"Take a look at some Google customer reviews!

"Customers frequently praise the fast drive-thru service, consistent drink quality, and specialty options like the signature Aj's Rush Drinks and flavored cold brews".

"Reviewers highlight breakfast sandwiches and baked goods (like muffins and donuts) as tasty and hot".

"aj's you got my heart. these girls practically know my order better than i do. any errand, work day, or school day is brightened by a morning trip to the fisherville aromas. i have yet to find a blueberry bagel that compares to the ones here. one time they forgot my hashbrowns and REMEMBERED to give me some next time for free".

"Best staff at this location! Always friendly and make great coffee drinks every time"!

"Made my birthday truly special this year. I got a large latte with my birthday coupon, and promptly spilled the whole thing. The lovely team saved me and made sure I got a replacement, including birthday stickers. They always get my lattes just right and know how to "lightly salt" a pretzel like a pro"!
