A FUTURE BUILT BY ALL, FOR ALL..

On February 9, 2026, Nevada Ready Mix, in partnership with PENTA Building Group, had the honor of hosting 40 young students for a hands-on, fully interactive tour of our Bonanza concrete plant and materials testing laboratory.

The group, ACE Mentor Program, has a mission to excite, engage, and educate students in pursuit of careers in architecture, engineering, and construction. The local affiliate has a total group of 200 kids they are helping.

When PENTA initially reached out asking if we wanted to present something to the group regarding concrete production and testing, we couldn't respond fast enough with an enthusiastic yes! As we shared in the last issue of our newsletter, NRM values every opportunity to give back to the community and help our future generation with any guidance or advice we can provide.

The first thing we did in preparation for this tour was to hold a committee meeting for potential ideas to "excite, engage, and educate" this group. After exchanging several great ideas, the group landed on breaking the visitors into six groups and assigning them a group number. Each group

would then start in 1 of 6 learning stations. After 20 minutes in each station, the groups would rotate to the next station in order until they had completed all 6 stations. **SEE PAGE 6 for pictures and a summary of each station!**

ACE PROGRAM STATS

70+
AFFILIATES

At the 70+ affiliates, students, educators, and industry professionals work together.

5K
MENTORS

5,000 volunteers give back to their communities. Estimated value of their in-kind services total \$22.4 million.

37M
DOLLARS

ACE has awarded more the \$37 million in scholarships to students. In 2023-2024, over 1000 students received scholarships.

12K
STUDENTS

ACE guides more than 12,000 high school students. 41% of ACE seniors going into higher education are 1st generation.

1.5K
ALUMNI

Each year between 1500 and 2000 ACE alumni enter the ACE industry as full-time employees

HOLIDAY TOY DRIVE !
PAGE 3

Note from the President

by Mike Sherwood

Dear Colleagues,
I want to thank you, and I want to apologize.

First my apologies for becoming an office boy.

As time has passed, I have become comfortable in my "Ivory Tower."

Last fall we started holding driver meetings and toolbox meetings with our Operating Engineers in the early morning hours.

When I have attended these meetings, I find myself face to face with the men and women who have made NRM the number one concrete supplier in Las Vegas for 66 years now.

That is really saying something. I get to see resolute professionals doing their jobs with excellence. I always leave these meetings feeling good about our future.

You folks are impressive. I want to apologize for not being more visible and promise that you will see more of me in the future.

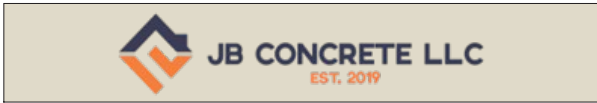

I also want to offer my thanks to each and everyone of you for contributing to our success. It takes all of us, doing our best every day. Lately we have seen the positive results of everyone doing their individual best.

We cannot rest. We must keep improving in every area of the company. To achieve that goal we will continue to hold training sessions, safety dinners, and whatever else we can do to improve.

Thanks to all who participated. We know, by your active participation in our improvement programs, that you care about the health of this company and the continuation of our union jobs.

Customer Corner by Matt Montoya

When it comes to concrete construction and hardscaping in the Las Vegas Valley, **JB Concrete LLC** has earned a strong reputation for reliability, craftsmanship, and customer focused service. Operating out of North Las Vegas, the company provides a full range of residential and commercial concrete services backed by licensing, years of hands on industry experience, and consistently high customer satisfaction.

Company Background & Licensing

JB Concrete LLC is a Nevada licensed C 5 Concrete Contracting company that serves the greater Las Vegas region. According to Build Zoom, the business holds an active license and maintains a Build Zoom Score of 92, placing it in the top tier of licensed contractors in the state. The company operates from its North Las Vegas location and is family owned, with leadership focused on communication, professionalism, and long term customer relationships.

Services Offered

Residential & Commercial Concrete Work

- Concrete foundations
- Concrete slabs and floors
- Flatwork, paving, and hardscaping
- Driveways, sidewalks, and approach
- RV parking pads and driveways
- Concrete curbs, gutters, and columns
- Tennis courts, Pickleball courts

Decorative & Specialty Services

- Stamped concrete
- Custom concrete installation
- Concrete repairs

The company emphasizes quality finishes, aesthetic appeal, and long term durability.

