Tavern on the Greens is an amazing place with great customer service! And it looks absolutely beautiful. It looks like a wedding happening as soon as you walk in. The design is out of this world; it's like nothing you have ever seen!

Their food is DELICIOUS. Also their steak, BEAUTIFUL, is perfectly cooked. The lemon butter sits really well with the steak. The lemon butter with the steak creates this beautiful piece with delicious flavors.

It feels like an explosion happening in your mouth. It's lovely!

Nash:
"Our bartender Brie was very personable and attentive. We pretty much had the bar to ourselves. I tried her new drink -a rum pinch. It was just the right amount of punch and NOT too sweet. Highly recommend this spot for late afternoon drinks and appetizers".

"Everything about this place is great! Hubby and I went for our 44th wedding anniversary dinner, and it was so nice. The atmosphere is laid back, the drinks were really good, and the food was cooked perfectly. If you're in the area, try it, you won't be disappointed."

Kid's Menu

The salmon is so good, they buttered it perfectly, and the flavor is incredible. It's cooked perfectly and it literally melts in your mouth. All the flavors come together so well it's literally so good and I highly recommend.

Their creamed chicken is so good, it's so creamy and tender and the flavors are amazing, it pairs perfectly with the fresh mushrooms. The mushrooms are perfectly cooked so they're not too soft and not too hard. It's in between both. Also they pair really well with the chicken. The flavors together literally feel like magic, it's so good.

The Hungarian beef with homemade noodles is so good! The beef is absolutely perfect. It's a rich slow cooked dish with sweet red paprika, that sits heavenly with the beef. Also the noodles are so good. The noodles are really good with the beef. The flavors are really nice together.

Also the prices are really not that much so that's also a good thing, it's actually really affordable and it's a really nice place, especially if you want a restaurant that is not fancy but their food is still really good. So it's a really good place for a casual but nice place to go out to eat.
