Video Game HQ Review!

Volume #1, Issue # 1 Novemeber, 2026 By Jeremiah - Grade 6

What is *Ark Survival Ascended*?

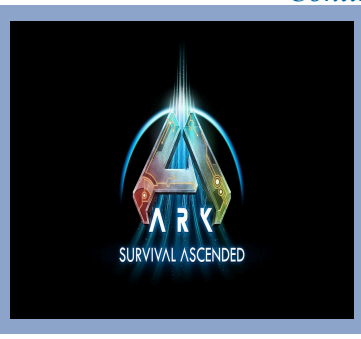

ARK Survival Ascended is a survival game about a survivalist that is stranded on a dinosaur-filled plant. so you are trying to go back to the space ship to get back home. So you have to evolve and tame dinosaurs to take down bosses or dinosaurs and get level up to get stronger. How to play the game: you start by mining wood and pick up stone fiber and make a pickaxe. Then you mine a boulder and make an axe then mine a tree with the axe.

Tek Mech

Desert Titans!

How to kill them in *Ark Survival Ascended*

Three easy ways to kill the desert titan and here are two tips. Tip one, make sure to bring a flyer in a cryptopod with you and make sure you have a lot of weapons. Last tip, you need a parachute just in case the desert titan knocks you off and you fall. One easy way to kill the desert titan is you can mate a ton of argentavis to overwhelm the desert titan. Second easy way to kill the desert titan is you can also kill the desert titan with a pickaxe. Third easy way to kill the desert titan is you can use a tek mech to shoot the desert in the corrupted parts on the desert titan.

How to tame Desert Titan in *Ark Survival*

How to tame the Desert Titan:

You have to look at the corrupted part of the desert titan to get hit by the lighting. The next step is that you hit the corrupted part with a tek mech or a creature. Then you do the exact same thing to the other corrupted parts on the desert titan. Afterwards, an icon will appear. You click it then the desert titan is yours.

Ice Titan from Ark Survival Ascended

How to deal with the Ice Titan from *Ark Surivval Ascended*

How to tame the ice titan in ark survival ascended is very straightforward. First, you have to shoot or hit the corrupt part of it with a mech or a weapon or a creature. Next, you have to do that to every other corrupted parts of the ice titan. Finally, the last step is you have to click the icon that appears on top of his body and then he is yours.

Forest Titan from *Ark Survival Ascended*

How to deal with the Forest Titan from *Ark Surivval Ascended*

How to tame the forest titan is first you need a mech or a strong and fast mount that can take a ton of damage. You start by biting or shooting the corrupted part on the forest titan. You keep on using that tactic until the corrupted part disappears then do the same to all the other corrupted parts. Then after you do that, you can see an icon appear then click it and he is yours. Also the map the titan is located in is called extinction.
