Origami Directions!

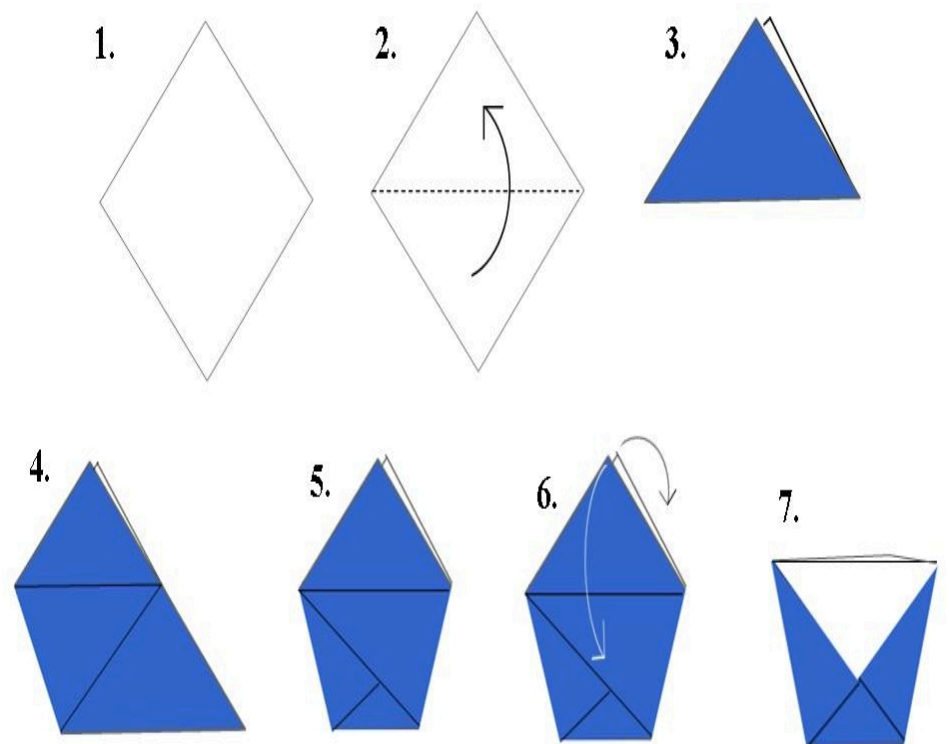

What Will You Make?!

How To Make A Paper Finger:

1. Take a piece of paper and take the right corner and fold it diagonally.
2. Then take the left corner and fold it diagonally.
3. Then take the bottom right corner and fold it up, then do the same to the other side.
4. Then take the bottom and fold it up then fold it all in half then unfold it in so it look like a triangle.
5. Then take the right side and fold it half way then take the left side and fold it half way.
6. Then unfold the left side and then fold it in half.
7. Then take the left top corner then fold it in to the pocket then open the middle pocket and stick your finger inside.

Now you have a paper finger!