Customer Reputation & Reviews

JB Concrete has built a strong track record of customer satisfaction: HomeAdvisor Ratings
The company boasts a **5 star rating across 24 reviews**, reflecting consistent excellence in:

- Concrete driveways & floor installations
- Foundations
- Commercial and residential work

Customers praise the team's punctuality, communication, attention to detail, and competitive pricing. Several reviewers highlight the professionalism of owner Jose Barraza and his crew.

Experience & Company Values

- Family owned
- Built on courteous service and personalized attention
- Committed to strong communication
- Backed by over 20 years of concrete experience

JB Concrete LLC stands out as a top choice for high quality concrete solutions in Las Vegas and the surrounding areas. With a strong reputation built on expertise, integrity, and exceptional workmanship, the company continues to serve residential and commercial clients who value durability, craftsmanship, and reliable service.

Whether you're planning a new driveway, a decorative patio, a foundation project, or a commercial installation, JB Concrete Las Vegas offers the skill and professionalism needed to bring your project to life.

NRM's 2nd Annual Toy Drive Brings Big Holiday Smiles

The holiday spirit was alive and well at Nevada Ready Mix's 2nd Annual Toy Drive, and in December, our team made an even bigger impact for local kids and families.

Thanks to the incredible generosity of our employees, partners, and community, we proudly donated 45 bikes and 86 toys last holiday season to children in our local community.

Seeing the growth from the previous year makes this effort even more meaningful. During our first annual toy drive, we donated 22 bikes and 89 toys. In December, we nearly doubled the number of bikes, helping create even more unforgettable holiday moments for children who need it most.

We are incredibly proud of everyone who contributed to making the toy drive such a success and look forward to continuing this tradition for years to come.

Career Day!

On May 12th, Nevada Ready Mix had the opportunity to attend Career Day at Cozine Elementary School — and what a great day it was!

Our team spent the day teaching approximately 650 students about the concrete industry and the many careers that help build our community. Steve brought out Truck 442, giving students an up-close look at one of our mixer trucks, while Rick spoke to the kids about concrete, aggregates, safety, and the importance of working together as a team.

The students asked great questions and were excited to learn how concrete is made and delivered. Events like these are a great reminder of the importance of connecting with the next generation and sharing the value of teamwork, safety, and hard work.

TRYPS Drivers Rewards Program

Since 2019, NEVADA READY MIX has recognized (and rewarded) the Top 10 performing mixer drivers based on their efficiency, attendance, and truck cleanliness. Each quarter, data from our batch, dispatch records, and payroll are carefully compiled and analyzed. The resulting data is then sorted and ranked based on the following six categories:

T	Total Yards Delivered
R	Round Trip Time (minutes)
Y	Yards Per Hour
P	Personal Truck Cleanliness Score
S	Slump Rack Time (minutes)
A	Attendance (-1 for an absence, -0.25 for a tardy)

The Top 10 drivers in each category receive points based on their position in that category:

1st Place

10 Points

2nd Place

9 Points

3rd Place

8 Points

...

10th Place

1 Point

All six category points are then added and sorted from 1 to 10

Quarter 4 2025 Top 10 Drivers			
Place	Driver	Total Points	Wins
1	David Wright	32	\$600
2	Carlos Acuna	28.75	\$500
3	Steve Rivas	24	\$400
4	Philip Parslow	22	\$300
5	Solomon Teclay	16.1	\$200
6	Michael Kobos	16	\$100
7	Gerardo Macias-Ibarra	15.75	\$100
8	Chris Howcroft	13	\$100
9	Bernard Bragg	11	\$100
10	Ryan Deutch	10	\$100

Quarter 4 2025 Cleanest Truck		
Driver	Truck Score	Wins
Michael Martin	92.4	\$100

Quarter 4 2025 Most Improved Truck		
Driver	Truck Score	Wins
Chris Howcroft	+ 7 Points	\$100

Employee Spotlight

For the past three and a half years, **DJ Roman** has been a valued part of the Nevada Ready Mix family, starting his journey in the Quality Control Department. Today, he’s preparing for his next chapter as he trains for a new opportunity and higher position within the company.

