A Note from Jay & James Re: This Bonus Research Report

Hey there! Jay Boyer here -- and on behalf of myself and James Jones I just want to say "congratulations" once again for your investment in the 7 Figure Cycle! You've made a really wise decision, because this is a massively powerful business model, and you couldn't have better mentors to help you monetize this Amazon selling system than you do in Aidan, Steve, Todd, and Chris and their team.

As part our "Red Pill" Bonus Package, in this document you'll find the first 25 products that we've personally researched & vetted for you using the Profit Hunter software and 7 Figure Cycle methodology. As our subscribers, this special report is "for your eyes only" – needless to say we would greatly appreciate it if you do not share it with anybody else. In the coming weeks, we'll be delivering a total of 200 "done-for-you" products just like this every Monday on the bonus page where you found this PDF, so be sure to check there every week for the newest batch.

For you information, the products that you'll find in this report were all found using the Profit Hunter software, however the ones that we've included here represent the *least* competitive and *most* profitable opportunities that we've discovered out of the available Profit Hunter results at the time that we wrote this report. They have been carefully selected using very specific criterion to help ensure that you have the best possible chance for success, and save you great time in your own research.

Of course, the product data that you'll find in this report is simply a "snapshot in time" from when we originally researched these products, and as a result the Bestseller Ranking that you see when you click through the links to these products in the Amazon marketplace will almost certainly be slightly different than the data included here. Also, there may be more or less competing FBA sellers shown at that time, and therefore your estimated sales and profits numbers may be different as well. As a result, please check the "real time" data for these products before you make a decision whether to sell them or not, because those numbers may be slightly different than what you'll find in this report.

Here's the criterion that used to qualify these products:

- Profit margin at least \$1.00 per unit
- Wholesale cost is < \$50.00 per unit
- Estimated earnings at least \$100.00 profit per month

Important: please watch the 7 Figure Cycle Week 3 Live Training before purchasing any inventory to sell on Amazon. And finally, please don't rely upon this research and the products

listed in this report *exclusively* when you're deciding what products to sell. As Aidan and the 7 Figure Cycle team mentioned on the Week 2 Live Training, we recommend that you reach out and find your own local product suppliers, and upload their new product databases to the Profit Hunter software in order to find brand new & trending products that you can profit from.

Take care and happy selling!

~ Jay & James