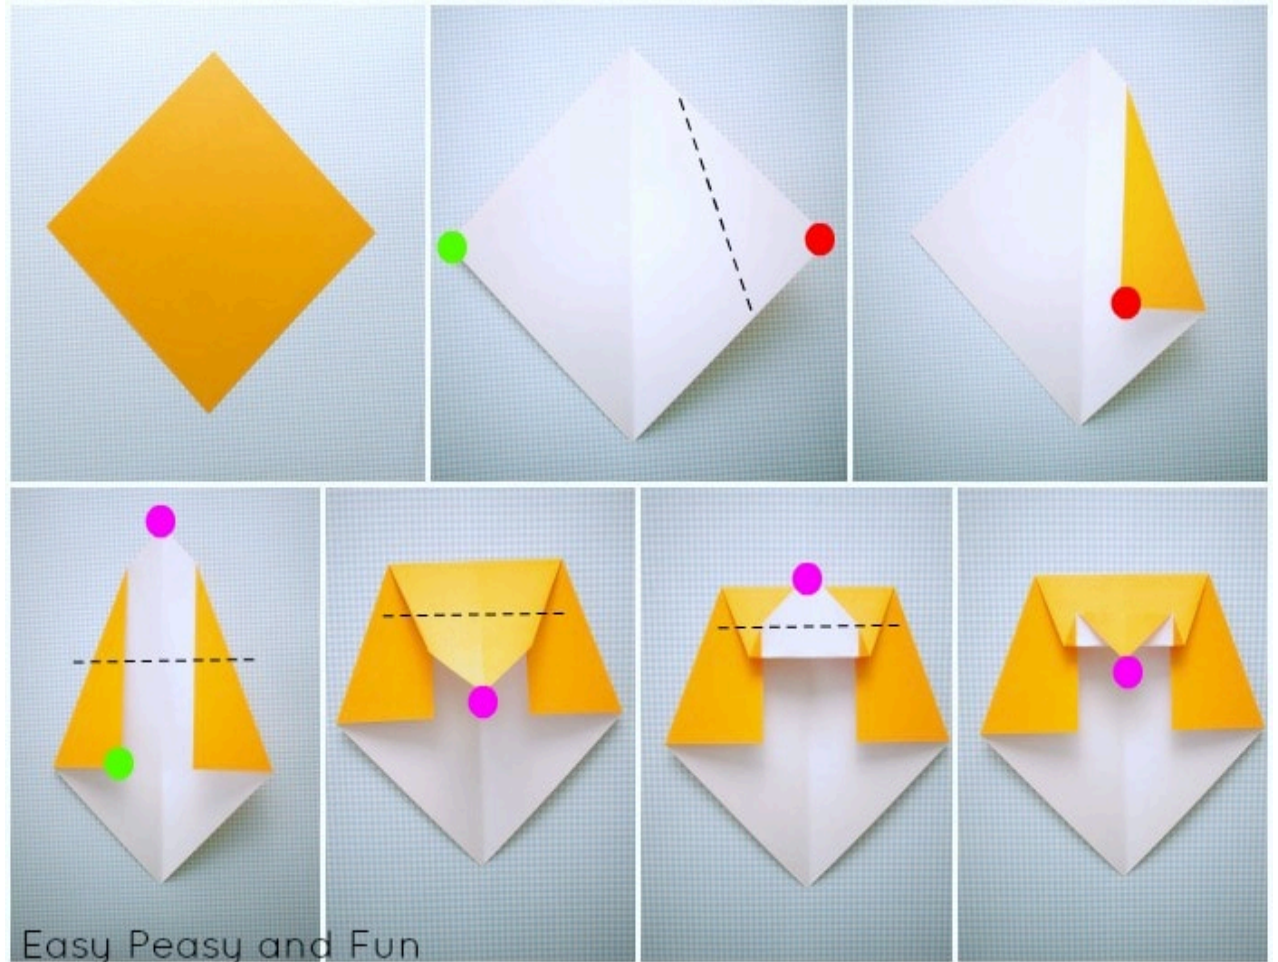

How To Make A Paper Cup:

1. You will need a origami square piece of paper.
2. Fold the top right or left hand corner diagonally.
3. Then fold the corner across and do the same to the other side.
4. Then fold the two corners apart and fold then down.
5. Open it up and you got a cup!

How To Make A Paper Owl:

By Kensi

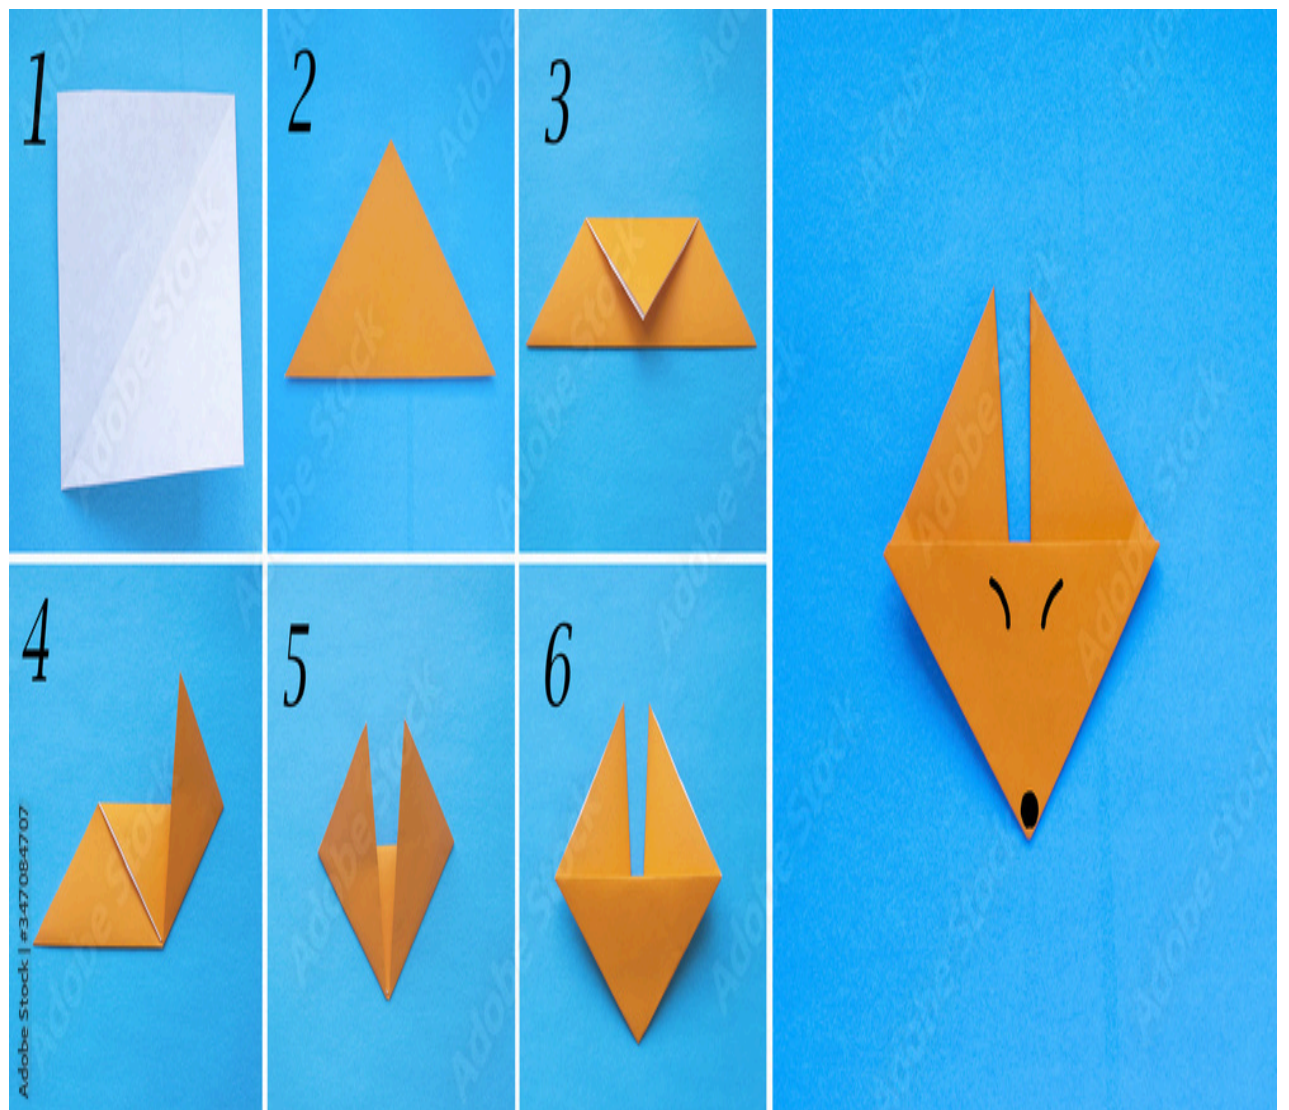

1. You will need a origami square piece of paper.
2. Fold the top right or left hand corner diagonally.
3. Then fold the corner across and do the same to the other side.
4. Then take both triangle to the right side.
5. Then hold the two little bit of corners down to make a head.
6. Now you've got an add some details like eyes and maybe some patterns to make your own owl unique.
7. If you want it can stand up on the corners at the bottom in the back!

How To Make a Paper Fox:

By Kensi

1. Take an origami piece of paper.
2. Now fold it in half so it looks like a triangle.
3. Then take the point and fold it down, roll them up, turn it around, and you got yourself a fox.
4. You can add googly eyes and you can use markers or sharpie to make a mouth.

