee lot under a contract with AMPCO Transportation Services.

Rental Car Service and Storage Areas. In 1999, the City issued Taxable Special Facilities Revenue Bonds and Airport Development Revenue Bonds to finance the design, acquisition, construction, and equipping of certain terminal area improvements, rental car facilities, vehicles, and equipment at the Airport. A portion of the net proceeds of these bonds was also used to refund bonds issued by the City in 1993 to finance existing rental car facilities.

All of the rental car companies serving the Airport have a Special Facilities and Ground Lease with the City, under which each company pays:

- Facilities rentals to cover its pro rata share of debt service on the Taxable Special Facilities Revenue Bonds and Airport Development Revenue Bonds issued to finance Airport improvements for the rental car companies
- Administrative expenses
- Ground rentals for land leased from the City north of Peña Boulevard
- Additional rentals in an annual amount equal to 10% of the depreciated cost of constructing the original facilities

The ground rentals and additional rentals paid by the rental car companies under the Special Facilities and Ground Leases are considered Gross Revenues of the Airport System. The other rentals and fees paid by the rental car companies are related to Special Facilities Bonds and are not considered Gross Revenues.

Future Airport Hotel. In June 2007, the City received several proposals from qualified participants in response to its request for proposals for an owner, manager, financier, and/or constructor of a first-class hotel property (i.e., the Airport Hotel) to be immediately adjacent and attached to the Landside Terminal, on land owned by the City. For purposes of this report, no additional Gross Revenues were assumed during the forecast period from the Airport Hotel.

Other Terminal Space. The City also receives rentals for storage space, customer service counters, and other space leased by nonairline tenants at the Airport.

Airfield Area Revenues

Nonairline Airfield Area revenues include general aviation landing fees, farming income, rentals for certain land parcels and structures, oil and gas royalty revenues, and fuel flowage fees.

Building and Ground Rentals

Building and ground rentals include rentals for cargo, airline maintenance, and general aviation facilities at the Airport. In Exhibit F, these revenues are summarized as follows: North Airline Support Area, South Airline Support Area, South Cargo Area, and General Aviation Area. Most of the facilities in the north and south airline support and cargo areas were financed with the net proceeds of Senior Bonds and Special Facilities Bonds. In 2006, building and ground rentals accounted for 2.6% of Gross Revenues.

The City has a policy of establishing and annually adjusting ground rental rates to recover all capital and operating costs allocable to land made available for lease to Airport tenants. The rate base for calculating the ground rental rate includes costs allocable to the North Cargo Area, which was graded as part of the new Airport construction project, but then abandoned when cargo operations were established at the South Cargo Area. Of these costs, 50% are allocated to the Airfield Area cost center and recovered through landing fees. The balance will not be recovered until the North Cargo Area land is leased.

The City establishes building and ground rentals for the facilities it financed with Senior Bonds to recover O&M Expenses, debt service, and amortization charges allocable to such facilities.

Facilities Financed with Senior Bonds. As part of the new Airport project, the City financed the construction of cargo buildings, cargo ramp, and ground service equipment areas, which are leased to the tenants listed in Table 23 under cargo use and lease agreements. The lease expiration date for each tenant is also shown in Table 23.

Table 23

CARGO USE AND LEASE AGREEMENTS

Air General (December 2010)	DHL Worldwide Express (February 2015)
ABX Air (December 2009)	FedEx (February 2023)
America West Airlines/US Airways (February 2005) (a)	Frontier Airlines (May 2005) (a)
American Airlines (December 2010)	Kitty Hawk Air Cargo (July 2011)
Air Transport International (April 2009)	Northwest Airlines (February 2005) (a)
Delta Air Lines (February 2005) (a)	Southwest Airlines (December 2010)
	UPS Air Cargo (February 2010)

(a) The holdover provision of these agreements is in effect. The City expects new agreements to be executed by the tenants. America West Airlines and US Airways merged in September 2005.

The City has a longer-term agreement—approximately 25 years—with Continental Airlines for maintenance hangar, in-flight kitchen, cargo, and ground support equipment facilities that were financed from a portion of the net proceeds of the 1992B and 1992C Bonds. The agreement with Continental Airlines provides, among other things, for the repayment of debt service on the Senior Bonds issued for Continental’s facilities.

Facilities Financed with Special Facilities Bonds. In addition to issuing Special Facilities Bonds to finance rental car facilities at the Airport, the City has issued Special Facilities Bonds to finance (1) a line maintenance hangar and other facilities for United Airlines, and (2) a multipurpose cargo project for WorldPort at DIA. As stated earlier, Debt Service Requirements on Special Facilities Bonds are not payable from Net Revenues of the Airport.

United leases approximately 500,000 square feet of land for facilities that were financed with Special Facilities Bonds. These Bonds were refunded in June 2007. United pays ground rent for the land it leases under its Special Facilities and Ground Lease with the City, which is scheduled to expire on October 1, 2023.

The City has a Master Special Facilities and Ground Lease (the Master Lease) with WorldPort at DIA Owners LLC (WorldPort LLC), whereby the City has leased to WorldPort LLC land west and south of the South Airline Support Area for cargo, warehousing, office, and distribution facilities. Under the Master Lease, the City receives ground rentals for the 50-acre site, and percentage rent (1.5% of gross revenues received by WorldPort LLC).

Two of the seven buildings that were planned to be developed as part of WorldPort at DIA have been completed. Only one of the buildings has been leased.

On June 26, 2007, a Notice to Redeem the outstanding WorldPort Special Facility Bonds was sent to HSBC Bank, as Trustee. It is expected that these bonds will be redeemed on August 1, 2007, by JP Morgan Chase Bank, the letter of credit provider for the Special Facility Bonds. The City and JP Morgan Chase Bank are negotiating an agreement in which, following the redemption, the City would buy out or terminate the Master Lease, assume the existing subleases, and use other parts of the buildings for Airport purposes.

For purposes of this report, it was assumed that the City would receive only the amount of actual rental revenue received from the one building leased by WorldPort LLC in 2006 in each year of the forecast period.

Other Facilities. The United States Postal Service (USPS) financed its sorting and distribution facility at the Airport. Under an agreement with the City, which is scheduled to expire in May 2013, USPS pays ground rent for the areas of the Airport that it uses.

General Aviation Area revenues shown in Exhibit F include the ground rentals and aircraft fees paid by Signature Flight Support under a 30-year agreement with the City, which is scheduled to expire in March 2025. Signature leases a 12.4-acre site and provides fixed base operator (FBO) services for corporate and similar sized aircraft.

In December 2005, the City issued a request for proposals for a developer of 17 acres of land on the north side of Pena Boulevard as the first phase of a planned 500-acre commercial development initiative. In April 2006, the City announced the selection of CMCB Development Co. of Denver to develop the site, known as the "Landings at DIA." Work on the Landings at DIA is expected to begin in summer 2007, with Phase 1 of the development expected to be operational in summer 2008.

Possible tenants of Landings at DIA include a 200-room limited service hotel, food providers, banks, specialty retail stores, and other service providers. For purposes of this report, it was assumed that the City would receive ground rentals for developed land, assessed at \$1.50 per square foot per year. All 17 acres were assumed to be developed by 2011. No additional payments to the City resulting from a percentage of gross revenues were assumed in the financial forecasts in this report.

In general, building and ground rentals were forecast on the basis of the following assumptions: (1) the amount of leased building and ground space as of January 1, 2007, is an appropriate basis for estimating occupancy during the forecast period, (2) the City is to continue to establish ground rentals in a manner consistent with its adopted policy (as described earlier), and (3) cargo building rentals are to be established each year based on the costs discussed earlier.

Other Revenues

The largest portion of other revenues received by the City is derived from aviation fuel tax proceeds, as shown in Exhibit F. Under legislation enacted by the State of Colorado, the City receives approximately 65% of aviation fuel tax proceeds collected by the State. The City also receives revenues from a tax it imposes on fuel sold at the Airport.

Interest Income

Interest income on investments of moneys held in all funds and accounts (other than the Project Fund, PFC Fund, and Bond Reserve Fund) is defined as Gross Revenues under the General Bond Ordinance. In 2006, interest income accounted for 7.3% of Gross Revenues.

The forecast of interest income (as shown in Exhibit G) is based on actual average yields earned by the City. Under the City's rate-making methodology, interest income earned on the Bond Reserve Fund and Bond Fund is applied as a credit to all cost centers (on the same basis as Debt Service Requirements) in calculating rentals, fees, and charges for the passenger airlines under the Airport use and lease agreement and for the cargo airlines under the cargo use and lease agreements.

STAPLETON DISPOSITION AND REDEVELOPMENT

Under the General Bond Ordinance, the site of the former air carrier airport (Stapleton) that served the region is part of the Airport System. In accepting the grant assurances of the FAA (as they relate to the receipt of airport grants) and in entering into Airport use and lease agreements with the airlines, the City agreed to use net proceeds from the sale of the Stapleton site to retire Airport System debt.

The City and the nonprofit Stapleton Development Corporation (SDC) have an agreement (the Disposition Agreement) that provides for SDC to redevelop and dispose of the 4,051-acre Stapleton site. As property is sold by SDC, it is released from the terms of the Disposition Agreement, which is scheduled to expire in June 2013. As of the date of this report, SDC had sold approximately 1,330 acres of Stapleton property for a total of approximately \$44.3 million, and the sale of approximately 292 acres in the amount of approximately \$9.6 million is pending. An additional 437 acres of open space have been dedicated for parks and other public use space. The proceeds from the Stapleton land sales, net of closing costs, have been deposited to the Capital Fund.

The Disposition Agreement provides for the payment of all Stapleton property O&M Expenses of SDC from the City's annual deposit to the Capital Improvement Account, to the extent that such amount is available in that account.

The City has agreements with nine airlines that provide, among other things, the framework for the City to (1) pay for Stapleton disposition expenditures and (2) recover those payments through airline landing fees at the Airport for 25 years. Also under the agreement, three airlines agreed to fund the costs of certain environmental clean-up at Stapleton, which has occurred. Please refer to the section of the Official Statement entitled “FINANCIAL INFORMATION—Stapleton” for additional information about the Disposition Agreement and the agreement between the City and the airlines.

For the financial forecasts, it was assumed that (1) the City would not receive revenues from future development at Stapleton, (2) all O&M Expenses associated with Stapleton are to be paid by SDC, and (3) the City would continue to fund certain Stapleton disposition costs and amortize those costs in the Airfield Area cost center over 25 years.

APPLICATION OF REVENUES

Exhibit G presents the forecast application of Gross Revenues to the various funds and accounts under the General Bond Ordinance, as described below and shown on Figure 23.

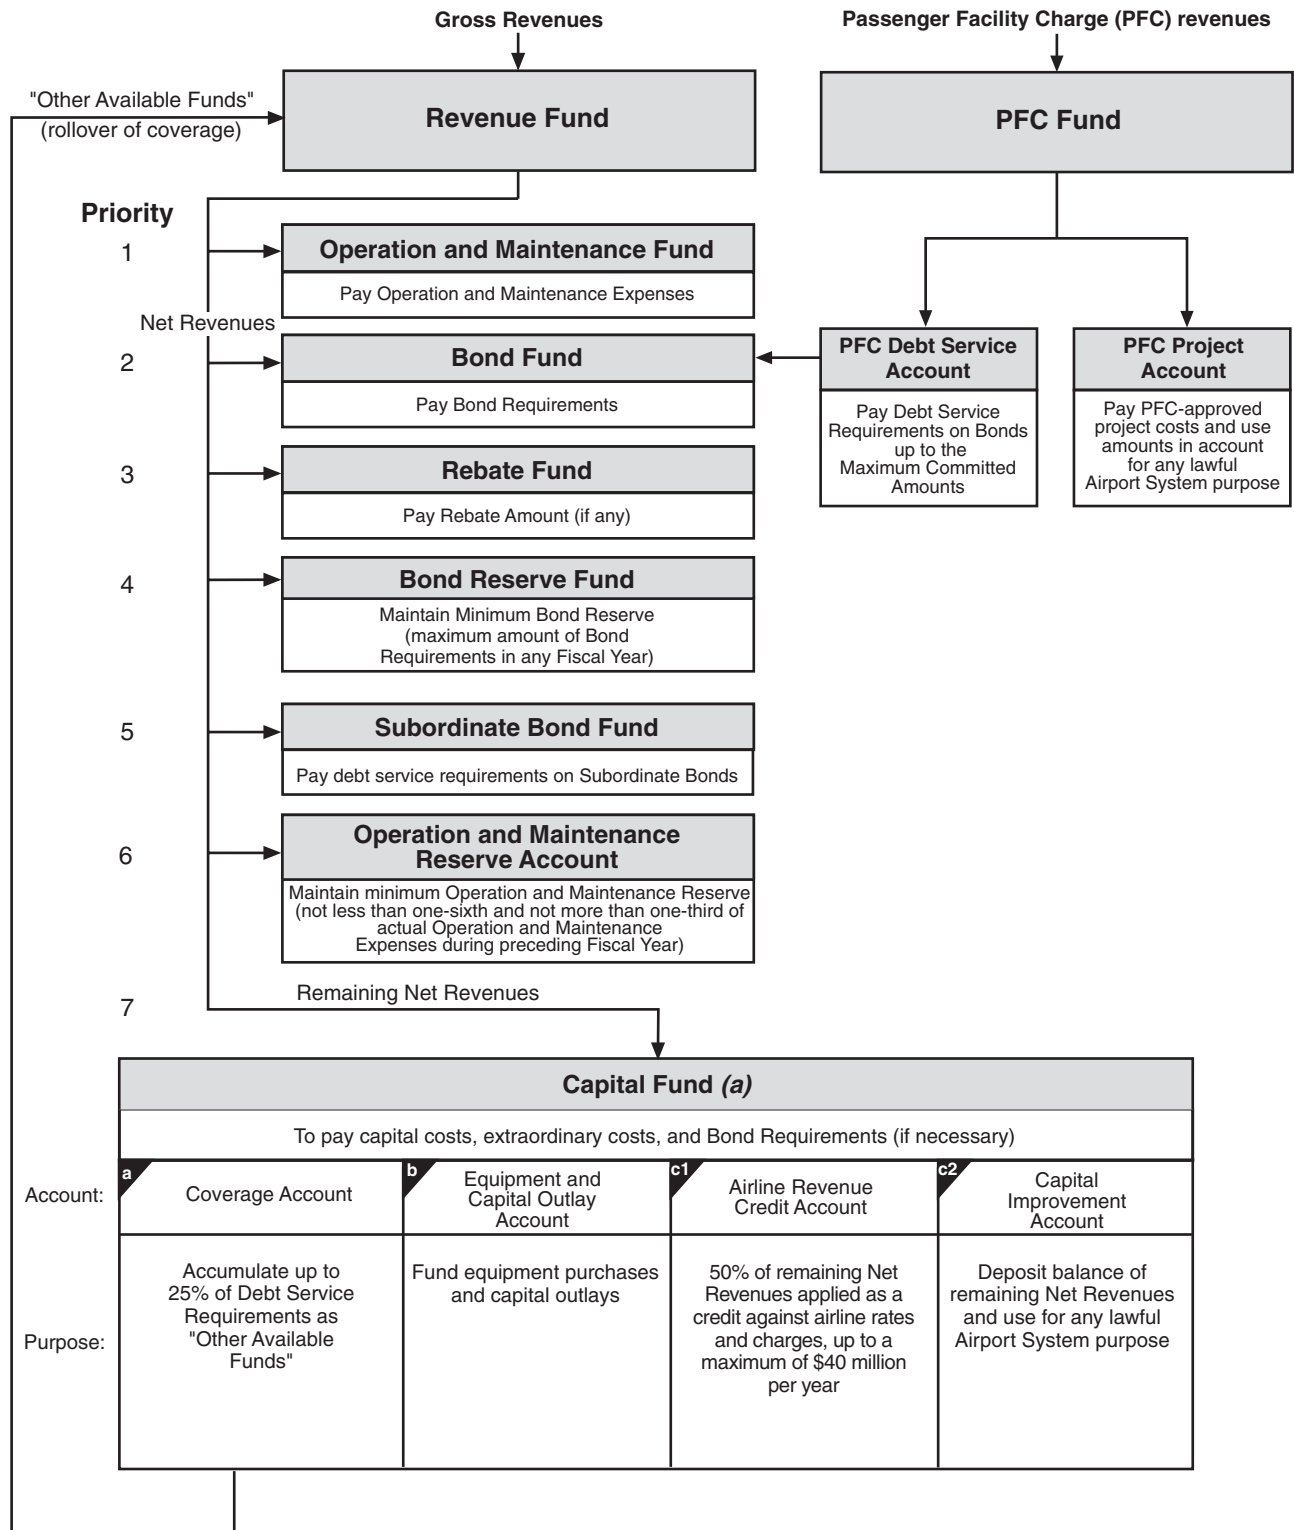

The General Bond Ordinance provides that the Gross Revenues of the Airport System are to be deposited into the Revenue Fund. Moneys held in the Revenue Fund are then to be deposited into the funds and accounts established under the General Bond Ordinance.

Gross Revenues remaining after the payment of Operation and Maintenance Expenses, Debt Service Requirements on Senior Bonds and Subordinate Bonds, and other fund deposit requirements are transferred to the Capital Fund at the end of each fiscal year. Under the Airport use and lease agreements, certain accounts were established within the Capital Fund, as also shown on Figure 23.

Moneys flowing into the Capital Fund each year are to be deposited and used in the following priority:

- To the *Coverage Account*, to replenish this account and maintain a balance equal to 25% of Debt Service Requirements on Senior Bonds. This amount is defined in the General Bond Ordinance as Other Available Funds and is to be “rolled over” each year and applied toward meeting the Rate Maintenance Covenant, as discussed earlier.

As shown in Exhibit G, additional deposits to the Coverage Account to meet the 25% coverage requirement were assumed to be provided from remaining Net Revenues before the split between the Capital Improvement and Airline Revenue Credit accounts, which are discussed below.

(a) Account structure for the Capital Fund to be established by the City as necessary for accounting purposes. The accounts are not required by the General Bond Ordinance.

Figure 23
**STRUCTURE OF FUNDS AND ACCOUNTS AND
APPLICATION OF REVENUES UNDER
THE GENERAL BOND ORDINANCE**

City and County of Denver
July 2007

- To the *Equipment and Capital Outlay Account* to fund equipment purchases and capital outlays that were expensed during the year and leased from the Financing Companies, as described below.

Under various City ordinances, master purchase payments to the Financing Companies do not have a lien on the Net Revenues of the Airport System or balances in the Capital Fund. It was assumed for this report that the City would make installment purchase payments to the Financing Companies during the forecast period and that the funds to make those payments would come from the Equipment and Capital Outlay Account.

Remaining moneys are to flow as follows: 50%, up to a maximum of \$40 million, to the *Airline Revenue Credit Account* to be applied as a credit against Signatory Airline rentals, fees, and charges in the following year. Moneys deposited in the Airline Revenue Credit Account are to be credited to each airline signatory to an Airport use and lease agreement based on its share of total airline rentals, fees, and charges paid by all airlines signatory to Airport use and lease agreements.

The balance is to flow to the *Capital Improvement Account* to be used for any lawful Airport System purpose.

DEBT SERVICE COVERAGE

Exhibit H shows forecast Net Revenues and the calculation of debt service coverage according to the Rate Maintenance Covenant of the General Bond Ordinance for Senior Bonds. Taking into consideration the balance forecast to be available in the Coverage Account, Net Revenues together with Other Available Funds are forecast to exceed the 125% requirement of the Rate Maintenance Covenant in each year of the forecast period.

For reference, Table 24 provides historical data on debt service coverage.

Table 24

HISTORICAL NET REVENUES AND DEBT SERVICE COVERAGE UNDER THE GENERAL BOND ORDINANCE

Denver International Airport
Fiscal Years ended December 31
(dollars in thousands)

Calculation of debt service coverage	2002	2003	2004	2005	2006
Gross Revenues (a)	\$499,435	\$527,567	\$543,044	\$567,853	\$584,613
Operation and Maintenance Expenses	<u>216,791</u>	<u>201,573</u>	<u>220,254</u>	<u>231,733</u>	<u>257,623</u>
Net Revenues	\$282,644	\$325,994	\$322,790	\$336,120	\$326,990
Other Available Funds	<u>46,751</u>	<u>50,807</u>	<u>54,849</u>	<u>55,173</u>	<u>49,788</u>
Total amount available for Debt Service Requirement	\$329,395	\$376,801	\$377,639	\$391,293	\$376,778
Debt service coverage on Senior Bonds					
Debt Service Requirement (b)	[B]	\$204,897	\$221,453	\$223,331	\$199,151
Debt service coverage	[A/B]	162%	171%	175%	189%
Debt Service Coverage Requirement		125%	125%	125%	125%

Note: Columns may not add to totals shown because of rounding.

