A NIGHT AT THE MOVIES - Broadway and Disney

By Peri Sualp ...

I am so excited as we are in preparation for a new concert - A NIGHT AT THE MOVIES. It will be a musical concert where all the songs are a collection from Broadway and Disney musicals or movies.

I will be performing with two time Grammy nominee, gorgeous Demetra George Mustafaoğlu who is my tutor and mentor and the fascinating countertenor Nuri Harun Ates when every time we have a concert, I get to learn something new from him. My favourite accompanist, super talented pianist Onder Cebeci will be accompanying us with his magical fingers. Last but not least, amazing dancer Evgenia Zhilskaya will add extra movement and colour to our stage with her perfect dances.

We have had concerts together before but each time we improve our show with more costumes and props and stage decorations. We have changed many things and added many new songs. I can't wait for the day of our

performance as I already feel ready to take our audience to the fantasy world we are preparing for them. There will be the story of the characters who never grow old and live in Neverland until we call on them to share their stories with us. In this magical show, Peter Pan and Tinkerbell will mesmerise you. Maria from The Sound of Music will charm you with her songs. Courageous Pocahontas and spiritual Mary Poppins will glamorize you. And many more.. I don't want to give away everything as I don't want to spoil the fascination of the concert.

In between rehearsals we also went to TV channels upon invitation. Last week we did a show with Nese Egemen for 'Neseli Saatler' for Genc TV which will be on air on 24th April at 15.30 and we were at 'A Cup of Conversation' show at Can Gazi's studio at BRT which will be on air 21st April at 12.00noon. Both were so lively and up tempo. Can Gazi was our guest star in our previous concert at Bellapais Abbey as our genie. He might surprise you once again in our upcoming concert.

Above all the excitement and joy of this coming concert, what pleases me most is the aim of the concert. "A Night At The Movies" will be held for the benefit of "Kemal Saraçoğlu Foundation For Children With Leukemia and Fight Against Cancer". Being a child, I feel privileged to have the chance to help children who are fighting this terrible illness. I am

to sit at the front or on the stage with the performers and be interactive. This will be an event which children as well as adults will enjoy. Our tickets are on sale in Deniz Plaza both in Lefkosa and Girne for 35TL. Seats and tickets are limited so if you don't want to miss this night, hurry and get yours.

giving up many things, especially from my school and lessons to prepare this concert and so are the other members of the show, therefore I believe it is not too much to ask people to come and support us by purchasing a ticket and helping the children with leukemia.

The concert will be on 28th April at 20:00pm at the Ataturk Kultur Merkezi (AKM) Lefkosa (behind the Turkish Embassy). We have treats and drinks for children and wine for adults before the concert between 19:00-20:00. Children who come early in costumes will have a chance

Hope to see you on the night of the event. I'll be there.....

No settlement while current isolation continues

Deputy Prime Minister and Minister of Foreign Affairs Kudret Özersay has participated in the “23rd Council of Ministers Meeting” of the Economic Cooperation Organization (ECO), at which the TRNC is an observer member under the title of ‘Turkish Cypriot State’. The meeting has been organised in Dushanbe, the capital of Tajikistan.

In his speech at the meeting, Özersay outlined the TRNC’s stance on various issues. He emphasised the importance of the relationship between the Turkish Cypriot State, an observer member since 2012, and the ECO, reiterating that this current membership represents a concrete step towards resolving the unjust isolation imposed on the Turkish Cypriot people.

Foreign Minister Özersay underlined that Turkish Cypriots are exposed to numerous constraints in all areas, ranging from travel restrictions for those holding TRNC passports, to representation in international organizations, as well as restrictions in the areas of trade, education, culture, art, and sports. Stating that this situation encourages the Greek Cypriot side’s uncompromising stance on any potential settlement, Özersay said that the Greek Cypriots move further away from sharing power and wealth with the Turkish Cypriots with each day that the isolation continues.

Özersay stated that the TRNC is ready to work together with the ECO and its member states in order to take concrete steps to

remove the restrictions which prevent Turkish Cypriots from becoming a part of the international community.

Özersay asked for solidarity and support from the ECO member

states and emphasized the importance of the participation of the member states in the four different ECO events, which will be organized in the TRNC.

Turkish Foreign Ministry reacts strongly to EU report

The Turkish Foreign Ministry has stated that the report prepared by the European Commission on Turkey is neither objective, nor balanced.

In a written statement, the Ministry responded firmly to the

European Commission’s 2018 Turkey Country Report and said :

“Statements with regard to the Cyprus issue within the report is nothing beyond repeating the EU’s already known views based on wrong premises on the Cyprus

issue. These expressions reflect the attitude of the Greek Cypriots which is the basic reason for the failure of the negotiation process and it sets yet another example of the exploitation by the Greek Cypriots of EU membership in its efforts for deadlock.

The fact that the EU insists on this unilateral and distorted understanding reveals that it not only lacks strategical evaluation about the Eastern Mediterranean but also that it does not have the capacity to develop a long-term vision for the region.”

In his written statement; the European Union Minister and Chief Negotiator Ömer Çelik said:

"The EU has almost been captured by the Greek Cypriot side”.

Çelik added: "As we have clearly stated, the Greek Cypriot Administration’s continued unilateral hydrocarbon exploration in Turkey’s continental shelf, which the TRNC has a right to as part of the Exclusive Economic Zone, is out of the question.”

Training of TRNC Environmental Officers

Training of Investigation Officers in cooperation with the TRNC Ministry of Tourism and Environment and the General Directorate of Police has been completed.

The 23 Environmental Officers, who have been trained in the relevant legislation, will be able to prepare files and bring them to court, as well as punish environmental polluters. Tourism and Environment Minister Fikri Ataoğlu and Police General Manager Süleyman Manavoglu presented certificates to the Environmental Department staff who successfully completed the training.

The Minister of Tourism and Environment Fikri Ataoğlu said that as a result of the training which took place in conjunction with the Ministry and the PGM, the Environmental Department personnel started to investigate the people who did not pay the penalties and to prepare the files and to bring them to the prosecutor's office and the court. As a result of the course, Ataoğlu stated that the knowledge of the staff of the Environment Department had improved and they will continue to work to create awareness about the environment.

