Edition: March, 2025

Attack On Titan (also known as AOT) is an anime about a group of kids named Eren Yeager, Armin, Arlert, and Mikasa Ackerman. Eren, Armin, and Mikiasa are now 12-15 during season 1 after the Colossal and titan attack of Wall Maria.

If you want to watch AOT you can find it on Netflix, Hulu, and Disney+ (note you might have to watch when you're 12 or 13+ years of age because of the violence, gore, and language).

The group trains in the training corp (the 104th cadet corps) to be in 3 different corps (The scout regiment, The military police, and the Survey corps).

During season 1 (right around episode 10-16) Eren joins the Levi squad. The Levi squad includes Levi Ackerman, Petra Ral, Oluo Bozado, Gunther Schultz, and Eld Jinn. Most of them died due to the female titan (Annie Leonhart). The ones who died were Perta, Oulo, Eld, and Gunther. I suggest you watch AOT for yourself.

It has 4 seasons with the 4th being the finale season. Honestly my favorite character(s) are Armin, Levi, and Mikiasa. My favorite episodes are season 1 episode 4, season 2 episode 4, and season 4 episode 21. Now I'm not gonna spoil it so go check it out yourself. Oh and did you know the character everyone has a crush on the most is actually Levi (funny honestly because he's the most mysterious).
