What is Tookys?!

By Nick - Grade 8

A Resturant You'll Enjoy!

Tooky Mills offers a good selection of food. They have beef, chicken, fish, soups, and even vegetarian options like a veggie burger.

The inside is very clean, you can tell they try their best to clean it. The staff are really nice and they check on how you're doing quite frequently.

The food is awesome! They're ribs are some of the best I have ever had. The burgers are seasoned beautifully and the vegetables are nice and crisp. You can tell they are fresh. The chicken is cooked to perfection and the spaghetti is superb. The sauce is so good. They have awesome salads. Nice, fresh and the perfect side.

What Do I Think?!

Now it is time for my review! I would give Tooky Mills a 5 star review. The food is awesome and it can get loud on the weekends from the positive environment!

I usually get either the burger or the chicken parmesan and those are really good. My favorite thing to get is the Korean rib sampler as an appetizer. They are the best I have ever had!

The staff were very friendly and attentive.

I highly recommend going to Tooky Mills if you're in the Hillsboro area!

Customer Reviews!

The following review were all acquired from Google Reviews:

One customer, Corey, gave the following review of Tooky Mills Pub:

“Great experience at Tooky Mills! Sat outside on the patio which is a great layout and that is very comfortable to relax and have a meal. Got the French onion soup which was top tier! The cheese on top was perfect and loaded with onions. The rib appetizer was the star of the show...WOW! Most tender ribs I have had yet and the flavor was incredible.

Great selection of food and drinks. Staff was very attentive, we felt very relaxed at this establishment, like being in your back yard! Will come back often! Best food in Hillsborough!" 5 star review.

Another customer, Travis, also enjoyed the experience:

“My fiancé and I are vacationing in the area and decided upon this restaurant after flipping a coin. Thankfully it landed on heads! But seriously, it was a really cool atmosphere and the food was incredible.

Homemade basil oregano bread, delicious steak tips and chicken, and the dessert selection was out of this world. The prices were also very reasonable.

