Young Sheldon Cooper - "Big Bang Theory" TV Show

"Young Sheldon"!

Young Sheldon is a TV show about a kid named Sheldon that is super smart. He's so smart that he is smarter than most people. He went to high school when he was 9 years old. The show is based off of the popular show "The Big Bang Theory". The characters are Sheldon, his mom, his dad, his grandma /Mema, his twin sister Missy, and his older brother Georgie. There's also Sheldon's friend Tam, his neighbor Billy, and also Pastor Jeff.

My favorite character is Mema. She is so funny and acts like a kid and when she babysits for the kids, she lets them play poker, eat candy, and throw fire crackers.

More Characters!

Another character is Georgie, Sheldon's older brother. He is a football player and he is not even close to being as smart as Sheldon. He dropped out of high school when he was sixteen years old so he could work at a shop for his grandma's boyfriend, he ended up getting fired.

Also a character is Missy, Sheldon's twin sister. She wants to be just like Mema when she grows up. She is funny and mean to Sheldon. Missy is more social than Sheldon and is way more popular. Missy also plays baseball and she does not care that she is a girl because she still plays and she is a pitcher.

This one's about Sheldon. He is nine years old, super smart, and doesn't like people. He hates germs, is scared of dogs, and basically scared of everything. He is not social at all, and like I said, he doesn't like being around people.

Ok, one more character is Sheldon's mom, Mema's daughter. She loves God and goes to church every Sunday {her real name is Mary}.

This one is about Sheldon's dad. He is a football coach and he loves football! He coaches Georgie at football.

**That is all, I think you should
watch this show {it is on Netflix}
Thanks for reading!**