Before joining NRM, DJ built a unique and diverse background. He worked alongside his father in the family pest control business and also spent time working security on the Las

Vegas Strip. Those experiences helped shape the hardworking, adaptable, and people-focused mindset he brings to Nevada Ready Mix every day.

What DJ enjoys most about his time in Quality Control is the variety of job sites he gets to visit and the independence the role offers. He’s especially excited about the future of Nevada Ready Mix, sharing that when he looks back at everything the company has accomplished, it only makes what’s ahead seem even brighter.

One of the most interesting things about DJ is his genuine passion for learning about people and building strong relationships. Whether it’s helping a teammate, supporting another department, or giving his time to a local non-profit, DJ enjoys finding ways to make a positive impact.

Outside of work, DJ’s greatest joy is his kids. In his free time, he loves spending time with them and introducing them to new hobbies and activities they can enjoy for years to come. Watching them grow into their own people is what motivates him most and inspires him to create the best life possible for them.

One of his most memorable experiences at NRM was working alongside Evin during the F1 construction project, where he not only gained valuable knowledge but also enjoyed learning about the many personalities and people involved on-site.

A few fun facts: if stranded on a deserted island, he says he’d bring his puppy, who keeps him entertained and helps keep him sane. His favorite movies include Legend with Tom Hardy and Public Enemies with Johnny Depp, while Mad Max: Fury Road is his least favorite. If he could travel anywhere, his dream destination would be Europe, where he’d love to explore the history and take in the many tours and landmarks.

As DJ continues growing within NRM, his curiosity, people-first mindset, and drive to keep learning will continue to open new doors. At the heart of it all is what matters most to him: his family, his growth, and creating peace and happiness in life.

Employee Spotlight

Carlos Acuna has been part of the Nevada Ready Mix team for nearly four years, joining the company on April 21, 2022. Before coming to NRM, he built his career driving for several other concrete trucking companies, gaining the experience and industry knowledge that eventually led him here.

One of the things Carlos enjoys most about his work is seeing the direct impact our team has on the Las Vegas landscape.

From watching the iconic Hard Rock guitar rise into the skyline to seeing the stadium built from the ground up, he takes pride in being part of projects that shape our community. Looking ahead, he’s excited to one day retire and reflect on all the progress he’s witnessed over the years.

Carlos is especially fascinated by the technical side of concrete. The precision, experience, and know-how it takes to batch the exact mix needed for each job is something he finds incredibly interesting and rewarding.

One of the most memorable projects in his career was working on the border wall in Yuma, Arizona, where he helped pour concrete piles. Starting that project on March 6, 2022, just before joining NRM, Carlos recalls the unique experience of sometimes working on both sides of the border in the same day. The heavy security presence, strict safety protocols, and overall intensity of the site made it one of the most interesting and exciting jobs he has been part of.

Outside of work, Carlos enjoys relaxing with sports betting and is interested in getting into RC car repair, where he can tinker with the mechanics and learn how the hobby cars work. When it comes to movies, one of his favorites is American History X, though he says he doesn’t really stick to any one genre.

If he could travel anywhere, Japan is at the top of his list. He’d love to explore everything from Tokyo to Nagasaki and experience all the major tourist destinations along the way.

Something people may not know about Carlos is that he describes himself as laid back and easygoing. While he jokes that he has a “mean stare,” he says that once people get to know him, they quickly realize how chill he really is.

With years of experience behind him and many more ahead, Carlos continues to bring knowledge, perspective, and pride to every project he touches. We’re proud to have him on the Nevada Ready Mix team and look forward to seeing what the future holds for him.

Cover Story cont.

STATION 1

Welcome to Nevada Ready Mix!

Evin Van Burger presented the groups with a brief outline of our company history, introduced some concrete basics, and showcased our major projects from the 1980's (Excalibur, Mirage, etc.) through today (A's Ballpark, Hard Rock Hotel, Four Seasons, etc.)

STATION 2

Walking tour of the Bonanza Batch Plant

Matt Montoya took all the groups on a walking tour of our Bonanza concrete plant. Students were equipped with the necessary PPE (hard hats, safety vests). Matt pointed out how we store and load our aggregates into the plant, where our trucks get loaded, and how we cool the concrete down with ice!