(a) The amount shown in this table for 2006 does not match the amount shown in Table 20 because of the manner in which certain year-end settlements and adjustments to rentals, fees, and charges are calculated.

(b) Debt service is net of capitalized interest, certain PFC revenues, and other funds irrevocably committed to the payment of debt service.

(a) Source: Airport management records. Based on audited financial results.

(b) Net of capitalized interest. For bond fund transfers, reflects the 12 monthly payments required on February 1 of that year through January 2 of the following year.

The amounts shown are also net of funds in escrow to economically defease certain Senior Bonds.

(c) Between 2008 and 2010, the City intends to optionally redeem the principal outstanding of the Series 2003 Bonds, which will have the effect of reamortizing this debt.

Source for reamortized principal: First Albany Capital.

(d) Reflects the proposed defeasance of approximately \$175 million in principal outstanding to mitigate costs associated with the 10-gate Concourse C expansion. The specific series of Bonds to be refunded has not been decided by the City.

(e) Includes debt service on Senior Bonds allocable to Continental's support facilities at the Airport.

(f) Reflects two-thirds (generally equal to \$3) of forecast PFC revenue and associated interest income, as provided under a PFC Supplemental Bond Ordinance.

(g) Reflects \$1.50 PFC revenue (or the non-Committed Passenger Facility Charges revenue) that are used to pay Debt Service Requirements. See the Report of the Airport Consultant for additional information.

(h) Debt service for purposes of calculating airline rates and charges.

(i) Equal to 25% of Debt Service Requirements on Senior Bonds.

- (a) Source: Airport management records. Based on audited financial results.
- (b) Source: the City's Financial Advisors for the total variable rate bond fees, which are allocated to Airport cost centers based on debt service.
- (c) Allocated to all Airport cost centers based on bond fund transfers on Bonds issued to construct the Airport.
- (d) Net of interest savings from bond refundings used to achieve 2005-2 Amendment and Concourse A reallocation plan cost reductions.
- (e) Reflects defeasance of Bonds allocated to Concourses B and C baggage sortation equipment to achieve cost reductions under 2005-2 and 2006 Amendments.
- (f) Reflects write-off of amortization to achieve cost reductions under 2006 Amendment.
- (g) Reflects the amortization of the cost of improvements to the Concourse B baggage system.
- (h) Reflects amortization of costs of baggage system modifications on Concourse B under the Stipulated Order.
- (i) Reflects \$10m of PFC revenues used to pay Concourse B baggage sortation space as described in 2005-1 Amendment.
- (j) Recovery of costs for Concourse C baggage equipment as provided under the Airport use and lease agreements.
- (k) Net of interest savings from bond refundings used to achieve same percentage cost reduction on Concourse A under the Concourse A reallocation plan.

Exhibit E-4

BAGGAGE SYSTEM FEES
Denver International Airport
Fiscal Years Ending December 31
(in thousands, except rates)

The forecasts presented in this exhibit were prepared using information from the sources indicated and assumptions provided by, or reviewed with and agreed to by, Airport management, as described in the accompanying text. Inevitably, some of the assumptions used to develop the forecasts will not be realized and unanticipated events and circumstances may occur. Therefore, there are likely to be differences between the forecast and actual results, and those differences may be material.

	Actual 2005 (a)	Actual 2006 (a)	Estimated 2007	Forecast							
				2008	2009	2010	2011	2012	2013

Source: Airport management records, except as noted.

- (a) Source: Airport management records. Based on audited financial results.
- (b) Reflects baggage maintenance space for the automated baggage system in the Landside Terminal and Concourses A, B, and C.
- (c) Requirements shown is net of PFC revenues allocable to certain spine and space costs.
- (d) Allocated to Airport cost centers based on Operation and Maintenance Expenses.
- (e) Reflects defeasance of Bonds allocated to Concourses B baggage system to achieve cost reductions under 2005-2 Amendment. Also reflects defeasance of Bonds allocated to Concourse A baggage system at City's discretion.
- (f) Source: the City's Financial Advisors for the total variable rate bond fees, which are allocated to Airport cost centers based on debt service.
- (g) Allocated based on the percent of international originating and destination passengers to total originating and destination passengers on Concourse A.
- (h) Allocated to all Airport cost centers based on bond fund transfers on Bonds issued to construct the Airport.
- (i) Based on the forecast of originating passengers presented in the report.
- (j) Operating costs are 100% allocable to Concourse B.
- (k) Allocated according to project costs and number of leased carousels.

(a) Required annual total of monthly transfers to the Bond Fund, net of the PFC revenues presented on Exhibit C, for payment of debt service on Senior Bonds and Subordinate Bonds.

(b) Reflects the difference between the rentals paid by FedEx and actual debt service allocable to the FedEx facilities. The deposit will be used to fund debt service payments in the future that are in excess of annual FedEx rental payments.

(c) Reflects an adjustment to remove any impact from the use of Capital Improvement Account deposits to pay debt service on the hotel project from the Net Revenues available for revenue sharing.

(d) Continental receives a "rental" credit each year for interest earned on moneys it has deposited in the Coverage Account.

(e) Set-aside for payments to GE Capital and Siemens for certain equipment funded by those companies and leased by the City.

(f) Remaining Net Revenues are to be allocated to the Capital Improvement Account as follows: 50% to Signatory Airlines and 50% to the Airport.

(g) Under the Airline Agreement, remaining Net Revenues deposited in the Airline Revenue Account cannot exceed \$40 million in any year.

The City is obligated to pay \$1.5 million per year through 2007, to the extent such amounts are available in the Capital Improvement Account to the SDC.

APPENDIX C
GLOSSARY OF TERMS

[This page intentionally left blank]

APPENDIX C

GLOSSARY OF TERMS

Set forth below are definitions of some of the terms used in this Official Statement and the Senior Bond Ordinance. Reference is hereby made to the provisions of the Senior Bond Ordinance for a complete recital of the terms defined therein, some of which are set forth below. See also “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE” for certain proposed amendments to the definitions.

“*Additional Parity Bonds*” means additional Bonds which the City issues under the Senior Bond Ordinance on a parity with the Series 2008A1-A4 Bonds.

“*AGTS*” means automated guideway transit system.

“*AIP*” means the Federal Aviation Administration’s Airport Improvement Program.

“*Airport*” means Denver International Airport.

“*Airport Consultant*” means an independent airport management consultant or airport management consulting firm, as from time to time appointed by the Manager on behalf and in the name of the City: (a) who has a wide and favorable reputation for special skill and knowledge in methods of the development, operation, and management of airports and airport facilities; but (b) who is not in the regular employ or control of the City.

“*Airport System*” means the following facilities, whether heretofore or hereafter acquired by the City and whether located within or without the boundaries of the City: (a) Stapleton; (b) Denver International Airport; (c) all other airports, heliports or functionally similar aviation facilities; and (d) all other facilities of whatsoever nature relating to or otherwise used in connection with the foregoing, including without limitation, buildings, structures, terminals, parking and ground transportation facilities, roadways, land, hangars, warehouses, runways, shops, hotels, motels and administration offices. The terms do not include any Special Facilities, except to the extent otherwise provided in the Senior Bond Ordinance.

“*Airport System Fund*” means the separate fund designated as the “City and County of Denver, Airport System Fund,” created under the Senior Bond Ordinance.

“*Alternate Rate*” means, on any date on which a Variable Rate is to be determined for any Variable Rate Period, a rate per annum equal to 110% of (a) the SIFMA Municipal Swap Index of Municipal Market Data most recently available as of the date of determination, or (b) if such index is no longer available, or if the SIFMA Municipal Swap Index is no longer published, the S&P Weekly High Grade Index (formerly the J.J. Kenny Index), or if neither the SIFMA Municipal Swap Index nor the S&P Weekly High Grade Index is published, the index determined to equal the prevailing rate determined by the Remarketing Agent for tax-exempt state and local government bonds meeting criteria determined in good faith by the Remarketing Agent to be comparable under the circumstances to the criteria used by the Securities Industry and Financial Markets Association to determine the SIFMA Municipal Swap Index just prior to when the Securities and Financial Markets Association stopped publishing the SIFMA Municipal Swap Index. The Paying Agent is to make the determinations required by this determination, upon notification from the Treasurer, if there is no Remarketing Agent, if the Remarketing Agent fails to make any such determination or if the Remarketing Agent has suspended its remarketing efforts in accordance with the Remarketing Agreement.

“*Auction Rate*” means the interest rate determined for any Subseries 2008A2-A4 Term Rate Bonds during an auction period in accordance with the Series 2008A Supplemental Ordinance.

“*Bond Fund*” means the special and separate account designated as the “City and County of Denver, Airport System Revenue Bonds, Interest and Principal Retirement Fund,” created in the Senior Bond Ordinance.

“*Bond Requirements*” for any period means the Debt Service Requirements payable during such period, excluding the amount of any Obligations payable (or for which reserves are required to be deposited) during such period.

“*Bond Reserve Fund*” means the special and separate account designated as the “City and County of Denver, Airport System Revenue Bonds, Bond Reserve Fund,” created under the Senior Bond Ordinance.

“*Bonds*” means bonds, notes, certificates, commercial paper, or other securities issued by the City or by the City, for and on behalf of the Department, pursuant to the provisions of the Senior Bond Ordinance which are payable from the Net Revenues of the Airport System and which payment is secured by a pledge of and lien on such Net Revenues, including, without limitation, Completion Bonds, Refunding Bonds, Serial Bonds, Term Bonds, Credit Enhanced Bonds, Option Bonds, Capital Appreciation Bonds, and Variable Rate Bonds; but the term does not include any Special Facilities Bonds, Subordinate Bonds or any Obligations (except as represented by any bonds registered in the name of any provider of any Credit Facility or its nominee as a result of a purchase by a draw on the Credit Facility).

“*Business Day*” means, with respect to the Series 2008A1-A4 Bonds, any day other than (i) a Saturday or Sunday, or (ii) a day of which the New York Stock Exchange is closed, or (iii) a day on which banking institutions in Denver, Colorado, New York, New York or in any other city in which the principal corporate trust office of the Paying Agent or the principal office of the Remarketing Agent or, if a Series 2008A1-A4 Credit Facility is in effect, the principal office of the Series 2008A1-A4 Credit Facility Provider is located, are required or authorized by law (including executive order) to close, or (iv) a day of which the principal corporate trust office of the Paying Agent or the principal office of the Remarketing Agent or, if a Series 2008A1-A4 Credit Facility is in effect, the principal office of the Series 2008A1-A4 Credit Facility Provider, is closed for reasons not related to financial reasons.

“*Capital Appreciation Bonds*” means Bonds which by their terms appreciate in value to a stated face amount at maturity.

“*Capital Fund*” means the special and separate account designated as the “City and County of Denver, Airport System Capital Improvement and Replacement Fund,” created under the Senior Bond Ordinance.

“*Capitalized Interest Account*” means the special and separate subaccount within the Project Fund designated as the “City and County of Denver, Airport System Revenue Bonds, Capitalized Interest Account,” created under the Senior Bond Ordinance.

“*Chief Financial Officer*” means the Chief Financial Officer and *ex-officio* Treasurer of the City appointed by the Mayor, currently being the Manager of Finance.

“*City*” means the City and County of Denver, Colorado.

“*City Charter*” means the home-rule charter of the City, as amended from time to time, and the term includes any successor charter or like document adopted as the organic law of the City.

“*City Council*” means the City Council of the City.

“*Code*” or “*Tax Code*” means the Internal Revenue Code of 1986, as from time to time amended, or the Internal Revenue Code of 1954, as amended, to the extent it remains applicable to any Bonds or other matters under the Senior Bond Ordinance. The term includes any regulations of the U.S. Department of the Treasury proposed or promulgated thereunder. Any reference to a specific section of the “*Tax Code*” is deemed to be a reference to the latest correlative section thereof, except where the context by clear implication otherwise requires.

“*Committed Passenger Facility Charges*” means two-thirds of all PFCs received by the City from time to time pursuant to the First PFC Application and the Second PFC Application.

“*Completion Bonds*” means Bonds issued for the purpose of defraying additional Cost of an Improvement Project and thereby implementing its completion.

“*Consent Agent*” means American National Bank (formerly The Bank of Cherry Creek, a Branch of Western National Bank) and any successor and assign thereof.

“*Conversion Date*” means the date on which the interest on any Subseries 2008A2-A4 Term Rate Bonds is converted from a Term Rate to a Flexible Rate, a Daily Rate, a Weekly Rate, a Monthly Rate, a Semiannual Rate, a Fixed Rate or an Auction Rate, or from a Term Rate Period of one duration to a Term Rate Period of a different duration.

“*Cost*” means the City’s costs properly attributable to any Improvement Project, Refunding Project, or combination thereof (as the context requires), including without limitation: (a) the costs of labor and materials, of machinery, furnishings, and equipment, and of the restoration of property damaged or destroyed in connection with construction work; (b) the costs of insurance premiums, indemnity and fidelity bonds, financing charges, bank fees, taxes, or other municipal or governmental charges lawfully levied or assessed; (c) administrative and general overhead costs; (d) the costs of reimbursing funds advanced by the City, including any intrafund or interfund loan, or advanced with the approval of the City by the State, any city, the federal government, or by any other person, or any combination thereof; (e) the costs of surveys, appraisals, plans, designs, specifications, or estimates; (f) the costs, fees and expenses of printers, engineers, architects, financial consultants, legal advisors, or other agents or employees; (g) the costs of publishing, reproducing, posting, mailing, or recording; (h) the costs of contingencies or reserves; (i) interest on Bonds for such period as may be determined by Supplemental Ordinance, any discount on the sale or remarketing of Bonds, any reserves for the payment of Bonds, or any other costs of issuing, carrying or repaying Bonds or of purchasing, carrying, and selling or redeeming Investment Securities, including without limitation any fees or charges of agents, trustees or other fiduciaries, and any fees, premiums or other costs incurred in connection with any Credit Facility; (j) the costs of amending any resolution, ordinance or other instrument relating to Bonds; (k) the costs of repaying any short-term financing, construction loans, and other temporary loans, and of the incidental expenses incurred in connection with such loans; (l) the costs of acquiring any property, rights, easements, licenses, privileges, agreements, or franchises; (m) the costs of demolition, removal, and relocation; and (n) all other lawful costs as may be determined by the Manager.

“*Credit Enhanced Bonds*” means Bonds, the payment of which, or other rights in respect of which, is secured in whole or in part by a Credit Facility or by a pledge of revenues other than Gross Revenues.

“*Credit Facility*” means any letter of credit, policy of bond insurance, surety bond, guarantee or similar instrument issued by a financial, insurance or other institution and which provides security or liquidity in respect of Bonds.

“*Credit Facility Obligations*” means repayment or other obligations incurred by the City under a credit agreement or similar instrument in respect of draws or other payments or disbursements made under a Credit Facility; but only if such obligations have a lien on the Net Revenues of the Airport System on the same priority as the lien thereon of Bonds.

“*Daily Rate*” means the interest rate determined for any Subseries 2008A2-A4 Term Rate Bonds on a daily basis in accordance with the Series 2008A Supplemental Ordinance.

“*Delayed Remarketing Period*” means the period of time between the date on which there is a failure to purchase tendered Series 2008A1-A4 Bonds bearing interest at a Term Rate due to inadequate moneys therefor being held by the Paying Agent on the applicable purchase date and the subsequent date on which all such tendered Series 2008A1-A4 Bonds are successfully remarketed.

“*Department of Aviation*” or “*Department*” means the Department of Aviation of the City and its successor in functions, if any.

“*DTC*” means The Depository Trust Company, New York, New York, which will be the registered owner of all the Series 2008A1-A4 Bonds.

“*Electronic Means*” means telecopy, facsimile transmission, e-mail transmission or other similar electronic means of communication providing evidence of transmission, including a telephonic communication confirmed by any other method set forth in this definition.

“*Escrow Account*” means any special and separate account established with a trust bank, designated by Supplemental Ordinance to administer such account in whole or in part with the proceeds of any Refunding Bonds or other moneys to provide for the timely payment of any Bond Requirements.

“*Escrow Agreement*” means the “City and County of Denver, Colorado, for and on behalf of its Department of Aviation, Airport System Revenue Bonds, Series 2008A1-A4 Escrow Agreement,” by and between the City and the Escrow Bank.

“*Escrow Bank*” means Zions First National Bank, Denver, Colorado, and any successor and assign thereof.

“*Event of Default*” means each of the events declared an “event of default” under the General Bond Ordinance or the Series 2008A Supplemental Ordinance.

“*Facilities*” or “*Airport Facilities*” means any real, personal, or real and personal property, or any interest therein, and any facilities (other than Special Facilities, except to the extent otherwise provided in the Senior Bond Ordinance) comprising a part of the Airport System, including without limitation, land for environmental or noise abatement purposes.

“*Favorable Opinion of Bond Counsel*” means an opinion of an attorney or firm of attorneys, selected by the City, whose experience in matters relating to the issuance of obligations by states and their political subdivisions is nationally recognized, to the effect that the action proposed to be taken is authorized or permitted by the laws of the State, the General Bond Ordinance and the Series 2008A Supplemental Ordinance and will not adversely affect the exclusion of interest on the Series 2008A1-A4 Bonds from gross income for federal income tax purposes.

“*Financial Consultant*” means any financial consultant which is appointed by the City with respect to any series of Bonds.

“*First PFC Application*” means the City’s 1992 PFC Application as amended by the FAA in October 2000.

“*Fiscal Year*” means the twelve months commencing on January 1 of any calendar year and ending on December 31 of the same calendar year, or any other twelve-month period which the appropriate authority designates as the fiscal year for the operation of the Airport System.

“*Fitch*” means Fitch, Inc. and its successors.

“*Fixed Rate*” means the interest rate determined for any Series 2008A1-A4 Bonds on a fixed rate basis in accordance with the Series 2008A Supplemental Ordinance.

“*Flexible Rate*” means the interest rate determined for any Subseries 2008A2-A4 Term Rate Bonds on a flexible basis in accordance with the Series 2008A Supplemental Ordinance.

“*General Bond Ordinance*” means the General Bond Ordinance approved by the City Council on November 29, 1984, as amended and supplemented prior to the adoption of the Series 2008A Supplemental Ordinance.

“*Gross Revenues*” means any income and revenue lawfully derived directly or indirectly by the City from the operation and use of, or otherwise relating to, the Airport System, whether resulting from an Improvement Project, or otherwise. The term includes, without limitation, all rentals, rates, fees, and other charges for the use of the Airport System, or for any service rendered by the City in the operation thereof; on and after January 1, 1994, the revenues from the City’s sales and use taxes raised at the rate of two cents for each gallon of fuel purchased for use in the generation of power for propulsion or drawing of aircraft; any passenger taxes, passenger facility charges, or other passenger charges imposed for the use of the Airport System, but only to the extent included as Gross Revenues by the terms of any Supplemental Ordinance; and, except as otherwise provided in the Senior Bond Ordinance, interest and other realized gain from any investment of moneys accounted for in the various accounts of the Airport System Fund. The term does not include: (a) any Bond proceeds and other money (including interest) required to be credited to the Project Fund or the Bond Reserve Fund; (b) any rentals or other revenue, grants, appropriations, or gifts derived directly or indirectly from the United States; (c) any grants, appropriations, or gifts from the State, or any other sources, which are required by their terms to be used only for purposes other than the payment of Debt Service Requirements; (d) except as otherwise provided in the Senior Bond Ordinance, any revenue derived from any Special Facilities other than ground rentals relating to such Special Facilities and any moneys paid to the City in lieu of such ground rentals; (e) the proceeds of any insurance policy, except any such proceeds derived in respect of loss of use or business interruption; (f) any money (including interest) in any Escrow Account or similar account pledged to the payment of any obligations therein specified; (g) any money received in respect of any Credit Facility, unless otherwise provided by Supplemental Ordinance; and (h) any Hedge Termination Payments received by the City.

