Music News:

Recently, Kendall Jenner and Bad Bunny are currently dating, after having many different break ups over and over again. As well, Eminem released his newest album, which is basically about making fun of Generation Zoomers (individuals born between the mid-1990s and early 2010s, often characterized as the first generation to grow up entirely in the digital age) in a joking way. Also recently in the media Dolly Parton's husband, Carl Thomas, has died after they were married for 59 years! Sending thoughts and sympathy to her and her family.

Student Opinions:

Students I have recently interviewed have this to say:

"I really like listening to SZA, her music is very calming.", said by most female students in the 7th grade. SZA has a lot of school appropriate songs, just make sure you get parent permission before you listen since for a few of songs, you'll need to search for a clean version.

"Eminem is one of my favorite music artists, I really like how fast he sings" Jayden - Grade 7.