STATION 3

How to Test Concrete Aggregates

Elu Chavez introduced the students to some of the aggregate testing we perform on our materials and why they are important. Each group was tasked to carry out a full sieve analysis test to determine whether the material will pass or fail.

STATION 4

How to Break a Concrete Strength Cylinder

Diego Lopez demonstrated how we perform concrete compressive strength testing. Students had the opportunity to help remove plastic test molds, properly identify each specimen, and place in final curing. Each group also had the opportunity to witness a 10,000 psi cylinder being broken.

STATION 5

How to Mix Concrete in the Laboratory

Nicole Washington (Master Builders) showed the groups how we qualify new concrete mix designs in the laboratory before we send them to the concrete plants. Each group was tasked with performing their own concrete trial batch by following unique mix recipes and mixing it in the laboratory mixer.

STATION 6

How to Sample & Test Fresh Concrete

DJ Roman showed the groups how to test the fresh properties of concrete when the material is delivered to a project. Students took turns pulling slump cones to measure the slump spread of the Self Consolidating Concrete.

Dear Ronny:

by RONALD REED

DEAR RONNY: Summer's are very hot in Las Vegas, you must consume a lot of ice to chill the concrete down! How much ice do you use in the concrete?

A LONG-TIME ADMIRER

DEAR ADMIRER: Great Question! We are required to deliver our concrete below 90 degrees Fahrenheit. To accomplish this, between Lone Mountain and Arville, we're running three containers. Each holds 24 pallets, and each pallet is 2,400 lbs. That's 172,800 lbs a week for the six months it's hot. All told, we're cycling 2,246 tons of ice a year to keep the mix right and the crews upright. If you aren't staying cool, you're hardening too fast. Keep the coolers full so I don't come home cranky to Maggie.

DEAR RONNY: We all love seeing Maggie. What's her favorite treat?

PAWS ON SITE

DEAR PAWS: Maggie's got a "heart of gold" but a sensitive stomach. She's on a strict diet of the best fresh dog food money can buy, but she's the boss, so she gets a little salmon as a high-value reward. If you see her, a pat on the head is plenty-I'll handle the catering.

Supervisor Spotlight

We want to introduce you to our next Supervisor in the *Supervisor Spotlight* series:

Tom Gilbert
Truck Shop Supervisor

Tom’s story starts in Caldwell, Idaho, where he was born in 1970 and grew up with a lifelong love for water skiing. Coming from a family passionate about the sport, Tom specialized in slalom skiing, mastering the quick, precise turns needed to navigate the course. As he improved, the challenge only grew, with the finish line getting shorter after every successful run.

Water skiing is truly part of Tom’s family legacy. His uncle played a major role in the sport, helping get Gilbert Lake certified for national water-skiing tournaments, where competitions are still held today. That tradition continues through the next generation, with his nephew now carrying it forward.

These days, Tom enjoys the memories of the sport more than the sport itself, but it remains a meaningful part of his story. Another passion of Tom’s is classic cars. He loves attending car shows—carefully, he says, so he doesn’t get the urge to buy another one. Over the years, he’s owned some standout classics, including a 1969 Porsche 911 convertible and a 1965 Mustang.

Tom joined NRM three years ago, bringing extensive experience from the Class 8 trucking industry. His career began in 2007 with Kenworth Sales Company, where he worked in the parts department alongside shop mechanics. That role gave him a strong foundation in the technical side of the industry and helped him learn the language of trucking from the ground up.

In 2017, an opportunity opened at the Las Vegas Kenworth location. With his kids grown and out of the house—and the warmer climate calling his name—Tom decided it was the perfect time for a fresh start. He sold his home in Idaho and made the move to Las Vegas. After stepping into a customer sales representative role, Tom had the chance to work directly with customers and strengthen relationships throughout the industry. During that time, he built a strong connection with Rick Bonvincin, and eventually joined the NRM team.

Today, Tom helps keep the fleet moving by coordinating service needs, planning repairs, and working closely with dispatch to minimize downtime whenever possible. His ability to balance driver needs, shop priorities, and operational demands makes him a valuable part of the team. What Tom appreciates most about NRM is the culture. “It feels like family—like a small mom-and-pop company.”

