RSW TERMINAL EXPANSION PROJECTS ADVISORY #5: LANE REDUCTIONS ON UPPER LEVEL ROADWAY

As part of the work for the Concourse E Project at Southwest Florida International Airport (RSW), there will be lane reductions on the upper level/departures roadway.

Starting **Friday, June 13, 2025**, drivers will see lanes merging into a single lane on the upper level/departures roadway at the west end of the terminal building near Doors 5 and 6. We ask drivers to slow down, use caution and follow road signs when driving in front of the terminal building.

The Lee County Port Authority will continue to post updates on the airport's [website](#) and [Facebook](#) to help travelers and airport users become aware of changes due to construction. We appreciate your understanding as we increase capacity, airport efficiency and provide passengers with more amenities and options at Southwest Florida International Airport.