Minister Ataoğlu said that he wanted

to make environmental controls more comprehensive in cooperation with the police and local government by making necessary changes in the environment and stressed that not only institutions or organizations, but all people, are responsible to ensure a clean environment.

Ataoğlu underlined that the prevention of pollution, the protection of nature and the awareness of the public are the priorities for leaving a good

environment for future generations, and expressed the belief that these steps will increase the sensitivity to the environment.

At the certificate ceremony General Director of Police Süleyman Manavoglu stated that the Environment Department gave the Investigation Officer Basic Training Course for 23 personnel and all the participants completed the course successfully.

Manavoglu: The training period was for one week and the course covered - Environmental Law, the Law on Civil Rights, the Code of Criminal Procedures, as well as file construction and evaluation issues. Manavoglu also stated that the course was extremely useful and that his teammates would become more conscious of doing their tasks properly.

Coordination between agencies in preventing crime and coordination of administrators is extremely important. "People who commit crimes against an educated and determined government official will always have to step back," he said.

Mr. Manavoglu also gave his thanks to the Personnel staff of the Environment Department who participated in the course and the police officers who carried out the training.

Cultural promotion : An indispensable part of foreign policy

Tourism and Environment Minister Fikri Ataoğlu accompanied President Mustafa Akinci at the 21st Eurasian Economic Summit in Istanbul.

The Minister attended the opening of the TRNC stand by the Ministry of Tourism and Environment in the congress at which more than 500 government representatives, academicians and business people from more than 40 countries participated.

He said "Cultural promotion activities in an international area, the

image in the world is very important in terms of its prestige and therefore the effectiveness of the foreign policy that is targeted".

Ataoğlu underlined that it is important for promotional activities to be coordinated and collaborated with a specific strategy and with all related institutions and organizations, and said that cultural promotion is an integral part of foreign policy.

President Akinci : Everyone wants peace and stability

President Mustafa Akinci stated that everyone wants peace and stability on the island of Cyprus, and that no one wants the next generations to face the same difficulties as before. Akinci also added that the resources of the island are enough for all its residents, and that everyone can benefit fairly from the island's blessings.

Speaking about his social dinner with the Greek Cypriot leader Nikos Anastasiades following a hiatus of nearly 10-months on 16

April, President Akinci said that he had evaluated the latest situation and exchanged views with the leaders of the political parties represented at the TRNC Assembly.

Emphasizing that it is very important for the two sides in Cyprus to understand each other, to find common ground, and to imagine a common future with a common vision, which Akinci noted can only be achieved by trying to understand one another through dialogue.

President Akinci: “No new situation on Cyprus issue”

President Mustafa Akinci has said that nothing new was discussed at the informal leaders' meeting yesterday evening (16th April).

President Mustafa Akinci and the Greek Cypriot leader Nikos Anastasiades met last night for an informal dinner for the first time since the talks collapsed in Crans Montana in July 2017.

In his statement following the meeting, President Mustafa Akinci underlined that the sides were still at the same point as they were in Crans Montana and added that he did not observe any obvious change in the stance of the Greek

Cypriot side. Akinci said that this first meeting between the two leaders following a break of almost ten-months was intended to help them better understand each other's points of view.

Pointing out that an historical opportunity had been missed at Crans Montana President Akinci said: “I want to underline, in order to avoid any misunderstandings, that nothing can be the same as before. This is impossible. Both sides have to learn lessons from the Crans Montana process and take these into consideration in the future.”

Stating that he had brought up the issue of natural gas at the meeting, Akinci added that he also warned about future steps, and stressed that the issue of natural gas concerns both sides. Akinci proposed that a committee needs to be set up on this

issue, and if this cannot be done, then the Greek Cypriot side should suspend their activities. If this is impossible, he said, the Turkish Cypriot side will be forced to embark on similar activities with Turkey.

President Mustafa Akinci also stated that ahead of the leaders' meeting he had requested information from the Greek Cypriot side regarding the Aplıç and Derinya crossing points and he was informed that the Greek Cypriot work on the Aplıç crossing point will be completed on September 15th, and that the Derinya crossing point will be ready on July 1st.

Customs duty removed on goods to Greek Cypriots and Maronites

The customs duty imposed on goods sent to Greek Cypriots and Maronites living in the TRNC by the Greek Cypriot administration has been removed.

In accordance with the TRNC Council of Ministers' decision dated 13 April 2018, supplies, which are provided by the Greek Cypriot administration and delivered by the United Nations

Peacekeeping Force in Cyprus (UNFICYP) to Greek Cypriots and Maronites residing in the TRNC, are exempt from customs duty.

This is under the presumption that these commodities are for personal use only.

Under no circumstances can these supplies transported to the TRNC, be sold or used for any commercial

activity.

In such a case, both the vendor and the purchaser will be penalized according to the TRNC's relevant laws and regulations.

The CyprusScene.com award to Richard Beale

By Chris Elliott....

We are trying hard to publish on our website and in our Enewspaper news and reviews that are of interest firstly to our island community and also to a worldwide readership which has an interest in our Jewel of an island in the Mediterranean.

With this in mind Margaret Sheard and I were delighted to meet with a great friend and colleague, Richard Beale, at Hati's Cafe in Esentepe and we went on to present to him with an award at his local football ground in recognition

for his hard work in promoting local football in general and also his home village team, Esentepe KKSK.

Richard's warmth and enthusiasm for his new homeland and all of the people around him is very infectious and is it any surprise that he also entertains so many people through his Sport Quizzes in our Enewspaper and long may it continue.

Thank you Richard you are a Star Reporter and Contributor.

World Art Day celebrations at the TRNC Presidential Palace

By Demetra George Mustafaoglu...

I attended a celebration of World Arts Day with my husband Mehmet at the TRNC Presidential Palace on Sunday 15th April, which was a lovely night replete with delicious meze and drinks and entertainment by the Presidential Symphony Orchestra and surprise guest Zülfü Livaneli, singer, poet, author and politician who was asked to say a few words by President Akinci.

Zülfü Livaneli spoke about freedom and Cyprus and the air was sweet and the symphony orchestra even sweeter as they have turned into a group that even breathes together under Mustafa Kofali and Maestro Ali Hoca.

We met musicians and artists from the South and made new friends and even ran into our superbly talented cousin Fugen Erkoru who just completed a magnificent display of her handmade artwork at the Ceramic Art Exhibition at the Ismet Güney Art Centre.