Outside of work, Tom enjoys traveling and cruising, with favorite destinations including the Dominican Republic and Mexico. He also considers himself a foodie, always up for a night out with his wife, especially if it includes his favorite food: wings. At home, Tom enjoys home improvement projects and taking care of his pool, where he finds the process of balancing the chemicals oddly relaxing.

Tom’s experience, problem-solving mindset, and team-first attitude make him an important part of the Nevada Ready Mix family, and we’re proud to have him on the team.

Testing Technician	R. Pamintuan	R. Pamintuan	R. Pamintuan	R. Pamintuan				

Average 28 Day Strength: 4170 psi

1. CUSTOMER REPORTED A LOW STRENGTH RESULT
2. DELIVERY TICKET DOES NOT SHOW IF THE CUSTOMER ADDED WATER TO THE LOAD
3. LIABILITY ON NEVADA READY MIX

AND THE *Winner* IS...

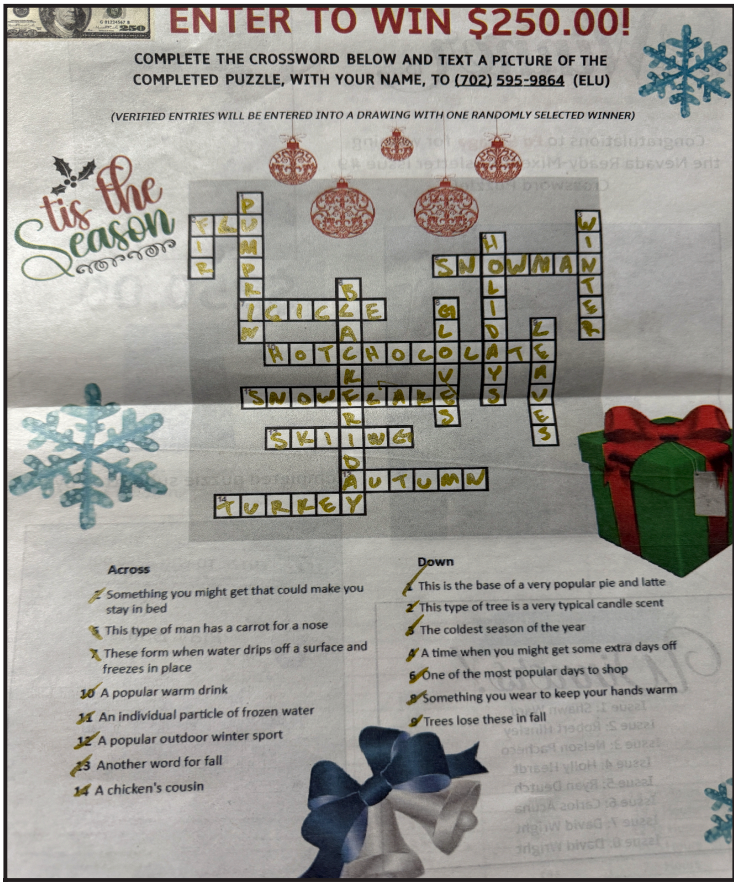

Congratulations to **Chris Howcroft** for winning the Nevada Ready-Mixer newsletter issue #10 Crossword Puzzle!

\$250.00

Completed puzzle submitted by Chris:

CONGRATULATIONS!
Winners!

- | | |
|-------------------------|------------------------|
| Issue 1: Shawn Ward | Issue 6 : Carlos Acuna |
| Issue 2: Robert Hinsley | Issue 7: David Wright |
| Issue 3: Nelson Pacheco | Issue 8: David Wright |
| Issue 4: Holly Heardt | Issue 9: Ed Savage |
| Issue 5: Ryan Deutch | |