“*Hedge Facility*” means any rate swap transaction, basis swap transaction, cap transaction, floor transaction, collar transaction, or similar transaction entered into by the City, for and on behalf of the Department, and a Hedge Provider, which is intended to be integrated with and to convert or limit the interest rate on any Bonds.

“*Hedge Facility Obligations*” means payment obligations of the City in respect of Hedge Facilities, which are payable from all or any designated portion of the Net Revenues of the Airport System and secured under the Senior Bond Ordinance; but only if such obligations have a lien on the Net Revenues of the Airport System on the same priority as the lien thereon of Bonds; provided that Hedge Termination Payments to be made by the City are not to be secured under the Senior Bond Ordinance on a parity with the Bonds.

“*Hedge Provider*” means a financial institution whose senior long-term debt obligations, or whose obligations under any Hedge Facility are (a) guaranteed by a financial institution, or subsidiary of

a financial institution, whose senior long-term debt obligations, are rated at least “A1,” in the case of Moody’s and “A+,” in the case of S&P, or the equivalent thereto in the case of any successor thereto, or (b) fully secured by obligations described in items (a) or (b) of the definition of Permitted Investments which are (i) valued not less frequently than monthly and have a fair market value, exclusive of accrued interest, at all times at least equal to 105% (or such lower percentage as is acceptable to the Rating Agencies) of the principal amount of the investment, together with the interest accrued and unpaid thereon, (ii) held by any Federal Reserve Bank or a depository acceptable to the City, (iii) subject to a perfected first lien on behalf of the Bonds, and (iv) free and clear from all third-party liens.

“*Hedge Termination Payment*” means any amount payable to the City or a Hedge Provider, in accordance with a Hedge Facility, if the Hedge Facility is terminated prior to its scheduled termination date.

“*Improvement Project*” means any project to acquire, improve or equip (or any combination thereof) Facilities, as authorized and described by Supplemental Ordinance.

“*Independent Accountant*” means any certified public accountant, or any firm of certified public accountants, duly licensed to practice and practicing as such under the laws of the State, as from time to time appointed and compensated by the City: (a) who is, in fact, independent and not under the control of the City; (b) who does not have a substantial interest, direct or indirect, with the City; and (c) who is not connected with the City as an officer or employee thereof, but who may be regularly retained to make annual or similar audits of any books or records of the City.

“*Interest Account*” means the special and separate subaccount within the Bond Fund designated as the “City and County of Denver, Airport System Revenue Bonds, Interest Account,” created under the Senior Bond Ordinance.

“*Interest Payment Date*” means, when used with respect to any Series 2008A1-A4 Bonds bearing interest at a Term Rate or a Fixed Rate, the date designated as the first Interest Payment Date pursuant to the Series 2008A Supplemental Ordinance and the 15th day of each May and November thereafter.

“*Interest Period*” means the period from and including any Interest Payment Date to and including the day immediately preceding the next following Interest Payment Date.

“*Interest Rate Mode*” means a Flexible Rate, a Daily Rate, a Weekly Rate, a Monthly Rate, a Semiannual Rate, a Term Rate, a Fixed Rate or an Auction Rate.

“*Issue Date*” means the date on which the Series 2008A1-A4 Bonds are first delivered to the initial purchasers against payment therefor.

“*Investment Securities*” means, to the extent the following are permitted investments under the City’s investment policy, as such investment policy may be amended from time to time: (a) Federal Securities; and (b) if the laws applicable to the City permit any of the following investments to be made at the time such investment is made, any of the following: (i) Certificates or any other evidences of an ownership interest in Federal Securities or the interest thereon; (ii) interest bearing bank time deposits evidenced by certificates of deposit issued by banks incorporated under the laws of any state (including the State) or the Federal Government, or any national banking association that is a member of the Federal Deposit Insurance Corporation, and interest bearing savings and loan association time deposits evidenced by certificates of deposit issued by savings and loan associations which are members of the Federal Savings and Loan Insurance Corporation, if (1) such deposits are fully insured by the Federal Deposit Insurance Corporation or the Federal Savings and Loan Insurance Corporation, or (2) the shareholders’ equity (e.g., capital stock, surplus, and undivided profits), however denominated, of such bank or savings and loan association is at least equal to \$10,000,000.00, or (3) such deposits are secured by Federal Securities, by obligations described in subparagraphs (b)(i) or (b)(iii) of this definition, or by tax-exempt,

unlimited general obligation bonds of a state or municipal government rated “A” (or its equivalent) or better by one or more nationally recognized rating agencies, having at all times a market value in the aggregate (exclusive of accrued interest) at least equal to the amount of such deposits so secured, including accrued interest (or by any combination thereof); (iii) bonds, debentures, notes, or other evidences of indebtedness issued or guaranteed by any of the following agencies: Federal Farm Credit Banks; the Export-Import Bank of the United States; Federal Land Banks; the Federal National Mortgage Association; the Tennessee Valley Authority; the Government National Mortgage Association; the Federal Financing Bank; the Farmers Home Administration; the Federal Home Loan Bank; or any agency or instrumentality of the Federal Government which is established for the purposes of acquiring the obligations of any of the foregoing or otherwise providing financing therefor; (iv) repurchase agreements with banks described in subparagraph (b)(ii) of this definition and government bond dealers reporting to and trading with the Federal Reserve Bank of New York, which agreements are secured by depositing Federal Securities or obligations described in subparagraphs (b)(i) or (b)(iii) of this definition with an escrow agent satisfactory to the City, including, without limitation, any Federal Reserve Bank or any branch thereof; (v) banker’s acceptances that are rated at the time of purchase in the highest short-term rating category of, or are otherwise approved by, the Rating Agencies and that mature not more than 180 days after the date of purchase; (vi) new housing authority bonds issued by public agencies or municipalities and fully secured as to the payment of both principal and interest by a pledge of annual contributions under a contract with the Federal Government; or project notes issued by public agencies or municipalities and fully secured as to the payment of both principal and interest by a requisition or payment agreement with the Federal Government; (vii) obligations issued by the City which are rated “A” (or its equivalent) or better by one or more nationally recognized rating agencies, but excluding any Bonds or Subordinate Bonds; (viii) commercial paper that is rated at the time of purchase in the highest short-term rating category of, or is otherwise approved by, the Rating Agencies and that matures not more than 270 days after the date of purchase; (ix) investments in (1) money market funds which are rated, at the time of purchase, in the highest short-term rating category of, or are otherwise approved by, the Rating Agencies and (2) public sector investment pools operated pursuant to Rule 2a-7 promulgated by the Securities and Exchange Commission in which the issuer’s deposit must not exceed 5% of the aggregate pool balance at any time, if the pool is rated, at the time of purchase, in one of the two highest short-term rating categories by, or is otherwise approved by, the Rating Agencies; (x) any bonds or other obligations of any state of the United States of America or any agency, instrumentality or local government unit of such state that are not callable at the option of the obligor prior to maturity or as to which irrevocable instructions have been given by the obligor to call on the date specified in the notice, and either: (A) that are rated, on the date of purchase, based on the irrevocable escrow account or fund (the “escrow”), in the highest long-term rating category by, or are otherwise approved by, the Rating Agencies; or (B) as to which the following apply: (1) such bonds or other obligations are fully secured as to principal, interest and any redemption premium by an escrow consisting only of cash or direct obligations of the United States of America, which escrow may be applied only to the payment of the principal, interest and any redemption premium on those bonds or other obligations on their maturity date or dates or the specified redemption date or dates in accordance with those irrevocable instructions, as appropriate; and (2) the escrow is sufficient, as verified by an independent certified public accountant, to pay principal, interest and any redemption premium on the bonds or other obligations described in this paragraph (x) on the maturity date or dates or the specified redemption date or dates specified in the irrevocable instructions referred to above, as appropriate; (xi) obligations issued by any state of the United States of America or any agency, instrumentality or local government unit of such state, and which obligations have on the date of purchase a rating in one of the two highest rating categories of, or are otherwise approved by, the Rating Agencies, without regard to any numerical or positive or negative designation; (xii) Investment Agreements with: (A) a Broker/Dealer (or its parent) either (1) having uninsured, unsecured and unguaranteed debt rated, at the time of investment, investment grade by, or is otherwise approved by, the Rating Agencies (in which case the agreement must provide that, if the provider is downgraded below investment grade by at least two of the Rating Agencies, the City may terminate the agreement) or (2) providing an investment agreement which is fully secured by Federal

Securities which are (a) valued not less frequently than monthly and have a fair market value, exclusive of accrued interest, at all times at least equal to 103% of the principal amount of the investment, together with the interest accrued and unpaid thereon, (b) held by any Federal Reserve Bank or a depository acceptable to the City, (c) subject to a perfected first lien on behalf of owners of the Bonds, and (d) free and clear from all third-party liens; (B) a bank having long-term uninsured, unsecured and unguaranteed debt rated, at the time of investment, in one of the two highest rating categories by, or is otherwise approved by, the Rating Agencies (the agreement must provide that, if the bank is downgraded below “A-“ (or its equivalent) by at least two Rating Agencies, the City may terminate the agreement); (C) an insurance company having an uninsured, unsecured, and unguaranteed claims paying ability rated, at the time of investment, in the highest rating category by, or otherwise approved by, the Rating Agencies (the agreement must provide that, if the insurance company is downgraded below the highest rating category by at least two Rating Agencies, the City may terminate the agreement); and (D) a corporation whose principal business is to enter into investment agreements, if that corporation has been assigned, at the time of investment, a counterparty rating in the highest rating category by, or is otherwise approved by, the Rating Agencies, or the Rating Agencies have, at the time of the investment, rated the investment agreements of such corporation in the highest rating category or have otherwise approved such investment agreements (the agreement must provide that, if either the corporation’s counterparty rating or that corporation’s investment agreements rating is downgraded by at least two of the Rating Agencies, the City may terminate the agreement); and (xiii) such other investments as the Treasurer may be authorized to make with the general funds of the City.

“*Manager*” means the manager of the City’s Department of Aviation, or his or her designee and successor in functions, if any.

“*Maximum Rate*” means, in the case of the Subseries 2008A2-A4 Term Rate Bonds while bearing interest at a Term Rate and not secured by a Credit Facility, the maximum rate allowed by law.

“*Maximum Term Rate*” means, during a Delayed Remarketing Period for a Subseries of the Subseries 2008A2-A4 Term Rate Bonds, the rate of 10% per annum.

“*Mayor*” means the mayor of the City, or his or her designee, and his or her successor in functions, if any.

“*Minimum Bond Reserve*” means the maximum amount of Bond Requirements in any Fiscal Year, or portion thereof, during the period commencing on the date of such computation and ending on the last date on which any Bonds to which such Bond Requirements relate will be Outstanding. With respect to any series of Bonds, 25% or more of the aggregate principal amount (or stated face amount) of which is payable as a Bond Requirement in any Fiscal Year, if such principal (or stated face amount) is not required to be redeemed or prepaid prior to such date of payment, it will be assumed for purposes of determining the Minimum Bond Reserve that (a) such series of Bonds matures over a twenty-year term from its date of issuance, (b) bears interest at a rate determined by the Treasurer to be the rate on bonds of comparable term and credit under then existing market conditions, provided that the rate so determined is not to be less than the actual rate or rates borne by such series of Bonds, and (c) is payable on a substantially level annual debt service basis assuming the rate so determined. *This definition would be changed by the Proposed Amendments. See “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE.”*

“*Minimum Operation and Maintenance Reserve*” means an amount equal to not less than one-sixth and not more than one-third of the actual Operation and Maintenance Expenses of the Airport System during the next preceding Fiscal Year, as determined by the Manager not more often than once in each Fiscal Year.

“*Monthly Rate*” means the interest rate determined for any Subseries 2008A2-A4 Term Rate Bonds on a monthly basis in accordance with the Series 2008A Supplemental Ordinance.

“*Moody’s*” means Moody’s Investors Service, Inc. and its successors.

“*Net Rent Lease*” means a lease of facilities relating to the Airport System or Special Facilities entered into by the City pursuant to which the lessee or licensee agrees to pay to the City rentals during the term thereof, and to pay in addition all operation and maintenance expenses relating to the leased facilities, including, without limitation, maintenance costs, insurance, and all property taxes and assessments now or hereafter lawfully levied. *This definition would be changed by the Proposed Amendments. See “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE.”*

“*Net Revenues*” means the Gross Revenues remaining after the deduction of the Operation and Maintenance Expenses.

“*Ninth Supplemental Ordinance*” means the Supplemental Ordinance which creates the PFC Fund as a separate account within the Airport System Fund, establishes the PFC Debt Service Account and the PFC Project Account as separate subaccounts within the PFC Fund, and provides for the deposit of PFC revenues to such fund and accounts. The procedure for the administration of the PFCs set forth in the Ninth Supplemental Ordinance is replaced and superceded to the extent provided in the PFC Supplemental Ordinance.

“*Obligations*” means Credit Facility Obligations and Hedge Facility Obligations.

“*Operation and Maintenance Expenses*” means all reasonable and necessary current expenses of the City, paid or accrued, of operating, maintaining, and repairing the Airport System. The term includes without limitation: (a) engineering, auditing, reporting, legal, and other overhead expenses of the various departments of the City (including without limitation the expenses of the Treasurer) directly related and reasonably allocable to the administration, operation, and maintenance of the Airport System; (b) fidelity bond and property and liability insurance premiums relating to the Airport System, or a reasonably allocable share of a premium of any blanket bond or policy relating to the Airport System; (c) payments to pension, retirement, health, and hospitalization funds, and other insurance, and to any self-insurance fund as insurance premiums not in excess of such premiums which would otherwise be required for such insurance; (d) any general (ad valorem) taxes, assessments, excise taxes, or other charges which may be lawfully imposed on the City, the Airport System, the revenue, or income derived therefrom, or any privilege in connection therewith; (e) the reasonable charges of the Paying Agent and any other depository bank relating to Bonds; (f) costs of contractual services, professional services, salaries, other administrative expenses, and costs of materials, supplies, repairs, and labor, relating to the Airport System or to Bonds, including without limitation the reasonable expenses and compensation of trustees, receivers, or other agents or fiduciaries; (g) costs incurred in collecting or refunding all or any part of the Gross Revenues including the amount of any such refunds; (h) costs of any utility services furnished to the Airport System by the City or otherwise; (i) periodic fees, premiums or other costs incurred in connection with any Credit Facility Obligations; and (j) all other generally accepted current expenses of operating, maintaining and repairing an airport system similar to the Airport System. The term does not include any allowance for depreciation; the Cost of any Improvement Project (except to the extent not paid as part of such Cost and otherwise properly characterized as an Operation and Maintenance Expense); any reserves for major capital replacements or Operation and Maintenance Expenses (except as required in the Senior Bond Ordinance); payments in respect of Debt Service Requirements; any expenses incurred by lessees or licensees under Net Rent Leases; any Operation and Maintenance Expenses relating to Special Facilities (except as otherwise provided in the Senior Bond Ordinance); and any liabilities imposed on the City, including, without limitation, negligence in the operation of the Airport System.

“*Operation and Maintenance Fund*” means the special and separate account designated as the “City and County of Denver, Airport System Operation and Maintenance Fund,” created under the Senior Bond Ordinance.

“*Operation and Maintenance Reserve Account*” means the special and separate subaccount in the Operation and Maintenance Fund designated as the “City and County of Denver, Airport System Operation and Maintenance Reserve Account,” created under the Senior Bond Ordinance.

“*Option Bonds*” means Bonds which by their terms may be tendered for payment by and at the option of the owners thereof prior to the stated maturity thereof, or the maturities of which may be extended by and at the option of the owners thereof.

“*Ordinance*” or “*Senior Bond Ordinance*” means the General Bond Ordinance of the City approved on November 29, 1984, Ordinance No. 626, Series of 1984, as supplemented and amended by the 1984 Airport System Supplemental Bond Ordinance, Ordinance No. 627, Series of 1984; the Series 1985 Airport System Supplemental Bond Ordinance, Ordinance No. 674, Series of 1985; the Series 1990A Airport System Supplemental Bond Ordinance, Ordinance No. 268, Series of 1990; the Series 1991A Airport System Supplemental Bond Ordinance, Ordinance No. 278, Series of 1991; the Series 1991D Airport System Supplemental Bond Ordinance, Ordinance No. 726, Series of 1991; the Series 1992A Airport System Supplemental Bond Ordinance, Ordinance No. 82, Series 1992; the Series 1992B Airport System Supplemental Bond Ordinance, Ordinance No. 288, Series of 1992; the Ninth Supplemental Ordinance; the Series 1992C Airport System Supplemental Bond Ordinance, Ordinance No. 640, Series of 1992; the Series 1992D Airport System Supplemental Bond Ordinance, Ordinance No. 641, Series of 1992; the Series 1992E Airport System Supplemental Bond Ordinance, Ordinance No. 642, Series of 1992; the Series 1992F Airport System Supplemental Bond Ordinance, Ordinance No. 643, Series of 1992; the Series 1992G Airport System Supplemental Bond Ordinance, Ordinance No. 644, Series of 1992; the Series 1994A Airport System Supplemental Bond Ordinance, Ordinance No. 680, Series of 1994; the Series 1995A Airport System Supplemental Bond Ordinance, Ordinance No. 428, Series of 1995; the Series 1995B Airport System Supplemental Bond Ordinance, Ordinance No. 429, Series of 1995; the Series 1995C Airport System Supplemental Bond Ordinance, Ordinance No. 950, Series of 1995; the Series 1996A Airport System Supplemental Bond Ordinance, Ordinance No. 226, Series of 1996; the Series 1996B Airport System Supplemental Bond Ordinance, Ordinance No. 227, Series of 1996; the Twenty-first Supplemental Ordinance; the Series 1996C Airport System Supplemental Bond Ordinance, Ordinance No. 888, Series of 1996; the Series 1996D Airport System Supplemental Bond Ordinance, Ordinance No. 889, Series of 1996; the Twenty-fourth Supplemental Ordinance, Ordinance No. 480, Series of 1997; the Series 1997D Airport System Supplemental Bond Ordinance, Ordinance No. 547, Series of 1997; the Series 1997E Airport System Supplemental Bond Ordinance, Ordinance No. 548, Series of 1997; the Twenty-seventh Supplemental Ordinance; the Series 1998A Airport System Supplemental Bond Ordinance, Ordinance No. 821, Series of 1998; the Series 1998B Airport System Supplemental Bond Ordinance, Ordinance No. 822, Series of 1998; the Thirtieth Supplemental Ordinance; the Series 2000A Airport System Supplemental Bond Ordinance, Ordinance No. 647, Series of 2000; the Series 2000B Airport System Supplemental Bond Ordinance, Ordinance No. 648, Series of 2000; the Series 2000C Airport System Supplemental Bond Ordinance, Ordinance No. 649, Series of 2000; the Series 2001A Airport System Supplemental Bond Ordinance, Ordinance No. 539, Series of 2001; the Series 2001B Airport System Supplemental Bond Ordinance, Ordinance No. 540, Series of 2001; the Series 2001D Airport System Supplemental Bond Ordinance, Ordinance No. 675, Series of 2001; the Series 2002A1-A3 Airport System Supplemental Bond Ordinance, Ordinance No. 715, Series of 2002; the Series 2002C Airport System Supplemental Bond Ordinance, Ordinance No. 800, Series of 2002; the Series 2002D Airport System Supplemental Bond Ordinance, Ordinance No. 801, Series of 2002; the Series 2002E Airport System Supplemental Bond Ordinance, Ordinance No. 802, Series of 2002; the Series 2003A Supplemental Bond Ordinance, Ordinance No. 298, Series of 2003; the Series 2003B Supplemental Bond Ordinance, Ordinance No. 299,

Series of 2003; the Series 2004A Supplemental Bond Ordinance, Ordinance No. 748, Series of 2004; the Series 2004B Supplemental Bond Ordinance, Ordinance No. 749, Series of 2004; the Series 2005A Supplemental Bond Ordinance, Ordinance No. 559, Series of 2005; the Series 2005B1-B2 Supplemental Bond Ordinance, Ordinance No. 785, Series of 2005; the Series 2005C1-C2 Supplemental Bond Ordinance, Ordinance No. 786, Series of 2005; the Series 2006A Supplemental Bond Ordinance, Ordinance No. 495, Series of 2006; the Series 2006B Supplemental Ordinance, Ordinance No. 496, Series of 2006; the Series 2007A-B Supplemental Ordinance, Ordinance No. 375, Series of 2007; the Series 2007C Supplemental Ordinance, Ordinance No. 376, Series of 2007; the Series 2007D-E Supplemental Ordinance, Ordinance No. 415, Series of 2007; the Series 2007F1-F4 Supplemental Ordinance, Ordinance No. 625, Series of 2007; the Series 2007G1-G2 Supplemental Ordinance, Ordinance No. 626, Series of 2007; the Series 2008A Supplemental Ordinance; and the PFC Supplemental Ordinance.