Wow, how fast time has passed

By Ahmet Abdulaziz

Frequently it happens that we feel that time is not passing, almost stopped or passing very slowly, and we get fed up and say it out loudly. But the truth is that time never slows down or stops, it does not even increase its pace. It continues passing unnoticed, just like calm water. We do not feel it physically, but ultimately we find that it has passed. Then we say that the time has passed.

But in fact when we try to look back, we see that much time has passed, and we are galloping onwards everyday, with all of the present changing into the past.

I just recalled that it was the year 1968 when I first started learning to use a typewriter. For years and years I worked on typewriters, and then from there moved to computers. 50 years have passed since then.

Looking back it was the year 1966 when a new art teacher taught our class how to paint on a glass. For years I continued painting on glasses, and left no glass unpainted in our house. 52 years have passed.

I must have been 3 or 4 years old, when playing in front of our house, I went away on my own, unnoticed by the other children I was playing with, and lost my way. Someone had found me, and brought me back home, by which time my mother

and grandmother had started rushing out in the area, shouting for me. My father had run to the police station. That had happened some 59 years ago.

It was the year 1969 when my father had sent me to a local drummer to learn to play drums. Since then for years I played on drums, forming an amateur group of my own with friends, and played in private functions. 49 years have passed since then.

It was the year 1969 when my father had sent me to a local drummer to learn to play drums. Since then for years I played on drums, forming an amateur group of my own with friends, and played in private functions. 49 years have passed since then.

At the age of 11 I had broken my front tooth, when playing cricket, after the wooden bails had hit me in mouth. I was the wicket keeper. 51 years have passed since I left playing cricket

At the age of 17 I broke my arm twice, while playing hockey. (I wanted to be a member of the national hockey team), and I left playing hockey. 45 years have passed since that time.

At the age of 26 I participated in my first long distance (6 km) race, and finished last. 36 years have passed.

My first Letter to the Editor (Daily DAWN) was published in the year 1975 or perhaps it was 1976. Since then 42 years have passed.

My first article was published in THE TEENAGER magazine in 1976. 42 years have passed since then.

My father had taught me how to draw a portrait. I was in middle school then. About 52 years have since passed.

It was the year 1985 when the first exhibition of my paintings was held at the Arts Council of Pakistan. Since then 33 years have passed.

In the year 1972 I boarded an airplane for the first time. 46 years have passed.

I visited Istanbul in December 1972, and took the most serious

decision of my life, to leave my home country and to settle in Istanbul. However ultimately I settled in the TRNC, and not in Istanbul, but I am still in love with Istanbul. For the last 46 years my love for Istanbul is still as fresh as it was on the first day.

In 1991 I left my home country for good and landed in the TRNC. 26 years have passed.

The list is too long to be written. There are too many important milestones in my life, like everyone else. But I think the above list is sufficient to prove that time has passed too quickly. The time has passed, and is continuing passing, with the same speed. Tomorrow, looking back, we will again say that the time has passed with great speed. But in fact it does not change its speed.

Crispy Squid Çatalköy has moved and has now re-opened

By Chris Elliott....

Way back in February 2015 we were blessed with the arrival of a great fish and chip shop called Crispy Squid in Çatalköy and I can well remember a group of us that used to meet there on a regular basis for scrumptious meals.

Time moved on and we still go there when we can get an evening away from the publishing desk and we are not disappointed with what Pekin Odaci and his father Umit continue to serve to tantalise our palates.

larger location on the other side of the main road and this boasts a large indoor dining area with a bar where you can sit and enjoy a drink and they are looking at expanding the menu choice as well so there are more surprises to come I guess.

We have called by in the past few days and seen family and friends moving equipment from the old Crispy Squid to their new restaurant and I called by today (20th April) to be greeted by that famous smile from Pekin and his Dad who said "we made it and will be opening tonight".

On recent visits we learned that they were moving to a new and

If we finish our CyprusScene.com Enewspaper publishing in time, we

To tempt you to visit the new Crispy Squid we are showing below a few pictures of all of the hard work involved to make the new Crispy Squid ready to greet you.

The Foreign Residents in the TRNC (TFR) visit Salamis

It was good to see that despite the day starting with appalling weather last Tuesday 10th April that The Foreign Residents in the TRNC (TFR) had a fascinating and enjoyable visit to Salamis where they were guided by their Chairman Willy Lindh and this is a summary of their trip received from the TFR Events Manager, Pamela Tschersich.

In the words of Lee Childs fiction hero Jack Reacher, we set off from Karsiyaka Square 'hoping for the best and planning for the worst' with contingent plans already in the making, for making the best of a much looked forward trip to South Salamis!

The usual stunning scenery on the way there was shrouded in low cloud as rain continued to drizzle, but with lots of very determined upbeat TFR members armed with cagoules, brollies and sturdy footwear we were set to have a great day no matter what the elements threw at us.....Fear not, the sun shines on the righteous!!!

Cagoules on and generally looking like a 'plonker' we posed for photos with much laughter without caring what we looked like !!!!

The sun came out to accompany our Chairman Willy Lindh, transporting us back in time, giving us as usual a very interesting insight to the history of how it was on this island so many years ago. For most of us I think we had not seen this side before, plus there is more to see, but time was running out, decisions were taken and we proceeded to the coach to make our way to Famagusta to enjoy food and beverages at our chosen restaurants. The journey home complete with sunshine treated us to the usual stunning scenery we have learned to enjoy living on this beautiful island. The same trip is being repeated on Tuesday, 17th April, as it proved to be so successful.

Pam

Trevor's Tips for April 2018

By Trevor Hughes..

Change of Ownership Details on your vehicle Log Book.

If you have followed the correct procedure when privately selling your motor vehicle, the log book must have the new owner's name entered on it within 7 days from the date entered on the Tr 2 form.

The 7 day period includes Saturday and Sunday and any Bayram holidays which occur during this 7 day period.

Failure to meet this 7 day period, for each and every day after the date registered on the Tr 2 form, the buyer will be fined 70TL per day. This is over and above the fee charged to enter the new owner's name on the log book.

If for whatever reason, you cannot meet the 7 day deadline, to avoid being fined, you will need to complete a new Tr 2 form and the seller of the vehicle to go to their Muhtar and

Now this could prove problematic if the previous owner has left the island for good.