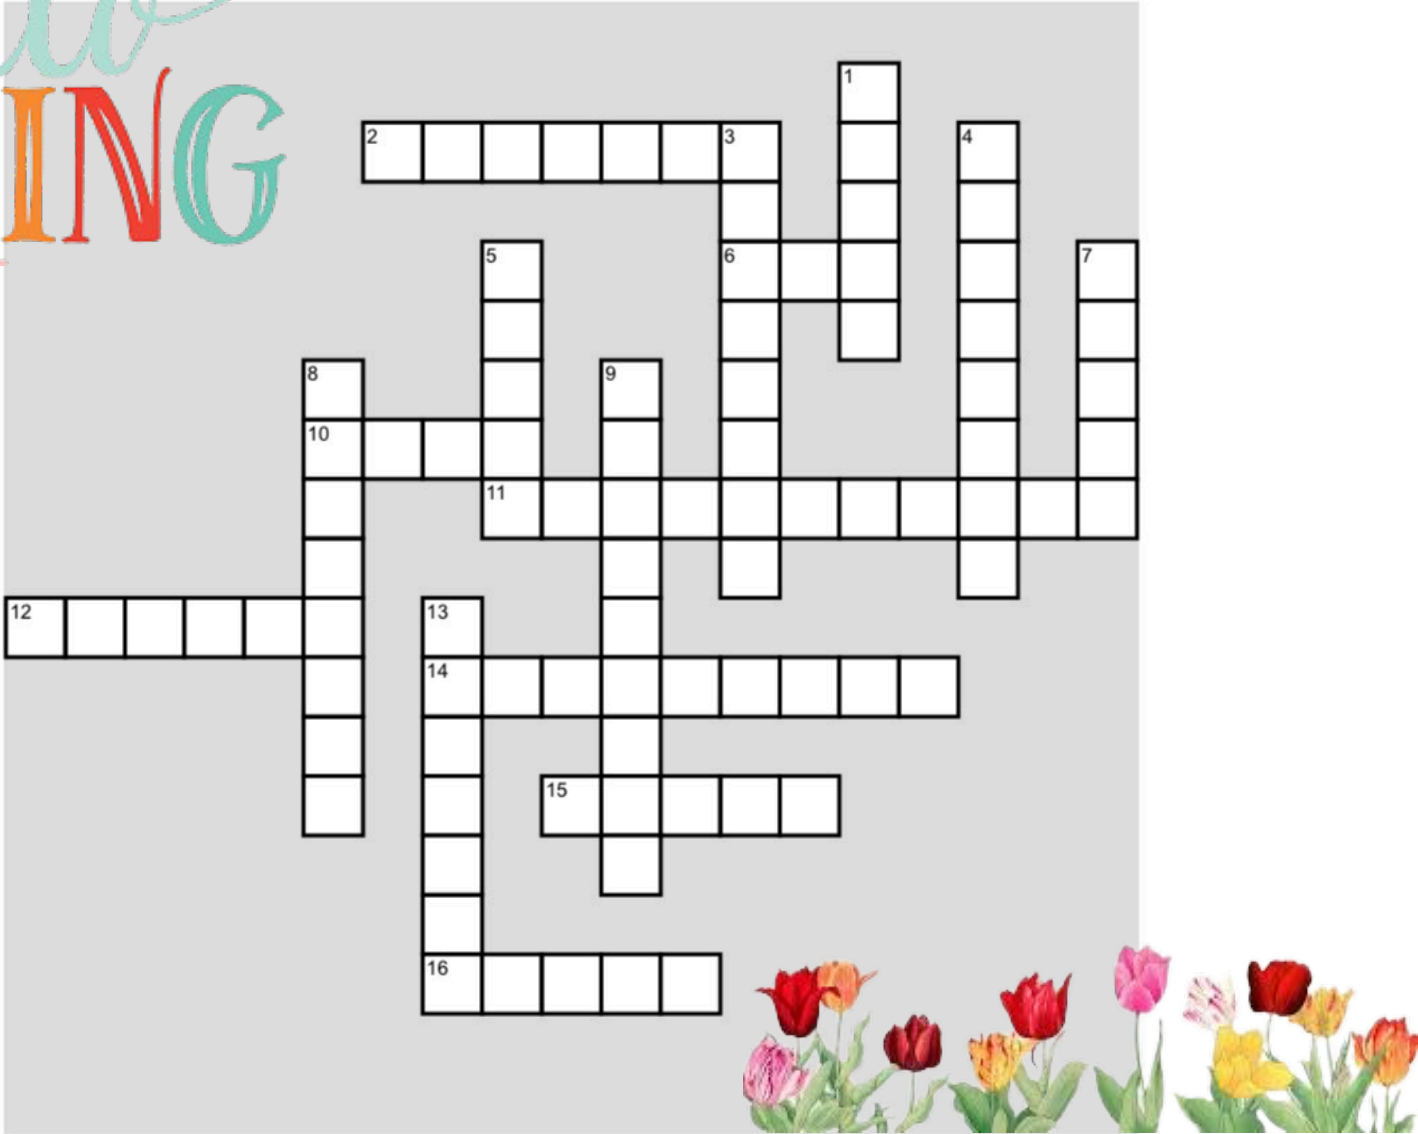

ENTER TO WIN \$250.00!