“*Other Available Funds*” means for any Fiscal Year the amount determined appropriate by the Manager to be transferred from the Capital Fund to the Revenue Fund; but in no event is such amount to exceed 25% of the aggregate Debt Service Requirements for such Fiscal Year.

“*Outstanding*” when used with reference to any Bonds and as of any particular date means all such Bonds in any manner theretofore or thereupon issued, except: (a) any Bonds canceled or paid by or on behalf of the City on or before such date; (b) any Bonds which are deemed to be paid pursuant to the Senior Bond Ordinance or for which sufficient moneys are held in trust pursuant to the Senior Bond Ordinance; (c) any Bonds in lieu of or in substitution for which other Bonds have been executed and delivered; and (d) any Option Bonds deemed tendered or purchased as provided by Supplemental Ordinance. In determining whether the owners of the requisite principal amount of Outstanding Bonds have given any request, demand, authorization, direction, notice, consent or waiver, Bonds owned by the City are to be disregarded and deemed not to be Outstanding.

“*Passenger Facility Charges*” or “*PFCs*” means charges collected by the City pursuant to the authority granted by the Aviation Safety and Capacity Expansion Act of 1990 and 14 CFR Part 158, as amended from time to time, in respect of any component of the Airport System and interest earnings thereon, net of amounts that collecting air carriers are entitled to retain for collecting, handling and remitting such passenger facility charge revenues.

“*Paying Agent*” means any entity providing paying agency services for a Subseries of the Series 2008A1-A4 Bonds, initially being Zions First National Bank, Denver, Colorado, and any successor or assign thereof for such Subseries. Any references herein to the Paying Agent means the Paying Agent for the Subseries of the Series 2008A1-A4 Bonds to which such reference relates.

“*PFC Debt Service Account*” means the special and separate subaccount in the PFC Fund designated as the “PFC Debt Service Account,” created under the Senior Bond Ordinance.

“*PFC Fund*” means the special and separate account designated as the “City and County of Denver, Colorado, Airport System Revenue Bonds, PFC Fund,” created under the Senior Bond Ordinance.

“*PFC Project Account*” means the special and separate subaccount in the PFC Fund designated as the “PFC Project Account,” created under the Senior Bond Ordinance.

“*PFC Supplemental Ordinance*” means the Supplemental Ordinance which provides for the deposit of PFC revenues to the PFC Fund, and to the PFC Debt Service Account and the PFC Project Account in such fund.

“*Pledged Revenues*” means all or a portion of the Gross Revenues. The designated term indicates a source of revenues and does not necessarily indicate all or any portion or other part of such revenues in the absence of further qualification.

“*Principal Account*” means the special and separate subaccount in the Bond Fund designated as the “City and County of Denver, Airport System Revenue Bonds, Principal Account,” created under the Senior Bond Ordinance.

“*Project Fund*” means the special and separate account designated as the “City and County of Denver, Airport System Revenue Bonds, Project Fund,” created under the Senior Bond Ordinance, which consists of (a) separate subaccounts for each Improvement Project and Refunding Project, or combination thereof, as provided by Supplemental Ordinance and (b) the Capitalized Interest Account.

“*Proposed Amendments*” means the proposed amendments to the Senior Bond Ordinance as set forth in “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE.”

“*Purchase Price*” means that amount due an owner of any Bond purchased or deemed purchased pursuant to and as provided in the Supplemental Ordinance authorizing such Bond.

“*Rating Agencies*” means any of Moody’s, S&P, or Fitch, then maintaining ratings on any of the Bonds at the request of the City.

“*Redemption Account*” means the special and separate subaccount in the Bond Fund designated as the “City and County of Denver, Airport System Revenue Bonds, Redemption Account,” created under the Senior Bond Ordinance.

“*Refunded Bonds*” means all of the outstanding Series 2001C3 Subordinate Bonds, Series 2001C4 Subordinate Bonds, Series 2002A1 Bonds, Series 2002A2 Bonds, Series 2002A3 Bonds, Series 2004A Bonds, Series 2004B Bonds, Series 2005B1 Bonds and Series 2005B2 Bonds.

“*Refunding Bonds*” means any Bonds issued to refund, pay and discharge any Bonds, Credit Facility Obligations, Subordinate Bonds, or other securities or obligations.

“*Refunding Project*” means any undertaking to refund, pay, and discharge any Bonds, Credit Facility Obligations, Subordinate Bonds, or other securities or obligations.

“*Registrar*” means, when used with respect to the Series 2008A1-A4 Bonds, Zions First National Bank, Denver, Colorado, and any successors and assigns thereof. Any references herein to the Registrar means the Registrar for the Subseries of the Series 2008A1-A4 Bonds to which such reference relates.

“*Regularly Scheduled Hedge Payments*” means the regularly scheduled payments under the terms of a Hedge Facility which are due absent any termination, default or dispute in connection with such Hedge Facility.

“*Remarketing Agents*” means, collectively, the Remarketing Agents appointed and engaged by the City pursuant to the Series 2008A Supplemental Ordinance and the Remarketing Agreement, which will remarket the applicable Subseries of the Subseries 2008A2-A4 Term Rate Bonds, and any successor remarketing agent appointed pursuant to the Series 2008A Supplemental Ordinance. Any references herein to a Remarketing Agent means the Remarketing Agent for the applicable Subseries of the Subseries 2008A2-A4 Term Rate Bonds to which such reference relates.

“*Remarketing Agreement*” means an agreement entered into between the City and a remarketing agent relating to the remarketing of the applicable Subseries of the Subseries 2008A2-A4 Term Rate Bonds.

“*Revenue Fund*” means the special and separate account designated as the “City and County of Denver, Airport System Gross Revenue Fund,” created under the Senior Bond Ordinance.

“*S&P*” means Standard & Poor’s Ratings Service, Inc. and its successors.

“*Second PFC Application*” means the City’s PFC application which was approved by the FAA in January 2001.

“*Securities Depository*” means DTC, designated as the depository for the Series 2008A1-A4 Bonds, and includes any nominee or successor thereof.

“*Semiannual Rate*” means the interest rate determined for any Subseries 2008A2-A4 Term Rate Bonds on a semiannual basis in accordance with the Series 2008A Supplemental Ordinance.

“*Senior Bond Ordinance*” means the General Bond Ordinance, as amended and supplemented by the Series 2008A Supplemental Ordinance and any Supplemental Ordinance that may be adopted by the City Council after the adoption of the Series 2008A Supplemental Ordinance.

“*Serial Bonds*” means any Bonds other than Term Bonds.

“*Series 1991A Bonds*” means the Airport System Revenue Bonds, Series 1991A, issued on April 25, 1991, in the original aggregate principal amount of \$500,003,523.35.

“*Series 1991D Bonds*” means the Airport System Revenue Bonds, Series 1991D, issued on October 23, 1991, in the original aggregate principal amount of \$600,001,390.65.

“*Series 1992C Bonds*” means the Airport System Revenue Bonds, Series 1992C, issued on September 24, 1992, in the original aggregate principal amount of \$392,160,000.

“*Series 1992F Bonds*” means the Airport System Revenue Bonds, Series 1992F, issued on September 24, 1992, as variable rate bonds, and additionally secured by a liquidity facility, in the original aggregate principal amount of \$30,000,000.

“*Series 1992G Bonds*” means the Airport System Revenue Bonds, Series 1992G, issued on September 24, 1992, as variable rate bonds, and additionally secured by a liquidity facility, in the original aggregate principal amount of \$25,000,000.

“*Series 1995C Bonds*” means the Airport System Revenue Bonds, Series 1995C, issued on November 28, 1995, and additionally secured by municipal bond insurance (except for Series 1995C Bonds maturing in 2016), in the original aggregate principal amount of \$107,585,000.

“*Series 1997E Bonds*” means the Airport System Revenue Bonds, Series 1997E, issued on August 28, 1997, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$415,705,000.

“*Series 1998A Bonds*” means the Airport System Revenue Bonds, Series 1998A, issued on December 1, 1998, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$206,665,000.

“*Series 1998B Bonds*” means the Airport System Revenue Bonds, Series 1998B, issued on December 1, 1998, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$103,395,000.

“*Series 2000A Bonds*” means the Airport System Revenue Refunding Bonds, Series 2000A, issued on August 24, 2000, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$330,625,000.

“*Series 2000B Bonds*” means the Airport System Revenue Refunding Bonds, Series 2000B, issued on August 24, 2000, as variable rate bonds, and additionally secured by a liquidity facility and municipal bond insurance, in the original aggregate principal amount of \$200,000,000.

“*Series 2000C Bonds*” means the Airport System Revenue Refunding Bonds, Series 2000C, issued on August 24, 2000, as variable rate bonds, and additionally secured by a liquidity facility and municipal bond insurance, in the original aggregate principal amount of \$100,000,000.

“*Series 2001A Bonds*” means the Airport System Revenue Refunding Bonds, Series 2001A, issued on June 28, 2001, a portion of which is additionally secured by municipal bond insurance, in the aggregate original principal amount of \$395,635,000.

“*Series 2001B Bonds*” means the Airport System Revenue Refunding Bonds, Series 2001B, issued on June 28, 2001, and additionally secured by municipal bond insurance, in the aggregate original principal amount of \$16,675,000.

“*Series 2001C1 Subordinate Bonds*” means the Airport System Subordinate Revenue Refunding Bonds, Series 2001C1, issued on October 4, 2001, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$50,000,000.

“*Series 2001C2 Subordinate Bonds*” means the Airport System Subordinate Revenue Refunding Bonds, Series 2001C2, issued on October 4, 2001, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$50,000,000.

“*Series 2001C3 Subordinate Bonds*” means the Airport System Subordinate Revenue Refunding Bonds, Series 2001C3, issued on October 4, 2001, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$50,000,000.

“*Series 2001C4 Subordinate Bonds*” means the Airport System Subordinate Revenue Refunding Bonds, Series 2001C4, issued on October 4, 2001, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$50,000,000.

“*Series 2001D Bonds*” means the Airport System Revenue Refunding Bonds, Series 2002D, issued on August 6, 2001, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$70,540,000.

“*Series 2002A1-A3 Bonds*” means the Airport System Revenue Refunding Bonds, Series 2002A1-A3, issued on September 12, 2002, in three subseries as auction rate bonds and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$300,000,000.

“*Series 2002C Bonds*” means the Airport System Revenue Refunding Bonds, Series 2002C, issued on October 9, 2002, as variable rate bonds, and additionally secured by a liquidity facility, in the original aggregate principal amount of \$49,000,000.

“*Series 2002E Bonds*” means the Airport System Revenue Refunding Bonds, Series 2002E, issued on October 9, 2002, and additionally secured by financial guaranty insurance policies, in the original aggregate principal amount of \$203,565,000.

“*Series 2003A Bonds*” means the Airport System Revenue Bonds, Series 2003A, issued on May 1, 2003, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$161,965,000.

“*Series 2003B Bonds*” means the Airport System Revenue Bonds, Series 2003B, issued on May 1, 2003, certain maturities of which are additionally secured by municipal bond insurance, in the original aggregate principal amount of \$125,000,000.

“*Series 2004A Bonds*” means the Airport System Revenue Bonds, Series 2004A, issued on October 21, 2004, as variable rate bonds and additionally secured both by a liquidity facility and municipal bond insurance, in the original aggregate principal amount of \$75,000,000.

“*Series 2004B Bonds*” means the Airport System Revenue Bonds, Series 2004B, issued on October 21, 2004, as variable rate bonds and additionally secured both by a liquidity facility and municipal bond insurance, in the original aggregate principal amount of \$75,000,000.

“*Series 2005A Bonds*” means the Airport System Revenue Bonds, Series 2005A, issued on August 25, 2005, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$227,740,000.

“*Series 2005B1-B2 Bonds*” means the Airport System Revenue Bonds, Series 2005B1-B2, issued on October 31, 2005, in two subseries as auction rate bonds and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$91,750,000.

“*Series 2005C1-C2 Bonds*” means the Airport System Revenue Bonds, Series 2005C1-C2, issued on October 31, 2005, in two subseries as variable rate bonds and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$87,700,000.

“*Series 2006A Bonds*” means the Airport System Revenue Bonds, Series 2006A, issued on August 17, 2006, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$279,585,000.

“*Series 2006B Bonds*” means the Airport System Revenue Bonds, Series 2006B, issued on August 17, 2006, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$170,005,000.

“*Series 2007 Bonds*” means the Series 2007A Bonds, the Series 2007B Bonds, the Series 2007C Bonds, the Series 2007D Bonds, the Series 2007D2 Bonds, the Series 2007E Bonds, the Series 2007F1-F4 Bonds and the Series 2007G1-G2 Bonds.

“*Series 2007A Bonds*” means the Airport System Revenue Bonds, Series 2007A, issued on August 29, 2007, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$188,350,000.

“*Series 2007B Bonds*” means the Airport System Revenue Bonds, Series 2007B, issued on August 29, 2007, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$24,250,000.

“*Series 2007C Bonds*” means the Airport System Revenue Bonds, Series 2007C, issued on August 29, 2007, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$34,635,000.

“*Series 2007D Bonds*” means the Airport System Revenue Bonds, Series 2007D, issued on August 29, 2007, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$147,815,000.

“*Series 2007D2 Bonds*” means the Airport System Revenue Bonds, Series 2007D2, issued on October 4, 2007, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$31,950,000.

“*Series 2007E Bonds*” means the Airport System Revenue Bonds, Series 2007E, issued on October 4, 2007, and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$47,400,000.

“*Series 2007F1-F4 Bonds*” means the Airport System Revenue Bonds, Series 2007F1-F4, issued on November 14, 2007, in four subseries as variable rate bonds and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$208,025,000.

“*Series 2007G1-G2 Bonds*” means the Airport System Revenue Bonds, Series 2007G1-G2, issued on November 14, 2007, in two subseries as auction rate bonds and additionally secured by municipal bond insurance, in the original aggregate principal amount of \$148,500,000.

“*Series 2008A1-A4 Bonds*” means the Airport System Revenue Bonds, Series 2008A1-A4, consisting of the Subseries 2008A1 Bonds, the Subseries 2008A2 Bonds, the Subseries 2008A3 Bonds and the Subseries 2008A4 Bonds, offered pursuant to this Official Statement.

“*Series 2008A1-A4 Refunding Project*” means the project to be financed with a portion of the proceeds of the Series 2008A1-A4 Bonds to (i) currently refund the Refunded Bonds by paying the principal of, premium, if any, and interest on the Refunded Bonds, (ii) make any required deposit to the Bond Reserve Fund and (iii) pay certain costs relating to the issuance of the Series 2008A1-A4 Bonds. The Series 2008A1-A4 Refunding Project constitutes a Refunding Project within the meaning of the General Bond Ordinance.

“*Series 2008A Supplemental Ordinance*” means the “Series 2008A1-A5 Airport System Supplemental Bond Ordinance,” as amended and supplemented from time to time by any other Supplemental Ordinance, which authorizes the issuance of the Series 2008A1-A4 Bonds.

“*Sinking Fund Account*” means the special and separate subaccount in the Bond Fund designated as the “City and County of Denver, Airport System Revenue Bonds, Sinking Fund Account,” created under the Senior Bond Ordinance.

“*Sinking Fund Requirements*” means for any period amounts required by the Senior Bond Ordinance or by Supplemental Ordinance to be credited to the Sinking Fund Account.

“*Special Facilities*” means facilities relating to or used in connection with the Airport System, the cost of which is financed with the proceeds of Special Facilities Bonds issued pursuant to the Senior Bond Ordinance. *This definition would be changed by the Proposed Amendments. See “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE.”*

“*Special Facilities Bonds*” means bonds or other securities to finance the cost of any Special Facilities and which are payable solely from all or a portion of the rentals received pursuant to a Net Rent Lease of such Special Facilities.

“*Stapleton*” means Stapleton International Airport, which is part of the Airport System.

“*State*” means the State of Colorado.

“*Subordinate Bonds*” means bonds or other securities or obligations relating to the Airport System, payable from Net Revenues, and having a lien thereon subordinate and junior to the lien thereon of Bonds.

“*Subordinate Bond Fund*” means the special and separate account designated as the “City and County of Denver, Airport System Subordinate Revenue Bonds, Interest and Principal Retirement Fund,” created under the Senior Bond Ordinance.

“*Subordinate Bond Ordinance*” means the 1997 Airport System Subordinate Bond Ordinance of the City approved on August 25, 1997, Series of 1997, as supplemented and amended from time to time.

“*Subordinate Contract Obligations*” means capital leases, installment purchase agreements, guaranty agreements, or other similar contracts incurred pursuant to the provisions of the Subordinate Bond Ordinance which are payable from all or any designated portion of the Net Revenues of the Airport System and secured by a pledge of and lien on such Net Revenues, subordinate only to the lien thereon of the Bonds. The term does not include (i) Subordinate Bonds, Subordinate Credit Facility Obligations, or Subordinate Hedge Facility Obligations; or (ii) obligations that may be treated as Operation and Maintenance Expenses under generally accepted accounting principles and obligations incurred and payable in full within a single Fiscal Year (whether or not such obligations may be so treated as Operation and Maintenance Expenses).

“*Subordinate Credit Facility*” means any letter of credit, policy of bond insurance, surety bond, guarantee or similar instrument issued by a financial, insurance or other institution and which provides security or liquidity in respect of Subordinate Bonds.

“*Subordinate Credit Facility Obligations*” means repayment or other obligations incurred by the City pursuant to a credit agreement or similar instrument in respect of draws or other payments or disbursements made under a Subordinate Credit Facility, and which obligations are payable from all or any designated portion of the Net Revenues of the Airport System and secured by a pledge of and lien on such Net Revenues subordinate only to the lien thereon of the Bonds and any Credit Facility Obligations.

“*Subordinate Hedge Facility*” means any rate swap transaction, basis swap transaction, cap transaction, floor transaction, collar transaction, or similar transaction, which is intended to convert or limit the interest rate on any Bonds or Subordinate Bonds.

“*Subordinate Hedge Facility Obligations*” means payment obligations of the City in respect of Subordinate Hedge Facilities, which are payable from all or any designated portion of the Net Revenues of the Airport System and secured by a pledge of and a lien on such Net Revenues subordinate only to the lien thereon of the Bonds and any Credit Facility Obligations.

“*Subseries*” means any of the Subseries 2008A1 Bonds, the Subseries 2008A2 Bonds, the Subseries 2008A3 Bonds or the Subseries 2008A4 Bonds.

“*Subseries 2008A1 Bonds*” means the Subseries of the Series 2008A1-A4 Bonds designated as the “Airport System Revenue Bonds, Subseries 2008A1,” in the original aggregate principal amount of \$221,215,000.

“*Subseries 2008A2 Bonds*” means the Subseries of the Series 2008A1-A4 Bonds designated as the “Airport System Revenue Bonds, Subseries 2008A2,” in the original aggregate principal amount of \$111,000,000.

“*Subseries 2008A2-A4 Term Rate Bonds*” means the Subseries 2008A2 Bonds, the Subseries 2008A3 Bonds and the Subseries 2008A4 Bonds, issued in the original aggregate principal amount of \$387,625,000.

“*Subseries 2008A3 Bonds*” means the Subseries of the Series 2008A1-A4 Bonds designated as the “Airport System Revenue Bonds, Subseries 2008A3,” in the original aggregate principal amount of \$181,965,000.

“*Subseries 2008A4 Bonds*” means the Subseries of the Series 2008A1-A4 Bonds designated as the “Airport System Revenue Bonds, Subseries 2008A4,” in the original aggregate principal amount of \$94,660,000.

“*Supplemental Ordinance*” means any ordinance of the City amending or supplementing the Senior Bond Ordinance, including without limitation any such ordinance authorizing the issuance of Bonds thereunder, and any ordinance amendatory thereof or supplemental thereto.