You, the seller, are not required to go to the Vehicle Registration Office in Lefkoşa with the new owner, but it may be wise to go with him/her to ensure the log book is registered in his/her name.

There have been instances where this procedure has not been followed and you, the original owner, will accumulate all the road traffic offences and fines, because the car is still officially registered in your name. Don't leave anything to chance!!

Car/Vehicle Insurance

Capital Bank are making available to their customers a policy discount of up to 80% for insurance when making financial investments with them.

Because of the current TL to Sterling exchange rate, several of our customers are enjoying third party costs of £55.00 (depending on their type of vehicle/ engine size).

They are also insuring vehicles on a fully comprehensive basis up to the age of 20 years old from the model year entered on the inside of the log book (koçan).

Classic registered vehicles can benefit

service, unlike most other insurance companies.

These are just a few of the additional benefits available to you as a Capital Insurance Customer.

Why not pop into our office in Alsancak or call 0533 844 3403 – 0533 825 6753 and see for yourself just how you could benefit from insuring your prized possessions with peace of mind. Their insurance policies for cars and houses cover more than most of their competitors.

If you have a Capital Bank Account, you can also pay by standing order installments over a 6 month period at no extra cost to you. This will help you to get on enjoying life here, which is why Northern Cyprus is your chosen place to retire. On Wednesday night 28th April, the Lapta area and surrounding districts experienced torrential rain and gusts of wind in excess of 100 mph, causing several properties to suffer storm damage.

Storm Damage

On Wednesday 28th March a customer reported damage, and within 20 minutes an assessment officer was at the damaged property, within a further 40 minutes a builder to assess the damage was also there and a further 20 minutes on two members of Capital Insurance claims department also attended. Damage assessed and the claim was

repair to commence was given.

All carried out with minimum fuss, now that's what I call service.

Number Plates

Sparkes Yapi Market on the main road in Lapta, can now produce number plates with the new blue flash at a cost of only 80TL per pair, which is cheaper than the vast amount of outlets providing this service.

Travel Insurance

If you purchase travel insurance from a Turkish agent and intend flying from Larnaca, if when making a claim, please ensure you obtain an In's and Out's record and hand it over with your claim evidence, otherwise your claim will get delayed.

- To obtain a record of your In' and Out's.
- Go to the main police station in Girne and collect the application slip, for completion.
- Ensure you have your passport with you for police inspection.
- Take with you a postage stamp to the value of 13.5 TL. [the cheaper option]

Creditwest Bank introduce the "LOCAL PAY" payment system

We receive a lot of very interesting and informative news and we are sharing with our readers news from Creditwest Bank of the introduction of the ground breaking new "LOCAL PAY" payment system which you can read about below.

THE VERY FIRST NEW GENERATION PAYMENT SYSTEM OF NORTHERN CYPRUS, LOCAL PAY BY CREDITWEST BANK!

ENJOY SHOPPING WITH LOCAL PAY, EVEN IF YOU DON'T HAVE CASH OR CREDIT CARD!

Local Pay is a new generation payment system customized for its customers by Creditwest Bank, which enables fast, easy and secure shopping through the application on the mobile phones, even if they don't have cash or credit card! Local Pay is the very first mobile payment system of Northern Cyprus developed by Creditwest Bank software engineers.

The launching event of Local Pay application was held on Friday, April 6, 2018, with a press meeting at the Golden Tulip Hotel, Nicosia. Local Pay member enterprises, press and Creditwest Bank authorities and

representatives attended the event.

Nusret Altınbaş, Chairman of the Board of Directors of Creditwest Bank; Mazher Zaheer, General Manager of Creditwest Bank; İbrahim Turgut, Deputy General Manager responsible for Information Systems; Gizem Olgu, Information Systems Software Manager; Oğuz Somuncuoğlu, Information Systems Software Specialist gave presentations and speeches at the press meeting of Local Pay technology which was introduced with a demonstration.

Şerife Komut, Alternative Distribution Channels Expert explained the system in her presentation and demonstrated a real-time payment.

EARN POINTS WHILE SPENDING!

DOWNLOAD THE APPLICATION AND START USING IT UNTIL JUNE AND EARN LOCAL POINTS!

Local Pay application downloaded via Appstore and Google Play, enables fast and easy payments from TL or foreign currency accounts of Creditwest Bank customers during shopping. There are nearly 200 stores including grocery stores, restaurants, flower shops, electronic shops, DIY stores, petrol stations and hairdressers in the payment system from different regions of Northern

Cyprus and there are no additional charges for customers or enterprises for the payment activity. Member businesses are increasing day by day and establishing the very first mobile payment ecosystem in Northern Cyprus.

In addition, customers earn Local points while spending and can spend their accumulated points as money. Until June, users who download and use Local Pay application will be given 50 TL worth of

points.

MAZHER ZAHEER: PAYMENT TRENDS WILL COMPLETELY CHANGE AND DIGITAL PURSES WILL BECOME PREVALENT

Mazher Zaheer, General Manager of Creditwest Bank, stated in his opening speech that two years ago Creditwest Bank set significant goals towards its Digital Banking mission to become a leader and has developed many products and applications, and made a significant progress.

Zaheer stated that in the near future, mobile payment systems will change the payment trends and habits completely and that digital purses will become widespread and will lead to a cash-free structure in a long-term

Mazher Zaheer, General Manager of Creditwest Bank, said that their aim is to expand this digital ecosystem in Cyprus, contribute to the economy of the country and become a software exporting country in the future. Zaheer, also explained that they are expecting support from the society and from all sectors.

GİZEM OLGU: WE WILL CONTINUE WITH NEW APPLICATIONS WHICH WILL MAKE LIFE EASIER FOR OUR CUSTOMERS

Gizem Olgu, Information Systems Software Manager of Creditwest Bank, stated that as the Information Technologies team, which consists of 13 people and 3 different sub-teams, they started their digital banking activities 2 years ago that was tailored according to the needs of the Cypriot people.

