"Wings of Fire" Review!

By Evelyn - Grade 7

Overview:

What is your favorite book or book series? Really think about it. Mine is an amazing series called Wings of Fire. In 2012 the incredible author Tui T Sutherland came out with the first book in a series of 16 books and maybe more coming!

How the book goes:

The book goes in a strategic pattern. Imagine a TV series with 15 episodes, 3 seasons and 5 episodes per season. It's kind of like that but each season is about a different Subject.

Also its not a tv series. I wish it was, maybe it will be at some point!

""Wings Fire" Characters"!

Despite being about dragons, I like it because it is very funny and relatable in terms of the characters and the way they are created in the books! The characters are made in a way so they are very interesting! My favorite is Darkstalker, he is the main antagonist of Arch 2 (books 6-10).

In conclusion to this article: "Wings of Fire" is an amazing series for really anyone and I definitely would recommend this to everybody you know!