“*Term Bonds*” means Bonds of a series with a fixed maturity date or dates which do not constitute consecutive periodic installments and which Bonds are designated as Term Bonds by the Supplemental Ordinance authorizing their issuance.

“*Term Rate*” means the interest rate determined for any Subseries 2008A2-A4 Term Rate Bonds on a term basis in accordance with the Series 2008A Supplemental Ordinance.

“*Term Rate Period*” means each period during which the Subseries 2008A2-A4 Term Rate Bonds bear interest at a Term Rate.

“*Treasurer*” or “*City Treasurer*” means the City’s Manager of Finance/Chief Financial Officer/*Ex-Officio* Treasurer, or his or her designee, and his or her successor in functions, if any.

“*Twenty-first and Twenty-seventh Supplemental Ordinances*” means the Supplemental Ordinances which provide for the deposit of PFC revenues to the PFC Fund, and to the PFC Debt Service Account and the PFC Project Account in such fund. The procedures for the administration of PFCs set forth in the Twenty-first and Twenty-seventh Supplemental Ordinances are replaced and superceded to the extent provided in the PFC Supplemental Ordinance.

“*Underwriters*” means, with respect to the Series 2008A1-A4 Bonds, Goldman, Sachs & Co., Citigroup Global Markets Inc., Harvestons Securities Inc., Loop Capital and Morgan Stanley & Co. Incorporated.

“*Variable Rate Bonds*” means Bonds issued with a variable, adjustable, convertible, or other similar rate which is not fixed in percentage for the entire term thereof at the date of issuance, but which is subject to maximum limitations.

“*Weekly Rate*” means the interest rate determined for any Subseries 2008A2-A4 Term Rate Bonds on a weekly basis in accordance with the Series 2008A Supplemental Ordinance.

APPENDIX D

SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE

[This page intentionally left blank]

APPENDIX D

SUMMARY OF CERTAIN PROVISIONS OF THE SENIOR BOND ORDINANCE

The following statements are summaries of certain provisions of the Senior Bond Ordinance, including, without limitation, the PFC Supplemental Ordinance, and are in addition and complementary to the summary found under “THE SERIES 2008A1-A4 BONDS.”

Several of the provisions and defined terms used in this summary would be changed by the Proposed Amendments. See “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE.”

Description of the Bonds

The City and the Paying Agent may treat the person in whose name any Bond is registered upon the books or records of the Registrar as the absolute owner thereof, whether the Bond is overdue or not, for all purposes whatsoever; and payment of, or on account of, the Bond Requirements of any Bond is to be made only to, or upon the order of, such owner or his legal representative.

The Supplemental Ordinances relating to the issuance of the Outstanding Senior Bonds and the Series 2008A1-A4 Bonds each provide that so long as Senior Bonds are registered in the name of the Securities Depository, all payments of the Debt Service Requirements or redemption price and all notices with respect to the Bonds are to be made and given in the manner provided in the letter of representation from the City to the Securities Depository.

If the date for making any payment or deposit or the last date for performance of any act or the exercise of any right, as provided in the Senior Bond Ordinance, is a Saturday, Sunday, legal holiday or other day on which banking institutions in the City are authorized by law to remain closed, such payment or deposit may be made or act performed or right exercised on the next succeeding day not a Saturday, Sunday, legal holiday or other day on which such banking institutions are authorized by law to remain closed, with the same force and effect as if done on the nominal date so provided, and no interest will accrue for the period after such nominal date.

Bonds which have been called for redemption are due and payable on the redemption date stated in the notice of redemption at the applicable redemption price, plus interest accrued to the redemption date; and upon presentation and surrender thereof, together with a written instrument of transfer duly executed by the owner or by his duly authorized attorney, such Bonds are to be paid. If on the redemption date sufficient moneys are held by or on behalf of the Paying Agent for the redemption of the called Bonds, and if notice of redemption has been duly published and mailed, then from and after the redemption date such Bonds will cease to bear interest and no longer will be considered Outstanding.

Additional Parity Bonds

The Senior Bond Ordinance permits the City to issue Additional Parity Bonds to pay the Cost of an Improvement Project or a Refunding Project. In order to issue Additional Parity Bonds for an Improvement Project under the Senior Bond Ordinance, the City is required to obtain:

- (a) a certificate or opinion of an Independent Accountant, setting forth for the last audited Fiscal Year or for any period of 12 consecutive calendar months out of the 18 calendar months next preceding the delivery of such series of additional Bonds, (i) the Net Revenues, together with any Other Available Funds, for such period and (ii) the aggregate Debt Service

Requirements for such period; and demonstrating that for such period the Net Revenues, together with any Other Available Funds, at least equaled the larger of either (A) the amount needed to make the required deposits to the credit of the several subaccounts in the Bond Fund and to the credit of the Bond Reserve Fund and the Operation and Maintenance Reserve Account or (B) an amount not less than 125% of the aggregate Debt Service Requirements for such period;

(b) a report of the Airport Consultant estimating, for each of the three Fiscal Years commencing with the earlier of either the Fiscal Year following the Fiscal Year in which the Manager estimates such Improvement Project will be completed or the first Fiscal Year in which there are Debt Service Requirements with respect to the Bonds to be issued for such Improvement Project: (i) the Gross Revenues and (ii) the Operation and Maintenance Expenses and other amounts required to be deposited in each of the subaccounts (other than the Redemption Account) in the Bond Fund, the Bond Reserve Fund, and the Operation and Maintenance Reserve Account; and demonstrating that the Net Revenues in each such Fiscal Year, together with any Other Available Funds, are projected to be at least equal to the greater of either (A) the amounts needed to make the required deposits to the credit of the several subaccounts (other than the Redemption Account) in the Bond Fund, the Bond Reserve Fund and the Operation and Maintenance Reserve Account or (B) an amount not less than 125% of the aggregate of any Debt Service Requirements for each such Fiscal Year, for the series of Bonds then to be issued and for any future series of Bonds which the Manager estimates will be required to complete payment of the Cost of such Improvement Project (such Debt Service Requirements of any future series of Bonds to be estimated by the Airport Consultant or by the Financial Consultant, if any), in each case after giving effect, among other factors, to the increase in Operation and Maintenance Expenses and to the completion of the Improvement Project or any completed portion thereof, and the increase in rates, fees, rentals or other charges (or any combination thereof) as a result of the completion of such Improvement Project or any completed portion thereof; and

(c) a certificate of the Manager to the effect that as of the date of the adoption of the Supplemental Ordinance authorizing such additional Bonds the City is not in default in making any payments required by the Senior Bond Ordinance.

In any computation required by the above, there is excluded from Gross Revenues any capital gain resulting from any sale or revaluation of Investment Securities or bank deposits, or both. If any one or more of the documents required by subsections (a) through (c) above cannot be given with the required results stated therein, the City may not issue Additional Parity Bonds; *provided however*, the City may issue Additional Parity Bonds for the purpose of refunding Senior Bonds without having to comply with the requirements described in subparagraphs (a) through (c) above.

Security

Subject only to the right of the City to pay Operation and Maintenance Expenses of the Airport System, the Gross Revenues and all moneys and securities paid or to be paid to, or held or to be held in, any fund or account under the Senior Bond Ordinance (except moneys and securities held in any Escrow Account and except as otherwise provided in the Senior Bond Ordinance) are irrevocably pledged to secure the payment of the Bond Requirements of the Bonds, Credit Facility Obligations and Hedge Facility Obligations. No preference, priority or distinction will exist between Bonds except as otherwise expressly provided in the Senior Bond Ordinance. The Bond Requirements of the Bonds are not to be considered or held to be general obligations of the City but are to constitute its special obligations. The City has not pledged its full faith and credit and taxing power for the payment of the Bond Requirements of the Bonds.

The payment of the Bond Requirements of any Bonds is not secured by an encumbrance, mortgage, or other pledge of property of the City, except the Net Revenues and other funds pledged for their payment.

The Airport System Fund

The Senior Bond Ordinance creates the following accounts and subaccounts in the Airport System Fund, all of which are held by the City: the Revenue Fund, the Operation and Maintenance Fund (including the Operation and Maintenance Reserve Account), the Bond Fund (including the Interest Account, Principal Account, Sinking Fund Account and Redemption Account), the Bond Reserve Fund, the Subordinate Bond Fund, the Capital Fund, the Project Fund (including the Capitalized Interest Account) and the PFC Fund (including the PFC Debt Service Account and the PFC Project Account).

Application of Revenues

So long as any Bonds are Outstanding, all Gross Revenues of the Airport System are to be deposited to the credit of the Revenue Fund. After making the payments each month required to be credited to the Operation and Maintenance Fund, moneys in the Revenue Fund are required to be transferred and credited to the following accounts and subaccounts in the following order of priority and at the following times:

(a) to the Interest Account of the Bond Fund, monthly, commencing on the first day of the month immediately succeeding the issuance of any Bonds, an amount which if made in substantially equal installments thereafter would be sufficient, together with any other moneys from time to time available therefor from whatever source, including without limitation moneys in the Capitalized Interest Account set aside for the payment of interest, to pay the next maturing installment of interest on Outstanding Bonds;

(b) to the Principal Account of the Bond Fund, monthly, commencing on the first day of the month immediately succeeding the issuance of any Serial Bonds, or commencing one year prior to the first fixed maturity date of such Serial Bonds, whichever date is later, an amount which if made in substantially equal installments thereafter would be sufficient, together with any other moneys from time to time available therefor from whatever source to pay the next maturing installment of principal on Outstanding Serial Bonds;

(c) with the same priority as the Principal Account, to the Sinking Fund Account of the Bond Fund, monthly, commencing on the first day of the twelfth calendar month prior to the date on which the City is required to pay any Term Bonds, one-twelfth of the amount necessary to pay the redemption price or principal of Outstanding Term Bonds, scheduled to be retired in any year by mandatory redemption, at fixed maturity, or otherwise, except to the extent any other moneys, including without limitation, moneys in any Escrow Account, are available therefor;

(d) on or prior to any date on which the City exercises its option to call for prior redemption any Bonds, to the Redemption Account, an amount necessary to pay the redemption price of such Bonds on such redemption date, except to the extent any other moneys (including without limitation moneys in any Escrow Account) are available therefor;

(e) to the Bond Reserve Fund, not less frequently than monthly, commencing no later than the first day of the month next succeeding each date on which any series of Bonds is issued or on which the amounts credited thereto are less than the Minimum Bond Reserve, cash or Investment Securities in an amount which, if made in substantially equal installments thereafter, would be sufficient to accumulate the Minimum Bond Reserve on or before the first

day of the sixtieth month following the date of commencement (taking into account, in all such cases, the known minimum gain from Investment Securities to be received by the City over such period of sixty months);

(f) to the Subordinate Bond Fund, from any moneys remaining in the Revenue Fund amounts which are required for the payment of any Subordinate Bonds, including any reasonable reserves therefor, as provided by any Supplemental Ordinance or other instrument;

(g) to the Operation and Maintenance Reserve Account, from any moneys remaining in the Revenue Fund, not less frequently than monthly, an amount in cash or Investment Securities, or both, at least equal to the amount which, if made in substantially equal installments thereafter, would be sufficient to accumulate the Minimum Operation and Maintenance Reserve on or before the first day of the 36th month thereafter (taking into account, in all such cases, the known minimum gain from Investment Securities to be received by the City over such period); and

(h) to the Capital Fund, at the end of each Fiscal Year and after all payments referred to in (a) through (g) above have been made, all remaining moneys in the Revenue Fund.

Moneys in the Capital Fund may be withdrawn in any priority for any one, all, or any combination of the following purposes, as the Manager may from time to time determine: (a) to pay the Costs of acquiring, improving or equipping any Airport Facilities, to the extent such Costs are not Operation and Maintenance Expenses; (b) to pay costs of extraordinary and major repairs, renewals, replacements, or maintenance items pertaining to any Airport Facilities, of a type not properly defrayed as Operation and Maintenance Expenses; and (c) to pay the Bond Requirements of any Bonds (or payments due for Subordinate Bonds) if such payment is necessary to prevent any default in the payment of such Bond Requirements.

If any monthly credit required to be made to the Interest Account, the Principal Account or the Sinking Fund Account of the Bond Fund is deficient, the City is required to include the amount of such deficiency in the next monthly deposit into such subaccount.

No payment need be made into the Bond Reserve Fund so long as the moneys therein are at least equal to the Minimum Bond Reserve, and any moneys therein exceeding the Minimum Bond Reserve are to be transferred as Gross Revenues to the Revenue Fund and used for the purposes thereof, as provided in the Senior Bond Ordinance. In the event any Supplemental Ordinance so provides, the City may at any time or from time to time, subject to certain limitations, deposit a Credit Facility in the Bond Reserve Fund in full or partial satisfaction of the Minimum Bond Reserve; provided that any such Credit Facility is to be payable on any date on which moneys are required to be withdrawn from the Bond Reserve Fund as provided in the Senior Bond Ordinance. The Supplemental Ordinances authorizing the respective series of outstanding Senior Bonds impose limitations on the City's ability to deposit a Credit Facility in the Bond Reserve Fund.

So long as any Senior Bonds remain rated by Moody's, and unless Moody's otherwise agrees, no Credit Facility may be deposited in the Bond Reserve Fund in full or partial satisfaction of the Minimum Bond Reserve, pursuant to the Senior Bond Ordinance, unless the then current Moody's rating on the Senior Bonds is equal to or less than the Moody's rating (or public finance equivalent thereof) of (a) the senior unsecured debt instruments of the provider of such Credit Facility or (b) in the event the provider of such Credit Facility is a bond or other insurance company the higher of the following: (i) any claims paying rating assigned by Moody's to such provider or (ii) any Moody's rating of debt secured by the insurance policies or surety bonds of such provider. In no event may any rating described in clause (a) or clause (b) above be less than "A" or "A3," as the case may be, unless Moody's otherwise agrees. In

addition, no Credit Facility may be deposited in the Bond Reserve Fund in full or partial satisfaction of the Minimum Bond Reserve, pursuant to the Senior Bond Ordinance, unless the then current rating of the provider of such Credit Facility by Moody's or by S&P is in one of the two highest rating categories of such rating agency.

If on any Bond Requirement payment date the City has failed for any reason to pay the full amount required into the Interest Account, the Principal Account and the Sinking Fund Account, as described above, an amount equal to the respective difference between that paid from the Net Revenues and the full amount required is to be paid on such date into such subaccounts from the Bond Reserve Fund (including any Credit Facility therein). The moneys so used are to be reaccumulated (or any such Credit Facility will be reinstated) in the Bond Reserve Fund from the first Net Revenues thereafter received (not required to be otherwise applied) in not more than sixty substantially equal monthly installments (taking into account the known minimum gain from Investment Securities to be received). If any monthly payment to be made into the Bond Reserve Fund is deficient, the City is required to pay into such fund the amount of such deficiency from the first Net Revenues thereafter received.

No payment is to be made into the Operation and Maintenance Reserve Account if the moneys therein then equal not less than the Minimum Operation and Maintenance Reserve. The moneys in the Operation and Maintenance Reserve Account are to be accumulated and maintained as a continuing reserve to be used only to prevent deficiencies in the payment of the Operation and Maintenance Expenses of the Airport System resulting from the failure to deposit into the Operation and Maintenance Fund sufficient funds to pay such expenses as the same accrue and become due.

PFC Fund

All Passenger Facility Charges, upon their receipt from time to time by the City, are to be immediately deposited directly to the credit of the subaccounts in the PFC Fund in the following order of priority:

(a) First, to the PFC Debt Service Account in each Fiscal Year through 2013, inclusive, the lesser of (i) all Committed Passenger Facility Charges received in each such Fiscal Year, and (ii) that portion of Committed Passenger Facility Charges received in each such Fiscal Year which, together with other available amounts credited to the PFC Debt Service Account, will be sufficient to make the payments from the PFC Debt Service Account to the Bond Fund required in each such Fiscal Year, as set forth below; and

(b) Second, to the PFC Project Account all Passenger Facility Charges so received by the City in each Fiscal Year not otherwise required to be applied as described in (a).

The following amounts, to the extent credited to the PFC Debt Service Account, will be irrevocably committed under the PFC Supplemental Ordinance to the payment of Debt Service Requirements on Senior Bonds in each Fiscal Year through 2013, inclusive:

2007	\$107,930,000
2008	111,707,000
2009	115,617,000
2010	119,664,000
2011	123,852,000
2012	128,188,000
2013	132,673,000

If no payments to the PFC Debt Service Account are required, no Passenger Facility Charges are required to be deposited to the credit of the PFC Debt Service Account. Any amounts remaining in the PFC Debt Service Account on December 31, 2013, are to be credited to the PFC Project Account.

Amounts credited to the PFC Project Account may be applied to any lawful purpose relating to the Airport System as the Manager may from time to time determine, including the transfer to the PFC Debt Service Account for the payment of Debt Service Requirements.

The PFC Supplemental Ordinance is applicable only to the Passenger Facility Charges, as defined therein.

Project Fund

The money in the appropriate subaccount in the Project Fund is to be applied to the payment of the Cost of the Improvement Project or Refunding Project, or a combination thereof, as the case may be.

Payments from the Project Fund can be made only after the Manager has certified that such payment will comply with Section 142 of the Tax Code and upon voucher drawn by the Manager and filed with the Auditor. For each Fiscal Year after the delivery of any Bonds, until the termination of each Improvement Project, the City will cause an audit to be made by an Independent Accountant of all receipts and money then on deposit in the Project Fund and all disbursements made pursuant to the provisions of the Senior Bond Ordinance.

Upon substantial completion of the Improvement Project, surplus moneys in the Project Fund, not reserved for the payment of any remaining Cost, are to be paid to the Bond Reserve Fund if the Minimum Bond Reserve is not fully accumulated, and then paid to the Interest Account, the Principal Account or the Sinking Fund Account or to any combination of such subaccounts. Notwithstanding the above, any surplus moneys in the Project Fund will be applied so as to permit compliance with requirements of the Tax Code.

Alterations of, additions to, and deletions from any Improvement Project may be made prior to the withdrawal of all moneys accounted for in the applicable subaccount in the Project Fund, but, in the Airport Consultant's opinion, any such alterations, additions and deletions will neither render the City incapable of meeting its rate maintenance covenant nor increase the estimated Cost of such Improvement Project, as fixed by Supplemental Ordinance, by more than 25% (excluding from such determination of Cost any capitalized interest, funded reserves, purchase discounts, or costs of issuance).

Investments

The Investment Securities purchased as an investment or reinvestment of moneys in any such account or subaccount are to be deemed at all times to be part of the account or subaccount and held in trust therefor. Except as otherwise provided in the Senior Bond Ordinance, any interest earned on, or any profit or loss realized from the liquidation of, such Investment Securities and any interest or other gain from the deposit of moneys in any commercial bank, are to be credited or charged to the Revenue Fund as such gain or loss is realized; but any such interest, profit or loss on Investment Securities in any subaccount in the Project Fund or in the Bond Reserve Fund is to be credited or charged to such account or subaccount, and no interest or profit transferred to the Revenue Fund from any subaccount in the Project Fund until its termination or from the Bond Reserve Fund until the moneys accounted for therein, after any such transfer, are at least equal to the Minimum Bond Reserve.

In the computation of the amount in any account or subaccount as required by the Senior Bond Ordinance, Investment Securities purchased as an investment of moneys therein are to be valued at the

cost thereof (including any amount paid as accrued interest) or the principal amount thereof, whichever is less; except that Investment Securities purchased at a premium initially may be valued at the cost thereof, but in each year after such purchase are to be valued at a lesser amount determined by ratably amortizing the premium over their remaining term. The valuation of Investment Securities and bank deposits accounted for in any account or subaccount must be made not less frequently than annually.