Olgu stated that, while designing the application, they focused on developing a user-friendly and secure application, and added that all transactions are under bank security and they do security tests to the application on a regular basis

NUSRET ALTINBAŞ: WE WILL CONTINUE TO INVEST IN TECHNOLOGY AND HUMAN RESOURCES IN LINE WITH THIS VISION AND TRANSFER NEW TRENDS IN GLOBAL TECHNOLOGY TO CYPRUS

Nusret Altınbaş, Chairman of Board of Directors of Creditwest Bank, stated that the demand for financial technologies in developing countries is increasing day by day and that they will continue to invest in technology as a pioneer bank to offer innovative solutions to banking in Cyprus. Altınbaş stated that the importance of digital channels is increasing day by day in countries like ours where youth population is high. He added that "The interest of young people in new products makes innovation in banking inevitable."

Nusret Altınbaş, Chairman of the Board of Directors of Creditwest Bank, added they will continue in the future to make life easier for Creditwest Bank customers by providing innovative solutions and non-spatial, easy, secure and fast banking services.

Nusret Altınbaş finalised his words as "With these innovations, we aim to officially link Cyprus to the World in terms of banking. We will continue to invest in technology and human resources in line with this vision in order to transfer new trends in global technology to Cyprus"..

Cyprus Tour with Martin Bell and Julia Berg

By Margaret Sheard ...

In the past I had some email contact with Martin Bell following my review of his book "The End of Empire" which recalled his time as a British national serviceman in Cyprus with the Suffolk Regiment.

Many people of the older generation will remember Martin who was fondly nicknamed "The Man in the White Suit". Having spent his British national service in Cyprus, he went on to join the BBC and in the following 30 years he covered 11 conflicts and reported from 80 countries, being remembered for reports from countries such as Vietnam, the Middle East, Nigeria, Angola and Northern Ireland during the troubles there. He was the BBC's Washington correspondent from 1978 to 1989.

Martin received the OBE in 1992 and that same year he reported on the war in Bosnia. In the 1990's Martin decided to change direction and moved into politics which continued for the next few years.

In 2001 he was appointed UNICEF UK Ambassador for Humanitarian

Emergencies, for children caught up in conflicts or natural disasters.

He has also found time to write several books along the way.

Martin, together with his friend Julia Berg of Prestige Holidays, had organised a tour of Cyprus with a group of people who had previous associations with Cyprus and as I had never met him personally I was delighted when he invited Chris and myself to join him and the group on 18th April at the Colony Hotel in Kyrenia where they were staying during their tour of the north of the island.

We met at the Colony and had a chat before other members of the group started to enter the dining room for dinner and we then enjoyed a nice meal from the very substantial buffet before going to the 4th floor where Martin was to give a talk about Cyprus and his time here. He had arranged for me to sit beside him to answer any present time questions from the group. I am glad to say that there weren't too many!

It was a very interesting talk, ranging from the history of the island to the

Emergency and the present day situation. Martin told us he was a Corporal in the Suffolk Regiment during the Cyprus emergency between 1957 and 1959. Many years later he found more than 100 letters in a chocolate box in the attic that he had sent home to his family, which gave a vivid impression of what it was like to be a conscript on active service during the EOKA rebellion against British rule. He described road blocks and cordons and searches, murders and explosions and riots and a strategy of armed repression. It was these letters and the memories contained in them

that prompted Martin to write his book The End of Empire. Many of the group had Martin's book which he had signed for them.

Martin spoke of the violent process of decolonization, of the character of the British Army at the time and the impact of National Service on young men who were not much more than 'kids in uniform', and the use of force in the insurgency and the campaign to defeat it and of how Britain tried to crush a violent rebellion sixty years ago and ultimately failed.

Cyprus Tour with Martin Bell and Julia Berg

Julia was present to ensure everything was going smoothly during the talk, as well as coordinating each day's tour for the group. She seemed to have everything very well organised, although she was having very long days.

The tour group arrived on Sunday 15th April and had visited Nicosia and Famagusta as well as having time in Kyrenia. There were 23 people who had joined Martin and Julia on the tour and they seemed to be enjoying what they had seen so far. They may have felt as Martin did when he said, having not visited the island for 60 years, he had just spent his saddest days in the sun where he did not recognise anything and even place names had changed. The general feeling of the group was that the

towns were being spoiled by over development and they were also amazed at the amount of traffic, especially in and around the Kyrenia area. As many of the group were in their late 70's or into their 80's, their recollections of Cyprus were so different from today.

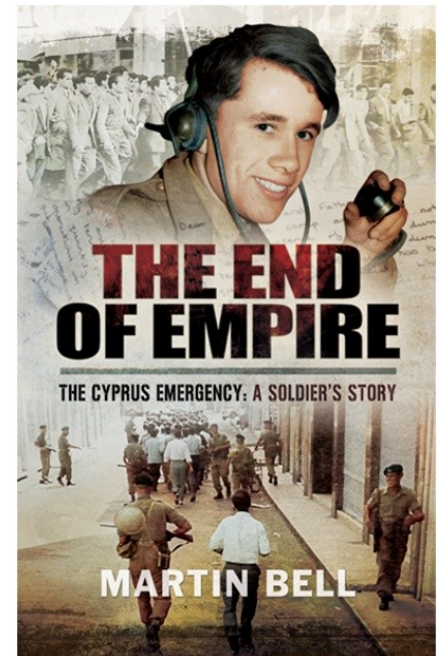

Following the meeting I had a long conversation with Jessie Nagel who was based at Nicosia Airport and was PA to the RAF Commanding Officer who was in charge of 7,000 men. Jessie said she formed the first Nicosia Girl Guide Company which was very successful. I have tried to persuade Jessie to write down some of her memories so that we can record them on our website, so I will have to wait and see if this very interesting lady will share her memories with us.

The group were heading south early the following day, so they were gradually leaving to have an early night. They will be visiting Troodos and staying overnight at Casale Panayiotis, then to Larnaca, Limassol and Paphos during the remainder of their one week tour.

We would like to thank Martin and Julia for inviting us to spend some time with them and their group, which we very much appreciated and enjoyed.

KAR Education team visited Karakum Anaokulu

By Chris Elliott.....

On Tuesday 10th April the wind was blowing and the rain was driving hard locally which was so miserable but when I arrived at the Karakum Anaokulu I was greeted by the Kyrenia Animal Rescue Education team, and the teachers and 47 children aged 5 to 6 from the school.

