About Artist Choices:

Some artists from this list are quite the classic, such as the Beatles, and some new hits such as Sabrina Carpenter. Though I enjoy listening to Billie Eilish. I have to say her music and melody of all her songs are just so soothing to listen to. My personal favorite song by her is Ocean Eyes, which was released in 2017.

Lasted News - Music Industry

As everyone probably knows, two major events happened in the music industry recently, first and foremost we have Coachella, one of the most famous music festivals of all time! Many famous and growing artists performed, such as Charlie xcx, Green Day, Post Malone, and Lady Gaga! One of the other major events is the Met Gala.

We had gotten many interesting looks from many celebrities such as Jenna Ortega, Kim Kardashian, Rihanna, and Zendaya. In total, 307 celebrities attended the Met Gala this year, I've heard it was quite the event.