Insurance

The City has covenanted that it will insure and at all times keep the Airport System insured to the extent insurable by a responsible insurance company, companies, or carriers authorized and qualified under the laws of the State to assume the risk thereof against direct physical damage or loss from fire and so-called extended coverage perils in an amount not less than 80% of the replacement value of the Facilities so insured, less depreciation; but such amount of insurance will at all times be sufficient to comply with any legal or contractual requirement which, if breached, would result in assumption by the City of a portion of any loss or damage as a co-insurer; and also, if at any time the City is unable to obtain such insurance to the extent required at reasonable cost, the City will maintain such insurance to the extent reasonably obtainable. The proceeds of all such insurance will be available for, and to the extent necessary will be applied to, the repair, reconstruction and other replacement of damaged or destroyed Facilities. If the proceeds are more than sufficient for such purpose, the balance remaining will be paid first into the Bond Reserve Fund to the extent necessary to bring the amount on deposit therein up to the then Minimum Bond Reserve, then any balance will be transferred into the Capital Fund. If such proceeds are insufficient to repair, reconstruct or otherwise replace the damaged or destroyed Facilities, the deficiency may be supplied from moneys in the Capital Fund or any other moneys legally available for such purposes.

The City also covenants that it will at all times carry with a responsible insurance company, to the extent not provided for in leases and agreements between the City and others relating to the Airport System, insurance covering the loss of revenues from Facilities by reason of necessary interruption, total or partial, in the use thereof, resulting from damage thereto, or destruction thereof, however caused, in such amounts as are estimated to be sufficient to provide a full normal income during the period of suspension subject to certain conditions. The Senior Bond Ordinance also makes provision for insurance against liability to any person sustaining bodily injury or property damage or the death of any person by reason of defect or want of repair in or about the Airport System or by reason of the negligence of any employee, and against such other liability for individuals, including workmen's compensation insurance, to the extent attributed to ownership and operation of the Airport System and damage to property.

For any company insuring the Airport System under a general liability policy, the total liability of such company for all damages resulting from all bodily injury and all property damage as the result of any one occurrence, will not be less than \$75 million under a single limit of liability endorsement or other like provision of the policy regardless of the number of insureds under the policy, individuals who sustain bodily injury or property damage, claims made or suits brought on account of bodily injury or property damage, or occurrences.

Records, Reports and Audits

The City has covenanted that it will keep accurate books and records showing the monthly revenues derived from the Airport System or any Special Facilities and of the disposition thereof in reasonable detail as may be determined by the Manager, and in accordance with standard accounting practices; and that, on the basis of such books and records, the City will cause reports to be prepared quarterly and copies to be mailed promptly (a) to the Airport Consultant and (b) to those owners of Outstanding Bonds who may request in writing such reports.

The City has covenanted it will cause an audit to be made of its books and accounts pertaining to the Airport System by an Independent Accountant as soon as practicable following the close of each Fiscal Year. The annual audit report is to include for the period covered (a) a statement showing, among other things, (i) the amount of Gross Revenues, (ii) the amount of Operation and Maintenance Expenses, (iii) the amount of Net Revenues including a statement as to whether or not such Net Revenues together with Other Available Funds have been at least sufficient to meet the Rate Maintenance Covenant, and (iv) the amount of any capital expenditures pertaining to the Airport System and any Special Facilities; (b) a balance sheet as of the end of the Fiscal Year; (c) a comment by the Independent Accountant concerning the City's methods of operation, accounting practices, and compliance with the Senior Bond Ordinance and other instruments and proceedings relating to the Airport System; (d) a list of insurance policies in effect at the end of the audit period; and (e) a recapitulation of each account and subaccount created by the Senior Bond Ordinance and any other instrument or proceeding relating to the Airport System. Within 90 days after each annual audit report is filed with the City, copies of such reports are to be mailed to the Airport Consultant, to those owners of Outstanding Bonds who may request in writing such report, and to any others as required.

Defeasance

When all principal, interest, and any prior redemption premiums due in connection with the Bonds have been duly paid, or provision made therefor in accordance with the Senior Bond Ordinance, all covenants, agreements and other obligations of the City to the owners of the Bonds will thereby terminate, become void and be discharged and satisfied.

Any Outstanding Bond, prior to the maturity or redemption date thereof, will be deemed to have been paid if (a) in case such Bond is to be redeemed on any date prior to its maturity, the City has by Supplemental Ordinance given irrevocable instructions to effect due notice of redemption on such redemption date, if such notice is required; (b) there have been deposited in an Escrow Account, either (i) moneys in an amount which will be sufficient or (ii) direct obligations of, or obligations the principal and interest on which are unconditionally guaranteed by, the United States of America ("Federal Securities") which do not contain provisions permitting the redemption thereof at the option of the issuer, the principal of and the interest on which when due, and without any reinvestment thereof, will provide moneys which, together with the moneys, if any, deposited with or held in such Escrow Account at the same time, will be sufficient to pay when due the principal of and interest due and to become due on such Bond on or prior to its redemption or maturity date; and (c) in the event such Bond is not subject to redemption within the next 60 days, the City by Supplemental Ordinance will have given irrevocable instructions to effect, as soon as practicable, notice to the owner of such Bond that the deposit required by (b) above has been placed in such Escrow Account and that such Bond is deemed to have been paid and stating such maturity or redemption date upon which moneys are to be available for the payment of the principal of, premium, if any, and interest on such Bond.

As to Variable Rate Bonds, the amount required for the interest thereon will be calculated at the maximum rate which such Variable Rate Bonds may bear; provided, however, that if on any date, as a result of such Variable Rate Bonds having borne interest at less than such maximum rate for any period, the total amount of moneys and such Federal Securities on deposit for the payment of interest on such Variable Rate Bonds is in excess of the total amount which would have been required to be deposited on such date in respect of such Variable Rate Bonds in order to fully discharge and satisfy such Variable Rate Bonds, the City may use the amount of such excess for lawful purposes relating to the Airport System free and clear of any trust, lien, security interest, pledge or assignment securing such Variable Rate Bonds or otherwise existing under the Senior Bond Ordinance. See also "Series 2008A Supplemental Ordinance" below.

Notwithstanding any provisions of the Senior Bond Ordinance to the contrary, Option Bonds may only be discharged and satisfied by depositing moneys or Federal Securities which together with other moneys lawfully available therefor are sufficient at the time of such deposit to pay when due the maximum amount of principal of, premium, if any, and interest on such Option Bonds which could become payable to the owners of such Option Bonds upon the exercise of any options provided to the owner of such Option Bonds or upon the mandatory tender thereof; provided, however, that if, at the time such a deposit is made, the options originally exercisable by the owner of an Option Bond are no longer exercisable or such Option Bonds are no longer subject to mandatory tender, such Option Bond will not be considered an Option Bond for purposes of this paragraph. If any portion of the moneys deposited for the payment of the principal of, and premium, if any, and interest on Option Bonds is not required for such purpose, the City may use the amount of such excess for lawful purposes relating to the Airport System free and clear of any trust, lien, security interest, pledge or assignment securing said Option Bonds or otherwise existing under the Senior Bond Ordinance.

This provision would be changed by the Proposed Amendments. See “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE.”

Modification of the Senior Bond Ordinance

The Senior Bond Ordinance may be amended or supplemented by a Supplemental Ordinance without the consent of or notice to the owners of Bonds as follows: (a) to authorize the issuance of Additional Parity Bonds and to specify and determine matters which are not contrary to or inconsistent with the Senior Bond Ordinance; (b) to cure defects in the Senior Bond Ordinance; (c) to grant any additional rights to the owners of Bonds, including, without limitation, the designation of a trustee; (d) to add covenants of the City; (e) to add limitations on the City; (f) to confirm any pledge of the Pledged Revenues or any other moneys; (g) to cause the Senior Bond Ordinance to comply with the Trust Indenture Act of 1939, as amended; and (h) to effect any other changes in the Senior Bond Ordinance which in the opinion of an attorney or firm of attorneys whose experience in matters relating to the issuance of obligations by states and their political subdivisions is nationally recognized, do not materially and prejudicially affect the rights of the owners of any Bonds.

The Senior Bond Ordinance also may be amended or supplemented by a Supplemental Ordinance adopted by the City upon the written consent of the owners of Bonds constituting more than 50% in aggregate principal amount of all Bonds then Outstanding and affected by the amendment or supplement. Notwithstanding, no such Supplemental Ordinance will have the effect of permitting without the consent of the owner of any Bond Outstanding so affected: (a) a change (other than as expressly provided for in the Supplemental Ordinance authorizing such Bond) in the maturity or in the terms of redemption of principal, or any installment of interest of any Outstanding Bond; (b) a reduction of the principal, interest rate or prior redemption premium of any Bond; (c) the creation of a lien upon or a pledge of revenues ranking prior to the lien or to the pledge created by the Senior Bond Ordinance; (d) a reduction of the principal amount or percentages of Bonds, the consent of the owners of which is required for any such amendment or modifications; (e) the establishment of priorities as between Outstanding Bonds; or (f) modifications materially and prejudicially affecting the rights of the owners of any Bonds then Outstanding.

This provision would be changed by the Proposed Amendments. See “APPENDIX E – PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE.”

Events of Default

The Senior Bond Ordinance provides that each of the following events is an “Event of Default”: (a) the City’s failure to pay when due the principal of any Bond, or any prior redemption premium in

connection therewith, or both, or any failure to pay any installment of interest after it is due and payable; (b) the City is rendered incapable of fulfilling its obligations under the Senior Bond Ordinance; (c) the City's failure to perform (or begin the performance of) all acts required of it under any contract relating to the Pledged Revenues, the Airport System, or otherwise, which failure continues for 60 days after notice of such failure; (d) the City discontinues, delays, or fails to carry out the repair, reconstruction or replacement of any material part of the Airport System (which, if not promptly repaired, would have a material adverse effect on the Pledged Revenues) which is destroyed or damaged; (e) an order or decree is entered with the City's consent appointing a receiver for the Airport System or the Pledged Revenues derived therefrom, or having been entered without the consent of the City, such order or decree is not vacated, discharged, or stayed on appeal within 60 days after entry; (f) the City defaults in the due and punctual performance of any other covenants, agreements, and provisions contained in any Bonds or in the Senior Bond Ordinance on its part to be performed, and such default has continued for 60 days after written notice specifying such default and requiring the same to be remedied has been given to the City by the owners of 10% in principal amount of all Bonds then Outstanding; (g) the City files a petition pertaining to its Airport System and seeking a composition of indebtedness under the Federal Bankruptcy Law, or under any other applicable law or statute of the United States of America or the State; and (h) such other Event of Default as is set forth in any Supplemental Ordinance; provided, however, that it will not be an Event of Default under clauses (c) or (f) if the Manager determines that corrective action has been instituted within the 60-day period and is being diligently pursued.

Remedies of Owners of Bonds

Upon the occurrence and continuance of any Event of Default (except as otherwise provided by Supplemental Ordinance with respect to Credit Enhanced Bonds), the owners of not less than 10% in principal amount of all Bonds then Outstanding may declare the principal and interest of the Bonds then outstanding due and immediately payable and proceed against the City to protect and enforce the rights of the owners of the Bonds issued under the Senior Bond Ordinance by suit, action, or special proceedings in equity, or at law, either for the appointment of a receiver or for the specific performance of any covenant or agreement contained in, or by any award of execution of any power granted in the Senior Bond Ordinance or for the enforcement of any proper legal or equitable remedy as such bond owners may deem most effectual to protect and enforce such rights, or for acceleration subject to the conditions of the Senior Bond Ordinance. No remedy specified in the Senior Bond Ordinance is intended to be exclusive of any other remedy, and each and every remedy is to be cumulative.

Upon the happening of an Event of Default, the City will perform all acts on behalf of the owners of the Bonds to protect the security created for the Bonds and to insure timely payment thereof. During the continuance of an Event of Default, subject to any limitations with respect to payment of Credit Enhanced Bonds, the City, after payment (but only out of moneys received other than pursuant to a draw on a Credit Facility) of the amounts required for reasonable and necessary Operation and Maintenance Expenses and for the reasonable renewals, repairs and replacements of the Airport System necessary in the judgment of the City to prevent a loss of Gross Revenues, will apply all moneys, securities and funds under the Senior Bond Ordinance, including, without limitation, Gross Revenues as an express trust for the owners of the Bonds and will apply the same toward the payment of principal of and interest on the Bonds in the order specified in the Senior Bond Ordinance.

Covenant Against Competing Facilities

Unless, in the opinion of an attorney or firm of attorneys of recognized standing, compliance with such covenant in a particular situation would violate federal or State antitrust laws, the City has covenanted that it will neither construct, affirmatively permit to be constructed, facilitate the construction or operation of, nor enter into any agreement permitting or otherwise facilitating the construction or operation of, other facilities to be operated by any person competing with the operation of the Airport in a

manner that would materially and adversely affect the City's ability to comply with the requirements of the rate maintenance covenant, but nothing in such covenant impairs the police power of the City, and nothing therein prevents the City from participating in a joint action agency, other regional entity or as a party to any intergovernmental agreement for the acquisition, operation and maintenance of airport facilities so long as provision has been made for the repayment of all Bond Requirements of all Outstanding Bonds or so long as such acquisition, operation and maintenance of such airport facilities, in the opinion of the Airport Consultant, will not materially and adversely affect the City's ability to comply with the requirements of the rate maintenance covenant of the Senior Bond Ordinance.

Corporate Existence

The City has covenanted that it will maintain its corporate identity and existence so long as any Bonds remain Outstanding, unless another body corporate and politic, by operation of law or by contract, succeeds to the duties, privileges, powers, liabilities, disabilities, immunities, and rights of the City with respect to the Airport System without, in an attorney's opinion, adversely and materially affecting the privileges and rights of any owner of any Outstanding Bond.

Disposal of Airport Property

The City has covenanted that, except in the normal course of business and except as otherwise provided below, neither all nor a substantial part of the Airport System will be sold, leased, mortgaged, pledged, encumbered, alienated, or otherwise disposed of until all Bonds have been paid in full, or unless provision has been made therefor. The City may, however, transfer all or a substantial part of the Airport System to another body corporate and politic (including without limitation, any successor of the City) which assumes the City's obligations with respect to the Airport System, wholly or in part, if in an attorney's opinion, the privileges and rights of any owner of any Outstanding Bonds are not materially and adversely affected. In the event of any such transfer and assumption, the City is not prevented from retaining any facility of the Airport if, in an attorney's opinion, such retention will not materially and adversely affect the privileges and rights of any owner of any Outstanding Bonds.

The City may execute (with certain limitations) leases, licenses, easements, or other agreements in connection with the operation of the Airport System.

The City may sell, exchange, lease, or otherwise dispose of, or exclude from the Airport System, any Facilities constituting a part of the Airport System which have, in the opinion of the Manager, ceased to be necessary for the efficient operation of the Airport System, or which have been replaced by other Facilities of at least equal value, except to the extent the City is prevented from so doing by any contractual limitation pertaining thereto. The net proceeds of the sale of any such Facilities are to be used for the purpose of replacing Facilities at the Airport System, or are to be paid into the Capital Fund.

Tax Covenant

The City has covenanted that it will not take (or omit to take) or permit or suffer any action to be taken if the result thereof would cause any Bonds to become arbitrage bonds within the meaning of Section 148 of the Tax Code, or to be "private activity bonds" within the meaning of Section 141 of the Tax Code. The City further has covenanted that it will not (a) make any use of the proceeds of any Bonds, any fund reasonably expected to be used to pay the principal of or interest on any Bonds, or any other funds of the City, (b) make any use of any Facilities, or (c) take (or omit to take) any other action with respect to any Bonds, if such use, action or omission would, under the Tax Code, cause the interest on any Bonds to be included in gross income for federal income tax purposes. Notwithstanding, the City may issue Bonds the interest on which is intended to be included in gross income for federal income tax purposes.

Miscellaneous

The City has agreed that it will maintain and keep the Facilities in a sanitary condition, in good repair, in working order, and free from obstructions. The City further has agreed to maintain and operate the Facilities in a manner suitable for air transport operations. The City will make any further assurances as may be necessary with respect to the pledge of Gross Revenues of the Airport System. The City will prevent any accumulation of claims for interest after maturity.

Series 2008A Supplemental Ordinance

The undertakings, covenants, agreements, obligations, warranties and representations of the City in the Senior Bond Ordinance in respect of the Series 2008A1-A4 Bonds are the undertakings, covenants, agreements, obligations, warranties and representations of the City, for and on behalf of the Department.

The Series 2008A Supplemental Ordinance provides that notwithstanding the provisions of the Senior Bond Ordinance, if the Series 2008A1-A4 Bonds are defeased while such Series 2008A1-A4 Bonds bear interest at a Variable Rate, the defeasance period is to end upon the first tender or redemption date for the Series 2008A1-A4 Bonds or the City receives written evidence from each Rating Agency then maintaining a rating on the Series 2008A1-A4 Bonds that the ratings on the Series 2008A1-A4 Bonds following such defeasance will not be withdrawn or reduced below the ratings on the Series 2008A1-A4 Bonds immediately prior to such defeasance. See “Defeasance” above.

The Series 2008A Supplemental Ordinance includes provisions required by the Bond Insurer, including, without limitation, the right of the Bond Insurer to consent to any amendment of the Senior Bond Ordinance affecting the Insured Bonds; the designation of the Bond Insurer as the sole holder of the Insured Bonds for purposes of events of default and remedies and consents or directions under the Senior Bond Ordinance (such as the right of the Bond Insurer to consent to the acceleration of the payment of the Insured Bonds in the event of a default); and the subrogation of the Bond Insurer to the rights of recipients of payments made by the Bond Insurer in respect of the Insured Bonds. See also “BOND INSURANCE.”

APPENDIX E

PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE

[This page intentionally left blank]

APPENDIX E

PROPOSED AMENDMENTS TO THE SENIOR BOND ORDINANCE

*The amendments to the Senior Bond Ordinance that have been proposed but not yet adopted are set forth below. These Proposed Amendments may become effective only upon adoption of a Supplemental Ordinance by the City Council. The City Council is under no obligation to adopt any of these Proposed Amendments, and no representation is made herein regarding which of the remaining Proposed Amendments, if any, may eventually be adopted. By purchase and acceptance of the Series 2008A1-A4 Bonds, the Owners and Beneficial Owners thereof are deemed to have consented to the adoption of the Proposed Amendments, either in whole or in part, substantially in the form set forth below and to the appointment of American National Bank as their agent with irrevocable instructions to file a written consent to that effect at the time and place and in the manner provided by the Senior Bond Ordinance. The purchasers of all Senior Bonds issued by the City in 2000 and thereafter have likewise been deemed to have consented to the Proposed Amendments. See also "SECURITY AND SOURCES OF PAYMENT – Proposed Amendments to the Senior Bond Ordinance." **The Proposed Amendments are shown in blackline.***

DEFINITIONS—Section 102 A.

The following definitions are to be amended to read as follows:

(8.1) "Balloon Maturities" means, with respect to any series of Bonds or other Obligations 50% or more of the aggregate principal amount (or stated face amount) of which is payable as a Bond Requirement in any Fiscal Year, that portion of that series which matures within that Fiscal Year. For purposes of this definition, the principal amount maturing on any date shall be reduced by the amount of those Bonds or other Obligations required to be redeemed or otherwise prepaid prior to their stated maturity date. Similar structures with respect to commercial paper, bond anticipation notes or other Short-Term/Demand Obligations shall not be Balloon Maturities for purposes of this Instrument.

(22.1) "Contract Obligations" means capital leases, installment purchase agreements, guaranty agreements, or other similar contracts, which are payable from all or any designated portion of the Net Revenues of the Airport System and secured under this Instrument. The term does not include (a) Bonds, Credit Facility Obligations, or Hedge Facility Obligations; or (b) obligations that may be treated as Operation and Maintenance Expenses under generally accepted accounting principles and obligations incurred and payable in full within a single Fiscal Year (whether or not such obligations may be so treated as Operation and Maintenance Expenses).

(47) "Minimum Bond Reserve" means (i) so long as any Bonds issued prior to August 1, 2000 are Outstanding, the maximum amount of Bond Requirements in any Fiscal Year, or portion thereof, during the period commencing on the date of such computation and ending on the last date on which any Bonds to which such Bond Requirements relate will be Outstanding, and (ii) if no Bonds issued prior to August 1, 2000 are Outstanding, an amount equal to the lesser of (A) the maximum amount of Bond Requirements in any Fiscal Year, or portion thereof, during the period commencing on the date of such computation and ending on the last date on which any Bonds to which such Bond Requirements relate will be Outstanding or (B) 125% of the average annual aggregate Bond Requirements on the

Bonds then Outstanding; provided that if no Bonds issued prior to August 1, 2000 remain Outstanding, the Minimum Bond Reserve may be reduced to the maximum amount which is permitted to be capitalized for such purpose from the proceeds of such Bonds under then current law in order to maintain the exclusion from gross income for federal income tax purposes of interest on such Bonds; and provided further that no Minimum Bond Reserve shall be required for any Short Term/Demand Obligations. With respect to any series of Bonds, ~~25%~~ **50%** or more of the aggregate principal amount (or stated face amount) of which is payable as a Bond Requirement in any Fiscal Year, if such principal (or stated face amount) is not required to be redeemed or prepaid prior to such date of payment, it shall be assumed for purposes of determining the Minimum Bond Reserve that ~~(i) such~~ **(x) such** series of Bonds matures over a ~~twenty~~ **thirty**-year term from its date of issuance, ~~(ii) bears~~ **(y) bears** interest at a rate determined by the Treasurer to be the rate on bonds of comparable term and credit under then existing market conditions, provided that the rate so determined shall not be less than the actual rate or rates borne by such series of Bonds, and ~~(iii) is~~ **(z) is** payable on a substantially level annual debt service basis assuming the rate so determined.

