Why the Boston Celtics will Repeat!

by Luke, Jamison, and Zach - Grade 7

Jayson Tatum - Boston Celtics

Jaylen Brown - Boston Celtics

Repeat Champions?

Why do we think the Boston Celtics are going to go back to back because they have a really good roster with a great starting lineup and a deep bench. We will be going over the bench and how they are going to improve, and we will also be going over each and every starter.

Why Jayson Tatum is the number one option on the Celtics. He is the number 1 option because of how he plays basketball as a team and being a main leader. He is an absolute beast on the court moving the ball and being a team player. He averaged 26.9 points per game, 8.1 rebounds per game, 4.9 assists per game, 1.0 steals per game, and 0.6 blocks per game in the 2023-2024 NBA season.

Jaylen Brown is one of the main reasons the Celtics won the championship. He's shown that he can be a big leader on any team. He always plays good defense, can knock down the three point shot and can get to the rim easily. He's always helping his teammates up if they get fouled and proving that he is a leader for the Boston Celtics. He put up 23.0 points per game, 5.5 rebounds per game, 3.6 assists per game, 1.2 steals per game, and 0.5 blocks per game in the 2023-2024 NBA season.

Big Al Making Plays:

Al Horford is one of the reasons the Celtics have been so successful recently. He has been in the league for 18 years so he can teach some of the younger players about some of the games and other things. Also as a big man he has been shooting 38% from three. This year he has been averaging around 10 points a game.

It's "Holiday" Season:

Jrue Holiday was a good trade pickup. He's been playing amazing defense getting that one stop you need most at the most wanted time. Always making players uncomfortable when he has to guard them giving them no space. He is also an amazing shooter shooting 42.9 percent from behind the arc in the 2023-2024 NBA season. He's always been an amazing player for the Boston Celtics and he will be really important in the Celtics run to the finals this year. He averaged 12.5 points per game, 5.4 rebounds per game, 4.8 assists per game, 0.9 steals per game, and 0.8 blocks per game.

Celtics Depth:

The Celtics bench is going to be great. First of all Payton Pritchard has been great this year so far. He has shot at winning 6th man of the year. Also when Sam Hauser is playing well we have a three point shooter coming off the bench. Also we have plenty of great centers in case one gets injured like Porzingis. Also Kornet can be a great back up for Porzingis. Also Xavier Tillman Sr. is a decent defender when the starters need a break.

Fantastic Guard Play:

Derrick White is a very good fit for the Boston Celtics fitting right into the starting roster. He has always brought really good intensity to the Boston Celtics defense, always getting that extra block or steal. He's always really good in the clutch getting that extra drive to the hoop or a shot behind the arc and knocking down most of them. He is going to be a very big piece in the Celtics run to the finals this year. He put up 15.2 points per game, 4.2 rebounds per game, 5.2 assists per game, 1.0 steals per game, and 1.2 blocks per game in the 2023-2024 NBA
