LEE COUNTY PORT AUTHORITY TO HOLD AIRPORT INDUSTRY DAY

The Lee County Port Authority (LCPA) is hosting an Industry Day on Monday, June 15, 2026, from 1 p.m. to 5 p.m. at Florida SouthWestern State College in Fort Myers, Fla. This event will be an opportunity for contractors, consultants, subcontractors and other airport industry professionals to learn more about upcoming airport projects at Southwest Florida International Airport (RSW) and Page Field (FMY).

Industry Day 2026 will focus on the airports' Capital Improvement Program; status of existing projects at RSW and FMY; near-term project opportunities; project delivery methods being used by LCPA; project procurement processes; and Lee County Permitting Office processes. There will also be an opportunity for attendees to network with each other, the Lee County Port Authority and Lee County permitting staff.

The Lee County Port Authority has a \$1.6 billion Capital Improvement Program. There are multiple expansion projects underway at both airports to meet the future demand for air transportation in Southwest Florida.

In 2025, Southwest Florida International Airport served more than 11.1 million passengers and Page Field, the general aviation airport, accommodated more than 160,000 aircraft operations.

For more information, [see flyer](#). If your company is interested in attending, please [register](#) by Wednesday, June 10, 2026.