(50) “Net Rent Lease” means a lease **or license** of facilities relating to the Airport System or Special Facilities entered into by the City pursuant to which the lessee or licensee agrees to pay to the City rentals **or other payments** during the term thereof **for the use of certain facilities**, and to pay in addition all operation and maintenance expenses relating to ~~the leased~~ **such** facilities, including, without limitation, maintenance costs, insurance, and all property taxes and assessments now or hereafter lawfully levied.

(56.1) “Other Defeasance Securities” means any type of security or obligation, in addition to Federal Securities, that the Rating Agencies then maintaining ratings on any Bonds to be defeased have determined are permitted defeasance securities and qualify the Bonds to be defeased thereby for a rating in the highest category of, or are otherwise approved by, such Rating Agencies; provided that such security or obligation must be a permitted investment under the City’s investment policy as then in effect.

(58) The term “owner” or any similar term, when used in connection with any Bonds means the registered owner of any Bond or the owner of record as to any Bond issued in book entry form; **provided that with respect to any series of Bonds which is insured by a bond insurance policy, the term “owner” for purposes of all consents, directions, and notices provided for in this Instrument and any applicable Supplemental Ordinance, shall mean the issuer of such bond insurance policy so long as such policy issuer has not defaulted under its policy.**

(71.2) “Released Revenues” means revenues of the Airport System in respect of which the following have been filed with the Clerk:

(a) a certificate of the Manager describing such revenues and requesting that such revenues be excluded from the term Gross Revenues;

(b) either (i) an Independent Accountant’s certificate to the effect that Net Revenues in the two most recent completed Fiscal Years, after the revenues covered by the Manager’s request are excluded, were at least equal to the larger of (A) the amounts needed for making the required deposits to the credit of the several subaccounts in the Bond Fund, the Bond Reserve Fund, and the Operation and Maintenance Reserve Account, or (B) an amount not less than 135% of the average Debt Service Requirements for each Fiscal Year during the remaining term of all Bonds that will remain Outstanding after the exclusion of such revenues; or (ii) an

Airport Consultant's certificate containing the estimates required by Section 704B, to the effect that, based upon reasonable assumptions, projected Net Revenues for each of the three full Fiscal Years following the Fiscal Year in which such certificate is delivered, after the revenues covered by the Manager's certificate are excluded, will not be less than the larger of (A) the amounts needed for making the required deposits to the credit of the several subaccounts in the Bond Fund, the Bond Reserve Fund, and the Operation and Maintenance Reserve Account, or (B) an amount not less than 150% of the average Debt Service Requirements for each Fiscal Year during the remaining term of all Bonds that will remain Outstanding after the exclusion of such revenues;

(c) an opinion of Bond Counsel to the effect that the exclusion of such revenues from the definition of Gross Revenues and from the pledge and lien of this Instrument will not, in and of itself, cause the interest on any outstanding Bonds to be included in gross income for purposes of federal income tax; and

(d) written confirmation from each of the Rating Agencies to the effect that the exclusion of such revenues from the pledge and lien of this Instrument will not cause a withdrawal or reduction in any unenhanced rating then assigned to the Bonds.

Upon filing of such documents, the revenues described in the Manager's certificate shall no longer be included in Gross Revenues and shall be excluded from the pledge and lien of this Instrument.

(74.1) "Short-Term/Demand Obligations" means each series of Bonds issued pursuant to this Instrument, (a) the payment of principal of which is either (i) payable on demand by or at the option of the owner at a time sooner than a date on which such principal is deemed to be payable for purposes of computing Debt Service Requirements, or (ii) scheduled to be payable within one year from the date of issuance and is contemplated to be refinanced for a specified period or term either (A) through the issuance of additional Short-Term/Demand Obligations pursuant to a commercial paper or other similar program, or (B) through the issuance of long-term Bonds pursuant to a bond anticipation note or similar program, and (b) the purchase price, payment or refinancing of which is additionally secured by a Credit Facility.

(77) "Special Facilities" means facilities relating to or used in connection with the Airport System, the cost of which is financed with the proceeds of Special Facilities Bonds issued pursuant to art. VIII hereof. The Cost of any Special Facilities may include the types of costs included herein under the definition of "Cost," and may also include indirect costs for improvements to other parts of the Airport System or public utilities and other infrastructure not owned by the City that the Manager deems necessary and desirable in connection with such Special Facilities.

The following new subparagraphs (e), (f), and (g) are to be added to the definition of "Debt Service Requirements":

(e) The Debt Service Requirements of any series of Bonds (other than Bonds that mature within one year of the date of issuance thereof) or other Obligations all or a portion of which constitutes a Balloon Maturity shall, unless otherwise provided in the Supplemental Ordinance pursuant to which such Bonds are authorized, be calculated by assuming that principal and interest on such

Balloon Maturity is to be amortized over a 30-year period, beginning on the date of issuance or incurrence, assuming level debt service payable in each year at a rate of interest equal to the actual rate of interest of such Balloon Maturity on the date of calculation, provided that if the date of calculation is within 12 months of the final due date of such Balloon Maturity, the full amount of principal to become due shall be included in the calculation unless provision (g) of this definition then applies to such maturity.

(f) If all or any portion of an outstanding series of Bonds constitutes Short-Term/Demand Obligations, then, for purposes of determining Debt Service Requirements, each maturity that constitutes Short-Term/Demand Obligations shall, unless otherwise provided in the Supplemental Ordinance pursuant to which such Bonds are authorized, be treated as if it were to be amortized over a term of not more than 30 years and with substantially level annual debt service funding payments commencing not later than the year following the year in which such Short-Term/Demand Obligations were issued, and extending not later than 30 years from the date such Short-Term/Demand Obligations were originally issued; the interest rate used for such computation shall be that rate quoted in The Bond Buyer 25 Revenue Bond Index for the last week of the month preceding the date of calculation as published by *The Bond Buyer*, or if that index is no longer published, another similar index designated by the Manager, taking into consideration whether such Bonds bear interest which is or is not excluded from gross income for federal income tax purposes; with respect to any series of Bonds only a portion of which constitutes Short-Term/Demand Obligations, the remaining portion shall be assumed to be paid in accordance with any amortization schedule established by the Supplemental Ordinance setting forth the terms of such Bonds or shall be treated as described in such other provision of this definition as shall be applicable.

(g) Any maturity of Bonds that constitutes a Balloon Maturity as described in provision (e) of this definition and for which the stated maturity date occurs within 12 months from the date such calculation of Debt Service Requirements is made, shall be assumed to become due and payable on the stated maturity date, and provision (e) above shall not apply thereto, unless the Treasurer shall file a certificate with the Clerk stating (i) that the City intends to refinance such maturity, (ii) the probable terms of such refinancing and (iii) that City has the financial ability to successfully complete such refinancing; upon the receipt of such certificate, such Balloon Maturity shall be assumed to be refinanced in accordance with the probable terms set out in such certificate and such terms shall be used for purposes of calculating Debt Service Requirements; provided that such assumption shall not result in an interest rate lower than that which would be assumed under provision (e) above and shall be amortized over a term of not more than 30 years from the expected date of refinancing.

The following new subparagraph (i) is to be added to the definition of “Gross Revenues”:

(i) Any Released Revenues in respect of which there have been filed with the Clerk a Manager’s certificate, an Airport Consultant’s certificate, and an opinion of Bond Counsel and the other documents contemplated in the definition of “Released Revenues.”

OTHER PROVISIONS

The last paragraph of Section 603 (Deposit and Investment of Moneys) is to be amended to read as follows:

Moneys held in the Bond Fund, Capitalized Interest Account and the Bond Reserve Fund shall not be invested and reinvested in any obligations of the City included within the definition of Investment Securities. Investments of money in the Bond Reserve Fund shall mature not later than ~~ten years from the date of investment, and in no event later than~~ the final fixed maturity date of Bonds the payment of which is secured thereby. For purposes of any such investment or reinvestment, Investment Securities shall be deemed to mature at the earliest date on which the obligor **or a third party** is, on demand, obligated to pay a fixed sum in discharge of the whole of such obligations. In scheduling each such investment or reinvestment, the Treasurer may rely upon estimates of appropriate officers or employees of the City.

A new Section 709 is to be added as follows:

Section 709. Contract Obligations.

The City or the City for and on behalf of the Department may incur Contract Obligations for any Improvement Project or Refunding Project. Such Contract Obligations shall be incurred pursuant to a Supplemental Ordinance, which (i) may pledge all or any designated portion of the Net Revenues to the payment of such Contract Obligations; (ii) shall provide the terms and conditions of such Contract Obligations; (iii) shall provide for the payment of such Contract Obligations; and (iv) may provide for such other matters as the Manager and the City shall determine. Prior to the incurrence of any Contract Obligations there shall be filed with the Clerk the certificates, opinions and reports described in subsections B and C of Section 704 hereof; provided that for the purposes of such certificates, opinions and reports Contract Obligations shall be treated, as nearly as practicable, as Bonds.

A new Section 806 is to be added as follows:

Section 806. Loan Agreements for Special Facilities Bonds.

In connection with Special Facilities to be used by one or more persons, in lieu of a Net Rent Lease the City may also enter into a loan or financing agreement under which the user or users of the Special Facilities agree to pay all expenses of operation and maintenance and to make payments sufficient to pay the principal of, interest on, and any redemption premium due in connection with Special Facilities Bonds to be issued by the City to finance such Special Facilities. Except for ground rentals or payments in lieu of ground rentals to be received by the City, all or part of the payments to be made under such loan or financing agreement may be assigned by the City to secure the payment of Special Facilities Bonds issued by the City to finance such Special Facilities.

The last paragraph of Section 1101 (Defeasance) is to be amended to read as follows:

For all purposes of this section, the term "Federal Securities" shall be deemed to include those Investment Securities described in (but subject to the limitations of) § 102A(44) (b)(i) hereof **and Other Defeasance Securities.**

A new Section 1106 is to be added as follows:

Section 1106. Notice to Rating Agencies.

The Treasurer shall provide or cause to be provided to each of the Rating Agencies a copy of each notice given to owners of the Bonds, such notices to be sent to the address of each Rating Agency as filed with the Treasurer.

Paragraph (F) of Section 1303 (Amendments) is to be amended to read as follows:

F. Prejudicial Modification. ~~Modifications~~ **Other modifications** materially and prejudicially affecting the rights of the owners of ~~any~~ **some (but not all)** Bonds then Outstanding.

OTHER CHANGES

The General Bond Ordinance may be changed in other respects as necessary to implement the foregoing amendments and integrate them into the existing text of the Ordinance.

* * *

APPENDIX F

DTC BOOK-ENTRY SYSTEM

[This page intentionally left blank]

APPENDIX F

DTC BOOK-ENTRY SYSTEM

The information in this appendix concerning DTC and DTC's book-entry system has been obtained from DTC and contains statements that are believed to describe accurately DTC, the method of effecting book-entry transfers of securities distributed through DTC and certain related matters, but neither the City nor the Department takes any responsibility for the accuracy or completeness of such statements. Beneficial Owners should confirm the following information with DTC or the DTC Participants.

None of the City, the Department, the Paying Agent, the Registrar or the Underwriters has any responsibility or obligation to any Beneficial Owner with respect to (1) the accuracy of any records maintained by DTC or any DTC Participant, (2) the distribution by DTC or any DTC Participant of any notice that is permitted or required to be given to the Owners of the Series 2008A1-A4 Bonds under the Senior Bond Ordinance, (3) the payment by DTC or any DTC Participant of any amount received under the Senior Bond Ordinance with respect to the Series 2008A1-A4 Bonds, (4) any consent given or other action taken by DTC or its nominee as the Owner of the Series 2008A1-A4 Bonds or (5) any other related matter.

DTC will act as securities depository for the Series 2008A1-A4 Bonds. The Series 2008A1-A4 Bonds will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Series 2008A1-A4 Bond certificate will be issued for each maturity of each Subseries of the Series 2008A1-A4 Bonds, in the aggregate principal amount of such maturity of such Subseries, and will be deposited with DTC.

DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934, as amended. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments from over 100 countries that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has S&P's highest rating: "AAA." The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org. The City undertakes no responsibility for and makes no representations as to the accuracy or the completeness of the content of such material contained on such websites as described in the preceding sentence, including, but not limited to, updates of such information or links to other internet sites accessed through the aforementioned websites.

Purchases of Series 2008A1-A4 Bonds under the DTC system must be made by or through Direct Participants, which will receive a credit for the Series 2008A1-A4 Bonds on DTC's records. The ownership interest of each Beneficial Owner is in turn recorded on the records of Direct and Indirect Participants. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Series 2008A1-A4 Bonds are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in the Series 2008A1-A4 Bonds except in the event that use of the book-entry system for the Series 2008A1-A4 Bonds is discontinued.

To facilitate subsequent transfers, all Series 2008A1-A4 Bonds deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Series 2008A1-A4 Bonds with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Series 2008A1-A4 Bonds; DTC's records reflect only the identity of the Direct Participants to whose accounts such Series 2008A1-A4 Bonds are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. Beneficial Owners of Series 2008A1-A4 Bonds may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Series 2008A1-A4 Bonds, such as redemptions, tenders, defaults and proposed amendments to the Senior Bond Ordinance. For example, Beneficial Owners of Series 2008A1-A4 Bonds may wish to ascertain that the nominee holding the Series 2008A1-A4 Bonds for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the Registrar and request that copies of the notices be provided directly to them.

Redemption notices will be sent to DTC. If less than all of the Series 2008A1-A4 Bonds within a maturity of a Subseries are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such maturity to be redeemed.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the Series 2008A1-A4 Bonds unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to the City as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the Series 2008A1-A4 Bonds are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Payments with respect to the Series 2008A1-A4 Bonds will be made to Cede & Co. or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from the City or the Paying Agent on the payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participants and not of DTC, the Paying Agent or the City, subject to any statutory or regulatory requirements as may be in effect from time to time. Payments with respect to the Series 2008A1-A4 Bonds to Cede & Co., or to such other nominee as

may be requested by an authorized representative of DTC, is the responsibility of the City or the Paying Agent, disbursement of such payments to Direct Participants is the responsibility of DTC and disbursement of such payments to the Beneficial Owners is the responsibility of Direct and Indirect Participants.

The requirement for physical delivery of Subseries 2008A2-A4 Term Rate Bonds in connection with a mandatory purchase will be deemed satisfied when the ownership rights in such Subseries 2008A2-A4 Term Rate Bonds are transferred by Direct Participants on DTC's records and followed by a book-entry credit of tendered Subseries 2008A2-A4 Term Rate Bonds to the Remarketing Agent's DTC account.

DTC may discontinue providing its services as securities depository with respect to a Subseries of the Series 2008A1-A4 Bonds at any time by giving reasonable notice to the City or the Paying Agent. Under such circumstances, in the event that a successor securities depository is not obtained, Series 2008A1-A4 Bond certificates representing such Subseries of the Series 2008A1-A4 Bonds are required to be printed and delivered as provided in the Senior Bond Ordinance.

The City may at any time decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository) with respect to a Subseries of the Series 2008A1-A4 Bonds. In that event, Series 2008A1-A4 Bond certificates representing such Subseries of the Series 2008A1-A4 Bonds will be printed and delivered to DTC.

[This page intentionally left blank]

APPENDIX G

FORM OF CONTINUING DISCLOSURE UNDERTAKING

THIS CONTINUING DISCLOSURE UNDERTAKING (this “**Disclosure Undertaking**”) is executed and delivered by the CITY AND COUNTY OF DENVER, COLORADO (the “**City**”), in connection with the issuance of the “City and County of Denver, Colorado, for and on behalf of its Department of Aviation, Airport System Revenue Bonds, Series 2008A1-A4,” in four subseries in the aggregate principal amount of \$608,840,000 (the “**Bonds**”), by the City, for and on behalf of its Department of Aviation (the “**Department**”). The Bonds are being issued pursuant to Ordinance No. 626, Series of 1984, as heretofore amended and supplemented and as further supplemented by Ordinance No. 179, Series of 2008, adopted by the City Council of the City on April 7, 2008 (collectively, the “**Ordinance**”).

In consideration of the purchase of the Bonds by the Participating Underwriters (as defined below), the City covenants and agrees as follows:

Section 1. Definitions. The definitions set forth in the Ordinance apply to any capitalized term used in this Disclosure Undertaking unless otherwise defined in this Section. As used in this Disclosure Undertaking, the following capitalized terms shall have the following meanings:

“*Annual Financial Information*” means the financial information or operating data with respect to the City, the Airport System and any Obligated Person, delivered at least annually pursuant to Section 2 hereof, substantially similar to the type set forth in the Official Statement as described in Schedule 1 hereto. Annual Financial Information may, but is not required to, include Audited Financial Statements and may be provided in any format deemed convenient by the City.

“*Audited Financial Statements*” means the annual financial statements for the Airport System, prepared in accordance with generally accepted accounting principles as in effect from time to time, audited by a firm of certified public accountants.

“*Bondowner*” or “*Owner of the Bonds*” means the registered owner of the Bonds, and so long as the Bonds are required to be registered through the Securities Depository in accordance with the Ordinance, any beneficial owner of Bonds on the records of said Securities Depository or its participants, or any person who, through any contract, arrangement or otherwise, has or shares investment power with respect to the Bonds, which includes the power to dispose, or direct the disposition, of the Bonds identified to the satisfaction of the City.

“*Central Post Office*” means Disclosure USA, a website accessible at www.disclosureusa.org or any other national central repository authorized by the Commission for continuing disclosure filings by issuers of municipal securities pursuant to the Rule.

“*Commission*” means the Securities and Exchange Commission.

“*Events*” means any of the events listed in Section 3(a) of this Disclosure Undertaking.

“*MSRB*” means the Municipal Securities Rulemaking Board. The current address of the MSRB is 1900 Duke Street, Suite 600, Alexandria, Virginia 22314; telephone (703) 797-6600; fax (703) 797-6700.

“*National Repository*” means all of the Nationally Recognized Municipal Securities Information Repositories designated by the Commission pursuant to the Rule and currently listed on the Internet on the following website: www.sec.gov/info/municipal/nrmsir.htm.

“*Obligated Person*” means the City, for and on behalf of the Department, and each airline or other entity using the Airport System under a lease or use agreement extending for more than one year from the date in question and including bond debt service as part of the calculation of rates and charges, under which lease or use agreement such airline or other entity has paid amounts equal to at least 20% of the Gross Revenues of the Airport System for the prior two Fiscal Years of the City.

“*Official Statement*” means the final Official Statement dated April 11, 2008, together with any supplements thereto prior to the date the Series 2008A1-A4 Bonds are issued, delivered in connection with the original issue and sale of the Series 2008A1-A4 Bonds.

“*Participating Underwriters*” has the meaning given thereto under the Rule, or any successors to such Underwriters known to the Treasurer.

“*Repository*” or “*Repositories*” means each National Repository and the State Repository.

“*Rule*” means Rule 15c2-12 adopted by the Commission under the Securities Exchange Act of 1934, as the same may be amended from time to time.

“*State Repository*” shall mean the public or private repository or entity, if any, designated by the State of Colorado as a state information depository for purposes of the Rule. As of the date of this Disclosure Undertaking, there is no State Repository for the State of Colorado.

“*Treasurer*” means the Manager of Finance of the Department of Finance, *ex officio* Treasurer of the City, or his or her designee, and successor in functions, if any.

Section 2. Provision of Annual Financial Information.