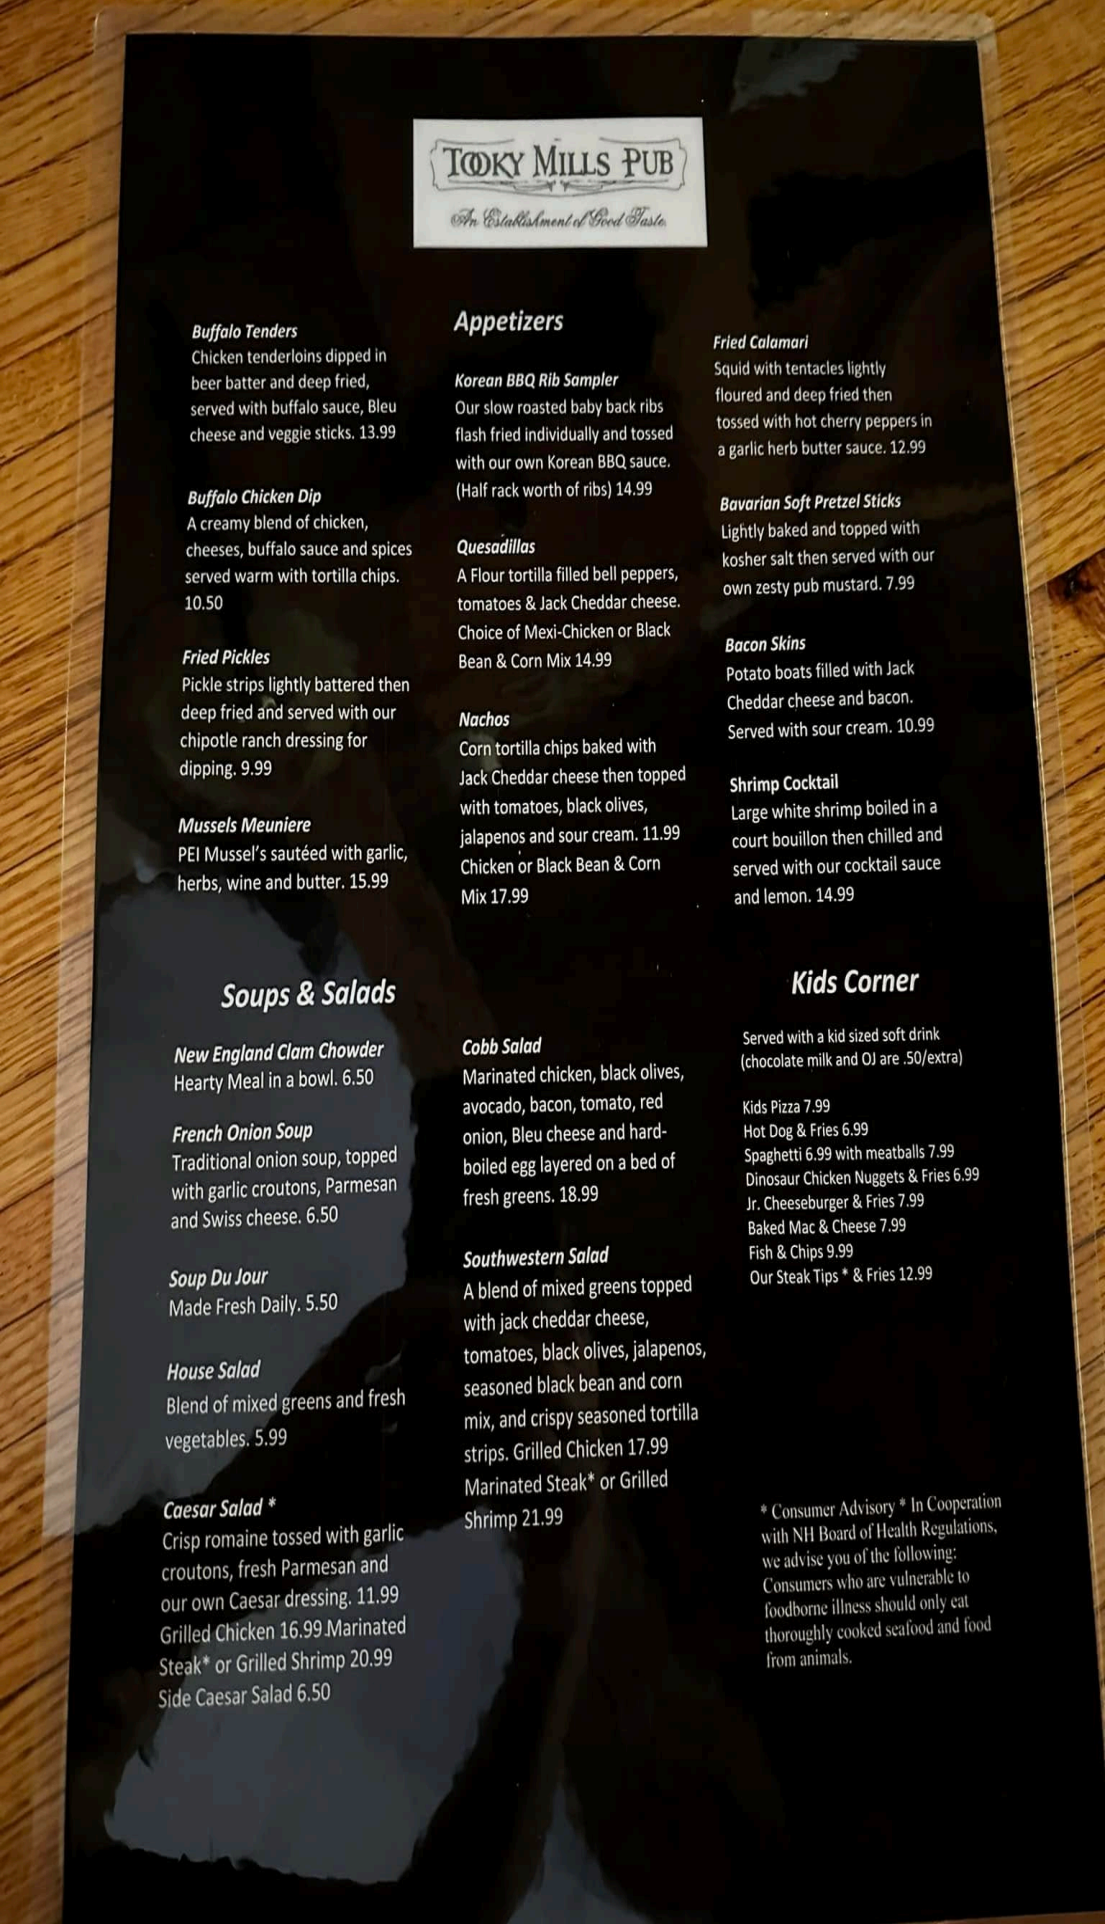

I loved that the owners / managers, whichever they were, seemed to enjoy the end of their shift by chatting with some of the local regulars. The woman who baked the bread and probably did much more (Wendy) was sitting next to us at the bar so I had an opportunity to thank her for the quality of the food.

Buffalo chicken sandwich was the best I've had in a long time, and don't forget to ask about the desserts! The raspberry crème brûlée cheesecake was phenomenal. We will be back the next time we are in town." 5 star review.

Another customer, Raymond, offered this perspective:

Great food, parking can be tough to find for a large vehicle and a table even harder to find. Worth the wait if you go on a busy Friday or Saturday. Chicken Parmesan is legit, beer and cider selection is great and service is good. Crowded and loud atmosphere making conversation difficult when busy. I have been here on a week night when it's much quieter and parking is easier to find. I do recommend, although not on a Friday or Saturday Night, unless a loud, crowded atmosphere is your thing." 4 star review.