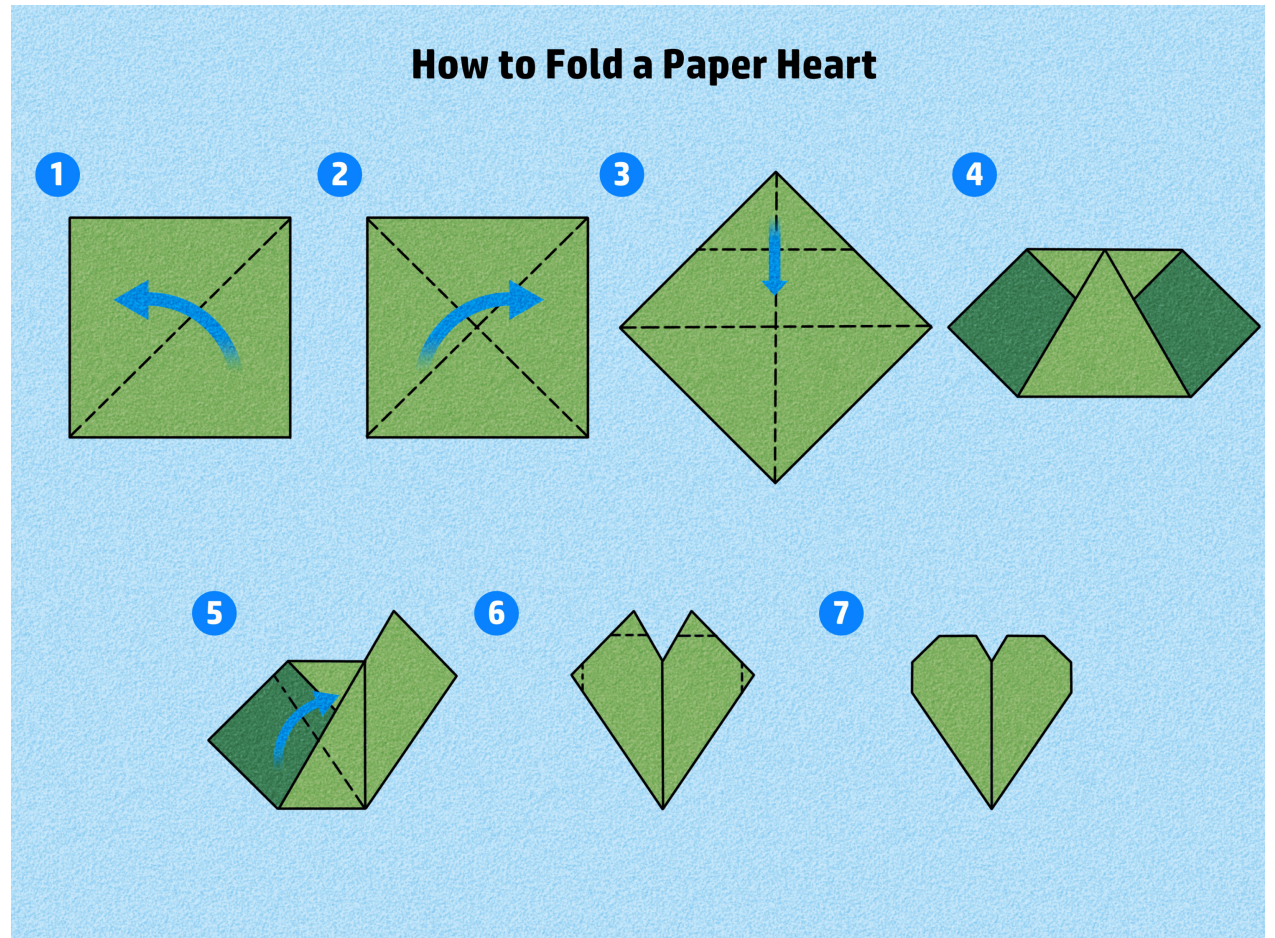

How To Make A Paper Heart:

By Kensi

1. Take a origami piece of paper.
2. Put it so it looks like a diamond.
3. Fold it in half so it looks like a triangle.
4. Unfold it and then take the bottom corner of the diamond and fold it up to the line and then do the same on the other side.
5. Take the corner and fold it up to the halfway line and fold it in half.
6. Then unfold it and take half of it and fold it up to where the back lines meet.
7. Then take it and do the same to the other side and make sure that it's folded neat.
8. Then take the corners fold it around and you have yourself a heart!