(a) Commencing with respect to the Fiscal Year ended December 31, 2008, and each Fiscal Year thereafter while the Bonds remain outstanding under the Ordinance, the Treasurer shall provide or cause to be provided to the Repositories or the Central Post Office, Annual Financial Information and Audited Financial Statements with respect to the City and the Airport System. No such provision of any Annual Financial Information shall be deemed an official act of the City without the approval of the Treasurer.

(b) Such Annual Financial Information with respect to the Airport System shall be provided not later than 270 days after the end of each Fiscal Year. If not provided as a part of the Annual Financial Information, the Audited Financial Statements with respect to the Airport System will be provided when available, but in no event later than 270 days after the end of each Fiscal Year.

(c) The Treasurer may provide or cause to be provided Annual Financial Information and Audited Financial Statements with respect to the City and the Airport System by specific cross-reference to other documents which have been submitted to the Repositories or the Central Post Office or filed with the Commission. If the document so referenced is a final official statement within the meaning of the Rule such final official statement must be available from the MSRB. The Treasurer shall clearly identify each such other document provided by cross reference.

(d) The City acknowledges that United Airlines (“**United**”), which includes itself, its low-fare Ted unit and its United Express commuter affiliates, is the only Obligated Person other than the City, at present, that is required by federal law to file Annual Financial Information with the Commission. The City and the Treasurer take no responsibility for the accuracy or completeness of such filings by United or by any future Obligated Person. Unless no longer required by the Rule to do so, the City and the Treasurer agree to use their reasonable best efforts to cause United (to the extent United is not otherwise required under federal law to do so), and any future Obligated Person, to make Annual Financial

Information available as contemplated by this Section 2. Any change in Obligated Persons shall be reported by the Treasurer in connection with the Annual Financial Information.

Section 3. Reporting of Events.

(a) This Section 3 shall govern the giving of notices of the occurrence of any of the following Events with respect to the Bonds, if material:

- (i) principal and interest payment delinquencies;
- (ii) nonpayment related defaults;
- (iii) unscheduled draws on the Bond Reserve Fund created by the Ordinance or any surety bond relating thereto reflecting financial difficulties;
- (iv) unscheduled draws on any credit enhancement relating to the Bonds reflecting financial difficulties;
- (v) substitution of credit or liquidity providers, or their failure to perform;
- (vi) adverse tax opinions or other event affecting the tax exempt status of the Bonds;
- (vii) modifications to rights of the owners of the Bonds;
- (viii) notice of optional or unscheduled redemption of any Bonds;
- (ix) defeasance of the Bonds or any portion thereof;
- (x) release, substitution or sale of property securing repayment of the Bonds; and
- (xi) rating changes.

(b) Whenever the Treasurer obtains knowledge of the occurrence of an Event, the Treasurer shall as soon as possible determine if such Event would constitute material information for owners of Bonds, provided, that any Event under subsection (a)(viii), (ix) or (xi) will always be deemed to be material.

(c) If the Treasurer determines that knowledge of the occurrence of an Event would be material information for owners of Bonds, the Treasurer shall file or cause to be filed, in a timely manner, a notice of such occurrence with the MSRB and either the Central Post Office or the Repositories, and no such notice shall be deemed an official notice from the City without the approval of the Treasurer. Notwithstanding the foregoing, notice of Events described in subsections (a)(viii) and (ix) need not be given under this subsection any earlier than the notice (if any) of the underlying event is given to owners of affected Bonds pursuant to the Ordinance.

(d) At any time the Bonds are outstanding under the Ordinance, the Treasurer shall provide or cause to be provided, in a timely manner, to the MSRB and either the Central Post Office or the Repositories, notice of any failure of the City to timely provide the Annual Financial Information and Audited Financial Statements as specified in Section 2 hereof. No such notice shall be deemed an official notice from the City without the approval of the Treasurer.

Section 4. Term. This Disclosure Undertaking shall be in effect from and after the issuance and delivery of the Bonds and shall extend to the earlier of (a) the date all principal and interest on the Bonds shall have been deemed paid pursuant to the terms of the Ordinance; (b) the date that the City or the Department shall no longer constitute an “obligated person” with respect to the Bonds within the meaning

of the Rule; and (c) the date on which those portions of the Rule which require this Disclosure Undertaking are determined to be invalid by a court of competent jurisdiction in a non-appealable action, have been repealed retroactively or otherwise do not apply to the Bonds, which determination shall be evidenced by an Attorney's Opinion selected by the City, a copy of which opinion shall be given to the Underwriter. The Treasurer shall file or cause to be filed a notice of any such termination with the MSRB and either the Repositories or the Central Post Office.

Section 5. Amendment; Waiver. Notwithstanding any other provision of this Disclosure Undertaking, the City may amend this Disclosure Undertaking, and any provision of this Disclosure Undertaking may be waived, (a) if such amendment occurs prior to the actual original issuance and delivery of the Bonds and Goldman Sachs & Co., as representative of the Participating Underwriters consents thereto, (b) if such amendment shall take effect upon the mandatory purchase of all of the Bonds pursuant to the Ordinance, and each Remarketing Agent that is a Participating Underwriter consents thereto, (c) if such amendment is consented to by the owners of no less than a majority in aggregate principal amount of the Bonds obtained in the manner prescribed by the Ordinance, or (d) if such amendment or waiver is otherwise required by the Rule or permitted by the Rule without Bondowner consent. Written notice of any such amendment or waiver shall be provided by the Treasurer to either the Repositories or the Central Post Office and the MSRB, and the Annual Financial Information shall explain the reasons for the amendment and the impact of any change in the type of information being provided.

Section 6. Additional Information. Nothing in this Disclosure Undertaking shall be deemed to prevent the City from disseminating any other information, using the means of dissemination set forth in this Disclosure Undertaking or any other means of communication, or including any other annual information or notice of occurrence of an event which is not an Event, in addition to that which is required by this Disclosure Undertaking; provided that the City shall not be required to do so. No such information shall be deemed an official notice from the City without the approval of the Treasurer. If the City chooses to include any information or notice of occurrence of an event in addition to that which is specifically required by this Disclosure Undertaking, the City shall have no obligation under this Disclosure Undertaking to update such information or notice or include its disclosure in any future annual filing or notice of occurrence of an Event.

Section 7. Default and Enforcement. If the City or the Treasurer fail to comply with any provision of this Disclosure Undertaking, any Bondowner may take action in the District Court for the Second Judicial District of the State of Colorado to seek specific performance by court order to compel the City or the Treasurer to comply with its obligations under this Disclosure Undertaking; provided that any Bondowner seeking to require compliance with this Disclosure Undertaking shall first provide to the Treasurer at least 30 days' prior written notice of the City's or the Treasurer's failure, giving reasonable details of such failure, following which notice the City and the Treasurer shall have 30 days to comply. A default under this Disclosure Undertaking shall not be deemed an Event of Default under the Ordinance or the Bonds, and the sole remedy under this Disclosure Undertaking in the event of any failure of the City or the Treasurer to comply with this Disclosure Undertaking shall be an action to compel performance.

Section 8. Beneficiaries. This Disclosure Undertaking shall inure solely to the benefit of the City, the Participating Underwriters and Owners from time to time of the Bonds, and shall create no rights in any other person or entity.

FORM OF OPINION OF BOND COUNSEL

Hogan & Hartson LLP
and
Bookhardt & O’Toole
Denver, Colorado

[Issue Date]

City and County of Denver, Colorado
for and on behalf of its Department of Aviation
City and County Building
Denver, Colorado 80202

Goldman, Sachs & Co.
as Representative of the Series 2008A1-A4 Underwriters
listed in Schedule 1 of the Series 2008A1-A4 Bond Purchase Agreement
85 Broad Street, 24th Floor
New York, NY 10004

**City and County of Denver, Colorado
for and on behalf of its Department of Aviation
Airport System Revenue Bonds
Series 2008A1-A4 - \$608,840,000**

Ladies and Gentlemen:

We have acted as bond counsel to the City and County of Denver, Colorado (the “City”), in connection with the City’s issuance, for and on behalf of its Department of Aviation (the “Department”), of \$608,840,000 principal amount of the “City and County of Denver, Colorado, for and on behalf of its Department of Aviation, Airport System Revenue Bonds, Series 2008A1-A4” (the “Series 2008A1-A4 Bonds”) pursuant to Ordinance No. 626, Series of 1984, as supplemented and amended by certain supplemental ordinances, including Ordinance No. 179, Series of 2008 (collectively, the “Ordinance”). All capitalized terms used and not defined herein shall have the same meanings set forth in the Ordinance.

The Series 2008A1-A4 Bonds are being issued as fully registered bonds and are dated the date of purchase and issuance. The Series 2008A1-A4 Bonds mature, bear interest, are payable and are subject to redemption, prior to maturity, in the manner and upon the terms set forth therein and in the Ordinance.

We have examined the law and such certified proceedings and other instruments as we deem necessary to form an appropriate basis for us to render this opinion, including, without limitation, Article XX of the Colorado Constitution, the Supplemental Public Securities Act, title 11, article 57, part 2, Colorado Revised Statutes, as amended (the “Supplemental Public Securities Act”), the Charter of the City, Ordinance No. 755, Series of 1993, designating the Department as an “enterprise” within the meaning of Section 20, Article X of the Colorado Constitution, the resolution of the Manager of the Department authorizing, approving, and requesting the issuance of the Series 2008A1-A4 Bonds, a certified transcript of the record of proceedings of the City Council of the City taken preliminary to and in the authorization of the Series 2008A1-A4 Bonds, the forms of the Series 2008A1-A4 Bonds, the report of the Airport

Consultant dated April 14, 2008, and certificates of officers of the City (specifically including a tax certificate and a pricing certificate) and of others delivered in connection with the issuance of the Series 2008A1-A4 Bonds.

We have not been engaged and have not undertaken to review the accuracy, completeness or sufficiency of the Official Statement or other offering material relating to the Series 2008A1-A4 Bonds, and we express no opinion herein relating to such matters. As to questions of fact material to our opinion, we have relied upon the representations of the City and other parties contained in the Ordinance, certified proceedings, reports, certificates and other instruments (and have assumed the genuineness of signatures, the legal capacity of all natural persons, the accuracy, completeness and authenticity of original documents and the conformity with original documents of copies submitted to us) without undertaking to verify the same by independent investigation.

Based on the foregoing, it is our opinion that, as of the date hereof and under existing law:

1. The City validly exists as a body corporate and politic and political subdivision of the State of Colorado (the "State"), with the power to adopt the Ordinance and issue the Series 2008A1-A4 Bonds for and on behalf of the Department.

2. The Ordinance has been duly adopted by the City and constitutes a valid and binding obligation of the City, for and on behalf of the Department, enforceable against the City in accordance with its terms.

3. The Series 2008A1-A4 Bonds have been duly authorized, executed and delivered by the City, for and on behalf of the Department, and are valid and binding special obligations of the City, for and on behalf of the Department, payable solely from the sources provided therefor in the Ordinance.

4. The Ordinance creates, pursuant to the home rule powers of the City under Article XX of the Colorado Constitution and the Supplemental Public Securities Act, an irrevocable and first lien (but not necessarily an exclusive lien) on the Net Revenues of the Airport System for the benefit of the Series 2008A1-A4 Bonds, on a parity with the lien thereon of Bonds (and any Obligations in respect thereof) heretofore or hereafter issued by the City, or by the City, for and on behalf of the Department.

5. The interest on the Series 2008A1-A4 Bonds is excluded from gross income for federal income tax purposes, except for any period during which such Series 2008A1-A4 Bonds are held by a person who is a "substantial user" of the Airport System or a "related person," as those terms are used in Section 147(a) of the Internal Revenue Code of 1986, as amended (the "Code"). It should be noted, however, that interest on the Series 2008A1-A4 Bonds will be treated as an item of tax preference in calculating the federal alternative minimum tax liability imposed on individuals, trusts, estates and corporations. The opinions set forth in the first sentence of this paragraph assume compliance by the City with certain requirements of the Code, that must be met subsequent to the issuance of the Series 2008A1-A4 Bonds in order that the interest thereon be, or continue to be, excluded from gross income for federal income tax purposes. The City has covenanted to comply with such requirements of the Code. Failure to comply with such requirements could cause the interest on the Series 2008A1-A4 Bonds to be includable in gross income for federal income tax purposes retroactive to the date of issuance of the Series 2008A1-A4 Bonds. We express no opinion herein regarding other federal tax consequences arising with respect to the Series 2008A1-A4 Bonds.

6. To the extent interest on the Series 2008A1-A4 Bonds is excluded from gross income for federal income tax purposes, such interest is not subject to income taxation by the State. We express no opinion regarding other State or local tax consequences arising with respect to the Series 2008A1-A4

Bonds, including whether interest on the Series 2008A1-A4 Bonds is exempt from taxation under the laws of any jurisdiction other than the State.

It is to be understood that the rights of the owners of the Series 2008A1-A4 Bonds and the enforceability of the Series 2008A1-A4 Bonds and the Ordinance may be subject to and limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted; and may also be subject to and limited by the exercise of judicial discretion, procedural and other defenses based on particular factual circumstances and equitable principles in appropriate cases, to the reasonable exercise by the State and its governmental bodies of the police power inherent in the sovereignty of the State, and to the exercise by the United States of powers delegated to it by the United States Constitution; and while certain remedies and other provisions of the Ordinance are subject to the aforesaid exceptions and limitations and, therefore, may not be enforceable in accordance with their respective terms, such unenforceability would not preclude the enforcement of the obligations of the City, for and on behalf of the Department, to pay the principal of, and premium, if any, and interest on, the Series 2008A1-A4 Bonds from the Net Revenues of the Airport System.

We assume no obligation to advise you of any changes in the foregoing subsequent to the delivery of this opinion.

We are advised that Financial Security Assurance Inc. has issued a financial guaranty insurance policy relating to the Series 2008A1 Bonds maturing on November 15, 2014 and the Series 2008A3 Bonds. We express no opinion as to the validity or enforceability of such financial guaranty insurance policy, the protections afforded thereby, or any other matters pertaining thereto.

Respectfully submitted,

* * *

APPENDIX I

SPECIMEN MUNICIPAL BOND INSURANCE POLICY

[This page intentionally left blank]

**FINANCIAL
SECURITY
ASSURANCE®**

MUNICIPAL BOND INSURANCE POLICY

ISSUER:

Policy No.: -N

BONDS:

Effective Date:

Premium: \$

FINANCIAL SECURITY ASSURANCE INC. ("Financial Security"), for consideration received, hereby UNCONDITIONALLY AND IRREVOCABLY agrees to pay to the trustee (the "Trustee") or paying agent (the "Paying Agent") (as set forth in the documentation providing for the issuance of and securing the Bonds) for the Bonds, for the benefit of the Owners or, at the election of Financial Security, directly to each Owner, subject only to the terms of this Policy (which includes each endorsement hereto), that portion of the principal of and interest on the Bonds that shall become Due for Payment but shall be unpaid by reason of Nonpayment by the Issuer.

On the later of the day on which such principal and interest becomes Due for Payment or the Business Day next following the Business Day on which Financial Security shall have received Notice of Nonpayment, Financial Security will disburse to or for the benefit of each Owner of a Bond the face amount of principal of and interest on the Bond that is then Due for Payment but is then unpaid by reason of Nonpayment by the Issuer, but only upon receipt by Financial Security, in a form reasonably satisfactory to it, of (a) evidence of the Owner's right to receive payment of the principal or interest then Due for Payment and (b) evidence, including any appropriate instruments of assignment, that all of the Owner's rights with respect to payment of such principal or interest that is Due for Payment shall thereupon vest in Financial Security. A Notice of Nonpayment will be deemed received on a given Business Day if it is received prior to 1:00 p.m. (New York time) on such Business Day; otherwise, it will be deemed received on the next Business Day. If any Notice of Nonpayment received by Financial Security is incomplete, it shall be deemed not to have been received by Financial Security for purposes of the preceding sentence and Financial Security shall promptly so advise the Trustee, Paying Agent or Owner, as appropriate, who may submit an amended Notice of Nonpayment. Upon disbursement in respect of a Bond, Financial Security shall become the owner of the Bond, any appurtenant coupon to the Bond or right to receipt of payment of principal of or interest on the Bond and shall be fully subrogated to the rights of the Owner, including the Owner's right to receive payments under the Bond, to the extent of any payment by Financial Security hereunder. Payment by Financial Security to the Trustee or Paying Agent for the benefit of the Owners shall, to the extent thereof, discharge the obligation of Financial Security under this Policy.

Except to the extent expressly modified by an endorsement hereto, the following terms shall have the meanings specified for all purposes of this Policy. "Business Day" means any day other than (a) a Saturday or Sunday or (b) a day on which banking institutions in the State of New York or the Insurer's Fiscal Agent are authorized or required by law or executive order to remain closed. "Due for Payment" means (a) when referring to the principal of a Bond, payable on the stated maturity date thereof or the date on which the same shall have been duly called for mandatory sinking fund redemption and does not refer to any earlier date on which payment is due by reason of call for redemption (other than by mandatory sinking fund redemption), acceleration or other advancement of maturity unless Financial Security shall elect, in its sole discretion, to pay such principal due upon such acceleration together with any accrued interest to the date of acceleration and (b) when referring to interest on a Bond, payable on the stated date for payment of interest. "Nonpayment" means, in respect of a Bond, the failure of the Issuer to have provided sufficient funds to the Trustee or, if there is no Trustee, to the Paying Agent for payment in full of all principal and interest that is Due for Payment on such Bond. "Nonpayment" shall also include, in respect of a Bond, any payment of principal or interest that is Due for Payment

made to an Owner by or on behalf of the Issuer which has been recovered from such Owner pursuant to the United States Bankruptcy Code by a trustee in bankruptcy in accordance with a final, nonappealable order of a court having competent jurisdiction. "Notice" means telephonic or telecopied notice, subsequently confirmed in a signed writing, or written notice by registered or certified mail, from an Owner, the Trustee or the Paying Agent to Financial Security which notice shall specify (a) the person or entity making the claim, (b) the Policy Number, (c) the claimed amount and (d) the date such claimed amount became Due for Payment. "Owner" means, in respect of a Bond, the person or entity who, at the time of Nonpayment, is entitled under the terms of such Bond to payment thereof, except that "Owner" shall not include the Issuer or any person or entity whose direct or indirect obligation constitutes the underlying security for the Bonds.

Financial Security may appoint a fiscal agent (the "Insurer's Fiscal Agent") for purposes of this Policy by giving written notice to the Trustee and the Paying Agent specifying the name and notice address of the Insurer's Fiscal Agent. From and after the date of receipt of such notice by the Trustee and the Paying Agent, (a) copies of all notices required to be delivered to Financial Security pursuant to this Policy shall be simultaneously delivered to the Insurer's Fiscal Agent and to Financial Security and shall not be deemed received until received by both and (b) all payments required to be made by Financial Security under this Policy may be made directly by Financial Security or by the Insurer's Fiscal Agent on behalf of Financial Security. The Insurer's Fiscal Agent is the agent of Financial Security only and the Insurer's Fiscal Agent shall in no event be liable to any Owner for any act of the Insurer's Fiscal Agent or any failure of Financial Security to deposit or cause to be deposited sufficient funds to make payments due under this Policy.

To the fullest extent permitted by applicable law, Financial Security agrees not to assert, and hereby waives, only for the benefit of each Owner, all rights (whether by counterclaim, setoff or otherwise) and defenses (including without limitation, the defense of fraud), whether acquired by subrogation, assignment or otherwise, to the extent that such rights and defenses may be available to Financial Security to avoid payment of its obligations under this Policy in accordance with the express provisions of this Policy.

This Policy sets forth in full the undertaking of Financial Security, and shall not be modified, altered or affected by any other agreement or instrument, including any modification or amendment thereto. Except to the extent expressly modified by an endorsement hereto, (a) any premium paid in respect of this Policy is nonrefundable for any reason whatsoever, including payment, or provision being made for payment, of the Bonds prior to maturity and (b) this Policy may not be canceled or revoked. THIS POLICY IS NOT COVERED BY THE PROPERTY/CASUALTY INSURANCE SECURITY FUND SPECIFIED IN ARTICLE 76 OF THE NEW YORK INSURANCE LAW.

In witness whereof, FINANCIAL SECURITY ASSURANCE INC. has caused this Policy to be executed on its behalf by its Authorized Officer.