COMPLETE THE CROSSWORD BELOW AND TEXT A PICTURE OF THE COMPLETED PUZZLE, WITH YOUR NAME, TO (702) 595-9864 (ELU)

(VERIFIED ENTRIES WILL BE ENTERED INTO A DRAWING WITH ONE RANDOMLY SELECTED WINNER)

hello
SPRING

Across

- 2 April showers bring May
- 6 This helps keep things cold
- 10 Where you head for a long weekend to stay cool
- 11 A time when students get an extra week off from school
- 12 A section of land used to grow produce
- 14 If you have these, springtime will have you using more tissues
- 15 This animal is a common spring mascot
- 16 When possible park here to keep your vehicle cool

Down

- 1 Wear this color if you don't want to get pinched.
- 3 A popular summer activity to stay cool
- 4 It's important to drink more water so you can stay
- 5 Lots of children will be riding these thanks to our donations
- 7 Concrete is more likely to do this when the temperatures get too hot
- 8 Spring _____ is when you tidy up your house
- 9 Cooking outside for a gathering
- 13 March _____ (think basketball)

Staying Hydrated

Electrolytes, what are they and are they important? You're thirsty so you go to the cooler to grab a drink. You grab a cold Gatorade and have a drink. What is Gatorade and why does it taste so good on a hot day?

Gatorade is full of electrolytes. Electrolytes are minerals that carry an electrical charge when dissolved in water. These electrical charges help your body to function properly. The most well-known electrolytes are sodium and potassium. That is why Gatorade has a slightly salty taste. These days there are dozens of different electrolyte supplements to choose from like Liquid IV, Powerade, Peldialyte etc. Most of the foods you consume contain electrolytes, so on a regular basis you may not need to add an electrolyte supplement.

As the warmer months approach, it's important to be aware of the changes it has on your body. If you are outside in the summer heat, your body is losing water at a more rapid rate. If you are a heavy sweater, this water loss is even more severe. As you lose water your body's electrolytes start to become unbalanced. In this scenario it is important to replenish what you have lost either with a balanced snack and fluids like Gatorade and water.

Keep in mind that your body only needs so many electrolytes and it will do its best to get rid of any extra it doesn't need. If you spend the day inside, you may not need to drink extra electrolytes. However, if you are outside, or very active, adding in a serving of electrolytes might be a good idea!

Nevada Ready Mix Corporation provides a reporting hotline for employees to anonymously report any of the following incidents:

- Ethical Violations
- Wrongful Discharge
- Unsafe Working Conditions
- Internal Controls
- Quality of Service

Nevada Ready Mix was proud to attend the Touch-a-Truck event for the second year in a row, held on April 11th at Downtown Summerlin. This year’s event was a huge success, with 4,030 tickets sold—and with children ages two and under admitted free, total attendance was estimated to be around 5,000 people.

The event brought together a wide variety of vehicles for kids and families to explore, from emergency response units to an impressive lineup of construction equipment. Our NRM mixer was once again a crowd favorite, especially with candy flowing straight from the chute—definitely a highlight for the kids!

In addition to the sweet treats, we handed out coloring pages, crayons, branded bracelets, and stickers, giving kids something fun to take home and remember the day. Driver Steve Rivas, representing NRM in Truck 442, did an outstanding job engaging with families and showcasing what we do.

It was also great to see members of the NRM team in attendance with their children and grandchildren, making the day even more special. One of the most rewarding parts of the event was hearing kids say they remembered us from last year—proof that we’re making a lasting impression in the community.

We truly value opportunities like this to connect with local families and share a little of what we do. Events like Touch-a-Truck remind us that what we build goes beyond concrete—it’s about building relationships and being a positive part of the community.