It's not the first time I have experienced the education team working with children and teaching them how to care for cats and dogs and this time team leader Maggie Smith with her dog Annie and Carole Widdison took it in turns to talk to the children using games and recognition

cards and Elif Todd helped by translating from English into Turkish for the children.

KAR have a superb training book and they gave copies to the teachers so they could use these for further educational purposes.

The excitement and interest of the children was electrifying but soon the session came to an end and the teachers brought forward many donations of animal food made by the children's families.

All in all it was a great day to witness as you can see below, despite the poor weather conditions.

TRNC Air Sports Federation at Geçitkale Airport

By Margaret Sheard ...

On our first visit to Geçitkale Airport we met the President of the TRNC Air Sports Federation, Zeki Ziya, together with instructor pilot Serkan Özcezarli, who gave us some information about the Association which was formed in 2005.

There are many activities at the airport, which are now available, Gyrocopter training, Microlight training, parascending, model aircraft activities. The Association welcomes parties of schoolchildren who must be amazed at what they see. The airport is no longer functional for air traffic but it is ideal for the current type of activities of the TRNC Air Sports Federation, which also organised the Paragliding Accuracy World Cup in February 2018 at Tatlisu, North Cyprus with 88 participants from 19 countries.

Under the title Cyprus Aviation History, an airline pilot contributed articles for publication on cyprusscene.com website and this included one about Geçitkale Airport. To see this article the link is shown below:

<https://cyprusscene.com/2016/06/08/cyprus-aviation-history-part-5->

As a result of this we decided to see if we could visit and see the airport for ourselves but on arrival at the gate we were told very politely by a large policeman that the airport was closed and we could not be allowed access.

This took me back to the time when I visited North Cyprus and actually landed at Geçitkale Airport on two occasions at the time Ercan Airport was undergoing refurbishment. I can still visualise the very small arrivals/departures area.

We eventually were able to visit the airport through a contact where we first met Zeki Ziya and Serkan

we were able to have a brief chat with him before the first of his students got herself ready for her training flight. This was Hale, the wife of Gökhan Hançer, who was also going to have a training flight following his wife's session.

Serkan told us that in order to apply for a full licence, the students needed at least 30 hours of training flying. Currently Serkan is giving 6 flying lessons every day, 5 days a

Özcezarli. It was sad to see the state of the airport now but who knows maybe at some time in the future it could spring into life again. A few weeks later we had a return visit to be able to see students going through their Gyrocopter training. How exciting this second visit turned out to be.

When we arrived Serkan was just taxiing to the front of the hangar so

week, starting at around 7am, so it seems there are many who are interested in this very different type of activity.

Hopefully the club will be able to purchase another 2 Gyrocopters in the future to cope with the increasing interest.

Hale Hançer, candidate on training session

20th April - 26th April 2018

continued TRNC Air Sports Federation at Geçitkale Airport

Gökhan and Hale Hançer have been learning to fly a Gyrocopter for a year and both have 33 hours training so will soon be applying for their licences which are issued from mainland Turkey. The couple live in Lefkoşa and have a web design company, ATA Bilisim, they also have 2 young children, Ata and Hale, so we were amazed that they still find time for this exciting hobby. They came from Mersin in Turkey in 2004, when Gökhan attended university in North Cyprus, and they decided to make their home here.

While Hale was flying we drove out with Gökhan to be able to see more of her training manoeuvres, one of which was she actually turned off the rear engine which

drives the Gyrocopter and then she was able to glide it safely before turning the engine back on and doing some more circuits before eventually landing near to us. It was then Gökhan's turn to take over for his session. We watched him circling and also carrying out various manoeuvres before Hale then drove us back to the hangar to await his return. The video below shows Gökhan during an emergency landing training session switching off the engine and gliding in to land.

When the training sessions were complete, Serkan then had paperwork to complete for the couple with the results of that day's training. Everything was very professional and we were

very impressed with the procedures. To visit Serkan's Facebook page the link is shown below.

When Gökhan and Hale receive their licences, we hope to be able to attend at Geçitkale when they are presented to them.

They will be able to fly Gyrocopters in many countries worldwide and they hope at some time in the future they will perhaps be able to purchase a Gyrocopter of their own.

We were pleased to receive some additional information and photographs from Serkan. There are new candidates who will be undergoing flight training soon and they are initially receiving in-house instruction. There seems to be a great deal of growing interest in this very different hobby.

This is yet another great boost for North Cyprus tourism and we hope many tourists who have an interest in this type of activity will take advantage of being able to do Gyrocopter or Microlight flying and other air related activities with the TRNC Air Sports Federation.

TRNC's Ahmet Savaşan elected Vice President of World Health Tourism Council

Tourism and Environment Minister Fikri Ataoğlu attended the Global Health Care Travel Council with 47 delegates from 38 countries as an Honorary Board Member. In its second year a special session of the World Health, Sports and Alternative Tourism fair was held under the auspices of Turkish President, Recep Tayyip Erdoğan.

World Health Tourism Council Founding President, Emin Çakmak, stated that Azerbaijan has been elected to take over the Chairmanship, with Ruslan Guliyev as President.

Ahmet Savaşan of the TRNC was elected as Vice President.

Constantine Constantinides from Greece was elected as Secretary General.

Minister Ataoğlu said it was an historical moment that Northern Cyprus is represented in equal terms with 57 other countries along with all of their flags as well as the flag of the TRNC and he thanked Founding President Emin Çakmak for this important representation.

Ataoğlu stated that they saw a potential of 1.5 billion people in a distance of four and five hours flying to North Cyprus and said "We are encouraging these areas like many countries in the world in order to develop sport tourism and other alternative types of tourism in our country.

We are taking steps to support the function with high legislation and regulations".

Underlining the fact that all delegates gave a positive vote to the Global Health Care Travel Council for election of the Vice-President from the TRNC, Ataoğlu noted that the success achieved was an historic moment.

Ataoğlu said at the end of his speech "I wholeheartedly thank all countries and delegates for my country and our people".

Savaşan: Northern Cyprus has important advantages in health tourism. He said that the TRNC was accepted as the 54th member country to the World Council and that in 2017 he was a member of the board of directors of the World Council.

In his talk, Ahmet Savaşan said that the geographical location, historical, touristic and human characteristics of North Cyprus, as well as the state of the art devices in the hospitals and in vitro fertilization centres, accreditations, as well as medical wellness, spa practices, and price advantages combined with potentials in advanced age and disability tourism, all of which are essential for being preferred in health tourism.

