

PANDAS ARE AWESOME!

Volume 1, Issue 1

October 2025 Edition

By Kensi - 6th Grade

Why are they awesome?!

Pandas are awesome because they are fluffy and their babies are so cute. Some facts about pandas are that pandas have to eat bamboo to survive. However, they eat something other than bamboo...they surprisingly eat meat as well!

The biggest panda scientists found was 400 pounds! Also, pandas only have one baby, they typically don't have any more.

More Fun Facts!

Pandas have night vision just like cats! Pandas have fur that lets them blend in with their surroundings which comes in handy to hide from predators. Pandas eat 16 hours a day. Pandas are native to China and they are seen especially in zoos around the world.

I love pandas and you should too!

More Fun Facts!

- Giant pandas and red pandas are different animals that share a name.
- The name "panda" is believed to mean "bamboo eater".
- They are black and white and it's thought to be camouflage in their snowy weather.
- The giant panda's thick, wooly coat also keeps it warm in the cool forests.
- Giant pandas do not hibernate during the winter