Savaşan stated that the World Health Tourism Council will make a great effort to increase and

develop the existing cooperation with the 57 countries in 2018 to the highest level and declared that "Our aim is to take the Presidency of World Health Tourism Council to Northern Cyprus in 2020 and host the World Health Tourism Forum"

Emin Çakmak, World Health Tourism Council founder ... We will continue to support the TRNC. He said that the projects will be completed and new projects will be brought to life in order for the TRNC to be able to get the rights it deserves from Health and Sport Tourism companies.

Ruslan Guliyev: 1 nation in the World Council 3 states ... Turkey, Azerbaijan and TRNC take place equally in a nation under the umbrella of the World Health Tourism Council, three states in terms of showing the reality of a very great sense of expression.

"World Health Tourism policies guiding such an important international platform in North Cyprus.

We are very pleased that Ahmet Savaşan is acting as Vice President. I congratulate him and I am sure he will give important contributions to the Council and I wish him success".

At the plenary session, which was held with the main theme of sharing knowledge it was decided to hold the 3rd World Health Tourism Forum in Azerbaijan's capital Baku on February 25, 2019, with membership of new countries such as Lithuania and Iran, and various accreditations and certifications of establishments such as hospitals, clinics, intermediary institutions, wellness centres which are active in tourism.

Esentepe Fun, Run and Ramble 2018

By Sue Steel – EFRAR 2018 Organising Committee...

The 8th annual Esentepe Fun, Run and Ramble held on Sunday, 15th April was the biggest, loudest and best ever.

Held at Sea Magic Park just outside Esentepe the main sponsor of the Fun Run, Carringtons' Group, pulled out all the stops to make this the biggest and the best in the eight year history of the Fun Run.

Hundreds of people turned up to either run or just enjoy the day. There were over 20 stalls selling everything from soap to cakes from doner kebab to jewellery.

With four runs, 2km, 5km ladies, 5km general and 8km there was something for everyone and one young man, Kai Fletcher, 16, and one lady Vicky Fidd, ran the 2km, 5km and 8km. Kai has supported and run every year since its inception and even though his preferred exercise is now boxing, the Fun Run and Tulips are very close to his heart. His younger brother Kade ran the 2km. Unfortunately, their father, Ian, sprained his ankle so had to pull out during the 5km.

Even though, this year, there was no fancy dress, Dave Lavender, dressed as Prince and representing the Abnormals walked the 8km and members of the Esentepe Football Team dressed up as the Tele Tubbies and stayed in costume all day, all in incredible heat.

The Tree Dedication stand did well and sold a total of 132 trees of which, 60 were bought for TL1500 by Ebru Çağınır who dedicated them all to Tulips.

The presentation of the Carrington Shield keepsake was made to Can Gazi by Burcu Karakaya and Raziye Kocaışmail presented both Mary Watson and Sue Steel with keepsakes for their hard work over the last 8 years.

The Wines of the World hamper, having been drawn three times as no winner came forward, was eventually won by Mary Watson.

Around mid-day the traditional folk dancing troupe from Beyarmadu entertained the crowds followed by the Kangaroo Jumps Show. Later in the afternoon there was a concert by Ertan Derya and Grubu.

Several serving and former government ministers attended to show their support including the current Health Minister, Filiz Besim, former Finance Minister, Ersin Tatar, Ahmet Savaşan, President of the Cyprus Health Tourism Council and the Mayors of Girne, Lapta and Esentepe.

Mary Watson, the EFRAR 2018 Chair said: "We had a fabulous time at the Carrington Sea Magic Park today, having fun, browsing the stalls, enjoying excellent food and drink and, most importantly, raising money for Tulips which supports cancer patients. I have no idea how much money we have raised - we will be counting for the next few days - but it could be a bumper year. I need to thank so many people, all committee members who have contributed throughout the year and on the day, Tulips who are incredibly supportive, all at Carringtons, all our

sponsors, CESV and the Army for keeping us safe, our registration, tree dedication, race organisers and raffle teams, Michelle Martin who not only ensured the races went according to plan but ended up running the 5km to re-erect a fallen barrier at the 2.5k turn round to ensure that runners did not go the wrong way, Brian Hills, Can Gazi, Tay Derviş, all stall holders, all our volunteers without whom we could not hold the event and Esentepe police".

The winners were:

ONE WHEEL ON MY WAGON !

ESENTEPE KSK 1 DEĞİRMENLİK SK 1

By Richard Beale...

Saturday April 14, 2018 : K-Pet League : Esentepe Erdal Barut Stadium.

As the song goes at the moment the wagon is just about in motion, the finishing line is in sight, but is there enough momentum left for Esentepe to reach that holy grail?

A point a precious point, Esentepe remain in second place, with 4 matches remaining. This marathon season is almost over, the Esentepe tank is virtually empty, there will be no sprint finish for them. Incredibly our promotion rivals continue to help and give them favours, with 3rd place Mormeneşke losing at home to Girne Halk Evi. On Wednesday Esentepe face Girne Halk Evi away in a rearranged fixture which will provide the sternest test of the season for them. The question is will Esentepe be able to put out a team? at yesterday's match both Mustafa and Mahmut suffered injuries which will make them both doubtful and defender Sahin picked up his 4th yellow card so he will be suspended.

On paper the Değirmenlik match looked the easier of the matches left to play for Esentepe, but in reality they were lucky to come away with a point. Değirmenlik left it late to equalise in the 87th minute, but justice was done as Esentepe were most fortunate to be in the lead in the 70th minute courtesy of an own goal.

On a hot sunny afternoon a very disappointing size crowd witnessed a miserable first half with very few thrills.

With injuries, suspensions and non availability once again the replacement bench was filled with untried youngsters. Coach Davut

Esentepe under pressure again.

Kansu gave a first full League debut to 19 year old Mustafa Günlü, but unfortunately for the youngster his debut lasted just 20 minutes as he was injured and replaced by Hüseyin Ermiş.

Apart from a couple of shots easily saved by Esentepe keeper Kemal, Değirmenlik attack containing Ex Esentepe forward Turan offered little threat.

The same can be said for Esentepe their only effort in a poor first half, came in the 40th minute when Hüseyin broke down the left and his cross was only cleared to the edge of the box to Yakup whose low shot was pushed away for a corner by the diving Dağman. **HALF TIME SCORE ; 0-0**

Esentepe injury worries continued when in the 47th minute midfielder Mahmut who suffered a heavy tackle in the first half, limped off to be replaced by 18 year old Emre Mutlu.

Suleyman for Degirmenlik was looking dangerous on the left, one such attack he cut inside and shot which had Kemal at full stretch pushing away his effort for a corner.

Başak missed a great opportunity to give his side the lead when he headed a long cross from Muhammed down and wide from a good position.

With no side looking likely to break the deadlock Esentepe took the lead in the 70th minute with a very fortuitous goal. Başak called for and received the ball from another great cross from Muhammed, he passed back to Emre Mutlu, who ran on into the box, but his cross was poor and going into the arms of Dağman before defender GENÇALI stuck out a leg to deflect the ball past his own keeper. **1-0.**

With Değirmenlik pushing up, Esentepe went close again, teenager Onur broke up an attack and ran upfield exchanged passes with Emre Mutlu and continued into the box as keeper Dağman advanced the full back could only toe poke a shot which the keeper saved.

With Esentepe looking likely to hang on to all 3 points, the crowd were silenced in the 87th minute when the visitors equalised. Hasan put over a good cross from the left where SÜLEYMAN ŞAH leapt high and score with a superb header

score **1-1.**

In 3 minutes of injury time Esentepe Ismail Uçar should have scored the winner when a cross fell to him only a few yards out, but the experienced player chose to blast the ball which went over instead of side footing it in. **FULL TIME SCORE : 1-1**

SUMMING UP : A poor match, both sides didn't deserve anything more. For Esentepe 2 points dropped and for Değirmenlik a point gained. No good criticising Esentepe all we can do at the moment is try and get 11 fit players onto the field. We have players who are playing out of position, but the Coach has no options. We must hope that the situation will ease in the near future. We must remember Esentepe are still in a strong position, though the pressure is on us, there is even greater pressure on our rivals.

No Wheels On My Wagon as Esentepe hit by “Yanki” Storm

GIRNE HALK EVI SK 3 ESENTEPE KKSK 0

By Richard Beale...

Wednesday 18 April 2018 : K-Pet League 1 : Girne 20 Temmuz Mete Adanir Stadi.

As the song goes “no wheels on my wagon and I’m not rolling along, the Cherokees have surrounded me, things look bad, but I’m still singing a happy song”.

I am certainly not singing a happy song, substitute "wagon" for Esentepe promotion hopes and substitute "Cherokees" for rivals. The Yankees did not come to rescue Esentepe, they were instead put to the sword with a hat trick from striker Yankı Aktül. Esentepe are motionless our rivals are circling, there may be even be a couple of vultures waiting to pick the bare bones!.

In this rearranged match played under floodlights, Esentepe again suffered a night of disappointment and frustration. Out-played for most of the match, they were reduced to 10 men after 48 minutes, suffered further injuries and for the last 10 minutes striker Eser was just a limping passenger as it definitely wasn’t a “night to remember”. To cap it all I “overexposed” myself, my camera that is, and lost most of my photos!

On a balmy, sultry night the Mete Adanır Stadium was looking its best and for this important match maybe there were around 300-350 spectators, the majority from Esentepe.

You could tell it was going to be one of those nights, when Girne Halk Evi (GHE) almost scored with their first attack after only 2 minutes. Yankı put a ball in finding leading goalscorer Şenol, as Esentepe goalkeeper Kemal

came out, the strikers shot hit the post and rebounded to safety

Esentepe had their best 15 minutes of the match, when they created 3 reasonable chances. Firstly a defensive mistake allowed Eser to get in a shot which was beaten away by goalkeeper Athos. Then from a Muhammed free kick Başak shot wide from a good position. In the 30th minute from an Ismail Aslan free kick Eser got in a header that went just over the bar.

ut Esentepe fell to a sucker punch in the last minute of the first half, Ibrahim led a quick breakaway down the left, his cross was poorly dealt with by Onur who miss kicked his clearance straight to YANKI AKTÜL who slotted home. **HALF TIME SCORE : 1-0.**

Esentepe chances of getting back into the game were greatly reduced when they lost teenage defender Onur who was red carded in the 48th minute. Following a bouncing ball Onur was going to belt the ball away, however he completely miss timed his attempted clearance and instead connected with Yankı instead who was poleaxed. Referee Hasan produced the red card, and despite

Esentepe protests, Onur was dismissed I thought it was bit harsh, there was no intent in it, he just completely miss timed his clearance and probably it was his first foul of the match.

Esentepe were now facing an uphill task as GHE looked dangerous every time they attacked, it was only poor finishing that kept the visitors in the match.

Esentepe injury worries continued when Burak on as a replacement for Hüseyin in the 54th minute, lasted 9 minutes with a re-occurrence of an old injury and was replaced by Emre.

68 minutes it was 2-0, Deniz crossed from the right to the far post where YANKI unmarked had plenty of time to score. **2-0.**

Esentepe Coach Davut Kansu gave a first ever first team appearance to 18 year old defender Ali Soytürk in the 71st minute.

Esentepe Eser was limping heavily and could only offer assistance as a passenger on the wing. In injury time YANKI completed his hat trick when Ismail Aslan lost possession to him and with what looked a tame innocuous shot from just outside the

box, which somehow squirmed underneath the body of goalkeeper Kemal. He was very distraught about his error, but he has no need to be, he has saved us countless times. It was his first mistake of the season, it just sums up a dreadful night. **FULL TIME SCORE : 3-0**

SUMMING UP : We were very lucky that GHE had left their shooting boots at home as it could have easily been 5 or 6 nil. Winger Ibrahim tormented Esentepe all night, GHE are a very experienced outfit who are now making a late run for the automatic promotion.

Esentepe still have a 5 point advantage with 3 matches left to play. These matches are all against teams battling for relegation survival, there ain’t no easy matches in this League.

Once again Esentepe's small squad was cruelly exposed, and again after this match we suffered another suspension and more injuries.

Somehow Coach Davut must rally his beleaguered troops in these remaining games, confidence is at an all time low. Esentepe are under siege but just one more win and a draw will get us to the Super League.
